Borough of Manhattan.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engi-
neers, pertaining to the work of the board, will be seen only
between the hours of ten in the morning and one in the
afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

CALENDAR

For Applicant: Joseph Lau.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 17, 1956, at 2 P. M., at the request of the applicant.

280-41-BZ—Vol. III

APPLICANT—Paul Friedman, for Constel Realty Corp., owner.

SUBJECT—Application for consideration—reopening as to an extension of time to complete—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, for a term of fifteen years, the erection and maintenance of a storage garage for more than five motor vehicles, and a motor vehicle repair shop (including welding, painting and spraying) and permitting the parking of motor vehicles on unbuilt upon portion of plot for customers and employees.

PREMISES AFFECTED—89 Furman avenue, west side, 99.5 ft. north of Bushwick avenue, Block 3462, lots 26, 63 and 67, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on January 4, 1955, certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work; and

WHEREAS, the record shows that the decision of the Board was sustained by Special Term and a further appeal was filed but was withdrawn by the attorney for the objectors.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 4, 1955, under Vol. III only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. App. 180/54)

1011-41-BZ—Vol. II

PREMISES AFFECTED—1702-1718 Bruckner boulevard and 975-979 Noble avenue, southwest corner and 960-970

MINUTES

Soundview avenue, Block 3661, Lot 58, Borough of the Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, resolution amended and time to complete extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on January 18, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and an extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 18, 1955, by adding thereto the following:

"that in the event the owner desires to change the design of the accessory building to a sloping roof with side walls finished with face brick on three street fronts and to reduce the size from 60 by 30 feet to 60 ft. 1 in. by 27 feet and to permit two brand signs on Bruckner boulevard, such changes may be made as now indicated on revised plans marked 'Received December 7, 1955', (4 sheets), *on condition* that in all other respects the resolution above cited shall be complied with where not inconsistent with this amended resolution; that under section 7e there may be minor repairs with hand tools only, for adjustments, maintained solely within the accessory building, as acted on by the Borough Superintendent under N.B. 607/54, decision rendered December 14, 1955; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution."

310-50-BZ

APPLICANT—Burke, Green and Groh, for Max and Theresa Hummel, owners.

MINUTES

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 7, 1954, certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on June 14, 1955; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 7, 1954, only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Housing and Buildings the work has been substantially completed and additional time is required to fully complete the work, that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution." (N.B. App. 1305/52).

917-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Socony Vacuum Oil Co., Inc., owner.

SUBJECT—Application for consideration—reopening as to amendment as to rearrangement of accessory building and pumps—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c, 7i and 7h of the zoning resolution, permitting in a residence and business use district the reconstruction of existing gasoline service station to include lubritorium, car wash, motor vehicle repairs and store and the parking and storage of motor vehicles with a curb cut partially in the residence use portion of plot.

PREMISES AFFECTED—2371-2379 Southern boulevard and 774-778 East 187th street, southwest corner, Block 3114, Lot 62, Borough of the Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 12, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 12, 1955, by adding thereto:

"that the building may be changed in location along the westerly lot line 26 ft. north of the southerly lot line and the arrangement of pump islands may be rearranged as now proposed on revised drawings, marked "Received November 28, 1955", 1 sheet, *on condition* that in all other respects where not inconsistent with this amendment, the resolution above cited shall be complied with." (N.B. 921/54)

106-30-BZ

APPLICANT—Arthur Lawton, for Mabel Hall, owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent); previously granted on condition, under section 7f for a term of five years, permitting in a business use district (now local retail use district), the maintenance of a gasoline service station.

PREMISES AFFECTED—337 Arbutus avenue, northeast corner of Hylan boulevard, Block 6499, Lot 5, Huguenot, Borough of Richmond.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and set for hearing on January 24, 1955, at 10 A.M., subject to the regular procedure, waiving all requirements except two publications and new decision of the borough superintendent, in view of the change of zone to local retail use, as acted on by the borough superintendent on December 15, 1955, under Alt. App. 518/55.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative: 0

265-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Milton Arkin, Charles Korman and Maurice S. Kapplow, owners.

SUBJECT—Application for consideration—reopening as to restoration to docket—re Application (decision of the borough superintendent); previously withdrawn, under section 7h of the zoning resolution, to permit in the local retail use portion of plot located in a residence, local retail and business use district, the parking and storage of motor vehicles and the erection of an office, for a term of 10 years.

PREMISES AFFECTED—22-16 to 22-52 (22-30 official) Mott avenue, north side, 79.50 ft. east of McBride street, Block 159, Lot 12, and Block 162, Lots 1, 6, 11 and 39, Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the docket, previously withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative: 0

266-55-A

APPLICANT—Lama, Proskauer and Prober, for Milton Arkin, Charles Korman and Maurice S. Kapplow, owners.

SUBJECT—Application for consideration—reopening as to restoration to docket—re Appeal from a decision of the borough superintendent; previously withdrawn.

PREMISES AFFECTED—22-16 to 22-52 (22-30 official) Mott avenue, north side, 79.5 ft. east of McBride street, Block 159, Lot 12, and Block 162, Lots 1, 6, 11 and 39 Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the docket, previously withdrawn.

Absent: Deputy Chief Connors..... 1

THE RESOLUTION—

WHEREAS, on March 11, 1952 this application was granted by the Board on certain conditions, under sections 7f, 7i and 7h of the zoning resolution, to permit in a business use district, for a term of fifteen years, the subject premises to be occupied as a gasoline service station, lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and office, and to permit the parking and storage of more than five motor vehicles on unbuilt upon portion of plot; and

WHEREAS, on April 7, 1953 the Board reopened the application and extended time to complete; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened on January 5, 1954 and set for hearing on February 2, 1954 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on February 2, 1954 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated December 14, 1953 acting on N.B. Applic. 741-51, reads:

"3. Layout of bldg. does not agree with resolution of Bd. of St. & Appeals.

6. Resolution of Bd. of St. & Appeals calls for the demolishing of existing residences at rear."

and

WHEREAS, the applicant requests the following amendments to the resolution: to rearrange the accessory building on the plot and erect a 5 ft. 6 in. high brick wall to separate the existing dwelling from the gasoline station area; to allow the two 1-family dwellings to remain; to omit windows in the east wall and install skylight; parking and stor-

age of motor vehicles to be maintained on the gasoline station area only and rearrange layout of building and omit the boiler room; change size of plot on Shell road from 156 ft. 8 in. to 162 ft. 11½ in., and to change the size of the most southerly lot line from 72 ft. to 76 ft. 10¼ in.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on March 11, 1952, by adding thereto:

"that in the event the owner desires to reduce a portion of the plot, lot 29, for the gasoline service station and supplementary uses therewith, as shown on plans marked 'Received December 21, 1953' (3 sheets), such reduction in area may be permitted, and the requirements of the resolution above cited need not be complied with as to the portion of the premises to the east of the now proposed gasoline service station area, *on condition* that the requirements of the resolution adopted as above cited shall be complied with where not inconsistent with these revised plans; that the arrangement now shown on revised plans marked 'Received December 21, 1953' may be substituted with the use thereon shown, *including a flat sign attached to the front facade of the building, excluding all roof, signs and all temporary signs, but including the illuminated globes of the pumps and permitting two (2) post standards within the building line, where shown, for supporting signs which may be illuminated, advertising only the brand of gasoline on sale and permitting such signs to extend beyond the building line for a distance of not more than four feet*; that the heretofore required masonry brick wall shall be located where now shown on such revised plans, and in view of this, the wire fence heretofore required on the lot lines not now to be incorporated in the gasoline service station area need not be constructed and the residence buildings existing on such portion of the premises may continue; that the resolution as adopted April 7, 1953, extending the time to complete may be amended so as to require that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution." (NB 741/51)

* Correction—Resolution corrected by the insertion of conditions relative to sign on building and post standards, all as printed in italics.

*CORRECTION

MINUTES

store site, present parking lot and proposed addition of Lot 42; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; Grove street is in residence and business use, C area, class 1 height districts; Goodwin place is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 25, 1955 acting on Alt. Applic. 1529-55, reads:

"1. Proposed parking of motor vehicles in a Residence use district is contrary to Art. II Sec. 3 of Zoning Res." and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 192 ft. in depth, irregular, presently vacant; that the premises affected by this application is in a residence use district; that there has been no change in use, height and area districts since 1916; that no proposed housing development is contemplated and the area has not been set aside for rehabilitation; that the premises is a vacant lot which was purchased as part of the original parcel 189 ft. by 140 ft.; that this 40 ft. is the only part which is not in the business district; that the small and irregular size and the location of this lot makes it financially unfeasible for a residence or apartment; that it is proposed to grade the plot, install a concrete pavement with proper drainage, enclose the plot with a 5 ft. 6 in. chain link fence on the north, west and east lot lines and provide an entrance on Grove street; that although there will be no night parking, suitable lighting for any possible emergency will be provided; that it is further proposed that the use of this premises will be limited as follows: that the sole lessee of the premises, the A & P market, which adjoins to the south, will operate and maintain this parking lot in conjunction with its present store operations; that the parking will be restricted exclusively to pleasure cars for its patrons, customers and employees and no fees will be charged; that there will be no overnight, Sunday and holidays parking and the parking will be limited to store hour operation and the gate will be kept locked at all other times; that there will be only one sign at the gate which will read "free parking for A & P customers only"; and

WHEREAS, the applicant contends that during the week the shoppers in all probability will use the Goodwin place parking area, but when the peak load arrives, once or twice a week, the proposed parking space will help to provide for the overflow; that there is serious need for off-street parking in this section and although the size of the plot is only 6,500 sq. ft., it will provide for a limited amount of off-street parking and will definitely contribute towards reducing present traffic congestion on this 50 ft. street; that with the

parking on both sides it narrows the street to one lane traffic; that any double parking, congestion or traffic block would prevent the timely arrival of emergency and fire apparatus and create a safety problem and increased fire hazard; and

WHEREAS, the applicant states that the present owner has held title to the property since January 19, 1954 and that the assessed valuation of land is \$5,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h, *for a term of five (5) years*, to permit the extension of the lawfully existing parking lot facing Goodwin place and used in conjunction with the store at the corner of Goodwin place and Grove street, substantially as proposed and as indicated on plans filed with this application, marked "Received April 27, 1955", 3 sheets, and revised plans marked "Received September 28, 1955", 3 sheets, *on condition* that all uses on the premises shall be removed and the premises leveled substantially to the grade of Grove street and the present parking lot on Goodwin place; that the plot shall be covered with steam cinders or clean gravel, treated with a binder and properly rolled; that the fence between the existing parking lot on lot 45 and the subject premises may be removed; that there shall be erected on the interior lot lines of lot 42 a substantial woven wire fence of the chain link type not less than 5 ft. 6 in. in height and a similar fence shall be erected along the street building line of Grove street, except for an entrance with curb cut opposite not over 20 feet in width, as shown; that there shall be constructed a gate at such entrance which shall be kept closed and locked when the store is not open for business; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that any sign erected shall be attached to the fence, advertising the use of the plot for customers of the market, such sign shall not exceed 25 square feet in area, shall not extend beyond the building line and shall not be illuminated; and that all permits required shall be obtained and all work completed within six (6) months from the date of this resolution.

*Correction—Term of variance inserted in resolution, as indicated in italics.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES COVERING THE INSTALLATION AND USE OF OIL BURNING EQUIPMENT AND THE STORAGE OF OILS USED IN CONNECTION THEREWITH

(Cal. No. 217-21-SR)

Adopted by the Board of Standards and Appeals June 15, 1934, Amended July 12, 1935, January 28, 1936, December 4, 1936, July 1, 1941, June 15, 1948 and July 13, 1951, effective August 13, 1951.

(Superseding Fuel Oil Rules adopted by the Board of Standards and Appeals, November 6, 1919; amended January 6, 1922; January 18, 1924; November 3, 1926; September 11, 1928; January 11, 1929; March 20, 1931; May 12, 1931; November 24,

PUBLIC HEARING

1931; May 10, 1932; June 24, 1932; November 4, 1932).

Authority: Section 666, paragraph 2 of the New York City Charter.

NOTICE IS HEREBY GIVEN that a Public Hearing will be held by the Board of Standards and Appeals on Friday, January 13, 1956, at 10 A.M. in Room 1013 Municipal Building, Manhattan, on the following Proposed Amendments to the Rules Covering the Installation and Use of Oil Burning Equipment and the Storage of Oils Used in Connection Therewith.

Note: New matter appears in *italics*; old matter to be deleted appears in brackets [].

Rule 2. Definitions.

- 2.6 CONTROLS: Such electrical or mechanical devices as are installed for the purpose of providing safe and continuous *or intermittent* operation.
- 2.9 DWELLINGS: Buildings used exclusively for dwelling purposes and occupied by one or two families including convents, rectories and monasteries.
- 2.10 ELECTRICALLY GROUNDED: For protection against lightning shall mean storage tanks set directly in or on the ground and/or with underground piping connections. Where storage tanks without underground piping connections are built on bases above the surface of the earth *outside of buildings*, such storage tanks shall be grounded at two (2) points 180° (degrees) apart as follows:
- 2.14 INDUSTRIAL INSTALLATIONS: [Oil burner installations for industrial purposes.] *The same as Commercial Installations—see 2.5.*

Rule 3. Oil Permitted.

- 3.1 Oil permitted under these rules shall be any hydrocarbon oils free from acid, grit and fibrous or other foreign matter. The fuel oils shall be classified as provided in *current* Commercial Standard [CS12-38] *published by the U. S. Department of Commerce* *The holder of a Class B Installer's License shall be permitted to install fuel oil burning equipment capable of burning only oils that may be directly ignited by electrical ignition without preheating.* [, and shall have a flashpoint not lower than 100 degrees Fahrenheit when tested in a Pensky-Martens closed cup tester (American Society for Testing Materials Method D-93-36) and marketed under the following commercial grades:

{ Range Oil
{ No. 1 Fuel Oil
No. 2 " "
No. 4 " "
No. 5 " "
No. 6 " "]

Rule 4. Standards for Approval of Oil Burners by the Board.

- 4.1 Approved burners, including oil-burning heaters, *and electrical controls*, shall be an assembly of approved parts suitable for use with each other for the service intended, as approved, such burners

shall be provided with suitable safeguards to prevent abnormal discharge of oil.

Rule 6. Location of Tanks.

6.1 Inside of Buildings, Above Ground.

- 6.1.2 Storage tanks having a capacity of more than two hundred and seventy-five (275) gallons, when installed inside of buildings shall be located on the lowest floor level and all portions of such tanks above the floor shall be protected by [a continuous jacket of] not less than four inches (4") of *masonry*. [Portland cement concrete reinforced with not less than No. 20 gauge steel wire cloth 2" x 2" mesh, and extending at least four inches (4") beyond the horizontal outline of tank in all directions, with weep holes along the bottom one inch in diameter not more than 3 ft. apart.] Each storage tank may be placed in a protective enclosure having [solid] masonry walls not less than [eight inches (8")] *four inches (4")* in thickness [and of dimension not less than fifteen inches (15") greater on all sides than the outside dimensions of the storage tank.] The walls of *the enclosure* shall be carried up to a height not less than two feet (2') above the top of the tank *or to the ceiling where the ceiling is less than two feet (2') above the top of the tank.* [A fireproof access door] *An access door of incombustible materials* shall be installed in the enclosure. [above the point where the enclosure has a capacity equal to the tank; and for each additional 10 feet or fraction thereof by which the longest inside dimension of the enclosure exceeds 35 feet an additional fireproof access door shall be similarly installed at one or more intervals of not less than 10 feet.] The ceiling above the tank enclosure shall be either fireproof or fire-retarded.

6.4 Outside of Buildings, Above Ground.

- 6.4.1 Storage tanks *of a capacity greater than 275 gallons* located outside of buildings above ground shall be not less than one and one-quarter (1¼) tank diameters and in no case less than ten feet (10') from the line of adjoining property, the nearest building or adjacent tank. Such tanks shall be electrically grounded. The maximum capacity of individual tanks located outside of buildings above ground shall be fixed by the following schedule:

If distant 25 feet from line of adjoining property which may be built, upon	16,000 gallons
If distant 30 feet.....	24,000 "
If distant 40 feet.....	36,000 "
If distant 50 feet.....	48,000 "
If distant 60 feet.....	60,000 "
If distant 75 feet.....	96,000 "
If distant 85 feet or more..	100,000 "

6.5 Tanks Located Along Line of Subways.

- 6.5.1 Along the line of subways no *buried* tank shall be placed within twenty feet (20') of any wall, separating a building from the subway, and, where practicable, tanks shall be placed in a lower position than the roadbed of the subway, except as may be modified in specific instances by the Board of Standards and

PUBLIC HEARING

Appeals. *Where the subway passes directly underneath a building, the tank located within the building above ground shall be placed within a welded steel oil-tight pan of adequate capacity to contain the contents of the tank.*

Rule 7. Piping.

7.2 Relief Valves.

7.2.2 Oil preheaters shall be of approved type and provided with a relief or pressure regulating valve in the piping system to prevent excessive oil pressure. Oil preheaters shall not be installed in the steam or water space of the boiler and shall be so designed that in the event of oil leakage within the preheater, the oil shall be prevented by an approved method from entering the water or steam circulation system. *Water piping connections shall be equipped with a blow-down system providing positive flushing of the water side of the preheater. Two (2) thermometers shall also be installed, one on the intake oil line of the preheater and the other on the discharge oil line.*

7.2.3 Relief valves shall be set to discharge at not more than one and one-half ($1\frac{1}{2}$) times the maximum working pressure of the system. The discharge from relief valves shall be returned to storage tank or to the supply line. *Pressure regulating valves and viscosity valves are not included within the scope of this subdivision. There shall be no shut-off valve in the line of relief.*

7.3 Vent Pipe.

7.3.4 Vent pipes shall be provided with an approved weather-proof hood having a free area of not less than the pipe size area and shall terminate outside the building not less than two feet (2') from any building opening and not less than two feet (2') nor more than twelve (12') above the fill pipe terminal except as may be otherwise approved by the Board. When such openings are fixed and constructed of incombustible materials they shall not be deemed openings within the intent of this rule. If the vent pipe terminal is not visible from the fill pipe terminal location, a one-inch (1") line shall be connected to tank and shall parallel the fill pipe and terminate at the fill pipe terminal with unthreaded end. Such tell tale lines shall be provided with a check valve set to prevent flow of surface water to storage tank.

7.4 Fill Pipes.

7.4.1 Fill pipe shall terminate outside the buildings with the fill pipe terminal located at or above grade at least two feet (2') of any building opening or subway grating at or below the level of the fill pipe terminal. No fill pipe shall be less than 2 inches in diameter. *Installations utilizing No. 6 fuel oil shall be equipped with fill pipe having a minimum diameter of three inches (3"), which must be carried to within three feet (3') of the curb or such other distance as may be required by the Bureau of Highways, provided however that in buildings having no curb lines but having facilities for off-street deliveries, the fill pipe terminal shall be installed elsewhere, as approved by the administrative official.*

7.4.3 Where the top of the storage tanks is above the fill pipe terminal the fill pipe shall be connected to the top of the tank and be provided with a shut-off valve and a swing check valve [which] shall be located at the fill pipe terminal *and the shut-off valve may be located at the fill box terminal or inside the building in an accessible location.*

Rule 8. Valves and Control of Oil Flow.

8.2 Each supply line for storage tanks of more than two hundred and seventy-five (275) gallons' capacity, shall be provided with a shut-off valve at the burner and where the top of the tank is above the oil inlet connection to the burner and/or transfer pump, shall be provided with an approved anti-syphon device located at the highest point in the supply line, except that where heavy oil (No. 6 Commercial Standard Grade) having a viscosity of one hundred (100) seconds or more Saybolt Furol at one hundred and twenty-two degrees Fahrenheit (122° F.) is used, the anti-syphon device shall not be required. *No anti-syphon device shall be required where a foot valve is installed at the inlet of the suction line.*

Rule 10. Permits, Plants, Inspection and Tests of Storage Tanks and Piping.

10.1 Permits.

10.1.2 Applications.

[10.1.2] Application for permit shall be made *and fee covering the permit as per Rule 10.4.1 be paid within ten days after the completion of the installation* by the installer who holds a certificate or license issued by the Fire Commissioner, on forms furnished by the Fire Commissioner [and] *which shall [provide for] include the location of the building in which the installation [is to be] has been made, name and address of owner and/or occupant, name and address of installer, make and approval number of burners, pumps and other devices, capacity number and location of storage tanks, together with approval of such [proposed] installation by the Borough Superintendent of Buildings when required under Rule 10.2.*

10.1.3 CO₂ Affidavit.

[10.1.3] No permit shall be issued by the Fire Commissioner until [the installation has been inspected by his representative and the installer has furnished an affidavit] *there has been furnished a sworn statement by the installer in proper affidavit form attesting to such installation and test, and that the CO₂ content of the flue gas by actual test of the completed installation is not less than 8 per cent without smoking.*

10.3 Inspection and Tests of Installations of Storage Tanks and Piping.

10.3.1 Tank and Piping Tests.

[10.3.1] All fuel oil storage tanks and piping installed as required to be tested by these Oil Burner Rules, shall after installation, except as indicated in this section, be tested by the installer in the manner and to the pressures set forth

PUBLIC HEARING

in this section, and proved tight before any fuel oil system shall be placed in operation. A sworn statement by the installer in proper affidavit form attesting to such installation and test shall be filed with the Fire Commissioner. [and a copy thereof be posted in the boiler room.]

(See Sections of the Administrative Code C19-19, as amended by Local Law 46 of 1951 and C19-152).

Rule 12. Ventilation.

12.1 Ventilation, Connections to Chimneys.

- [12.1] No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected to a legal chimney, complying with Article 11 of the Administrative Building Code except that in [high pressure mercantile and industrial plants,] *commercial buildings, public buildings and multiple dwellings*, several units may be connected to a *common* boiler room [stack.] chimney.

12.2 Adequate Ventilation.

- [12.2] Adequate ventilation, at least equivalent to area of the smoke pipe at the point where it enters the flue, shall be provided in all rooms in which burners are installed [.,] *except that in commercial installations the area for natural fixed ventilation shall be at least equivalent to eight (8) square inches for each gallon of oil for which the fuel burning equipment is rated. Where the fixed ventilation is supplied mechanically and electrically interlocked with the burner at least the equivalent of two (2) square inches for each gallon of oil for which the fuel burning equipment is rated.*

12.3 Dampers.

- [12.3] Dampers shall be so constructed that they cannot completely cut off the passage of flue gases at any time [.,] [and on all installations in one and two family dwellings an approved automatic draft control of the same size as the cross-sectional area of the pipe or breaching shall be installed in the breaching or flue pipes.] *Approved automatic draft controls may be installed when necessary to provide proper draft where the draft is excessive.*

Rule 14. Fire Protection.

14.6 Oil Burning Devices.

- [14.6] Oil burning devices designed for installation with storage of not more than six (6) gallons shall be [firmly anchored to the floor,] set level and *firmly anchored*. The floor beneath [the] stoves or any such heating devices *shall be* protected by a shield of $\frac{1}{2}$ " asbestos or equivalent extending at least twelve inches (12") beyond the projected area of such device where required within the specific approval of each burner. Approved safety cans only shall be used for the storage and filling of oil containers. The fuel oil used for these burners shall be range oil or No. 1 or No. 2 fuel oil. The manufacturer or installer of these burners shall within 48 hours after each installation notify the Fire Department in writing of the name of the person to whom this burner is sold and the address of the premises where installed.

- [14.7] Near each boiler or furnace of a fuel oil-burning unit there shall be kept ready for use fire extinguishing equipment of not less than two quart

capacity approved as suitable for oil fires or not less than two pails of sand, the pails to have rounded bottom.]

14.7 Extinguishers.

One approved hand fire extinguisher of not less than two (2) quart capacity suitable for oil fires, or two (2) sand pails with rounded bottom, shall be provided near each boiler, furnace or other oil burning unit. Extinguishers shall be provided for all suspended oil burning units.

Rule 15. Instruction Cards and Certificate of Fitness.

- 15.2 *Except as provided in Rule 15.21 every* [Every] heating system in which the oil is preheated or systems not fully automatic when operating shall be under the direct supervision of a person holding a certificate of fitness issued by the Fire Commissioner and who shall be in the building at all times while the burners are in operation, except, that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941, under the provisions of C-26-213.0 of the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burners" shall not be required to obtain such certificate.

- 15.2.1 *In any installation utilizing No. 6 fuel oil which is equipped with controls performing the functions set for below, the heating system shall be under the supervision of a person holding a certificate of fitness issued by the Fire Commissioner and who is regularly employed at a building and whose employment has, as one of its purposes the operating and maintenance of the oil burner, except that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941 under the provisions of C-26-213.0 the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burner" shall not be required to obtain such certificate.*

The controls are to provide the following functions:

- A. *A protectorelay unit shall be provided which shall close the main fuel valve within two to four seconds following flame failure, and shall include a temperature controlled safety switch to shut down the system within 25 to 55 seconds in event of flame or ignition failure.*
- B. *A low voltage alarm contact to close an external alarm circuit in event such a signal is required.*
- C. *The protectorelay shall include a self-checking circuit which shall automatically prove each part or component before every burner starts, so designed that, should a failure occur, the burner cannot be started. The timing for interrupted ignition shall be fully adjustable over a range of 5 seconds to 3 minutes. Each unit shall provide for pre-ignition purge and postpurge timing approximately 15 seconds in duration, or an optional main fuel valve delay timing of 15 seconds and a 15 second postpurge timing.*

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fireresisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

and Chambers Streets, New York 7, N. Y.

TELEPHONE—WHitehall 3-3600, Extensions 2600-2609.

OFFICE HOURS FOR PUBLIC—9 a.m. to 4 p.m.

Address all communications to the Chairman

CONTENTS

Docket.

Rules Directory.

Notice of Hearing Calendar.

Correction Affecting Calendar Number 485-55-SA.

Amendments to the Rules for Erection, Alteration, Re-
pair, Excavation for and Demolition of Buildings.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engi-
neers, pertaining to the work of the board, will be seen only
between the hours of ten in the morning and one in the
afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

CALENDAR

JANUARY 10, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, January 10, 1956, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

139-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Harry L. and Leah Osias, Abraham Savedoff and Jack Parker, owners.

SUBJECT—Application February 21, 1955—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district for a term of ten years, the use of premises as a golf driving range, miniature golf course, Par 3 golf course, and to permit the erection and maintenance of three structures of Class IV construction to be used as, (1) ticket office and storage, (2) open shed over driving tees, and (3) for storage; and to permit the parking of patrons' cars (no fee to be charged).

PREMISES AFFECTED—242-02 to 242-80 (242-20 official) 61st avenue, south side, 43.11 ft. east of Douglaston parkway and 61-01 to 71-27 Douglaston parkway, Block 8286, Lots 100 and 180 and Block 8291, Lot 1, Bayside, Borough of Queens.

Laid over from June 21, 1955, for inspection and decision; hearing closed; date to be set; then set for November 9, 1955; then to November 22, 1955, for further inspection and hearing at that time; then to December 6, 1955, for further inspection and decision; then to January 10, 1956, for inspection and decision; hearing closed.

140-55-A

APPLICANT—Lama, Proskauer and Prober, for Harry L. and Leah Osias, Abraham Savedoff and Jack Parker, owners.

SUBJECT—Application February 21, 1955—re Appeal from a decision of the borough superintendent—re erection of frame building for business use.

PREMISES AFFECTED—242-02 to 242-80 (242-20 official) 61st avenue, south side, 43.11 ft. east of Douglaston parkway and 61-01 to 71-27 Douglaston parkway, Block 8286, Lots 100 and 180 and Block 8291, Lot 1, Bayside, Borough of Queens.

154-35-BZ

APPLICANT—Lama, Proskauer and Prober, for Assets Control Company, Inc., owner.

SUBJECT—Application reopened January 11, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e, 7h and 7A of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repair shop, storage and sale of accessories and office, and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot, with an entrance (curb cut) nearer the residence use district than is permitted.

PREMISES AFFECTED—219-28 to 219-38 (official 219-30) Hillside avenue and 88-01 to 88-09 Springfield boulevard, southeast corner, Block 10680, Lot 1, Hollis, Borough of Queens.

Laid over from November 29, 1955, to December 6, 1955, for further hearing; then to January 10, 1956, for inspection and decision; hearing closed.

80-55-A

APPLICANT—Lama, Proskauer and Prober, for Assets Control Co., Inc., owner.

SUBJECT—Application February 3, 1955—filed pursuant to section 35, General City Law re premises located partly in bed of mapped street—proposed widening of Springfield boulevard.

PREMISES AFFECTED—219-28 to 219-38 (219-30 official) Hillside avenue and 88-01 to 88-09 Springfield boulevard, southeast corner, Block 10680, Lot 1, Hollis, Borough of Queens.

ward, southeast corner, Block 10680, Lot 1, Hollis, Borough of Queens.

277-55-BZ

APPLICANT—De Rose and Cavalieri, for Giulio Mariani, owner.

SUBJECT—Application April 11, 1955—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a local retail and residence use, D area, Class 1 height district, the change in occupancy of premises to a bar and grill, restaurant and cabaret from a restaurant, bar and grill.

PREMISES AFFECTED—2705 Wilson avenue and 1289-1295 Allerton avenue, northwest corner, Block 4527, Lot 1, Borough of The Bronx.

Laid over from December 20, 1955, to January 10, 1956, for revised plans showing location and number of music pieces, etc.; hearing closed.

626-51-BZ

APPLICANT—Henry Nordheim, for Leah Slapo, owner.

SUBJECT—Application September 18, 1951—re (decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a retail use district the manufacturing on all floors, not incidental to conduct of a retail business conducted on premises; using more than the permitted percentage of each floor.

PREMISES AFFECTED—171 Spring street, north side, 70 ft. 2 in. east of Thompson street, Block 502, Lot 41, Borough of Manhattan.

Laid over from May 3, 1955 to June 7, 1955, to permit the applicant to obtain a decision from the Building Department as to structural conditions to comply with the Labor Law and to permit the filing of a companion administrative appeal to be heard with the zoning application on the laid over date; laid over, date to be set for hearing when companion "A" appeal has been examined and set for hearing; the "A" and "BZ" cases to be heard on the same date; then set for hearing January 10, 1956.

444-55-A

APPLICANT—Henry Nordheim, for Leah Slapo, owner.

SUBJECT—Application June 3, 1955—re Appeal from a decision of the borough superintendent—relating to egress and construction.

PREMISES AFFECTED—171 Spring street, north side, 70 ft. 2 in. east of Thompson street, Block 502, Lot 41, Borough of Manhattan.

197-54-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Harold J. Weinstock, owner.

SUBJECT—Applicant reopened April 26, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district for a term of fifteen years the erection and maintenance of a doctor's office and a gasoline service station, lubritorium, car-washing, motor vehicle repairs, storage and sale of accessories and office, and to permit the parking and storage of motor vehicles.

HARRIS H. MURDOCK, *Chairman*.

FEBRUARY 7, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, February 7, 1956, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:*

1069-27-BZ—Vol. III

APPLICANT—Larry Meltzer, for Anna Pillitteri, owner.

CALENDAR

SUBJECT—Application reopened June 7, 1955 as Vol. III —re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district the erection and maintenance of an automatic auto laundry, simonize room, boiler room and offices.

PREMISES AFFECTED—6702-6724 New Utrecht avenue and 1501-1511 Ovington avenue (68th street), northwest corner and 6703-6725 15th avenue, Block 5565, Lot 1, Borough of Brooklyn.

512-29-BZ—Vol. III

APPLICANT—Burke, Green and Groh, for Merry Twins, Inc., owner.

SUBJECT—Application reopened May 17, 1955 as Vol. III —re (decision of the borough superintendent) under sections 7c, 7f, 7h and 7A of the zoning resolution, to permit in a business and residence use district the proposed extension of present gasoline service station and use of premises as gasoline service station, lubritorium, auto washing, office and sale of accessories, minor repairs (hand tools only) and parking and storage of more than 5 motor vehicles, with curb cuts and sign closer to the residence use district than permitted.

PREMISES AFFECTED—173-02 to 173-16 64th avenue, southeast corner of Fresh Meadow lane, Block 6902, Lot 26, Flushing, Borough of Queens.

482-48-BZ—Vol. II

APPLICANT—Fred C. Dahlem, for Upper N. Y. Garage, Inc., owner.

SUBJECT—Application reopened February 15, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a business and residence use district the maintenance of a garage for more than 5 motor vehicles, repair shop for motor vehicles (hand tools only).

PREMISES AFFECTED—4342-4344 Broadway and 649-651 West 185th street, northeast corner, Block 2167, Lot 29, Borough of Manhattan.

135-49-BZ—Vol. II

APPLICANT—Leonard A. Swarthe, for Krekor and Pauline Selian, owners.

SUBJECT—Application reopened May 3, 1955 as Vol. II —re (decision of the borough superintendent) under sections 7c, 7e, 7f and 7i of the zoning resolution, to permit in a business use district the proposed extension of an existing gasoline and oil service station previously granted by the Board under Cal. No. 135-49-BZ.

PREMISES AFFECTED—1773 East Gun Hill road, north side, 125 ft. east of Wickham avenue, Block 4806, Lot 44, Borough of The Bronx.

21-52-BZ—Vol. II

APPLICANT—Paul Friedman, for Minnie Berkowitz, owner.

SUBJECT—Application reopened November 9, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7f, 7e and 7i of the zoning resolution, to permit in a business and residence use district the erection and maintenance of a gasoline service station, lubritorium, minor repairs (hand tools only) auto laundry (non-automatic) office, storage and sale of auto accessories, parking for more than 5 cars waiting to be serviced for a term of 15 years.

PREMISES AFFECTED—379-389 Kings highway and 1753-1763 West 3rd street, northeast corner, Block 6654, Lots 37, 39 and 40, Borough of Brooklyn.

402-52-BZ—Vol. II

APPLICANT—Charles M. Spindler, for Edward Lehr, owner.

SUBJECT—Application reopened June 21, 1955 as Vol. II —re (decision of the borough superintendent) under sections 7c, 7f, 7h and 7i of the zoning resolution, to permit in a business and residence use district the erection and maintenance of a building to be used as auto safety inspection station, motor vehicle repair shop and 21 one car garages, also proposed extension to existing building partly in a business and partly in a residence use district for use as auto showroom, in conjunction with existing uses of gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only, parking and storage for more than 5 motor vehicles and outdoor sale and display of more than 5 motor vehicles on the unbuilt upon portion of the lot as granted by the Board under Cal. No. 402-52-BZ.

PREMISES AFFECTED—572-590 Wyckoff avenue and 1444-1460 Hancock street, southeast corner and 407-413 Weirfield street, Block 3400, Lot 46, Borough of Brooklyn.

796-52-BZ—Vol. II

APPLICANT—Max Ehrlich, for Swire Building Corporation, owner.

SUBJECT—Application reopened May 3, 1955 as Vol. II —re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use E-1 area district, the maintenance of an existing building without the required 10 foot setback from the building line.

PREMISES AFFECTED—191-193 Irwin street, northeast corner of Oriental boulevard, Block 7517, Lot 992, Borough of Brooklyn.

416-54-BZ

APPLICANT—Siegel and Green, for Kollsman Instrument Corp., lessee (Leator Corp., owner).

SUBJECT—Application May 26, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking of motor vehicles for patrons and employees (no fee to be charged).

PREMISES AFFECTED—42-61 81st street, west side, 100 ft. north of 45th avenue, Block 1527, Lot 6, Elmhurst, Borough of Queens.

73-55-BZ

APPLICANT—Henry Nordheim, for Rubenstein and Tutanauer, owners.

SUBJECT—Application February 3, 1955—re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station, lubritorium, and office and the parking of motor vehicles waiting to be serviced.

PREMISES AFFECTED—1680 Gun Hill road and 1674 Allerton avenue, intersection of Gun Hill road, Allerton avenue and Lodovick avenue, Block 4539, Lot 1, Borough of The Bronx.

423-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Rose Epstein, owner.

SUBJECT—Application May 25, 1955—re (decision of the borough superintendent) under sections 7f and 7A of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, high speed auto laundry, lubritorium, body and fender work, welding, incidental repairs, brake testing, wheel alignment, incidental painting and spraying, office and sales, parking of motor vehicles awaiting service with entrances closer to the residence use district than permitted.

PREMISES AFFECTED—70-11 to 70-19 Northern boulevard and 32-62 to 32-70 71st street, northwest corner, Block 1166, Lot 37, Woodside, Borough of Queens.

CALENDAR

657-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Pietro Ventola, owner.

SUBJECT—Application August 8, 1955—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use D area district the extension of restaurant, bar, cabaret, parking

of more than 5 cars, and 1 family residence into the residence use district exceeding permissible coverage and without the required rear yard.

PREMISES AFFECTED—1012-1022 Ralph avenue, west side, 80 ft. south of Snyder Avenue, Block 4731, Lot 42, Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION

The Minutes of the meeting of the Board of Standards and Appeals held on November 22, 1955, as they appeared in Bulletin No. 48, Vol. 40, are hereby corrected to read as follows:

485-55-SA

APPLICANT—Erie Meter Systems, Inc., owner.

SUBJECT—Application June 6, 1955—Erie Remote Control Electric Gasoline Dispensing Pumps, Models 742, 745, 245, and 935, and Erie Remote Control Gasoline Pumps, Series 776.

APPEARANCES—

For Applicant: F. E. Carney.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 485-55-SA

Subject: Erie Remote Control Electric Gasoline Dispensing Pumps, Models 742, 745, 245 and 935 and Erie Remote Control Gasoline Pumps, Series 776.

The Erie Meter Systems, owner-manufacturer, filed June 6, 1955, an application with the Board of Standards and Appeals for approval of the Erie Remote Control Electric Gasoline Dispensing Pumps and Erie Remote Control Gasoline Pumps, Series 776, under the provisions of chapter 19, Administrative Code.

Purpose

A pumping system which supplies gasoline from an underground tank to a number of gasoline dispensers.

Description

The flow rate of each island dispenser or hose nozzle outlet shall be 10 to 14 gallons per minute with the nozzle valve full open. Dispensers are of the conventional type with hose extension or retracting device suitable for a minimum length of 12' of standard refueling hose.

The fuel discharged from each hose nozzle is measured individually by an approved displacement type meter and computing type register with a non-reset totalizer. The dispensers are either the single outlet or the dual outlet model, the same or equal to Erie Meter Systems, Inc., Model 745 or Model 245.

The gasoline pumps are of the submerged or deep well type, with a non-overloading characteristic which does not require a by-pass valve. The pumps are installed in the storage tank in accordance with the manufacturer's recommendations. The mechanical components of the pumping unit, such as thrust bearing, mechanical shaft seal or stuffing box, electric motor, etc., which may require periodic inspection or service are assembled and installed above grade, or

if below grade level, in a suitable access pit or housing.

The pumping unit is of adequate capacity and pressure to supply fuel to the dispensers at the rate of flow specified in paragraph one for each dispenser, multiplied by the maximum number of dispensers that may be in operation at one time, rather than by the total number of units that may be installed.

Two or more pumping units may be installed for each grade or type of gasoline. Each pump is equipped with adequate and approved air release or air eliminator unit and an expansion relief mechanism to prevent excessive pressures due to thermal expansion or other causes. The discharge line between each pump and dispenser, for gasoline shall be provided with a pressure regulator or flow control valve to prevent hydraulic shock due to rapid closing of the nozzle valve. Each discharge line between each pump and dispenser is also provided with a water separator with adequate capacity, and with an efficiency suitable to deliver fuel that is at least 99.95% free of entrained water. There is also installed in the discharge line, as a separate unit, or as part of the water separator, a filter or strainer having a dirt removal efficiency to at least a 325 mesh screen, or capable of removing all particles approximately 40 microns or larger. The motors are explosion proof.

The storage tanks are of steel and of a size and capacity suitable for the service intended. Openings are provided in the tank shell for fill, gauge and vent lines, and a minimum of a 4" threaded opening provided for each pump to be used.

Where it is necessary to provide a greater number of storage tanks than pumps, the gasoline from one tank is transferred to the pumping tank by means of a suitable syphon. The syphon is actuated by a suitable eductor which is supplied with the submerged pumping unit. The eductor valve unit shall be the same or equal to Model 4965 as manufactured by Erie Meter Systems, Inc., Erie, Pennsylvania.

All piping is of a full weight galvanized steel or wrought iron pipe with galvanized malleable iron fittings. The size of the piping is as recommended by the pump manufacturer and in no instance is less than 2" iron pipe size for the pipe line with a minimum of 1½" iron pipe size from the main line to each dispenser. All pipe lines are installed with adequate provision being made for expansion and contraction of the pipe, or the shifting of underground storage tanks, through the use of proper joints and swing joints. Adequate vent and fill lines are provided by the contractor as required for each installation.

The pumping units are manually controlled by remote pilot switch in each dispenser. A pilot light is installed in each dispenser to indicate that the pilot switch is in the "on" position. When specified or deemed necessary for safety, one or more auxiliary shut-off switches are provided on the island or other convenient locations so an attendant can stop any one or all pump motors in case of accident or other emergencies. Automatic pump motor control may be of the full electric type which is activated by the number of dispensers in use, or of the pressure type, which is actuated by an increase or decrease in the pump discharge line pressure. The type of pump motor control shall be as recom-

MINUTES

mended by the manufacturer as being the best suited for the type of pumping system to be supplied or installed.

Inspection and Test

These pumps were inspected and tested at 9 Rockefeller Plaza and found to operate as designed. Present at the test were Chief Engineer Leslie V. Huber of the Committee on Test and Frank Carney representing the applicant. All wiring is in steel tubes with explosion proof fillings. The pumps have been tested by the Underwriters Laboratories, Inc., Guide No. 60 0316, File MH 2432.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Erie Remote Control Electric Gasoline Dispensing Pumps—Models 742, 745, 245 and 935 and Erie Remote Control Gasoline Pumps, Series 776, for use in New York City when installed and operated in accordance with

this report and the provisions of Chapter 19 of the Administrative Code provided each pump has a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 485-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

* Correction—Model No. 645 corrected to read Model No. 745.

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 14, 1955

EFFECTIVE NOVEMBER 10, 1955

(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code.

7.8.1 Design of Forms:

7.8.1.1 Forms shall conform to the shape, lines and dimensions as called for on the plans.

7.8.1.2 All form work supported by shores and used for the construction of walls, floors, beams and girders shall be designed by a Registered Architect or a Licensed Professional Engineer, who shall furnish the Borough Superintendent with a complete set of design drawings and, before concrete is poured, file an affidavit with the Borough Superintendent that the form work was built in accordance with such plans.

7.8.1.3 It shall be unlawful for anyone to pour concrete in any portion of such form work before such portion has been duly inspected and certified to the Borough Superintendent by the designing Architect or Engineer who designed the form work as required in Rule 7.8.1.2.

7.8.1.4 Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby.

7.8.1.5 Temporary openings shall be provided where necessary, to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.6. Whenever in the opinion of the Borough Superintendent the scope of the work is of a minor nature and does not require strict compliance with these rules, he may waive the requirements hereof in an individual case under such conditions as he may prescribe or may require an alternate method.

7.29.0 Power Buggies

7.29.1 Definition.

As used herein, the term "Power Buggy" shall mean an automotive vehicle designed or used for the transportation of materials on and about construction and demolition sites. It shall not include automobiles, motor trucks, general purpose tractors or excavating or material handling machinery.

7.29.2 Responsibility of Employers.

Every employer causing a power buggy to be used shall provide trained and competent operators therefor and shall carry out all provisions of this rule pertaining to him in respect to the use, operation and maintenance thereof.

7.29.3 Assigned Operator.

No person shall operate a power buggy other than an operator assigned thereto by the employer.

7.29.4 Operator in Charge.

A power buggy in use shall be in charge and custody of the operator assigned thereto and no other person shall in any way interfere with or handle it, nor shall the operator cause or permit any other person to do so.

7.29.5 Defective Machines.

No power buggy shall be operated unless it has the mechanical characteristics, features and devices herein required and is in good operating condition.

MECHANICAL REQUIREMENTS

7.29.6 Stability.

Every power buggy shall be so designed and constructed as to withstand without tilting: (a) a 45° turn at full rated load and maximum designed forward speed; (b) a collision stop against wheel blockage on a level grade at full rated load and ½ maximum designed forward or full reverse speed; (c) lateral traversal of 10% slopes at full rated load and maximum designed speed.

Periodical Division
University of Illinois Library
Urbana, Ill.

RULES

7.29.7 Braking Power.

1. Every power buggy shall be provided with brakes and tire surfaces capable of bringing it to a full stop within 25 feet on a level dry plank surface or frictional equivalent at full rated load and maximum designed speed.

2. Brakes shall be capable of being fixed in engagement to hold the full load stationary on a 25% grade.

3. The lateral thrust for which any form work, bridge or scaffold is designed shall be the thrust set up when all buggies operating thereon are stopped at a gravity deceleration of 1 simultaneously.

7.29.8 Accidental Starting.

All movement controls of every power buggy shall be so arranged or shielded that they cannot be inadvertently engaged and so that the buggy cannot be accidentally set in motion.

7.29.9 Warning Devices.

Every power buggy of the riding type shall be equipped with an easily operable horn or other audible warning signal.

7.29.10 Seats and Visibility.

Every power buggy of the riding type shall be provided with an operator's seat or standing platform designed and secured to prevent slipping off and so located that the operator may have maximum practicable driving visibility.

7.29.11 Speed.

Every power buggy of riding type shall be so designed or equipped that it cannot travel faster than 12 M.P.H. on a level surface.

OPERATION

7.29.12 Parking on Grades.

No power buggy shall be left unattended on any grade sufficiently steep to cause it to coast if free of engine and brake resistance.

7.29.13 Conditions for Operation.

No power buggy shall be operated: (a) at a speed greater than 12 M.P.H., (b) when carrying more than its full rated load, (c) on insecure or skiddy surfaces or surfaces so inclined or uneven as to endanger stability, (d) on grades steeper than 25%, or (e) on ramps, runways, or other surfaces not in compliance with this rule.

7.29.14 Special Requirements for Runways, etc.

Runways, ramps, platforms and other surfaces upon which power buggies are operated shall conform to the following requirements:

- (a) They shall be substantially constructed and securely supported, braced and fastened to prevent movement.
- (b) They shall be constructed to sustain without failure at least four times the maximum load for which they are intended.
- (c) The minimum width inside of curbs for any ramp, runway or platform shall be two feet wider than the outside width of any power buggy operated thereon without passing, and two feet wider than twice such buggy width in the places where passing occurs.
- (d) Ramps shall be limited to maximum grades of 25%.
- (e) All runways shall be substantially level transversely.
- (f) The use of curbs along the edges of surfaces upon which power buggies are operated shall be governed by the following provisions:
 1. Curbs shall be furnished along all edges which are nearer than ten feet horizontally to any open side wall, shaft or other open space into or through which a fall from such surface of more than 12 inches is possible, except as set forth in (3) below.
 2. Where curbs are not required because the buggy is operated on a surface not over 12 inches above an under surface, such under surface shall be strong enough to sustain the loaded vehicle in the event of a fall thereon.
 3. Curbs may be omitted at actual dumping points more than 12 inches above such under surfaces if the edge over which dumping occurs is provided with bumpers or other means which will effectively stop the buggy from running over the edge while dumping.
 4. Curbs must be at least seven inches high, securely fastened, and capable of resistance to side impact at least equal to that of a 2" x 8" plank set on edge against uprights securely fastened and braced at not less than four foot intervals.

Minutes of Regular Meeting, Tuesday Morning, January 10, 1956, Affecting Calendar Numbers 313-33-BZ—Vol. II, 154-35-BZ, 80-55-A, 576-37-BZ—Vol. II, 809-54-A, 104-41-BZ—Vol. II, 626-51-BZ, 444-55-A, 197-54-BZ—Vol. II, 386-55-BZ, 531-55-BZ, 557-55-BZ, 828-55-BZ, 139-55-BZ, 140-55-A, 277-55-BZ and 537-55-BZ.

Minutes of Regular Meeting, Tuesday Afternoon, January 10, 1956, Affecting Calendar Numbers 573-51-A, 975-55-A, 382-43-A—Vol. VI, 834-53-A—Vol. II, 475-55-A, 160-30-BZ—Vol. II, 58-39-BZ, 198-52-BZ, 722-53-BZ, 74-33-BZ—Vol. II, 975-54-BZ, 624-37-BZ—Vol. II, 815-42-BZ—Vol. II, 715-47-BZ—Vol. II, 490-52-BZ—Vol. II, 969-54-BZ, 561-38-SA, 965-48-SA and 104-53-SM.

Special Meeting, Friday Morning, January 13, 1956, on Proposed Amendments to the Rules Covering the Installation and Use of Oil Burning Equipment, etc.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

CALENDAR

DOCKET

New Cases Filed up to January 10, 1956

Cal. No. Dept. Premises Affected

1031-55-BZ—B.B.—2844 West 33rd street, west side, 350 ft. south of Neptune avenue, Block 7006, Lot 26, Borough of Brooklyn, Alt. 3486-54 re erection of more than one building on lot.

1032-55-A—B.B.—2844 West 33rd street (rear), west side, 350 ft. south of Neptune avenue, Block 7006, Lot 26, Borough of Brooklyn, Alt. 3486-54 filed pursuant to sec. 310 of the Multiple Dwelling Law, re rear yard, frame building and Local Law 24-1954.

1033-55-A—B.M.—333 Avenue of The Americas (6th), west side, from West 4th street to Cornelia street, Block 589, Lots 25 and 28, Borough of Manhattan, re egress.

1034-55-A—B.B.—410 Tompkins avenue and 294-304 Hancock street, southwest corner, Block 1839, Lot 55, Borough of Brooklyn, review of Borough Superintendent's decision on zoning matter, re Alt. 278-55.

1035-55-BZ—B.M.—355-359 Lexington avenue and 133-135 East 40th street, northeast corner, Block 1295, Lots 21, 23 and 24, Borough of Manhattan, N.B. 219-55, re business use—erection of office building, area excessive, loading, berths required, etc.

1036-55-SA—The North American Manufacturing Co., Continuous Flame Gas Burner, Series 130, Models 130-E, B, H, S, L, X and T, manufactured by the The North American Manufacturing Co., Appliance.

1037-55-SA—The North American Manufacturing Co., Series 65 Aspirator, Models 65-0 through 65-9, manufactured by The North American Manufacturing Co., Appliance.

1038-55-SA—The North American Manufacturing Co., Series 18 Atmosphere Gas Regulator, Models 18-0 through 18-7, manufactured by The North American Manufacturing Co., Appliance.

1039-55-SA—Washex Tube Filters, Models 2000, 3000, 5000, 7000, 10,000 and 15,000, manufactured by Washex Machinery Corp., Appliance.

1040-55-SA—Washex Combination Washer-Extractor, Models P-65 and P-100, manufactured by Washex Machinery Corp., Appliance.

1041-55-SA—Washex Syntomat Models P-65 and P-100, manufactured by Washex Machinery Corp., Appliance.

1042-55-SA—The North American Manufacturing Co., Series 138 Incinerator (gas-fired), Models 138, 138S, SP, SJ, SC, SCJ, SPL and SJL, manufactured by The North American Manufacturing Co., Appliance.

1043-55-SM—Tapestron (for sliding walls and doors, drap-

eries, etc.), manufactured by Delco-Tapestron Distributing Inc., Material.

1044-55-A—B.Q.—17-32 to 17-46 (17-42 official) Clintonville street, 154-02 to 154-04 17th road, southwest corner and 17-27 to 17-37 154th street, Block 4730, Lot 4, Whitestone, Borough of Queens, N.B. 2525-55, (under section 35, General City Law re premises partly in bed of mapped street—Clintonville street).

1045-55-SM—Filon (for partitions, awnings, patios, etc.), manufactured by Filon Plastics Corp., Material.

1-56-A—B.M.—88-90 Walker street, north side, 48.6 ft. west of Lafayette Street, Block 196, Lot 24, Borough of Manhattan, Amendment to Alt. 1092-55 re egress.

2-56-A—B.M.—551-553 West 22nd street, north side, 125 ft. east of 11th avenue, Block 694, Lot 7, Borough of Manhattan, Alt. 1908-55 re egress.

3-56-BZ—B.Q.—76-01 to 76-15 (76-07 official) North Conduit avenue and 107-55 to 107-63 76th street, northeast corner, Block 9129, Lot 52, Ozone Park, Borough of Queens, N.B. 5380-55, re erection and maintenance gasoline service station, etc.

4-56-A—B.M.—15-17 Allen street and 73 Canal street, northwest corner, Block 300, Lot 29, Borough of Manhattan, B.N. 111-55 re egress.

5-56-BZ—B.Q.—24-23 Parsons boulevard and 145-07 Willets Point boulevard, northeast corner, Block 4641, Lot 1, Flushing, Borough of Queens, N.B. 4298-55, re erection and maintenance of gasoline service station, etc.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

139-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Harry L. and Leah Osias, Abraham Savedoff and Jack Parker, owners.

SUBJECT—Application February 21, 1955—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district for a term of ten years, the use of premises as a golf driving range, miniature golf course, Par 3 golf course, and to permit the erection and maintenance of three structures of Class IV construction to be used as, (1) ticket office and storage, (2) open shed over driving tees, and (3) for storage; and to permit the parking of patrons' cars (no fee to be charged).

PREMISES AFFECTED—242-02 to 242-80 (242-20 official) 61st avenue, south side, 43.11 ft. east of Douglaston parkway and 61-01 to 71-27 Douglaston parkway, Block 8286, Lots 100 and 180 and Block 8291, Lot 1, Bayside, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 21, 1955 after due notice by publication in the Bulletin; laid over for inspection and decision, hearing closed, date to be set; then set for November 9, 1955, for inspection and decision; hearing closed; then to November 22, 1955, for further inspection and hearing at that time; then to December 6, 1955, for further inspection and decision; then to January 10, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 61st avenue and Douglaston parkway are in a residence use, F area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated January 31, 1955 acting on N.B. Applic. 133-55, reads:

"1. Premises is located in a residence use district, use of same as a ticket office and storage, driving tees, golf driving range, miniature golf course, practice golf area, and parking of patrons' cars (no fee to be charged) is contrary to Article II, Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 609.34 ft. frontage by 2287.60 ft. in depth, irregular, presently vacant; that as of July 25, 1916 the premises were in a Class E area district and a class 1 height district; that it is proposed to use the premises as a golf driving range, miniature golf course, Par 3 golf course, practice golf course; that it is also proposed to erect 3 buildings of class 4 construction; that building A will be one story in height, having a frontage of 40 ft., a depth of 40 ft. and will be used as a ticket office and storage; that building B will be a one story high open shed having a frontage of 300 ft., a depth of 30 ft. and will be used as a shed over the driving tees; that building C will be one story in height having a frontage of 20 ft., a depth of 20 ft. and will be used for storage; and

WHEREAS, the applicant contends that the site consists of approximately 60 acres and was purchased by the owner in 1953 for development as a housing project; that the construction of the project has been postponed due to circumstances beyond the owner's control; that the land is high in assessed value and it is mandatory that the owner be able to develop the site as proposed in order to reduce the hardship of paying city taxes, so that he will be able to retain ownership; that the proposal will benefit the entire community in that this vast area will be completely controlled and will eliminate the dangerous hazards to children which now exist in this area; that the site is adjoined to the east in block 8310, lot 125 by a golf course which is of practically the same character as the subject proposal; that the rustic effect of the site will be maintained and will be in keeping with the park in block 7720, lot 100; and

WHEREAS, the applicant states that the present owner has held title to the property since February 25, 1953 and that the assessed valuation of land is \$537,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e for a term of two years from the date of this resolution, on con-

dition that working drawings shall be submitted to the Board for further consideration and imposition of conditions.

140-55-A

APPLICANT—Lama, Proskauer and Prober, for Harry L. and Leah Osias, Abraham Savedoff and Jack Parker, owners.

SUBJECT—Application February 21, 1955—re Appeal from a decision of the borough superintendent—re erection of frame building for business use.

PREMISES AFFECTED—242-02 to 242-80 (242-20 official) 61st avenue, south side, 43.11 ft. east of Douglaston parkway and 61-01 to 71-27 Douglaston parkway, Block 8286, Lots 100 and 180 and Block 8291, Lot 1, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over, date to be set after working drawings have been filed, as required in companion application Cal. No. 139-55-BZ.

277-55-BZ

APPLICANT—De Rose and Cavalieri, for Giulio Mariani, owner.

SUBJECT—Application April 6, 1955—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a local retail and residence use, D area, Class 1 height district, the change in occupancy of premises to a bar and grill, restaurant and cabaret from a restaurant, bar and grill.

PREMISES AFFECTED—2705 Wilson avenue and 1289-1295 Allerton avenue, northwest corner, Block 4527, Lot 1, Borough of The Bronx.

APPEARANCES—

For Applicant: George J. Cavalieri.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION:

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over to January 10, 1956, for revised plans showing location and number of music pieces, etc.; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Stedman place and Wilson avenue are in local retail and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 10, 1955 acting on Alt. Applic. 46-55, reads:

"1. Amendment denied—use of a cabaret or public dance hall in a local retail district is contrary to Art. II Sect. 4B of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 77.96 ft. frontage by 127.25 ft. in depth, located in local retail and residence use district, D area, class 1 height, improved with a one story building erected entirely within the local retail district, for which certificate of occupancy No. 13490 was issued December 31, 1953 for use as a restaurant, bar and grill; that it is proposed to change the occupancy by adding a cabaret; that as of July 20, 1942 this site was changed from residence to local retail use; and

WHEREAS, the applicant contends that the owner leased the building to the present tenant in 1953 for a period of 10 years, with a five year renewal option; that the premises are occupied as follows: 1st floor—bar and grill, restaurant and cabaret, office and garage; cellar—dining room (catering) and storage; that a variation is requested as the lessee, who has a large investment in the business, could not operate

MINUTES

without the cabaret and catering use; that ingress to the cabaret and catering use is through the only entrance on Allerton avenue, adjacent to the sub-station; that the premises, which form a triangle, are isolated; that there is a sub-station and railroad embankment to the west; that police department licensing of the cabaret would permit supervision over the bar and grill use, which is permissible at this location; that a grant of this application would not adversely affect surrounding properties; and

WHEREAS, the applicant states that the present owner has held title to the property since 1951; that the assessed valuation of land is \$20,000 and of the building \$8,000 making a total of \$28,000; that the building was erected December 31, 1953; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant orally requested that the basis of his application be changed from sections 7c and 21 to section 7e of the Zoning Resolution; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit a cabaret with the type of instruments proposed, as indicated on plans filed with this application marked "Received April 6, 1955, 3 sheets, "October 27, 1955", 1 sheet, "December 9, 1955", 1 sheet, and "January 5, 1956", 2 sheets, and to permit dancing in the location proposed, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that all permits required shall be obtained, including a certificate of occupancy and all work completed within six (6) months from the date of this resolution.

537-55-BZ

APPLICANT—Leonard F. Rothkrug, for Pick Quick Foods, Inc., owner (Key Foods Stores, Inc., lessee).

SUBJECT—Application July 1, 1955—(decision of the borough superintendent) under sections 7h and 7A of the zoning resolution, to permit in a local retail use district proposed parking lot for the use of patrons of Key Food Stores (no fee to be charged), proposed curb cut and entrance to parking lot within 75 ft. of the residence use district.

PREMISES AFFECTED—9516-9524 3rd avenue, northwest corner of 96th street, Block 6116, Lots 37-39 inclusive, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Morris Levine.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 10, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 3rd avenue are in a local retail use, C area, class 1 height district; 96th street is in local retail and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 27, 1955 acting on Alt. Applic. 1493-55, reads:

"1. Proposed parking lot for the use of patrons of food stores in 9610 Third Ave. (no parking fees to be charged) in a local retail district is contrary to Article II, Section 4-C of the zoning resolution.

2. Proposed curb cut and entrance to parking lot

within 75' of a residence zone is contrary to Article II, P. 7-A of the zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to maintain a parking lot for patrons of Key Food Stores (no fee to be charged); and

WHEREAS, the applicant contends that the premises is located within a local retail use district and under the pertinent provisions of the zoning resolution, parking exclusively for tenants or their employees, customers or patrons, is permitted adjoining the premises; that however, although the subject premises is within 100 ft. of the supermarket, it is not adjoining the supermarket; that the premises do adjoin a 6-story multiple dwelling, so that an accessory parking lot would be permitted under the zoning resolution on this premises, if application was made by the apartment house owner; that it is proposed to have parking solely in conjunction with the supermarket; that no fee will be charged to patrons using the lot and there will be no overnight parking; that 3rd avenue is a heavily trafficked street and there is a need for off-street parking facilities; that it is proposed to have one 7 ft. curb cut with 1 ft. 6 in. splays on to 3rd avenue and one 7 ft. curb cut with 1 ft. splays on to 96th street to allow for entrance and exit; that these two curb cuts are required to avoid traffic congestion; that the curb cuts would be permitted under the zoning resolution, if the subject premises adjoined the supermarket; that the premises were located in a business use district at the time of the passage of the zoning resolution and rezoned to its present designation on October 15, 1954; and

WHEREAS, the applicant states that the present owner has held title to the property since June 28, 1955 and that the assessed valuation of land is \$16,300; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the plot, as described and as shown on plans filed with this application marked, "Received July 1, 1955" (2 sheets) to be used as proposed for parking of cars of the pleasure car type owned by the employees and patrons of the Key Food Store located across 96th Street, in Block 6116 and not for the public generally, *on condition* that all buildings and uses on the premises shall be removed and the plot shall be levelled substantially to the grade of the street, surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on all building lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height, including a masonry base; that there may be two entrances to the parking lot, one on 3rd avenue, and one on 96th street, each not over 10 ft. in width; with curb cuts opposite of similar width; that such entrances shall be equipped with gates which shall be closed and locked after store business hours; that a sign may be erected at each entrance, stating the special use for parking and such other information as may be required by the commissioner of licenses; that such signs shall not exceed 25 sq. ft. in area, shall not be illuminated and shall not extend beyond the building line; that the fence along the building line adjacent to the 6-story building shall have bumpers maintained for the protection thereof; that any lights for general illumination shall be on pipe standards equipped with metallic reflectors so arranged as to reflect away from the adjoining residential occupancy; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that under Section 7A, the entrance and curb cut may be as shown; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

Adjourned: 12:55 P. M.

JOSEPH J. DOYLE, Chief Clerk.

MINUTES

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 10, 1956, 2 P. M.
Present: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly.

573-51-A

APPLICANT—Gustave Goldman, for Joseph Schlitz
Brewing Company, owner.

SUBJECT—Application for consideration—reopening as to
amendment as to additional opening—re Application (de-
cision of the borough superintendent); previously granted
on condition.

PREMISES AFFECTED—2-14 George street and 147-163
Melrose street, east side of Evergreen avenue from
George to Melrose streets, Block 3156, Lots 1 to 6, 8, 10,
11, 52, 53 and 54, Borough of Brooklyn.

APPEARANCES—

For Applicant: Gustave Goldman.

For Administration: Samuel L. Becker, Dep't of Build-
ings.

ACTION OF BOARD—Application reopened and resolu-
tion amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on
January 29, 1952, certain conditions; and

WHEREAS, the applicant requested an amendment of the
resolution.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on January 29, 1952,
by adding thereto:

"that there may be an additional installation of a
conveyor opening in the third floor slab, as indicated
on plans marked, "Received January 5, 1956" (one
sheet) and as passed on by the Borough Superintendent
under BN 1721/55, Objection No. 1, under date of
December 1, 1955; and that in all other respects the
resolution adopted by the Board, cited above, shall be
complied with." (N.B. 1098/50)

975-55-A

APPLICANT—Leonard F. Rothkrug, for Purvis Estate,
Inc., owner.

SUBJECT—Application November 29, 1955—re Appeal
from a decision of the borough superintendent—egress.

PREMISES AFFECTED—108-110 York street and 110-
118 Jay street, southwest corner, Block 64, Lot 8, Borough
of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Build-
ings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent,
dated November 21, 1955 on amendment to Alt. Applic.
2278/54, reads:

"1. Proposed use of iron drop ladder from 2nd floor
to grade as a second means of egress for a temporary
period of time is contrary to Section 271 of the Labor
Law and Factory Exit Rules of Bd. of Standards and
Appeals Cal. #64-27-SR Vol. II dated Feb. 14, 1955."

and

WHEREAS, the applicant states that the building is 4 stor-
ies, 62 ft. in height, 61 ft. 3 in. by 91 ft. in depth, of class 3
construction, erected in 1910, located in an unrestricted use,
B area, class 2 height district and used and occupied since
1910 as follows: basement—boiler room and machine shop,

7 persons; 1st floor—office and machine shop, 11 persons;
2nd floor—machine shop, 9 persons; 3rd floor—machine
shop, 9 persons; 4th floor—machine shop, 6 persons; that
no change in use or occupancy is now proposed; that the
building is provided with one 3 ft. wide interior wood stairs
enclosed in 1-hour partitions, equipped with 1-hour fireproof
self-closing doors; that stair hall leads direct to street and
is provided with ladder and scuttle to roof; that in addition
there is 1 fire escape on the street side; that windows and
doors on the course of the fire escape are fireproof, self-
closing; and

WHEREAS, the applicant states that the southerly portion
of the building is in the path of the proposed extension of
the Brooklyn-Queens expressway and the City has taken 8
ft. from the southerly boundary of the plot, thereby de-
priving the building of its existing secondary means of egress;
that the City has granted a 3 ft. 10 in. wide easement to the
owners for a fire escape as a secondary means of egress;
that an approved plan has been obtained to provide a fire
escape as a secondary means of egress in accordance with
sections 271 and 273 of the labor law; that erection of this
fire escape has been commenced, as proposed, by having the
2nd, 3rd and 4th floor balconies fronting on Jay street, but
however, in view of the existing loading platform which is
essential to the conduct of the owner's business at the 1st
floor level on Jay street, it was proposed to have the stair
from the 2nd floor balcony of the fire escape located on the
easement, granted for that purpose by the city, but however
the city has notified the owner that it will not tolerate the
existence of a fire escape run on this easement until con-
struction of this section of the elevated highway has
progressed to a point where the fire escape will not interfere
with construction; and

WHEREAS, the applicant requests the Board to grant for
a temporary period of one year, a variance from the pro-
visions of the labor law so as to permit the construction of
a drop ladder from the 2nd floor balcony of the fire escape
to Jay street; and

WHEREAS, the applicant contends that immediately upon
completion of the construction of the highway, construction
of the fire escape to completion in accordance with the ap-
proved plan will be started; and

WHEREAS, the applicant contends that there is only one
occupant in the entire building and there are less than 35
employees throughout the building; that all employees on the
2nd, 3rd and 4th floors are male and are accustomed to using
ladders of this nature; that it is proposed to have a fire drill
to acquaint all employees with this temporary means of
egress; and

WHEREAS, the Board is in receipt of a communication
from the chief engineer of the office of the President of the
Borough of Brooklyn stating that the city intends to start
construction on the Brooklyn-Queens connecting highway
in the Spring of 1956 and that the demolition contract re-
quires that a fire escape on the building in question be re-
moved and later replaced.

Resolved, that the decision of the Borough Superintendent
acting on amendment to Alt. Applic. 2278/54, Objection No.
1, be and it hereby is *modified* and that the appeal be and it
hereby is *granted* to permit, in view of the stairway being
taken by the City for street purposes, a fire escape leading
to grade as proposed and as shown on plans filed with this
appeal marked, "Received November 29, 1955" (4 sheets)
on condition that such fire escape shall comply with all re-
quirements for the construction therefor; that for a period
of one year, pending the completion of the roadway, the
completion of the proposed fire escape to grade may be de-
ferred from the first balcony above the street to grade and,
meanwhile, a counterbalanced drop ladder leading to grade
shall be constructed and maintained.

382-43-A—Vol. VI

APPLICANT—Henry Z. Harrison (Caton Nursing
Home), for Pearl Horowitz, owner.

APPLICANT—Clayton Manufacturing Company, owner.

SUBJECT—Application for consideration—reopening as to test and report as to additional models—re Kerrick Kleaner, Models J and L; previously approved.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application reopened for test and report, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

965-48-SA

APPLICANT—Beam Manufacturing Co., Division of Solar Corp., owner.

SUBJECT—Application for consideration—reopening as to test and report as to additional names under which to be marketed—Re AMC Clothes Washing, Models A153AP and A454AP; Firestone Clothes Washing Machine Model F454AP; Wizzard Clothes Washing Machine, Model W454AP; previously approved.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application reopened for test and report, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

104-53-SM

APPLICANT—Matrad Corporation, owner.

SUBJECT—Application for consideration—reopening as to consider use of pumice—re Greek Pumice Aggregate (from the Island of Santorin), Concrete Roof Fill for Insulation; previously approved.

APPEARANCES—

For Applicant: J. D. Zonars.

ACTION OF BOARD—Application reopened for test and report, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

Adjourned: 3:20 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

SPECIAL MEETING

FRIDAY MORNING, JANUARY 13, 1956, 10 A.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

217-21-SR

SUBJECT—Proposed Amendments to the Rules Covering the Installation and Use of Oil Burning Equipment and the Storage of Oils Used in Connection Therewith.

APPEARANCES—Thomas F. Dwyer, Philip P. Foglio, Francis V. Goggins, Carl Lieblich, H. M. Ficken, R. V. Perotto, P. H. Schepp, Robert Kopple, Nathan C. Horwitz, Stanley Pinel, George Kerchner, Edward T. Heeg, Joseph J. Barbuto, William N. Purdy, Henry L. Stark, Joseph C. Haus and John J. Saunders.

ACTION OF BOARD—Laid over for further consideration by the Board after written suggestions have been submitted by persons concerned; date of hearing to be announced.

Adjourned: 11:40 A.M.

JOSEPH J. DOYLE, *Chief Clerk.*

Minutes of Regular Meeting, Tuesday afternoon, January 17, 1956, Affecting Calendar Numbers 676-44-A—Vol. IV, 244-55-A—Vol. II, 119-51-A, 994-54-A, 124-55-A, 164-55-A, 310-55-A, 428-55-A, 680-55-A, 681-55-A, 816-55-A, 851-55-A, 42-32-BZ, 99-33-BZ, 320-37-BZ—Vol. III, 136-41-BZ, 330-47-BZ, 640-51-BZ, 160-52-BZ—Vol. I, 900-54-BZ, 901-54-BZ, 823-19-BZ—Vol. II, 556-26-BZ—Vol. IV, 437-27-BZ—Vol. II and 189-29-BZ—Vol. II.

(Remaining Minutes of the Meeting of January 17, 1956 will be printed in the Bulletin of January 31, 1956.)

Proposed Amendments to the Rules Relative to Submerged Inlets and Protective Methods to Be Applied to Prevent Contamination of Water Supply.

Matter of Thomas J. Hall and 35 Other Intervenors vs. Harris H. Murdock, et al:—On January 4, 1955, the Board granted a variance under sections 7f and 7i of the Zoning Resolution, to permit in a business use district, for a term of fifteen years, the erection and maintenance of a storage garage for more than five motor vehicles, and a motor vehicle repair shop (including welding, painting and spraying) and the parking of motor vehicles on unbuilt-upon portion of plot for customers and employees; Cal. No. 280-41-BZ, Vol. III; Premises 89 Furman Avenue, west side, 99.5 ft. north of Bushwick Avenue, Borough of Brooklyn.

At Special Term, Supreme Court, Part I, Mr. Justice Baker sustained the Board in a decision printed in part as follows:

"Cross-motions are before the court, one by the petitioners to sustain, and one by the respondents to vacate, an order of certiorari to review the action of the New York City Board of Standards and Appeals in granting a zoning use variance (Zoning Resolution, secs. 7f, 7h and 7i) on premises situated at No. 89 Furman Avenue, Brooklyn, New York. A motion by respondent board is likewise before the court to strike out as unauthorized and improper affidavits of two real estate brokers submitted by petitioners. ¶While petitioners are small home owners, their properties as well as the three lots in connection with which a use variance has been permitted, are in an area zoned for business use, and the present applications must be considered with this fact in mind. Also, they must be considered in the light of the circumstances that the variance was sought and was granted pursuant to the provisions of section 7 of the Zoning Resolution. Cases such as *Matter of Otto v. Steinhilber* (282 N. Y., 71, Y. W. H. Ass'n v. Board of Standards and Appeals, 266 N. Y., 270 and *Rochester Transit Corp'n v. Crowley*, 205 Misc., 933), cited by petitioners in their memorandum and heavily relied upon, involve the provisions of section 21 of the Zoning Resolution. There is a wide distinction between the two, as was pointed out by the Court of Appeals in *Matter of Reed* (255 N. Y., 126). The issues of "practical difficulties" and "unnecessary hardships" and the interpretation thereof by our courts, which are germane where the variance is granted under section 21, are not involved where section 7 and its various subdivisions alone are the basis of the board's action. In the latter case, as pointed in the *Reed* decision, "If such an application is denied the only question for the court is whether the petitioner has been legally oppressed * * *. When the application is granted the question of power only is to be considered" (p. 136). ¶Petitioners' argument on this review reduces itself, in substance, to the claims that they will be disadvantaged (1) by the possible nuisance of the permitted use, (2) by a diminution in the value of their properties, and (3) by increased insurance rates. But these clearly are factors which concern them largely because their properties lie in an area zoned for business. Uses legally permissible in such a district, even without a variance, might so affect them to an even greater degree (see *Return Par. XLI* [o]; Transcript of hearing of November 9, 1954, p. 80). ¶Petitioners have the burden of showing that the action of the respondent board was arbitrary and unreasonable and illegal because not in harmony with the general purpose of the zoning resolution. Their burden has not been sustained. ¶The terms of the variance as granted show that the board gave consideration to the proximity of the petitioners' homes. It was granted with the imposition of conditions to safeguard them which would have been impossible under a use permitted without application to the board. For example, one such condition is that "there shall be no windows opening to the rear in the wall at the building line or in the wall at the rear yard setback line; that the spray room and welding room shall be located along the front line of the building on Furman Avenue and ventilated thereto" &c. (Resolution, Transcript, p. 2). ¶It is well settled, of course, that the court may not substitute its discretion for that of the board (*People ex rel. Hudson-Harlem Co. v. Walker*, 282 N. Y., 400)." (From N.Y.L.J. of July 26, 1955, p. 6)

Appeal made to Appellate Division by objecting property owners served September 9, 1955, was withdrawn by petitioners and Copy of an Order duly made and entered in Office of Clerk of the Appellate Division of the Supreme Court, in Second Judicial Department, on December 21, 1955, vacating Order of Certiorari and affirming in all respects the determination of the Board.

CALENDAR

DOCKET

New Cases filed up to January 17, 1956

Cal. No. Dept. Premises Affected

9-56-BZ—B.B.—2844-(2842-2844 official) West 24th street, west side, 360 ft. north of Mermaid avenue, Block 7014, Lot 26, Borough of Brooklyn, Alt. 4518-55—re parking lot in residence use district.

Section I, List of Approved Gas Fired Heating Equipment, Gas Burner and Heater Accessories, Oil Fired Heating Equipment and Oil Burner and Heater Accessories, issued June 1, 1955, listing all approvals through May 24, 1955.

These pamphlets may be purchased in Room 1014, Municipal Building, Manhattan. Single Copies—\$1.25; By Mail—\$1.50.

Further Sections will be published, containing other approved materials and appliances.

JANUARY 24, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, January 24, 1956, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

514-54-BZ

APPLICANT—Ervin Palmer, for Gardel Enterprises Inc., and Twenty-Second Street Holding Corp., owners.

SUBJECT—Application May 20, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles.

PREMISES AFFECTED—87 Monroe street, north side, 100 ft. east of 10th avenue, Block 719, Lots 77-81 inclusive, Borough of Manhattan.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

869-54-BZ

APPLICANT—Joseph B. Koppelman, for Clarence Beeber, owner.

SUBJECT—Application November 17, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of more than 5 motor vehicles.

PREMISES AFFECTED—462-472 West 22nd street, south 110 ft. east of Pike street, Block 272, Lot 4, Borough of Manhattan.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

184-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Fanny Berger, owner.

SUBJECT—Application March 9, 1955—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and unrestricted use district the erection and maintenance of a gasoline service station, lubritorium, minor repairs, car washing, storage, office and sales, parking and storage of motor vehicles.

PREMISES AFFECTED—1980-1992 Ralph avenue and 5911-5923 Avenue J, northwest corner, Block 7763, Lots 45 and 46, Borough of Brooklyn.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

CALENDAR

301-55-BZ

APPLICANT—Martin Isaacs, for RoNan Service Inc., owner.

SUBJECT—Application April 6, 1955—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business use district the demolition of existing buildings and the erection and maintenance of a structure to be used as an automatic auto laundry. PREMISES AFFECTED—136 East Broadway, north side, 210 ft. 5 in. east of Pike street and 125-125½ Division street, south side, 212 ft. east of Pike street, Block 283, Lots 59 and 86, Borough of Manhattan.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

302-55-BZ

APPLICANT—Lama, Proskauer and Prober, for John M. Ell, owner (Felix Fezzuologlio, lessee).

SUBJECT—Application April 6, 1955—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a business use district the proposed change in occupancy from boiler room, garage for 5 cars and showroom to boiler room, body and fender repairs, wheel and frame alignment, welding, painting and spraying, parking of cars waiting to be serviced.

PREMISES AFFECTED—1469-1471 86th street, north side, 100 ft. west of 15th avenue, Block 6340, Lot 48, Borough of Brooklyn.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

425-55-BZ

APPLICANT—Robert Teichman, for 352 West 42nd street, Corp., owner (Pearl-Kinney Corp., lessee).

SUBJECT—Application May 25, 1955—re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail use district proposed open type parking garage for more than 5 cars.

PREMISES AFFECTED—350-358 West 42nd street, south side, 82 ft. east of 9th avenue, Block 1032, Lot 58, Borough of Manhattan.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

575-55-BZ

APPLICANT—Goldwater and Flynn, for The Montefiore Hospital for Chronic Diseases, owner.

SUBJECT—Application July 13, 1955—re (decision of the borough superintendent) under sections 7e, 7h and 7i of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, car washing, office, motor repairs, storage and parking of motor vehicles.

PREMISES AFFECTED—Block bounded by South side of Gun Hill road, from Tryon avenue to Wayne avenue, Block 3343C, Lot 245, Borough of The Bronx.

Laid over from December 6, 1955, to January 24, 1956, for inspection and decision; hearing closed.

667-50-BZ—Vol. IV

APPLICANT—Charles M. Spindler and Joseph C. Haus, for C.R.T. Holding Corp., owner.

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 26, 1955 subject to regular procedure, to consider a new proposal; and

WHEREAS, a public hearing was held on this application on June 21, 1955 after due notice by publication in the Bulletin; laid over date to be set, for Board to investigate as to proposed roadway; hearing closed; then set for decision on January 10, 1956; then laid over to January 17, 1956, for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Francis Lewis boulevard are in a residence use, D area, class 1 height district; Hollis Court boulevard is in residence and local retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 17, 1955 acting on N.B. Applic. 332-55, reads:

"1. Proposed Doctors offices, Gasoline Service station, lubritorium, minor auto repairs, car washing, storage, office and sales, parking and storage of motor vehicles

in a plot located within a Residence use district is contrary to Art. II sect. 3 of the Zoning Resolution."

WHEREAS, the applicant states that the premises consist of a plot, 210.94 ft. frontage by 263.42 ft. in depth, triangular in shape, presently vacant; that as of July 25, 1916 that part of the premises within 100 ft. of Hollis Court boulevard was in a business use district and the remainder in a residence use district; that the present use designation became effective on July 24, 1947; and

WHEREAS, the applicant states that it is proposed to erect a modern doctors' office building and a gasoline service station consisting of ten 550 gallon gasoline tanks and six dual type dispensing pumps; that the contemplated building will be one story in height, of class 3 construction, having a frontage of 120 ft., a depth of 52 ft. and will contain doctors' offices and the conjunctive uses to a gas station of office and sales, storage, lubritorium, car washing and minor auto repairs; that a portion of the site will be reserved for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the contemplated gas station building will be colonial in design and in keeping with the present colonial development in the area; that Francis Lewis boulevard and Hollis Court boulevard are heavily trafficked auto lanes leading across Queens and as such the proposal is entirely within keeping at this point; that there are many dwellings in the immediate vicinity and as there are no other gas stations within the affected area, the proposal is a vitally required service; that due to the gore shape of the lot and the high assessed valuation it is mandatory that the site be developed in the only feasible manner, as proposed, so that the owner may receive an equitable return on his investment and also be able to continue to pay real estate taxes; and

WHEREAS, the applicant states that the present owner has held title to the property since August 28, 1951, and that the assessed valuation of land is \$12,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and h of the Zoning Resolution; and

WHEREAS, the premises are included in present plans for approach to proposed new East River Bridge to Throggs Neck.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years, to permit the premises to be constructed and maintained in part as a gasoline service station and in part as doctors office building, substantially as proposed and as indicated on plans filed with this application, marked "Received March 25, 1955", 4 sheets, *on condition* that all buildings and uses on the premises shall be removed and the plot graded substantially to the grade of Francis Lewis boulevard and Hollis court boulevard, and arranged and constructed substantially as indicated on such plans; that curb cuts shall be limited to three to Hollis court boulevard and three to Francis Lewis boulevard, each 30 ft. in width, located substantially where shown with no portion of any curb cut nearer than 5 ft. to any lot line as prolonged; that the accessory building shall have no cellar and shall be of the design and arrangement shown and in all other respects shall comply with the requirements of the Building Code; that the building shall be faced with face brick and roofed with asphalt slate shingles; that such portable fire-fighting appliances shall be installed and maintained as the fire commissioner shall direct; that gasoline pumps shall be of an approved low type erected where shown, not nearer than 15 ft. to any street building line; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the proposed doctors office building shall be of the design and arrangement proposed, subject to approval by the building superintendent; that sidewalks and curbing around the premises shall be constructed or repaired to the satisfaction of the borough

MINUTES

president; that signs shall be restricted to a permanent sign attached to the front of the accessory building and the globes of the gasoline pumps, excluding all roof and temporary signs but permitting the erection within the plot near the intersection of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to project beyond the building line for a distance of not over 4 feet; that a sign shall also be permitted for the proposed doctors office building, consisting of metal signs attached to the entrance of the building, stating the names of the occupants; that under section 7h there may be parking of cars awaiting service, provided such cars are parked so as not to interfere with the service of the station; that under section 7e motor vehicle repairs may be permitted for a similar term, provided same are minor repairs with hand tools only, for adjustments, maintained solely within the accessory building; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

167-55-BZ

APPLICANT—Burke, Green and Groh, for Ralph Gargano, owner.

SUBJECT—Application March 2, 1955—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a local retail use district the erection and maintenance of a gasoline service station, auto washing, lubrication, motor vehicle repairs, storage and sale of accessories and office.

For Applicant: Robert T. Groh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly..... 3

Absent: Commissioner Keating..... 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 15, 1955 after due notice by publication in the Bulletin; laid over to December 13, 1955, for inspection and decision; hearing closed; then to January 17, 1956 in conjunction with 573-55-BZ; applicant having been notified; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Clintonville street and Willets Point road are in a local retail use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 18, 1955 acting on N.B. Applic. 148-55, reads:

"1. Proposed gasoline service station, auto washing, lubrication, office and accessory sales and minor repairs with hand tools only in a local retail use district is contrary to Art. 2 Sec. 4-c of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 133.19 ft. frontage by 142.83 ft. in depth, irregular, presently vacant; that as of July 25, 1916 the property was zoned as a business district and a one times height district; that the present local retail designation became effective on July 17, 1952 and the present class ½ height designation became effective on July 7, 1953; that the area designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to construct a modern gasoline service station on the site, colonial in character, with a peaked roof and faced with face brick; that a 3 ft. 6 in. high steel picket fence on a 2 ft. high brick base will be constructed along

both interior lot lines; that a seeded area with shrubbery will also be provided along both of these lot lines; that two 30 ft. wide curb cuts will be provided along Clintonville street and one 30 ft. curb cut will be provided on both 21st avenue and Willets Point boulevard; that two concrete pump islands with three approved pumps on each island will be provided and will be set back 15 ft. from the building lines; that ten 550 gallon gas tanks will be installed and one post standard and sign will be erected at the intersection of the Willets Point boulevard building line and the east lot line; that a similar sign will be erected at the intersection of the Clintonville street and 21st avenue building lines; that the entire site, where not occupied by the building and seeded area, will be paved with concrete or bituminous paving; that in addition to the customary uses proposed, minor repairs with hand tools only, to be done only within the building, is also requested; and

WHEREAS, the applicant contends that this plot is directly across the street from another gas station located on the south side of 21st avenue and the west side of Willets Point road; that on the southeast side of Clintonville street is located the Chicken Coop tavern; that this section is fast developing as can be seen by photographs submitted with this application; that the ideal business corner to satisfy the needs of this growing community will be the one in question, and it is requested that the Board grant a variance permitting the erection and construction of a gasoline service station; and

WHEREAS, the applicant states that the present owner has held title to the property since January 4, 1955 and that the assessed valuation of land is \$4,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions c and i of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 148/55, Objection No. 1 be and it hereby is affirmed and that the application be and it hereby is denied.

409-55-BZ

APPLICANT—Robert Gottlieb, for Aznive Haig, owner (Chris Walsh, lessee).

SUBJECT—Application May 16, 1955—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the change in occupancy from 3 car garage to motor vehicle repair shop (hand tools only) for a term of 3 years.

PREMISES AFFECTED—1601 Bussing avenue, west side, 6.25 ft. north of East 232nd street, Block 4857, Lot 76, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb, Chris Walsh and James Haig.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly..... 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 232nd street are in a residence use, C area, class 1¼ height district; East 233rd street is in a local retail use, C area, class 1¼ height district; Bussing avenue is in residence and local retail use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 22, 1955 acting on Alt. Applic. 327-55, reads:

"1. To convert the accessory 3 car garage to "3 car motor vehicle repair shop with hand tools only—no

MINUTES

motor overhauling", is contrary to Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 115.64 ft. frontage by 129.41 ft. in depth, on which is located a one story building 31 ft. 6 in. front, 21 ft. 6 in. in depth, one story, of class 3 construction; that it is proposed to change the occupancy from 3-car garage to motor vehicle repair shop (hand tools only); and

WHEREAS, the applicant states that the building was erected in 1921 under B.N. 12/21 as a 3 car garage accessory to the two family home at 812 East 233rd street on lot 84 adjoining to the north; that in 1931 the garage was rented by the present tenant who has been using it continuously as an auto repair shop doing ignition and minor repairs with hand tools; that no one questioned this use in a residence district until January 8, 1955 when the fire department issued order No. 874-5; that this application is based on section 7e of the zoning resolution, to permit for a term of three years the continued use of this 3-car garage as a motor vehicle repair shop for minor repairs with hand tools (no body or fender work); and

WHEREAS, the applicant contends that a plan is filed with this application showing the mapped proposed street widening of Bussing avenue and Barnes avenue; that when title to street is vested by the city the lot in this appeal will have 45 ft. taken from the rear and about 10 ft. average from the front; that this would cut the garage building, leaving about two-thirds of it; that when this is done the garage will be too short to be of use and the tenant would then have to give up the use of the premises; that the tenant has used this little building for 24 years without any complaints from his neighbors and no violation has ever been issued against the place; that the property, although in a residential zone, cannot be of any practical use until the two streets are cut through and widened; that the present use is not detrimental to the neighborhood; that there have been new brick houses erected and sold on 232nd directly to the east and west of this repair shop; that in fact the operator of this shop repairs the motors of all the people in the neighborhood and has been doing so continuously since 1931; that he has paid rent to the original owner, Ray McCool, until 1934 when the Franklin Savings Bank foreclosed the property and he then paid rent to the bank until 1944 when they sold to the present owner, Aznive Haig; that although the present use is one not allowed in a residential zone, it is felt that from now on it becomes a temporary use, even though so used for 24 years; that the city might decide any time within the next year or two to widen the two streets involved, at which time this use will positively have to be discontinued; and

WHEREAS, the applicant states that the present owner has held title to the property since November 13, 1944; that the assessed valuation of land is \$6,000 and of the building \$1,000 making a total of \$7,000; that the building was erected in 1921; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years to permit the continuance of minor repairing within the building, as proposed and indicated on plans filed with this application marked, "Received May 16, 1955" (3 sheets) and "January 10, 1956" (one sheet), *on condition* that no work shall be done except within the building and no other portion of the lot shall be used for storage of cars or parts or repairs; that such portion of the plot not built upon shall be kept clean and free from debris, broken-up cars or other refuse; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained,

including a certificate of occupancy and all work completed within six months from the date of this resolution.

Adjourned: 1:30 P.M.

JOSEPH J. DOYLE, *Chief Clerk*.

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 17, 1956, 2 P. M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

WHEREAS, this application was granted by the Board as Vol. I, on July 15, 1952, certain conditions; and

WHEREAS, the resolution was amended on September 23, 1952; and

WHEREAS, the resolution was again amended and time extended to complete the work on April 7, 1953; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 15, 1952 insofar as it has reference to the use of the portion of the premises granted under Section 7h for transient parking of patrons cars visiting the premises within the business use district, so that as *amended* this portion of the resolution shall read: that in addition to the citation above quoted, add thereto:—

"and for regular public parking." (N.B. 35/52)

MINUTES

900-54-BZ

APPLICANT—John F. Fitzsimons, for Arthur Miller, owner.

SUBJECT—Application for consideration—reopening as to amendment of resolution June 1, 1955—re Application (decision of the borough superintendent); previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use, E-1 area district, the erection and maintenance of a one-family dwelling without the required setback.

PREMISES AFFECTED—145-08 Hook Creek boulevard, west side, 50.09 ft. south of 257th street, Block 13603, Lot 31, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly..... 3

Negative: 0

Absent: Commissioner Keating..... 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 1, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 1, 1955, by adding thereto:

"that in the event the owner desires to make minor changes in the design and arrangement of the proposed dwelling, such changes may be permitted as indicated on revised plans marked "Received December 20, 1955, (3 sheets), *on condition* that in all other respects the resolution above cited shall be complied with and a certificate of occupancy obtained." (N.B. 3101/54)

901-54-BZ

APPLICANT—John F. Fitzsimons, for Sylvia Ackerman, et al., owners.

SUBJECT—Application for consideration—reopening as to amendment of resolution June 1, 1955—re Application (decision of the borough superintendent); previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use, G-1 area district, the erection and maintenance of twelve 1-family dwellings, without the required setback.

PREMISES AFFECTED—133-40 to 135-14 Hook Creek boulevard, southwest corner of 133rd road, and Hook Creek boulevard, west side, 61.95 ft. south of 133rd road, 72.31 ft. south of 133rd drive, 41.32 ft. north of 134th avenue, 181.89 ft. south of 134th avenue, 20.21 ft. south of 135th avenue, 101 ft., 141.42 ft. and 181.84 ft. north of 135th avenue, Block 13210, Lots 1 and 4, Block 13211, Lots 1, 7 and 8, Block 13217, Lots 33, 43, 45 and 47, Block 13227, Lots 12 and 17, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly..... 3

Negative: 0

Absent: Commissioner Keating..... 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 1, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 1, 1955, by adding thereto:

(N.B. 3096/54)

823-19-BZ—Vol. II

APPLICANT—Arnold H. Fassler, for William Schein-
berg, owner. (Federal Backing and Coating Corp., lessee).

SUBJECT—Application for consideration—reopening as Vol. II to consider change of use, subject to regular procedure—re Application (decision of the borough superintendent); previously granted on condition, under section 7c of the zoning resolution, permitting in a business district and extending into a residence district the erection of a garage.

PREMISES AFFECTED—1901 10th avenue, southeast corner of 18th street, Block 890, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold H. Fassler.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Volume II subject to the regular procedure to consider a change of use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly..... 3

Negative: 0

Absent: Commissioner Keating..... 1

556-26-BZ—Vol. IV

APPLICANT—Fred C. Dahlem, for Patrick J. Connor,
owner. (Phillip Minoff, lessee).

SUBJECT—Application for consideration—reopening as Vol. IV to consider a new use, subject to regular procedure—re Application (decision of the borough superintendent); previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, for a term of years, the reconstruction and extension of existing gasoline service station, to include lubricatorium, car washing and office and permitting the continuation of existing parking and storage of more than five motor vehicles.

PREMISES AFFECTED—2418 Amsterdam avenue and 501 West 180th street, northwest corner, Block 2152, Lots 82, 83, 84 and 85, Borough of Manhattan.

APPEARANCES—

For Applicant: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Volume IV subject to the regular procedure to consider a new use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly..... 3

Negative: 0

Absent: Commissioner Keating..... 1

437-27-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Socony
Mobil Oil Company, owner. (Katie Bakal, lessee).

SUBJECT—Application for consideration—reopening as Vol. II reconstruction and extension of premises in area, subject to regular procedure—re Application (decision of the borough superintendent); previously granted on condition, under sections 7(a) and 21 of the zoning resolution, permitting in a business district, the extension of an existing gasoline service station.

PREMISES AFFECTED—1387 Boston road and 680-686 East 170th street, southwest corner, Block 2937, Lots 14 and 17, Borough of the Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

MINUTES

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Volume II, subject to the regular procedure to consider extension in area of the premises.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly..... 3
Negative: 0
Absent: Commissioner Keating..... 1

189-29-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for 1236 East 17th Street Corp., owner. (Locust Garage, Inc., lessee).

SUBJECT—Application for consideration—reopening as Vol. II to consider additional uses, subject to regular procedure—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c and 21 of the zoning resolution, permitting the

extension from an unrestricted district into a residence district, of a proposed garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—1236-1246 East 17th street and 1611-1623 Locust avenue, northwest corner, Block 6736, Lot 15, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Volume II to consider additional uses, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly..... 3
Negative: 0
Absent: Commissioner Keating..... 1

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

Adopted by the Board of Standards and Appeals February 3, 1939, effective in accordance with Section 666, Paragraph 2, of the New York City Charter, February 27, 1939, as amended December 4, 1942, effective December 28, 1942, as amended September 10, 1946, effective October 7, 1946 and as amended on February 10, 1948, effective March 8, 1948.

(Cal. No. 835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4 and C26-1277.0h. of the Administrative Building Code.

NOTICE IS HEREBY GIVEN that a Public Hearing will be held by the Board of Standards and Appeals on Friday, March 2, 1956 at 10 A.M. in Room 1013 Municipal Building, Manhattan, on the following Proposed Amendments to the Rules Relative to Submerged Inlets and Protective Methods to be Applied to Prevent Contamination of Water Supply.

Note: It is proposed to amend Rule 1 as indicated. New matter appears in *Italics*; old matter to be deleted appears in brackets [].

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules. All hose coupling outlets and serrated tip outlets for hose connections [within buildings] are deemed to be submerged inlets, and shall be independently protected with an approved vacuum breaker. [Outside hose coupling outlets for garden or sidewalk use, drain] *Drain* cocks for hot water and steam boilers and

hose connections on fire fighting equipment are excepted. *Vacuum breakers for outside hose bibs shall be placed 24 inches above the surface of the ground near the hose bib and at least 12 inches above the top of the highest submerged lawn sprinkler.*

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarter inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at

Periodical Division
University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washers or similar apparatus shall be equipped with an approved vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps.

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connections to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water

supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing more than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker, and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

Rule 13. Steam Tables.

Steam tables used exclusively for the warming of food stuffs and provided with a water supply inlet elevation at least one inch above the overflow outlet, the area of which is at least four times that of the water supply piping, shall be equipped with an approved horizontal swing check valve in the water supply piping.

Where elevation of the water supply piping inlet is less than one inch above the overflow outlet, or when the area of the overflow outlet is less than four times that of water supply piping, the water supply piping shall be equipped with an approved vacuum breaker located at least four inches above the maximum overflow level of the fixture.

Proposed Amendments to the Rules Relative to Sub-
merged Inlets and Protective Methods to Be Applied
to Prevent Contamination of Water Supply.

PETITION AND CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS

On January 20, 1955, Copy of Petition and Order of Certiorari
was served on the Board by Mr. Thomas A. Duffy, attorney for peti-
tioners—Antonio Cangialosi, Lawrence R. Shaw, John Di Benedetto,
et al, objecting property owners, seeking a review of the Board's de-
termination on December 13, 1955, granting a variance under Section
7, subdivisions f and i, of the Zoning Resolution, to permit the erection
and maintenance of a gasoline service station, lubritorium, motor ve-
hicle repairs, sale and storage of accessories, and to permit parking
of vehicles on unbuilt-upon portion of lot, with curb cuts restricted
to two on 21st Street and two on 21st Avenue; Cal. No. 674-52-BZ;
Premises 21-04—21st Avenue and 21-01 to 21-09—21st Street, south-
east corner, Astoria, Borough of Queens.

Court Decisions

Matter of Lynch vs. Murdock:—On July 20, 1954, the Board de-
nied application under Section 7, subdivisions i, e and h, of the
Zoning Resolution, to permit in a local retail use district the erection
and maintenance of a gasoline service station, brake, battery and tire
storage and service, motor vehicle repairs and to permit parking of
customers' cars waiting for service; Cal. No. 551-53-BZ; premises 25-16
Francis Lewis Boulevard, southwest corner of Bayside Lane, and
160-09—25th Drive, northwest corner of Francis Lewis Boulevard,
Flushing, Borough of Queens.

At Special Term, Supreme Court, Mr. Justice Rabin sustained the
Board in the following decision (N.Y.L.J. January 9, 1956, page 12):—

"In a proceeding by an owner of premises to review the de-
termination of the respondent Board of Standards and Appeals
of the City of New York, which determination, dated July 20,
1954, affirmed the denial of the Borough Superintendent of the
Department of Housing and Buildings of the Borough of Queens
of petitioner's right to erect a gasoline service station on the
subject premises, the respondents have moved to dismiss the peti-
tion and to confirm their determination. [Petitioner's application
was made pursuant to subdivisions (e), (h) and (i) of section 7
of the Zoning Resolution. The premises affected consist of a plot
92.25 feet by 111.29 feet in size, located at Francis Lewis boule-
vard and Twenty-fifth drive, Borough of Queens, and in a Local
Retail D area, class one-half height district. According to the
petition the denial of the petitioner's application was arbitrary
and capricious because under practically the same conditions in
the same zone application four gasoline service station permits
were granted by the respondents on Francis Lewis boulevard, and
in all of these cases the sites were contiguous to property zoned
for residential purposes, whereas petitioner's property does not
adjoin residential property and there is at least one street be-
tween his property and any residential property; that, in addition,
it is not feasible for the development of petitioner's property at
this time with a conforming use because there is no demand for
the construction of stores in this area at the present time and
practically "no foot traffic passes this property which is essential
for store improvement." [After due notice and a complete hear-
ing with an opportunity to all concerned to be heard, an inspec-
tion of the site and the neighborhood was made by a committee
of the respondents. The application was thereafter unanimously
denied, the resolution stating that there was no justification for
the exercise of discretion to grant a zoning variance under the
subdivisions of section 7 above mentioned since the board found
"that there is a sufficiency of gasoline stations within a reason-
able distance and that another one is not required" and that it
"found that the premises are readily adaptable for a conforming
use." [The court is of the opinion that under these circum-
stances it would be an abuse of discretion for this court to substi-
tute its judgment for that exercised by the respondents who are
"men with special qualifications of training and experience"
(People ex rel. Fordham M. R. Church v. Walsh, 244 N. Y.,
280, 287). There is no proof in this record that the petitioner

Negative: 0

THE RESOLUTION—

WHEREAS, a full hearing was held by the Board and the premises were inspected by a committee of the Board, which was about to render an adverse report when the applicant requested the withdrawal of the application stating intention to maintain a conforming use.

Resolved, that the application be and it hereby was *withdrawn*.

106-30-BZ

APPLICANT—Esso Standard Oil Company, lessee, for Arthur Lawton, new owner; Mabel Hall, former owner.

SUBJECT—Application reopened December 20, 1955 in view of the change of zone to local retail use—re (decision of the borough superintendent) previously granted on condition under section 7f for a term of five years, permitting in a business use district, the maintenance of a gasoline service station.

PREMISES AFFECTED—337 Arbutus avenue, northeast corner of Hylan boulevard, Block 6499, Lot 1, Huguenot, Borough of Richmond.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION:

WHEREAS, on May 12, 1931 this application was granted by the Board on certain conditions, under section 7f of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, for a term of two years, affecting premises 337 Arbutus avenue, northeast corner of Hylan boulevard, Huguenot, Borough of Richmond; and

WHEREAS, the term of variance was extended from time to time and last extended on February 5, 1946 for a term of five years; and

WHEREAS, the applicant requested reopening of this application and a further extension of the term of variance, and an amendment of the resolution in view of the change of zone to local retail use; and

WHEREAS, this application was reopened on December 20, 1955 and set for hearing on January 24, 1956 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on January 24, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1955 acting on Alt. Applic. 518-55, reads:

"1. The erection and maintenance of a gasoline service station previously granted by the Board of Standards & Appeals under Cal. #106-30-BZ for a term of years expiring on January 9th, 1956 in a local retail use district is contrary to Art. 2 Section 4C of the Zoning Resolution."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted May 12, 1931, and as thereafter amended by resolutions adopted through January 9, 1951, only so far as it refers to the term of the variance, so that as amended this portion of the resolution shall read:

"... *granted* under Section 7f for a term of five years from the date of this amended resolution to permit the continuance of the existing gasoline station as now located in a local retail zone; that all permits and a new certificate of occupancy shall be obtained within three (3) months."

154-35-BZ

APPLICANT—Lama, Proskauer and Prober, for Assets Control Company, Inc., owner.

SUBJECT—Application reopened January 11, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e, 7h and 7A of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repair shop, storage and sale of accessories and office, and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot, with an entrance (curb cut) nearer the residence use district than is permitted.

PREMISES AFFECTED—219-28 to 219-38 (official 219-30) Hillside avenue and 88-01 to 88-09 Springfield boulevard, southeast corner, Block 10680, Lot 1, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

MINUTES

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on November 29, 1955 after due notice by publication in the Bulletin; laid over to December 6, 1955, for further hearing; then to January 10, 1956 for inspection and decision; hearing closed; then to January 17, 1956, for further consideration by the Board; then to January 24, 1956, for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, D area, class 1½ height district; Springfield boulevard is in local retail and residence use, D area, class 1½ height districts; Hillside avenue is in a local retail use, D area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 1, 1954, on N.B. 3769-54, reads:

"1. The use of the premises as a gasoline service station, lubritorium, car washing, minor auto repairs, storage, office and sales, parking and storage of motor vehicles, in a local retail use district is contrary to Sec. 4c of the Zoning Resolution.

2. An exit from or entrance to a business located less than 75 ft. from a residence zone, etc."

and

WHEREAS, the applicant states that the premises consist of a plot, 116 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to erect and maintain a one story building of class 3 construction, 64 ft. front, 30 ft. deep, 14 ft. in height, for use as a gasoline service station, lubritorium, car washing, minor auto repairs, storage, office and sales, and parking and storage of motor vehicles, curb cut less than 75 ft. from residence use district; and

WHEREAS, the applicant states that the premises in question are located in block 10680, Lot 1, having a frontage of 116 ft. on Hillside avenue, 116 ft. on the southerly lot line, 100 ft. on Springfield boulevard and 100 ft. on the easterly lot line; that the use district maps show that the premises are in a class D area district, class ½ height district and a local retail district; that as of July 25, 1916 the premises were in a business use district and received its present use designation on January 21, 1947; that as of July 25, 1916 the premises were in a class 1 height district and received its present height designation on June 30, 1952; and

WHEREAS, the applicant states that the premises are presently vacant and it is proposed to secure a variance of the building zone resolution for a period of 15 years in order to erect a modern gasoline service station consisting of ten 550 gallon buried approved type gasoline tanks, 8 dispensing pumps and an accessory building one story in height, of class 3 construction, having a frontage of 64 ft. and a depth of 30 ft.; that the building will contain the conjunctive uses of lubritorium, car wash, minor auto repairs, storage, office and sales; that the open area will be used for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the building as contemplated will be highly modern in design and in keeping with the buildings within the affected area; that Hillside avenue and Springfield boulevard are main auto lanes leading across Queens and as such the proposal will be entirely within keeping at this point; that the large home and apartment house development in the area have also created a need for the proposal; that the entire block in which the proposed gas station is situated is owned by the Assets Control Company, Inc., who are also the owners of the premises in question and as such there are no immediate property owners who could be adversely affected by the proposal; that the land is high in assessed value and since there are sufficient stores within the affected area the subject proposal is the only feasible manner in which to develop the site so that the owner may continue to pay real estate taxes and receive an equitable return on his investment; that there are non-conforming uses directly across from the site on both streets as follows: block 10689, lot 1—gas station; block 10679, lot 31-39—parking in residence use district; that the

proposed curb cuts within 75 ft. of the residence use district are required for efficient operation of the gas station; that the proposed curb cut will not affect the residential aspect of Springfield boulevard any more than the parking area in block 10679, lots 31 and 39 on the west side of Springfield boulevard and the property affected on the east side is owned by the same owner as the site in question; that the proposed gas station will be in complete harmony with the affected area; and

WHEREAS, the applicant states that the present owner has held title to the property since January 5, 1922 and that the assessed valuation of land is approximately \$10,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Board has noted that there has been no construction over the years on this site since the last action by the Board denying the gasoline service station on this site in 1935; the Committee finds that under suitable conditions a gasoline service station as proposed would not be a detriment to the area and is far enough removed from the residential uses on Springfield Boulevard to be no hazard; the Committee recommends that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e for a term of fifteen years to permit the premises to be occupied as a gasoline service station and uses accessory thereto substantially as proposed and as indicated on plans filed with this application marked "Received November 23, 1954" (3 sheets) and "November 21 1955" (one sheet) on condition that all uses on the premises shall be removed and the premises shall be leveled substantially to the grade of Springfield Boulevard and Hillside Avenue and shall be constructed and arranged as indicated on such plans; that the accessory building shall have no cellar underneath and shall be faced with face brick on all sides; that the proposed extension above the parapet line shall be discarded; that there shall be no openings in the lot line walls to adjoining premises; that there shall be erected from the accessory building to the street building line of Springfield Boulevard a masonry wall having face brick similar to that used on the accessory building, to a total height of not less than five feet six inches, except that such fence may be reduced for a distance from the existing street building line of Springfield Boulevard so that when the widening of Springfield Boulevard is completed, as proposed, such reduced height of the fence will be not more than four feet from the new building line; that along the side lot line to the east from the accessory building to the building line of Hillside Avenue there shall be a woven wire fence of the chain link type, erected on a masonry base, to a total height of not less than five feet six inches; that the sidewalk and curbing around the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that pumps shall be of a low approved type erected not nearer than fifteen feet to the street building line, where shown; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of the premises where unbuilt upon shall be paved with concrete or asphaltic pavement; that such portable fire-fighting appliances shall be maintained as Fire Commissioner shall direct; that under Section 7i there may be within the accessory building minor repairing with hand tools only for adjustment; that under Section 7h, for a similar term, there may be parking and storage of motor vehicles; that under Section 7A the curb cuts may be permitted where shown on plans herein referred to; that the area proposed to be taken for the widening of Springfield Boulevard may be used, as proposed, provided there is no construction thereon; that such space shall be paved as heretofore required for the surface of the station; that in the event of taking by the City for such widening no claim shall be made except for the value of the land so taken, as

MINUTES

determined by the Court; that the pumps herein permitted to be fifteen feet from the present building line of Springfield Boulevard shall be removed when widening takes place so as to be not nearer than fifteen feet to the new building line of Springfield Boulevard; that within the intersection there shall be erected a block of concrete not less than twelve inches in height and extending for a distance of not less than five feet along either building line; that upon the widening of Springfield Boulevard such block of concrete shall be relocated so as to be not less than five feet away from the new building line; that the westerly curb cut on Hillside Avenue shall be relocated so as to be in accordance with the requirements of this resolution; that all buildings and uses on the premises shall comply with all laws and rules applicable thereto other than as modified this day under Cal. No. 80-55-A; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

80-55-A

APPLICANT—Lama, Proskauer and Prober, for Assets Control Co., Inc., owner.

SUBJECT—Application February 3, 1955—filed pursuant to section 35, General City Law re premises located partly in bed of mapped street—proposed widening of Springfield boulevard.

PREMISES AFFECTED—219-28 to 219-38 (219-30 official) Hillside avenue and 88-01 to 88-09 Springfield boulevard, southeast corner, Block 10680, Lot 1, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated November 1, 1954, on N.B. 3769/54, reads:

"3. The use of the premises, a portion of which is located in the bed of a mapped street is subject to B.S.A. approval as per General City Law."

and

WHEREAS, the applicant states the premises consist of a plot 116 ft. by 100 ft. in area, located in a retail use, D area, Class $\frac{1}{2}$ height district, upon which it is proposed to erect a one story building, 14 feet high, of Class 3 construction, 64 ft. front by 30 ft. in depth, to be used as a gasoline service station, lubritorium, car washing, minor motor vehicle repairs, storage, office, sales, parking and storage of motor vehicles, as more fully described under application for zoning variance filed in Cal. 154-35-BZ, Vol. II; and

WHEREAS, the applicant states the city proposes to widen both sides of Springfield boulevard; that there are no proceedings pending to acquire title to the land necessary for this widening; that the city does not have title to such land at present; that the applicant proposes to use the land within the proposed widening only to drive over for access to the premises and no improvements are contemplated thereon; and

WHEREAS, the applicant states no condemnation awards will be claimed for any improvements that may possibly take place on the area required for the proposed street widening; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, dated November 1, 1954, acting on N.B. App. 3769/54, Objection No. 3 be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted, on condition* that the requirements as set forth in the resolution adopted this day under Cal. No. 154-35-BZ, Vol. II shall be complied with.

1293-39-BZ—Vol. II

APPLICANT—Paul Friedman, for Walter Shapiro and Isidore, Rachelson, owners.

SUBJECT—Application reopened November 1, 1955 as Vol. II—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use C area district the erection and maintenance of a one story and cellar building to be used as stores using more than the area permitted.

PREMISES AFFECTED—1401-1407 Avenue M and 1291-1295 East 14th street, northeast corner and 1402-1406 Chestnut avenue, Block 6735, Lot 121, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman and Stella Borkin.

For Oppositiion: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 1, 1955, subject to regular procedure, to consider a new proposal, including excess area; and

WHEREAS, a public hearing was held on this application on January 24, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Avenue M are in a business use, C area, class $1\frac{1}{4}$ height district; East 14th street is in unrestricted, business and residence use, C area, class $1\frac{1}{4}$ height districts; Chestnut avenue is in unrestricted and business use, C area, class $1\frac{1}{4}$ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 20, 1955 acting on N.B. Applic. 2204-55, reads:

"1. Proposed bldg. exceeds area for a "C" district & violates Art. 4, Sect. 13(b) of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 73 ft. $\frac{3}{8}$ in. frontage by 53 ft. in depth, irregular, presently vacant; that the use, height and area district designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to erect a one story and cellar building of class 3 construction to be used for bakery and stores covering the entire plot; and

WHEREAS, the applicant contends that practical difficulties and unnecessary hardships exist within the meaning of section 21 insofar as it relates to area district cases and that substantial justice would be done by the granting of this application for the following reasons; that the proposed occupancy will conform in all respects to the use district regulations applicable thereto; that the amount of excess coverage is only 586 sq. ft.; that if the 586 sq. ft. were left vacant they would provide no benefit of light and air to adjoining premises, which is a taxpayer and which has no windows facing their common lot line; that if the 586 sq. ft. were left vacant, they would provide an alleyway which would be a rubbish collector and dark and dangerous at night; that the proposed building would be permitted as a matter of right if two, off-street, loading berths were provided thereon (2'x33'x12' equal 792 sq. ft.); that however, the proposed occupancy does not require off-street loading berths either by operation of law or as a matter of convenience; that the proposed building would provide more light and ventilation to nearby buildings than would be provided if a higher but otherwise conforming building were constructed; that since the only other building on the block is developed to a 100% coverage, it is submitted that a grant of this application would be harmonious with the nature of development of said other building; that a grant of this application would extend to the owner of this property a privilege similar to, but less extensive than,

MINUTES

that which the Board permitted the adjoining building under Cal. No. 12-51-BZ on May 22, 1951; that the subject premises being small in area, 586 sq. ft. of buildable area is important to the beneficial development of the land even though, because of the character and location of the plot in relation to nearby properties, it has no importance whatever for light and air; that a grant of this application would benefit the owners and the neighborhood without adversely affecting anyone; that the practical difficulties and unnecessary hardships set forth above are unique to the subject premises and the proposed variance, subject to appropriate conditions, would safeguard the character of the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since May 23, 1955 and that the assessed valuation of land is \$16,000; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to extension of area, to permit the coverage proposed and indicated on plans filed with this application, marked "Received October 7, 1955", 2 sheets, "October 25, 1955", 1 sheet, and "November 21, 1955", 2 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

667-50-BZ—Vol. IV

APPLICANT—Charles M. Spindler and Joseph C. Haus, for C. R. T. Holding Corporation, owner.

SUBJECT—Application reopened July 19, 1955 as Vol. IV—re (decision of the borough superintendent) under sections 7e, 7f, 7i and 7c of the zoning resolution, to permit in a business, retail and residence use district, the proposed extension in area of plot and extension in area of the building area of present auto laundry and gasoline service station and proposed use of premises as auto laundry, offices, gasoline service station, sale of auto accessories, parking and storage of more than 5 cars, lubrication, wheel alignment, brake testing and repairs, minor repairs and auto safety inspection station.

PREMISES AFFECTED—85-07 Queens boulevard and 51-25 to 51-39 Reeder street, northeast corner, Block 1549, Lots 41, 48 and 51 (Lot 41, tentative), Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Joseph C. Haus, Leon Turk and Murray Rosenstock.

For Opposition: M. Nicocaides and Ernest Hassberg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on July 19, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on December 13, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business, residence and retail use, C area, class 1½ height districts; Reeder street is in business and residence use, C area, class 1½ height districts;

Queens boulevard is in business and retail use, C area, class 1½ height districts; Broadway is in a retail use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated May 20, 1955 acting on Alt. Applic. 2119-54, reads:

"1. Proposed extension in area of plot and extension of bldg. area of present auto laundry & gasoline service station in a business, retail & residence use district & use of premises as auto laundry, offices, gasoline service station, sale of auto accessories, parking and storage of more than 5 motor vehicles, lubrication, wheel alignment, brake testing & repair, minor repairs & auto safety inspection station (as approved under Cal. #667-50-BZ & must be referred back to the Board) is contrary to Art. II Sec. 3, 4a (29) (46), 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 99.71 ft. frontage by 201.97 ft. in depth, on which is located a gasoline service station and auto laundry; that it is proposed to construct two extensions to an existing laundry building and the extension in area of the site; and

WHEREAS, the applicant further states that the entire premises was in a business use district until April 20th, 1953 and on that date, that portion of the premises more than 100 ft. from Queens boulevard and within 100 ft. of Reeder street was changed from business to residence; that on the same date, the small portion of the site more than 100 ft. from Reeder street was changed to a retail use district; and

WHEREAS, the applicant states that the premises in question is an irregular plot with a frontage of 99.71 ft. on Queens boulevard; that this plot originally contained an auto laundry constructed in 1947, at which time the entire premises was in a business use district and when auto laundries were a permissible use in a business district; that under Cal. No. 667-50-BZ, Vol. I, the Board permitted the construction of a gasoline service station on the unbuilt upon portion of the plot; that under Cal. No. 667-50-BZ, Vol. II, the Board permitted a rear extension to the auto laundry building and also permitted an extension in area of the lot; that all of the above work has been completed and certificate of occupancy covers the present plot with a frontage of 161.97 ft. on Reeder street; and

WHEREAS, the applicant further states that under Vol. III of this case, an amendment was requested to permit the construction of a one story, cellar and mezzanine building, to be used as an auto safety inspection station and motor vehicle repair shop; that this proposed extension was approximately 4,800 sq. ft. in area and some 20 ft. high; that this present application was denied by the Board on March 1, 1955; and

WHEREAS, the applicant contends that under the new proposal, it is proposed to build a small 4-bay extension similar to the bays of a conventional gas station; that this extension will be without cellar and mezzanine and will be 13 ft. in height; that the exterior will be set well back from both streets and so arranged that no doors will face Reeder street; that a small rear extension to the auto laundry building is also proposed, so as to more efficiently house all of the auto washing equipment; that the combined area of these two extension will be less than half of the area of the extension previously denied; that since there will be longer be a straight-line inspection arrangement, the two lines of traffic previously proposed will be reduced to the single line serving the auto laundry; that as in the previous proposal, the plot size will be extended to include lot 51 so as to provide additional driveway and parking area, and the gasoline pumps will be rearranged as shown on drawings; that it is felt that the elimination of doors facing Reeder street, the reduction in the bulk of the proposed extension and the elimination of the two lines of traffic removes most of the objections raised to the previous proposal; that the type of repairing herein proposed will consist of minor repairs and adjustments of the type required for compliance with the State Motor Vehicle inspection law; that there will be no body or fender work, and no welding, painting or spraying; that the additional lot will be paved and fenced;

MINUTES

that existing curb cuts will remain undisturbed and no new curb cuts are proposed; that in view of the small area of the extensions now proposed and the elimination of any doors facing Reeder street, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to part of lot 41 since June 20, 1947 and to part since July 20, 1951; lot 48, since November 7, 1952 and to lot 51 since June 30, 1953; that the assessed valuation of land is \$55,300 and of the building \$23,000 making a total of \$78,300; that the building was erected in 1947; and

WHEREAS, the premises and area were previously inspected by a committee of the Board, which recommended the application be granted under certain conditions, under Sections 7c, 7e and 7i of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on April 10, 1951, as further amended by resolutions adopted through October 28, 1951, by adding thereto: "that in the event the owner desires to extend the area of the premises by the inclusion of lot 51 and to rearrange the buildings and uses on the plot, as now proposed and as indicated on plans filed with this application, marked 'Received June 6, 1955', 5 sheets, 'December 7, 1955', 1 sheet, and 'January 19, 1956', 1 sheet, such extension and rearrangement servicing and repairing as proposed may be permitted under Sections 7c, 7e and 7i on condition that the premises shall be as indicated on such revised plans marked 'Received January 19, 1956'; that the accessory building shall be of face brick, without cellar, shall be located where shown and of the size indicated and used for the purposes stated as shown on such revised plans marked 'Received January 19, 1956'; that the brick wall along Reeder street building line shall be extended to include the additional frontage of lot 51; that along the rear of the property adjoining lot 53 there shall be maintained a solid metal fence set back 10 feet from the lot line and between such fence and the building line there shall be maintained area planted with suitable shrubbery; that a revised plan showing such revised condition shall be submitted to the Board for further approval; that such additional portable fire-fighting appliances shall be maintained as the fire commissioner shall direct in connection with the proposed accessory building; that the route shown for cars entering from Queens boulevard and Reeder street to the automatic laundry shall be maintained without interference with the portion of the premises at the rear which may be occupied by cars awaiting service at the laundry or the brake testing building; that gasoline pumps shall be located where shown and shall be of a low approved type; that curb cuts shall not exceed those previously granted and shown on plan marked 'Received January 19, 1956'; that the balance of the premises where unbuilt upon shall be paved with concrete or bituminous paving, as proposed and shown on plans; that in all other respects the building and occupancy shall comply with all laws and rules applicable thereto including requirements of resolution above cited where not inconsistent with this amended resolution; and that all permits required shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

715-52-BZ—Vol. II

APPLICANT—M. Martin Elkind, for Surenko Realities, Inc., owner.

SUBJECT—Application reopened September 20, 1955 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking of more than 5 cars to be used by personnel of one story office building directly across the street.

PREMISES AFFECTED—609 East 11th street, north side, 142.8 ft. east of Avenue B, Block 394, Lot 64, Borough of Manhattan.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Opposition: None.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 20, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 24, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; East 11th street is in residence and local retail use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 24, 1955 acting on Alt. Applic. 835-55, reads:

"1. Proposed parking for more than 5 cars is not permitted in a Residence Use District. Art. II, P. 3 Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a vacant plot, 25 ft. frontage by 103 ft. 3 in. in depth; that it is proposed to prepare the premises for parking use by grading the surface and finishing with cinder and binder surface, and installing curb cuts at the driveway; and

WHEREAS, the applicant states that the premises at present consist of vacant land enclosed at the front with a brick fence 15 ft. high, containing an opening equipped with a metal roll-up type door; that the side and rear lot lines are enclosed with a cement block fence 10 ft. in height; and

WHEREAS, the applicant contends that the proposed parking use of the subject premises is intended to provide facilities in conjunction with the new one story office building recently constructed by the same owner directly across the street; that a variance to permit this construction was granted by the Board under Cal. No. 714-52-BZ; that the building referred to will be used as a real estate and management office; that the personnel of this office find it necessary to have cars available for showing of property to clients as well as to administer the management of a large number of properties throughout the lower east side; that the parking situation on this street as well as nearby streets is typically a problem, and at no time is parking space available anywhere in the vicinity for the use of the employees of this office nor for any visitors; that furthermore, the presence of a fire house on adjoining property makes it necessary to leave a vacant area for considerable distance along the curb opposite the fire house; that it is of general benefit when provisions can be made by any owner of property in a congested area to provide off-street parking in connection with use of his business; that the establishment of the proposed use would be desirable in helping to alleviate the congested parking condition to some degree and it can certainly in no way be considered as adversely affecting any property owner in the immediate vicinity nor to the community at large; and

WHEREAS, the applicant states that as of July 25, 1916 the property was zoned as a business district and the present residence zoning became effective on November 29, 1945; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant states that the present owner has held title to the property since April 1, 1952 and that the assessed valuation of land is \$9,000; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7h for a term of five years, to permit the parking of more than five cars

MINUTES

for the use of the personnel of the one-story office building directly across the street, as shown on plans filed with this application marked "Received August 3, 1955", 2 sheets, and "November 18, 1955", 1 sheet, on condition that there shall be erected on the rear and side lot lines a cement block fence 10 feet in height as shown on such plans; that the premises shall be graded and surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that the wall along the building line shall have one entrance 12 ft. wide equipped with a metal roll-up door and with one curb cut directly in front of such entrance, 12 ft. wide with 1 ft. 6 in. splays on both sides; that the premises shall be maintained in a clean condition, all debris to be removed and the surface of the ground kept clear; that in all other respects all laws, rules and regulations pertinent shall be complied with; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that signs shall be limited to one non-illuminated sign not exceeding fifteen square feet in area and not extending beyond the building line advertising the private use of this parking plot; and that all permits, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

514-54-BZ

APPLICANT—Ervin Palmer, for Gardel Enterprises Inc., and Twenty-Second street Holding Corp., owners.

SUBJECT—Application May 20, 1954—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of motor vehicles.

PREMISES AFFECTED—462-472 West 22nd street, south side, 100 ft. east of 10th avenue, Block 719, Lots 77-81 inclusive, Borough of Manhattan.

APPEARANCES—

For Applicant: Ervin Palmer.

For Opposition: Edward E. Breger.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; 10th avenue is in business and unrestricted use, B area, class 1½ height districts; West 22nd street is in unrestricted, business and residence use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 30, 1954 acting on Alt. Applic. 528-54, reads:

"1. Parking lot for more than (5) five motor vehicles in Residence Use District is contrary to Article II Section 3 of the Zoning Resolution."

WHEREAS, the applicant states that the premises consist of a plot, 112 ft. frontage by 98 ft. 9 in. in depth; that lots 77 and 81 are presently vacant; that on lots 78, 79 and 80 are located three rooming houses; that it is proposed to demolish all buildings and erect and maintain a parking lot for the storage of more than five motor vehicles on the entire plot; and

WHEREAS, the applicant states that the premises under consideration in this appeal consist of 2 plots; that plot (a) is 466-468-470 West 22nd street and plot (b) is 462-464 and 472 West 22nd street; that plot (b) surrounds plot (a) in a U shape; that these plots are owned by two corporations, but as the stockholders and officers of the two corporations are the same persons, the ownership of these plots are for all practical purposes, identical; that the entire prop-

erty has a 112 ft. 6 in. frontage on West 22nd street and is 98 ft. 9 in. deep; that of this, plot (a) fronts 50 ft. and is 83 ft. 9 in. in depth; that there are presently three rooming houses on this plot; that they are built 50 ft. deep and as they occupy only 60% of the lot area, this area is permitted under Art. 4, par. 12b of the zoning resolutions; that plot (b) has a front of 37 ft. 6 in. east of plot (a) and a front of 25 ft. west of same; that it is 98 ft. 9 in. in depth and surrounds plot (a); that the westerly 25 ft. wide section of this plot, No. 472 is presently a parking lot operated under a temporary certificate of occupancy issued by reason of a variance granted by the Board under Cal. No. 127-52-BZ for a term of 2 years; that the easterly section of plot (b), No. 462-464, is now vacant and unused; that an application made to the Board under Cal. No. 354-53-BZ for a variance was denied on February 9, 1954; that the application was limited only to a portion of plot (b), to that portion east of plot (a), and it did not include all of plot (b) nor any part of plot (a); that the property is adjacent to the properties which face 10th avenue and the westerly lot line is parallel with and is 100 ft. from 10th avenue; that this westerly lot line coincides with the line of zone change to business zone, hence the property in consideration abuts and extends to the business zone district; and

WHEREAS, the applicant further states that this application is made under section 7h for a variance to permit the use of this property for the parking of motor vehicles of the passenger car type for a term of years, including that portion already approved and now being operated as such; that in the prior application the owners stated to the Board that they were in the process of assembling substantial plottage for future development; that this street and the immediate area is undergoing a slow change from one type of occupancy to another and at the present time it would not be feasible to erect a substantial improvement in conformity with existing zoning requirements; that it is the intention of the owners to hold these premises, to add to them from time to time as it may be possible, so that as soon as the area is sufficiently stabilized they will be in position to develop the property; pending the complete assemblage of a plot and the stabilization of the area, it is requested that a variance be granted, for parking on a temporary basis, for a term of years; that the Board saw the reasonableness of this request and so granted the application for part of the property; that since that time the owners continued their assemblage of the property; that this plan was continued in reliance upon their interpretation of the decision of the Board, that it was in agreement that until such time as the plottage can be developed, the use for the parking of motor vehicles would be reasonable and proper; and

WHEREAS, the applicant contends that the use of the subject property for parking on a temporary basis would be beneficial to the public, helpful to the street upon which it fronts, useful to the business houses on 10th avenue and on 23rd street, and fair to the owner; that parking is forbidden on 23rd street and on most crosstown streets, and this urgent need would be helped to some extent by granting the application; that West 22nd street in the general area of this property is in a deteriorated and run-down condition; that the rooming houses in this block and particularly in the westerly portion are overcrowded, old and poorly maintained; that the close proximity of garages, warehouses, railroad tracks all combine to attract a type of occupancy which cause the properties to deteriorate; that the portion of the premises which is now vacant, not used for parking, is a source of constant difficulty to the owners; that attempts to keep this vacant land clean and clear of debris has met with little success and as a result, it has become an eyesore, in keeping with the rooming houses on either side; that in sharp contrast is that portion which the Board has permitted to be used as a parking lot; that this land is graded, cinder fill covered and kept clean by an attendant who is always there, and its existence is a definite improvement to the condition of the area; that the action of the Board under Cal. No. 354-53 has

MINUTES

no bearing on the present appeal; that the present subject premises are contiguous with the business zone extending from 10th avenue and it includes within it the plot for which a variance has been granted; that any change in local condition since the granting of the variance has increased the need for more parking facilities and the desirability of the parking lot at this location; that since it would not be feasible nor economically possible at the present time to erect a building on this property in which the occupancy would conform to the zoning law, the only possible use which would help to carry out the long-term plans laid out, is a parking lot; that such use would serve a real need and would still leave the property in a sufficiently undeveloped form for other future uses and would also permit expansion; and

WHEREAS, the applicant states that the present owner has held title to the property since February 18, 1954; that the assessed valuation of land is \$60,500 and of the building \$12,000 making a total of \$72,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, it is proposed to demolish all buildings on the lots involved and to consolidate in a new resolution covering the entire plottage, the former resolution covering a portion of the premises as adopted under Cal. No. 127-52-BZ; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the plot to be occupied for the parking and storage of motor vehicles limited to the pleasure car type only, substantially as proposed and as indicated on plans filed with this application marked, "Received May 20, 1954" (3 sheets) and "November 29, 1955" (one sheet) *on condition* that all buildings and uses on the premises shall be removed and the plot shall be levelled substantially to the grade of West 22nd street, and graded with clean gravel or steam cinders and treated with a bituminous binder and properly rolled; that there shall be erected on the side lot lines, where walls of adjoining buildings do not occur, a woven wire fence of the chain link type erected on a masonry base to a total height of not less than five feet six inches; that a similar fence shall be erected along the rear lot line and attached thereto there shall be split saplings added with the face of the saplings southerly toward adjoining property; that proper aisles shall be maintained at all times for proper egress and ingress; that curb cuts shall be restricted to not over two curb cuts, each not over 15 feet in width, located where shown; that a similar woven wire fence shall be erected along the street building line, of similar height erected on a masonry base; that the opening for entrance and egress shall not exceed fifteen feet in width and shall be fitted with gates which shall be kept closed when the parking lot is not in operation; that such portable fire-fighting appliance shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to a permanent sign attached to the fence near the entrance, advertising the rates charged and such other information that may be required by the Commissioner of Licenses; that the signs shall not be illuminated and shall not extend beyond the building line nor exceed fifteen square feet; that the sidewalk and the curbing in front of the premises shall be reconstructed or restored to the satisfaction of the Borough President; that during the term of this variance there shall be no use on the premises other than as herein permitted and no buildings shall be erected except there may be a building for use solely as an office and shelter for the attendant complying with the code requirements and not more than 100 square feet in area and not more than one story in height and that all permits including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

869-54-BZ

APPLICANT—Joseph B. Koppelman, for Clarence Beeber, owner.

SUBJECT—Application November 17, 1954—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of more than 5 motor vehicles.

PREMISES AFFECTED—87 Monroe street, north side, 110 ft. east of Pike street, Block 272, Lot 4. Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph B. Koppelman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinfert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 2 height district; Monroe street and Pike Street are in retail, local retail and residence use, B area, class 2 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 18, 1954 acting on Alt. Applic. 1567-54, reads:

"1. Proposed parking lot in a residence use district is contrary to Art. II Sec. 3 of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to maintain premises as a parking lot; and

WHEREAS, the applicant further states that the property, which consists of an empty lot, was bought without knowledge of the restriction, since the neighborhood consists chiefly of garages, a power plant, factories, parking spaces and broken down tenement houses; that at the present time this plot cannot be used for a conforming use; that there have been no residential premises built in this neighborhood in many years; that even if the site would be in a business use district, the neighborhood is in such a dilapidated condition that these premises could not be developed to a conforming use, such as stores, etc.; that the zoning regulations were changed from business to residence on March 1, 1939; and

WHEREAS, the applicant contends that the conditions of lack of garage space on the lower east side are well known and an inspection of this neighborhood will show that as an empty lot with no commercial use, this lot will serve solely for the purpose of accumulating garbage and filth but if the premises are used as a parking space, same will be kept clean; and

WHEREAS, the applicant states that the present owner has held title to the property since August 1954 and that the assessed valuation of land is \$4,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles, substantially as proposed and as indicated on plans filed with this application, marked "Received November 17, 1954", 2 sheets, *on condition* that the plot shall be leveled substantially to the grade of Monroe street, surfaced with clean gravel or steam

MINUTES

cinders, treated with a binder and properly rolled; that there shall be erected on front, side and rear lot lines where walls of adjoining buildings do not occur a woven wire fence of the chain link type not less than 5 ft. 6 in. in height with no openings therein except in the fence on the front building line; that the entrance to the plot shall not exceed 12 ft. in width, as shown with curb cut opposite of similar width; that proper bumpers shall be maintained against all walls and fences for protection thereof; that signs shall be restricted to a permanent sign attached to the fence not extending beyond the building line, not illuminated and not exceeding 25 sq.ft. in area, advertising only the parking and storage use, the rates charged and such other information as may be required by the commissioner of licenses; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required, including a certificate of occupancy, shall be obtained and all work completed within six (6) months from the date of this resolution.

150-55-BZ

APPLICANT—Jacob Lubroth and Son, for Joseph Oliva, owner.

SUBJECT—Application February 24, 1955—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles (pleasure cars only).

PREMISES AFFECTED—2861-2865 West 29th street, east side, 190 ft. north of Mermaid avenue, Block 7011, Lot 61, Borough of Brooklyn.

APPEARANCES—

For Applicant: Jacob Lubroth.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 18, 1955 after due notice by publication in the Bulletin; laid over to December 13, 1955, for inspection and decision; hearing closed; applicant to submit letter to the Board from proper source stating whether West 29th street is an officially designated play street; then to January 17, 1956, for further consideration by the Board and additional information to be submitted by the applicant; then to January 24, 1956, for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, and West 29th street are in a residence use, C area, class 1 height district; Mermaid avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 8, 1955 acting on Alt. Applic. 295-55, reads:

"1. The proposed parking & storage of motor vehicles, pleasure cars only, in a Residence use district is contrary to Art. II Sec. 3 of Zoning Res."

and WHEREAS, the applicant states that the premises consist of a plot, 60 ft frontage by 118 ft. 9¾ in. in depth, presently vacant; that it is proposed to use said premises, in a residence use district, for parking and storage of pleasure motor vehicles; that the street upon which the subject plot is located was changed from business use to residence use on September 25, 1931 and there is no petition pending before the planning commission to change the use; and

WHEREAS, the applicant contends that the immediate vicinity is thickly populated and there is a great demand and necessity for off-street parking in Coney Island, especially during the summer months; that at the present time the subject plot is used for the dumping of refuse and the building of fires by children in the neighborhood; that the owner has been paying taxes on this plot since 1939, with no source of income; that this appeal is based on section 7h of the zoning resolution, to allow for a period of ten years,

the parking and storage of motor vehicles; that there will be no servicing of cars or other non-conforming uses conducted on the subject premises; that the owner will comply with all rules and regulations of all departments having jurisdiction, as well as other conditions the Board may impose; and

WHEREAS, the applicant states that the present owner has held title to the property since January 9, 1939 and that the assessed valuation of land is \$6,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant notified the Board that the designation of West 29th street as a play street was rescinded by the Department of Traffic; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles, substantially as proposed and indicated on plans filed with this application, marked "Received February 24, 1955", 2 sheets, and "November 8, 1955", 1 sheet, on condition that all buildings and uses on the plot shall be removed and the premises leveled substantially to the grade of West 29th street, surfaced with clean gravel or steam cinders treated with a binder and properly rolled; that there shall be erected on all lot lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height with no openings therein except one 12 ft. wide, as proposed and indicated on such plans; that such entrance shall be fitted with a gate and have a curb cut opposite of similar width; that the sidewalk and curbing surrounding the site shall be restored or reconstructed to the satisfaction of the borough president; that signs shall be restricted to a sign attached to the fence at the entrance, advertising the parking use, the rates charged and such other information as may be required by the commissioner of licenses; that such sign shall not exceed 15 sq. ft. in area, shall not be illuminated or extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

184-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Fanny Berger, owner.

SUBJECT—Application March 9, 1955—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and unrestricted use district, the erection and maintenance of a gasoline service station, lubricatorium, minor repairs, car washing, storage, office and sales, parking and storage of motor vehicles.

PREMISES AFFECTED—1980-1992 Ralph avenue and 5911-5923 Avenue J, northwest corner, Block 7763, Lots 45 and 46, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Ralph avenue are in

MINUTES

business and unrestricted use, D area, class 1 height districts; Avenue J is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 19, 1955 acting on N.B. Applic. 87-55, reads:

"1. On a lot located partly in an unrestricted use and partly in a business use district, the proposed gasoline service station, lubritorium, minor auto repairs, car washing, storage, office and sales, toilets, parking and storage of motor vehicles, is contrary to Art. II Sec. 4(a) PP. 29, 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 123 ft. 5½ in. frontage by 107 ft. 10⅛ in. in depth, irregular, presently vacant; that it is proposed to erect and maintain a one story building of class 3 construction, 60 ft. front, 30 ft. in depth, 14 ft. in height, for use as a gasoline service station, lubritorium, minor auto repairs, car washing, storage, office and sales and parking and storage of motor vehicles; and

WHEREAS, the applicant further states that the use district maps show that the premises are in a class D area district and class 1 height district; that part of the premises within 100 ft. of Avenue J is in a business use district and the balance of the premises are in an unrestricted use district; that as of July 25, 1916 the entire plot was in an undetermined use district and received its present use designation on December 12, 1930; that as of July 25, 1916 that part of the premises within 100 ft. of Avenue J was in a class 1½ height district, the balance of the premises was in a class 1 height district and the site received its present height designation on July 29, 1939; that the premises are presently vacant and it is proposed to secure a variance, for a period of 15 years, in order to erect a modern gasoline service station consisting of ten 550 gallon gasoline tanks and six dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 60 ft. and a depth of 30 ft.; that this building will contain the conjunctive uses of lubritorium, minor auto repairs, car washing, storage, office and sales; that a portion of the open area will be used for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that Ralph avenue is a heavily trafficked auto lane and as such the proposal will be entirely within keeping at this point; that the site being partly in a business use district and partly in an unrestricted use district, a gas station could be erected at the north end of the site and it is only requested that the proposed gas station use, which is permitted in part of the lot, be extended to the entire lot; that adjoining the site on the west is now being used for stock piling of refuse from the incinerator in block 7783; that there is a non-conforming use of auto parts junk yard directly across from the site in block 8340, lots 3, 9, 13 and 14, and block 8341, lots 13, 19 and 25; that the present incinerator in block 8340, lot 13, together with the stock piling of refuse adjacent to the site, renders the site unuseable for anything but as proposed; that block 7763, which includes part of the site in question, is unrestricted up to within 100 ft. of Flatlands avenue; that a good portion of the north side of Ralph avenue known as block 8338, lot 1 also within the affected area, is also in an unrestricted zone; and

WHEREAS, the applicant states that Avenue J is shown on the city planning maps as a mapped street, but the City does not have title to said land to a distance of 107 ft. south of Ralph avenue and no proceedings are pending to acquire title; that the unrestricted character of this area has produced a hardship upon the owner to attempt to use the site for a conforming use; and

WHEREAS, the applicant states that the present owner has held title to the property since November 19, 1953 and that the assessed valuation of land is \$4,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the extension of use into a more restricted area, substantially as proposed and as indicated on plans marked "Received March 9, 1955, 3 sheets, December 1, 1955, 1 sheet, on condition that all buildings and uses shall be removed and the premises leveled substantially to the grade of Ralph avenue, constructed and arranged as shown on such plans; that the accessory building shall comply in all respects with the Building Code; that there shall be no windows in the rear wall opening on adjoining premises; that such building shall have no cellar and be of face brick on all exterior sides except the rear which may be of common brick; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building line of Ralph avenue and Avenue J; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to two, each 30 ft. in width, to Avenue J and two of similar width to Ralph avenue; that no curb cut shall be nearer than 5 ft. to any lot line as prolonged; that at the intersection there shall be constructed and maintained a block of concrete not less than 12 in. in height, extending for not less than 5 ft. along each street line from the intersection; that signs shall be restricted to permanent signs on the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend beyond the building line for a distance of not over 4 ft.; that along the rear and side lot lines to the north there shall be constructed a woven wire fence of the chain link type, erected on a masonry base, not less than 5 ft. 6 in. in total height; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that there may also be parking and storage of motor vehicles; that under section 7i there may be minor repairing of motor vehicles by hand tools only, for minor adjustments, maintained solely within the accessory building; that sidewalks and curbs shall be constructed or repaired to the satisfaction of the Borough President; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

227-55-BZ

APPLICANT—Robert Teichman, for Brunlee Realty Corp., owner.

SUBJECT—Application March 15, 1955—(decision of the borough superintendent) under sections 7b and 7c of the zoning resolution, to permit in a business and residence use district, the extension of existing public parking lot from business use portion of plot into the residence portion of the plot.

PREMISES AFFECTED—1023-1029 Clay avenue, west side, 50 ft. south of East 165th street and 996-1004 Teller avenue, Block 2424, Lots 11 and 19, Borough of The Bronx.

WHEREAS, the district maps accompanying the zoning resolution show that the site, Clay avenue and Teller avenue are in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated February 16, 1955 acting on Alt. Applic. 117-55, reads:

"1. The proposed extension of the parking lot into a Residence use district is contrary to Sect. 3 of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 77.10 ft. frontage by 250.97 ft. in depth, on which is located a four-car metal garage and a public parking lot for more than five motor vehicles in the business use portion of the plot, for which certificate of occupancy No. 15599-55 has been filed; that it is proposed to extend the parking into the residence use portion of plot; and

WHEREAS, the applicant states that this site was under single ownership prior to 1940, being owned by the Loro Holding Corporation of 556 Gerard avenue, The Bronx, on November 25, 1938; that this information was obtained from the office of the Registrar, The Bronx (see Cal. No. 1086-38-BZ); and

WHEREAS, the applicant contends that the lot upon which this appeal is made is situated so that the northerly 50 ft. facing Clay avenue is within the business zone area of East 165th street, while the southerly 27.10 ft. lies in a residential district which extends back or westerly approximately 144.70 ft., abutting the business zone area of the plot facing Teller avenue; that the portion of this lot located in the business zone is now used for parking as per certificate of occupancy No. 15599-55, while the adjoining lot No. 1 to the south is also used for parking, this privilege having been granted by the planning commission under their Cal. No. 165 on August 26, 1954, for parking more than 150 cars; that this leaves the southeast corner of the plot, upon which this appeal is made, in a residential zone, entirely surrounded by parking, and therefore appeal is made to the Board for permission to use this portion of the lot for additional parking, the same as in use for the balance of the plot; and

WHEREAS, the applicant states that the present owner has held title to the property since 1946; that the assessed valuation of land is \$20,500 and of the building \$2,000 making a total of \$22,500; that the building was erected in 1954; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the extension of the public parking lot now existing in the business use portion of the lot to be extended into the residence use portion, as shown and indicated on plans filed with this application, marked "Received March 15, 1955", 2 sheets and "January 15, 1956", 2 sheets *on condition* that there shall be erected along the building lines of Teller and Clay avenues a woven wire fence of the chain link type erected to a height of not less than 5 ft. 6 in.; that similar fences shall be erected on the interior lot lines to the north and south except where the woven wire fence exists around the parking lot to the south on lot 1; that the plot shall be leveled, covered with steam cinders or clean gravel, treated with a binder and properly rolled and drained; that such portable fire-fighting equipment shall be installed as the fire commissioner shall direct; that signs shall be restricted to one attached to the fence at each gate, advertising the parking use the rates charged and such other information as may be required by the commissioner of licenses; that such signs shall not be illuminated or extend beyond the building line; that curb cuts shall be limited to an existing 12 ft. curb cut on Teller avenue and the existing 50 ft. curb cut on the Clay avenue end of the property;

that in all other respects the premises and use shall comply with all laws and regulations pertinent thereto: and that all permits, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

261-55-BZ

APPLICANT—O'Connell and McInerney, for Rose Gallagher, owner.

SUBJECT—Application April 1, 1955—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use, D area district the erection of a 2 story nonfireproof building with a cellar, 3 stories on the street level and 2 professional offices and 2 apartments on the second floor, using more than the area permitted.

PREMISES AFFECTED—220-226 Beach 129th street, east side, 220 ft. south of Cronston avenue, Block 722, Lot 62, Belle Harbor, Borough of Queens.

APPEARANCES—

For Applicant: Daniel J. O'Connell and Michael Gallagher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner

Keating and Deputy Chief Connolly..... 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 24, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, D area, class 1 height district; Beach 129th street is in business and residence use, D area, class 1 height districts; Cronston avenue is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 4, 1955 acting on N.B. Applic. 151-55, reads:

"1. Area occupied by structure on plot in a D zone is in excess as permitted under Article IV, Sec. 14 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect a two story, non-fireproof building with a cellar, three stores on the street level and two professional offices and two apartments on the 2nd floor; and

WHEREAS, the applicant contends that Beach 129th street is the only business use area between 116th street and Beach 166th street; that the neighborhood has developed very rapidly in the past five years and is in dire need of business facilities, both stores and offices; that because of the resort character of the area, apartments and dwellings are in great demand; that it has been the custom in the past, in this neighborhood, to occupy a greater percentage of the building area than permitted by the zoning resolution; that the lots to the north and to the south are occupied almost 100% by buildings; that in addition, it is proposed that the present buildings have a rear yard of 20 ft., which will be equal in height to the structure and will exceed the legally required rear yard for a D district; that the present owners have held this property for the last 10 years; that the property is assessed at \$14,000 and in order to erect an economical feasible structure, it is necessary that 65% of the area be occupied; that the total area of the lot is 8,000 sq.ft.; permitted under existing zoning, 4,400 sq.ft.; request variance to occupy 5,100 sq.ft.; excess, 700 sq.ft.; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is there-

MINUTES

fore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit in a D area, business use district, the erection of a two story, non-fireproof building, with a cellar, three stores on the street level, and two professional offices and two apartments on the second floor, using more than the area permitted *on condition* that the two side yards, or courts, 13 feet wide, and the rear yard 20 feet in depth, shall be maintained clear and unoccupied from the grade level to the sky; that the building shall be limited to a two story structure as shown on plans filed with this application marked "Received April 1, 1955" (6 sheets) and "January 18, 1956" (one sheet); that the building shall not be increased in height or area beyond that as shown; and that all permits shall be obtained and work completed and a Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

301-55-BZ

APPLICANT—Martin Isaacs, for RoNan Service Inc., owner.

SUBJECT—Application April 6, 1955—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business use district, the demolition of existing buildings and the erection and maintenance of a structure to be used as an automatic auto laundry.

PREMISES AFFECTED—136 East Broadway, north side, 210 ft. 5 in. east of Pike street and 125-125½ Division street, south side, 212 ft. east of Pike street, Block 283, Lots 59 and 86, Borough of Manhattan.

APPEARANCES—

For Applicant: Martin Isaacs.

For Opposition: Nathan Messinger and Jeremiah Leoy.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, B area, class 1½ height district; East Broadway is in business and retail use, B area, class 1½ height districts; Division street is in business and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 31, 1955 acting on N.B. Applic. 55-55, reads:

"1. Proposed new building for automobile laundry use in a business district is contrary to Sec. 4(a) (52) Article II Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 125 ft. 3 in. in depth, irregular; that it is proposed to erect a one-story, fireproof building, to be used as an auto laundry, with a curb cut in front of 125-125½ Division street; and

WHEREAS, the applicant states that the use district was changed from unrestricted to business use on March 1, 1939; and

WHEREAS, the applicant further states that on the premises are old buildings and it is proposed to raze these structures; that the physical appearance of the adjoining properties is tawdry, old and in bad condition and the new fronts on the proposed structure should improve these conditions; and

WHEREAS, the applicant requests a variance of the use

district regulations in this case and temporary and conditional permission to use the premises as shown on N.B. 55-55 for an automobile laundry until such time as the physical appearances and adjoining occupancies warrant the erection of a conforming structure; and

WHEREAS, the applicant states that the present owner has held title to the property since March, 1955; that the assessed valuation of land is \$13,500 and of the buildings \$17,000 making a total of \$30,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which gave consideration to the arrangement and particularly the location, and in view of the crowded condition of the area and the concentration of cars that might occur, the committee recommends that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 55/55, Objection No. 1 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

302-55-BZ

APPLICANT—Lama, Proskauer and Prober, for John M. Ell, owner (Felix Fezzuologlio, lessee).

SUBJECT—Application April 6, 1955—(decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a business use district, the proposed change in occupancy from boiler room, garage for 5 cars and showroom to boiler room, body and fender repairs, wheel and frame alignment, welding, painting and spraying, parking of cars waiting to be serviced.

PREMISES AFFECTED—1469-1471 86th street, north side, 100 ft. west of 15th avenue, Block 6340, Lot 48, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 86th street are in a business use, D area, class 1 height district; 15th avenue is in business and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 7, 1955, acting on Alt. Applic. 384-55, reads:

"1. On a lot located in a business use district, the proposed change of occupancy from boiler rm., garage for 5 cars and showroom, to boiler room, body and fender repairs, wheel and frame alignment, welding, painting and spraying, parking of cars waiting to be serviced, is contrary to Art. IV, Sec. 4(a), PP. 4 & 29 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 56 ft. 10½ in. frontage by 100 ft. in depth, irregular, on which is located a one-story building of class 3 construction, having a frontage of 40 ft. and a depth of 62 ft.; that this building was erected in 1925 under permit No. 2593-1925 and certificate of occupancy No. 33707 was issued on June 13, 1925 for use as garage for five cars and showroom in front; that the premises are now being used for boiler room, body and fender repairs, wheel and frame alignment, welding, painting and spraying, office and parking of cars awaiting service; that it is proposed to secure a variance for a period of 15 years in order to maintain the

MINUTES

existing uses of boiler room, body and fender repairs, wheel and frame alignment, welding, painting and spraying, office and parking of cars awaiting service; that there are three non-conforming uses within the affected area as follows: Block 6357, lot 33—gas station; block 6340, lots 51, 38 and 43—gas station and lumber yard; that the proposal is situated between two of the above non-conforming uses which precludes its use for anything other than as proposed; that the building since its inception has always been related to the automobile industry and is entirely within keeping at this point; and

WHEREAS, the applicant contends that the high assessed value of the property makes it mandatory for the owner to convert this building as proposed, so that he may continue to pay city taxes and receive an equitable return on his investment; and

WHEREAS, the applicant states that the present owner has held title to the property since November 13, 1929; that the assessed valuation of land is \$7,900 and of the building \$10,100 making a total of \$18,000; that the building was erected in 1925; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted that there had been an application before the Board for the erection of a garage and repair shop under Cal. 625-23-BZ, which was dismissed because the plan was approved by the Department of Buildings for a five-car garage; the committee also noted that this building has been unlawfully used for repairing since that time, which use is now sought to be legalized; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c and 7i, to permit the repairing of motor vehicles, including painting, welding and spraying, and parking of cars awaiting service; that such repairing shall be maintained within the building as existing, as shown on plans filed with this application, marked "Received April 6, 1955", 4 sheets, *on condition* that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws and rules and applicable to the building and occupancy; that there shall be maintained on the rear and side lot lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that curb cuts shall be as shown, consisting of two, one 12 ft. in width and one 10 ft. wide, for which proper permits shall be held; that the sidewalk and curbing abutting the premises shall be repaired and maintained to the satisfaction of the borough president; that the space on the plot which is unbuilt upon shall be paved with concrete or asphalt; that curb cuts maybe of the width and location shown subject to lawful permits; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

119-55-BZ

APPLICANT—Paul Friedman, for Maude A., Anna M. and Raymond J. Seel, owners.

SUBJECT—Application May 24, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline station, lubritorium, car wash (non automatic), minor repairs, office, sales and storage of auto accessories, and parking of cars awaiting servicing, for a term of 15 years.

PREMISES AFFECTED—244-04 to 244-08 Francis Lewis boulevard and 243-02 to 243-06 South Conduit avenue, southwest corner and 139-03 to 139-11 243rd street, Block 13599, Lot 25, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: S. Roth.

For Administration: Samuel L. Becker, Dep't of Buildings.
ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 25, 1955 after due notice by publication in the Bulletin; laid over to November 29, 1955, for inspection and decision; hearing closed; then to December 20, 1955, for decision; hearing closed; then to January 17, 1956, for further study by the Board; then to January 24, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Francis Lewis boulevard and South Conduit avenue are in a retail use, D area, class ½ height district; 243rd street is in retail and residence use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 26, 1955 acting on N.B. Applic. 1453-55, reads:

"1. Proposed gasoline service station, lubritorium, car washing (non-automatic), minor repairs, office, sales and storage of auto accessories, parking of cars awaiting servicing in a Retail use district is contrary to Art. 2 Sec. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 79.80 ft. frontage on Francis Lewis boulevard by 32.33 ft. on South Conduit avenue and 98.74 ft. on 243rd street, on which there exist three one story frame buildings of class 3 construction and one stucco building, also of class 3 construction; that it is proposed to erect and maintain a gasoline service station, lubritorium, car wash (non-automatic), minor repairs, office, sales and storage of auto accessories and parking of cars, for a term of fifteen years; that the station will be 44 ft. front, 27 ft. 8 in. in depth and 14 ft. 8 in. in height; that as of July 25, 1916 the property was zoned as a business district and a one times height district; that the present retail designation became effective on January 21, 1947 and the present class ½ height designation became effective on June 30, 1952; that the area designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant further states that the three frame buildings are presently vacant and the stucco building is presently used as a real estate office; that there are no records on file of any permits, plans or applications having been issued or approved for these buildings; that a small triangular portion of the premises is in the bed of a mapped (245th) street and is not included in this application as it is not intended to use any of the property within the bed of the mapped street for any of the proposed uses; and

WHEREAS, the applicant contends that the present buildings are antiquated, capable of yielding only small rentals which are insufficient to constitute a reasonable return from the property; that there is no economic demand for the construction of retail stores at the subject premises as nearby stores adequately serve the needs of the neighborhood, nor is there any economic demand for development of the premises for residential purposes as the property is situated on a plot having a frontage on a heavily trafficked street and having frontage on two other streets which carry more than the ordinary amount of traffic; that there is an economic demand for a gas station and accessory uses, as its unique location, fronting on two well-travelled streets and one heavily trafficked artery gives assurance that a substantial investment in the proposed use will yield a reasonable return on the investment; that a grant of this application would not adversely affect the neighborhood, as properties north, east and west of the premises would in no way be affected adversely and because the properties south of the premises would receive greater protection through the regulatory zoning restrictions imposed by the Board as conditions to the zoning variance than they would

MINUTES

receive if the property were developed without a zoning variance and in compliance with the zoning resolution, but free of regulatory conditions such as the Board might impose; that a grant of this application would have no adverse effect upon real estate values in the area and would result in a substantial increase of the assessed valuation of and tax revenue from the property; that for example, on March 21, 1950 the Board granted on condition under Cal. No. 866-49-BZ a gas station and accessory uses at Francis Lewis boulevard and 47th avenue; that the vacant land was assessed for \$7,500 and two years later, after the station was built, the land was assessed for \$54,000 and the building was assessed for \$18,000, an increase of \$64,500 in valuation; that it is significant to note that although the total assessed valuation of land in the area of notification, exclusive of the gas station premises, increased during those two years about 14%, the total assessed valuation of the gas station land increased 72%, and, except for one small irregular lot, every piece of property in the area of notification either maintained or increased its assessed valuation; that furthermore, the 500 foot radius diagram submitted with that application showed only 23 dwellings in existence at that time, but that within 3 years thereafter there were 69 dwellings in the same area, clear proof that the grant of the application subject to regulatory conditions imposed by the Board had not retarded the residential development of the surrounding area; that a grant of this application would improve the appearance of the neighborhood by the elimination of the antiquated frame buildings on the lot and by the erection of a modern and attractively designed service station suitably buffered with attractive landscaping and fence walls; that the proposed structure, set back from the intersections, would promote public safety by providing clear visibility to traffic, while a retail store built to the intersecting street lines (without a variance) would create blind intersections and thereby endanger public safety; and

WHEREAS, the applicant states that title to the property has been held as follows: Maude A. Seel, since November 6, 1948; Anna M. Seel, since April 30, 1945 and Raymond J. Seel since February 25, 1941; that the present assessed valuation of land is \$16,500 and of the building \$3,500 making a total of \$20,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied as a gasoline service station and accessory uses thereto substantially as proposed and as indicated on plans filed with this application marked, "Received May 24, 1955" (5 sheets) *on condition* that all buildings and uses on the premises shall be removed and the plot shall be graded substantially to the grade of the adjoining streets, as recently improved, and shall be of the dimensions as indicated on such plans including provision for the widening of Francis Lewis boulevard; that the buildings and uses shall be as indicated on such plans; that the accessory buildings shall be faced with face brick on all sides; that on the interior lot lines to the east and south there shall be erected a masonry wall of face brick, agreeing with the face brick used on the accessory building, to a total height of five feet six inches, except that such wall may be reduced within ten feet of either building line to a height of not less than four feet; that there shall be no cellar under the accessory building; that the pumps shall be of a low approved type, erected not nearer than fifteen feet to the street building lines, where shown; that curb cuts shall be restricted to two curb cuts to Francis Lewis boulevard each twenty feet in width and two to 243rd street each thirty feet in width and one to South Conduit avenue twenty feet in width, as shown; that no portion of any curb cut shall be nearer than five feet to a lot line as prolonged; that

at the intersection of Francis Lewis boulevard and South Conduit avenue there shall be erected a block of concrete not less than twelve inches in height and extending for a distance of not less than five feet along either building line; that there shall be a similar block of concrete within the intersection of South Conduit avenue and 243rd street; that planting shall be maintained in the area where shown, with suitable planting material and properly protected with a concrete curb not less than ten inches in height above grade, and ten inches wide; that the side walk and curbing around the premises shall be restored or reconstructed to the satisfaction of the Borough President; that under Section 7i for a similar term there may be minor repairing with hand tools only for adjustments maintained within the accessory building; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved storage tanks; that signs shall be restricted to permanent signs attached to the front facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of Francis Lewis boulevard and 243rd street, to the south, of a post standard for the supporting of a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that complete working drawings shall be submitted to the Board for further consideration and approval before same are filed with the Borough Superintendent; that such plans shall be filed within thirty days; and that all permits shall be obtained and all work completed thereafter under the terms of Section 22A of the Zoning Resolution.

425-55-BZ

APPLICANT—Robert Teichman, for 352 West 42nd street, Corp., owner (Pearl-Kinney Corp., lessee).

SUBJECT—Application May 25, 1955—(decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail use district the proposed open type parking garage for more than 5 cars.

PREMISES AFFECTED—350-358 West 42nd street, south side, 82 ft. east of 9th avenue, Block 1032, Lot 58, Borough of Manhattan.

APPEARANCES—

For Applicant: Eugene M. Seccia.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 6, 1955 after due notice by publication in the Bulletin; laid over to January 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and West 42nd street are in a retail use, B area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated April 26, 1955 acting on N.B. Applic. 17-55, reads:

"2. Proposed open type parking garage for more than 5 cars is contrary to Sec. 4A of Z.R. since premises is located in a retail district.

3. If gasoline or oil is to be sold on the premises, show compliance with 21A of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 93 ft. frontage by 98 ft. 9 in. in depth, which is presently being used for parking and storage of more than five cars; that it is proposed to erect a one story building of class 1 construction, 93 ft. front, 98 ft. 9 in. in depth, 10 ft. in height, for use as open type parking garage; and

MINUTES

WHEREAS, the applicant states that the premises consist of vacant land being used for the parking of more than five automobiles and having been used for such purpose since February 4, 1954 approved under Alt. Applic. 64-1952 and certificate of occupancy No. 42165; that the premises have been located in a B area district since July 25, 1916 to date; that the premises were in a business use district from July 25, 1916 to November 13, 1936 when the use was changed to retail; that the premises were located in a 1½ times district from July 25, 1916 to February 19, 1932 when the height use was changed to class 2; that in order to increase the capacity of the existing and legal parking lot, it is proposed to erect a one story fireproof open type parking garage structure with parking on the roof of same; that the building will be open on the street front with masonry enclosure walls on the interior lot lines and the roof will be protected with masonry parapets 5 ft. 6 in. high at street front and 3 ft. 6 in. high on all other sides; that there will be no gasoline or oil sold on the premises; and

WHEREAS, the applicant contends that this immediate neighborhood contains numerous large buildings such as offices, theatres, hotels, stores, including the Port of Authority Bus Terminal, all of which create a great demand for parking space, which demand cannot be satisfied by the present parking facilities; that in order to provide additional parking facilities and accommodations to meet this great demand, the owners are willing to invest the sum of \$75,000 which will enhance the city's revenue by additional taxes as well as help relieve the parking situation in this neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since January, 1950 and that the assessed valuation of land is \$265,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted that the plot at present is used for parking under a permit issued by the Department of Buildings and under a certificate of occupancy therefor and recommends that the application be granted to permit the erection of a building on the plot for the extension of the parking use; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of twenty years, to permit the construction and occupancy of a one-story and roof parking and storage garage, substantially as proposed and as indicated on plans filed with this application, marked "Received May 25, 1955", 3 sheets and "November 30, 1955", 1 sheet, *on condition* that the building shall have no cellar and in all other respects shall comply with the requirements of the Building Code; that parking on the roof may be permitted as proposed provided that the parapet walls on all sides shall be not less than 5 ft. in height and reinforced so as to be made safe; that such portable fire-fighting appliances shall be installed as the fire commissioner may direct; that signs shall comply with the requirements of a retail district; that curb cuts shall be restricted to two, as shown, and now existing, for which proper permits shall be obtained; and that the sidewalks and curbing in front of the premises shall be reconstructed or restored to the satisfaction of the borough president; that there shall be no repairing or sales of gasoline or oil; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

800-55-BZ

APPLICANT—T. S. Nilsen, for J. F. and Mary E. Lombard, owners.

SUBJECT—Application October 13, 1955—(decision of the borough superintendent) under section 21 of the zoning

resolution, to permit in a residence use, G-1 area district, the relocation of an existing dwelling on a lot so as to have less than the required 15 ft. setback from the line of Horace Harding expressway as widened.

PREMISES AFFECTED—61-11 213th street, southeast corner of Horace Harding boulevard, Block 7603, Lot 1, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Benjamin Wasser.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 24, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, G-1 area, Class 1 height district; the north side of Horace Harding Expressway is in a G area district; the south side of Horace Harding Expressway and 213th street are in a G-1 area district; and

WHEREAS, the decision of the borough superintendent, dated October 3, 1955, on Alt. App. 2204/55 reads:

"1. In a G-1 area, no portion of any building shall be erected nearer than 15 ft. to the street line of any street, sec. 16-0 of the Zoning Res."

and

WHEREAS, the applicant states the premises now consist of a lot fronting 60 feet on Horace Harding Boulevard and 140 feet on 213th street, located in a residence use, G-1 area, Class 1 height district, on which there exists a 1½ story, frame, 1 family dwelling, 27 ft. by 40 ft. 1¾ in. in area, it is now proposed to reduce the area of lot to 40 ft. front on 213th street with a depth of 100 feet therefrom and to erect on such reduced lot a 1½ story, frame, 1-family dwelling, 21 ft. in height, 40 ft. 1¾ in. front by 24 ft. 7 in. in depth; and

WHEREAS, the applicant contends that the dwelling is now located in the path of the newly widened Horace Harding Expressway and will have to be removed or demolished; that the owner owns the property adjacent to the dwelling and desires to move his house to the new location; that the proposed location of the dwelling is 16 ft. back from the building line on 213th street and 10 ft. back from building line on Horace Harding Expressway; and

WHEREAS, the applicant contends there are many dwellings along the newly widened Expressway that will be much less than the 15 ft. required by the G-1 zone; that the dwelling directly at the rear of the proposed dwelling is only about 5 feet from the Horace Harding building line; that most of the dwellings in the vicinity were built according to the D zone requirements, as the zone was changed to G-1 on January 14, 1953; that there are very few vacant lots left in the neighborhood on which dwellings can be built according to the new G-1 regulations; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit the dwelling to be located substantially as proposed and as indicated on plans filed with this application marked "Received October 13, 1955" (six sheets) and "December 9, 1955" (one sheet) *on condition* that the yard shall not be reduced beyond the dimensions indicated on such plans; that in all other respects the building and occupancy shall

MINUTES

comply with all laws, rules and regulations applicable thereto; that the curb cut in the widened Horace Harding Boulevard, for access to the parking space of the garage at the rear, as proposed, shall not exceed fifteen feet; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 1:45 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

617-52-SM

APPLICANT—Conver Steel and Wire Co., for Level-Line Ceilings, Inc., owner.

SUBJECT—Application August 4, 1952—Level-Line Hanger for use on construction of hung-ceilings, approval of.

APPEARANCES—

For Applicant: T. A. Lenane.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly..... 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 617-52-SM

Subject: Level-Line Hanger.

Conver Steel and Wire Company, for Level Line Ceilings, Inc., filed August 4, 1952 an application with the Board of Standards and Appeals for approval of the material known as Level-Line Hanger under the provisions of C26-191.0 and C26-461.0 Administrative Building Code.

Purpose

This material is to be used in the construction of suspended ceilings.

Description

The Level-Line Hanger consists of a $\frac{3}{8}$ " round rod furnished in multiples of 6"; the lower end threaded 6" to furnish the adjustment. To this lower end, a clip of 14 gauge copper bearing steel, screws onto the threaded portion which permits, by turning or rotating the clip, the raising or lowering the clip to the desired level. This clip is designed to carry the $1\frac{1}{2}$ " channel and when the channel is inserted into the clip, the tabs on the clips are bent thus securing the channel in place.

In application, the hangers of a size and spaced in accordance with the requirements of C26-461.0 are first installed. The Level-Line rod, having a hooked end is then inserted in the $\frac{3}{8}$ " holes in the hanger or toggle hanger and the channels are suspended, as described above, from the Level-Line rod and clip.

Inspection and Test

The device was tested at Columbia University in the following manner:

The test piece consisted of three parts (1) a tee shaped supporting hanger, composed of 1" channel, to which was riveted a vertical leg of 7" x 1" x $\frac{3}{16}$ " steel plate; (2) the Level-Line Rod and Clip, the rod being hooked at one end to engage a $\frac{3}{8}$ " hole in the steel plate and (3) a $1\frac{1}{2}$ " steel channel, held in place by the clip of the Level-Line assembly. This assembly was then loaded by a tensile load to determine where and at what load the assembly would fail. The failure occurred at an average load of 1040 lbs. by failure of the clip which broke at the lower top.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Level-Line Hanger for voluntary use in the construction of suspended ceiling, under the provisions of C26-461.0 Administrative Building Code as amended by Local Law 103 of 1955 on condition that the Level-Line Hangers be spaced in accordance with the provisions of the above mentioned section of the Administrative Building Code and that each carton or container in which the material is marketed shall be labeled, tagged or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 617-52-SM."

(Sgd.) HARRIS H. MURDOCK,

Chairman,

LESLIE V. HUBER,

Chief Engineer,

JOHN A. DARTS,

Assistant Engineer.

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

183-54-SM

APPLICANT—The Wiremold Company, owner.

SUBJECT—Application reopened November 9, 1955 as to change in model designation—re Wiremold Flexible Connector; previously approved.

APPEARANCES—

For Applicant: Kenneth Davidson.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 183-54-SM

Subject: Amendment as to change in model designation.

Wiremold Company, Hartford, Conn., requested by letter dated October 10, 1955 that the resolution adopted January 18, 1955 under Cal. No. 183-54-SM be amended so as to change the model designation of the Wiremold Flexible Connector Type 513-SA (approved by the Board January 18, 1955 under Cal. No. 183-54-SM). The application was reopened by a vote of the Board November 9, 1955.

Purpose

The connector is to be used as a connector between branch lines and air diffusers on air conditioning systems.

Description

The Type 52-1A is identical to the Type 513-1A the only change being in model designation as a means of company identification.

Recommendation

The Committee on Test recommends that the resolution adopted January 18, 1955 under Cal. No. 183-54-SM be amended so as to include the material known as Wiremold Flexible Connector Type 52-1A on condition that the requirements of the resolution adopted January 18, 1955 under Cal. No. 183-54-SM be complied with.

(Sgd.) HARRIS H. MURDOCK,

Chairman,

LESLIE V. HUBER,

Chief Engineer,

JOHN A. DARTS,

Committee on Test.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 18, 1955 in accordance with the above report.

734-54-SM

APPLICANT—Seelye, Stevenson Value and Knecht, for Granco Steel Products Co., owner.

SUBJECT—Application reopened September 13, 1955 as to amendment to resolution as to additional insulation fill—re Corruform and Tufcor Steel Deck (fire resistive roof for industrial construction); previously approved.

APPEARANCES—

For Applicant: William A. Faiella.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly..... 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 734-54-SM

Subject: Amendment to resolution as to additional insulation fill.

Seelye, Stevenson, Value and Knecht, New York for Granco Steel Products Company, owner requested by letter dated July 12, 1955 that the resolution adopted June 28, 1955 under Cal. No. 734-54-SM be amended so as to permit the use of additional insulation fill. The application was reopened by a vote of the Board September 13, 1955.

Recommendation

The Committee on Test recommends that the resolution adopted June 28, 1955 under Cal. No. 734-54-SM be amended so as to permit the use of other approved concretes in addition to or in lieu of the Per-Alex (perlite concrete) as approved June 28, 1955 under Cal. No. 734-55-SM, as an insulating concrete on top of the Corruform and/or Tufcor roof deck, on condition that the insulating concrete shall not weigh more than 35 lbs. per cu. ft. and that the safe carrying capacity of the deck, without the weight of deck and insulating slab and all other requirements of the resolution adopted June 28, 1955 under Cal. No. 734-54-SM shall be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 28, 1955 in accordance with the above report.

541-55-SM

APPLICANT—Pittsburgh Reflector Co., owner.

SUBJECT—Application June 23, 1955—Pittsburgh Reflector Co., Luma-Ceiling, No. 10, approval of.

APPEARANCES—

For Applicant: Eric D. Altree.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 541-55-SM

Subject: Pittsburgh Reflector Company Luma-Ceiling, No. 10.

J. T. Driscoll, New York for Pittsburgh Reflector Company, Pittsburgh, Pa., filed June 23, 1955 an application with the Board of Standards and Appeals for approval of the Pittsburgh Reflector Company, Luma-Ceiling No. 10 under the provisions of C26-461.1 Administrative Building Code.

Purpose

The ceiling is to be used as a light diffuser and also to provide acoustical treatment.

Description

The system consists of corrugated translucent plastic sheets supported on metal members which are themselves suspended from the ceiling, floor or roof above. Acoustical baffles when used, are suspended and carried by the metal carrying members.

The plastic sheet is corrugated rigid vinyl chloride vinyl acetate sheet that contains no plasticizer. The corrugation has frequency of 11 per ft. and an amplitude of 7/16". The thickness of the material is 0.0075".

The ceiling clip is a sheet steel member in the shape of an angle. The acoustical baffle is of the same material as the carrying members and is 5 5/8" deep.

The installation is as follows:

The steel ceiling is attached directly to the ceiling, floor or roof above and the 1/4" cadmium steel "J" hook assembly is inserted into slot in the clip. The main suspension clamp, which is so arranged as to hold the main carrying member, is attached to the steel hook assembly.

The main carrying members which are of aluminum are then attached to the suspension clamp. The hook assembly and suspension clamp are installed 3'-0" on centers in one direction and a maximum of 8'-0" centers in a direction perpendicular to those on 3'-0" so that a grillage is set up supporting 3'-0" in one direction and 8'-0" in the other directions.

Inspection and Test

Load tests were conducted in the presence of Asst. Engr. J. A. Darts Committee on Test and J. T. Driscoll representing the applicant.

The load tests were conducted on the plastic itself in both downward and upward directions and on the main carrying member in both upward and downward directions.

The plastic material itself has been approved by the Board under Cal. No. 427-52-SM on October 5, 1954.

Results of the test were as follows:

- A. Plastic downward— 5 lbs./sq. ft.—plastic not dislodged.
- B. " upward —15 lbs./sq. ft.—plastic forced upward.
- C. Track downward —25 lbs. at joint of rail—no deflection.
- D. Track up —20 lbs. under joint—1/16" deflection.

Recommendation

On the basis of the inspection and test and the data led by the applicant, the Committee on Test recommends the approval of Pittsburgh Reflector Company, Luma-Ceiling, No. 10 (plastic light diffusing ceiling) for installation in New York City when constructed of materials as herein described and installed in accordance with the requirements of C26-461.1 Administrative Building Code on condition that the main carrying members shall be carried on straps as herein described, secured to the ceiling floor or roof construction above that wires shall not be used in the suspension system and further that all plans filed with the Department of Housing and Buildings showing the proposed use of this system shall be marked or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 541-55-SM," and the containers or cartons in which the material is marketed shall be similarly marked. It is further recommended that the use of this material in Class I and II construction be limited to an area to be covered not to exceed 10,000 sq. ft. in area and only when such space is separated from the remainder of the floor area by an approved wall, fired wall, fire partition or fireproof partition. In Class III construction shall be limited in accordance with the requirements of the Administrative Building Code.

MINUTES

The Committee further recommends that as C26-1354.0 Administrative Building Code was amended by Local 105 of 1955 to allow the use of this type of light diffusers in locations as permitted under C26-1351 Administrative Building Code as amended by Local Law 91 of 1954 the plans filed with the Department of Buildings shall also show the proposed occupancy so that the use of this ceiling in the proposed location may be checked as to its use in the type of hazard occupancy as set forth under C26-1351.1 as amended by Local Law 91 of 1954. The Committee further recommends that, in approving the installation the Department of Buildings, shall require that, in the event of the change of occupancy, the installation shall be re-examined under C26-1354.0 Administrative Building Code, as amended by Local Law 105 of 1955.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

822-55-SM

APPLICANT—Conver Steel and Wire Company, Inc., owner-manufacturer (The Fireproof Products Co., Inc., agent).

SUBJECT—Application September 30, 1955—re Conver-Zinaloy Zinc Cavity Wall Tie (wall tie for anchoring hollow wall withes together—cavity wall), approval of.

APPEARANCES—

For Applicant: T. A. Lenane.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly..... 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 822-55-SM

Subject: Conver-Zinaloy Zinc Cavity Wall Tie.

Fireproof Products Company, New York for Conver Steel and Wire Company Inc., New York filed September 30, 1955 an application with the Board of Standards and Appeals for approval of the material known as Conver-Zinaloy Zinc Cavity Wall Tie under the provisions of C26-430.0.f Administrative Building Code.

Purpose

The material is to be used as a wall tie for anchoring hollow wall withes together.

Description

The wall tie of Zinaloy Zinc is made of a special grade zinc alloy with a minimum of $\frac{3}{4}$ of 1% copper.

The alloy has the following properties:

Specific Gravity	7.15
Weight—lbs./cu. in.	0.259
Electrical conductivity	27.5
Mechanical Properties	
Tensile Strength	
Parallel to grain	29,000—32,000 lbs.
Across grain	35,000—42,000 lbs.
Elongation (% in 2" with grain)...	41—52%
Elongation (% in 2" 15T scale)....	61—70

The wall ties are a minimum of $\frac{1}{4}$ " in diameter by 8" long, "Z" shaped with a center "Vee" drip.

Inspection

Samples of the wall ties were inspected at the office of the Board as to the design and non-corrosive features of the tie. Present at the inspection was Asst. Engr. J. A. Darts Committee on Test.

Recommendation

On the basis of the inspection and the data filed by the applicant the Committee on Test recommends the approval of the material known as Conver-Zinaloy Zinc Cavity Wall Tie, when manufactured of material as herein described for use in New York City under the provisions of C26-430.0.f Administrative Building Code, on condition that each bundle or container in which the Conver-Zinaloy Zinc Cavity Wall Ties are packed or marketed shall be tagged or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 822-55-SM."

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on August 6, 1941, certain conditions; and

WHEREAS, the term of variance was extended from time to time and last extended on January 5, 1954; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on August 6, 1941, as thereafter *amended* by resolutions adopted through January 5, 1954 only so far as it refers to the term of the variance, so that as *amended* this portion of the resolution shall read:

“... granted under Section 7, subdivision h for a term of two years from the date of this *amended* resolution, to permit ...; that other than as herein *amended* the resolution above cited shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed

with the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution.” (Misc. App. 5614/41)

595-44-BZ—Vol. II

APPLICANT—Paul Friedman, for Penthouse Buildings, Inc., owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete which expired January 12, 1956—re Application (decision of the borough superintendent); previously granted on condition, under sections 7d and 7e of the zoning resolution, permitting in a residence use district the change in occupancy of an existing building from apartment hotel and accessory restaurant, to non-resident doctor's offices, commercial offices, two dwelling units and restaurant (cabaret, no dancing).

PREMISES AFFECTED—30 Central Park south, south side, 320 ft. east of Avenue of the Americas, Block 1274, Lot 60, Borough of Manhattan.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on July 12, 1955, certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 12, 1955 only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

“that in view of the statement by the applicant that plans and specifications are being prepared, plans have been approved by the Department of Buildings, that all permits required shall be obtained and all work completed within six months the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution.” Alt. App. 538/43)

(Remaining Minutes of the Meeting of January 24, 1956 will be printed in the Bulletin of February 7, 1956.)

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

Adopted by the Board of Standards and Appeals February 3, 1939, effective in accordance with Section 666, Paragraph 2, of the New York City Charter, February 27, 1939, as amended December 4, 1942, effective December 28, 1942, as amended September 10, 1946, effective October 7, 1946 and as amended on February 10, 1948, effective March 8, 1948.

(Cal. No. 835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4 and C26-1277.0h. of the Administrative Building Code.

NOTICE IS HEREBY GIVEN that a Public Hearing will be held by the Board of Standards and Appeals on Friday, March 2, 1956 at 10 A.M. in Room 1013 Municipal Building, Manhattan, on the following Proposed Amendments to the Rules Relative to Submerged Inlets and Protective Methods to be Applied to Prevent Contamination of Water Supply.

Note: It is proposed to amend Rule 1 as indicated. New matter appears in *Italics*; old matter to be deleted appears in brackets [].

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of

PUBLIC HEARING

fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules. All hose coupling outlets and serrated tip outlets for hose connections [within buildings] are deemed to be submerged inlets, and shall be independently protected with an approved vacuum breaker. [Outside hose coupling outlets for garden or sidewalk use, drain] *Drain* cocks for hot water and steam boilers and hose connections on fire fighting equipment are excepted. *Vacuum breakers for outside hose bibs shall be placed 24 inches above the surface of the ground near the hose bib and at least 12 inches above the top of the highest submerged lawn sprinkler.*

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarter inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washers or similar apparatus shall be equipped with an approved

vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps.

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connections to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing more than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker, and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

Rule 13. Steam Tables.

Steam tables used exclusively for the warming of food stuffs and provided with a water supply inlet elevation at least one inch above the overflow outlet, the area of which is at least four times that of the water supply piping, shall be equipped with an approved horizontal swing check valve in the water supply piping.

Where elevation of the water supply piping inlet is less than one inch above the overflow outlet, or when the area of the overflow outlet is less than four times that of water supply piping, the water supply piping shall be equipped with an approved vacuum breaker located at least four inches above the maximum overflow level of the fixture.

has been illegally oppressed by the action of the respondents (Matter of Larkin Co. v. Schwab, 242 N. Y., 330, 336). The mere fact that permits were granted to owners of premises somewhat similarly situated does not establish arbitrary or oppressive conduct on the part of the respondents in the case at bar (id). ¶As was pointed out by the Court of Appeals in People ex rel. Fordham M. R. Church v. Walsh, supra (at p. 290): " * * * The question was not 'whether some one else' had 'been favored.' The question was 'whether the petitioner' had 'been illegally oppressed.' * * * " Upon this record the answer to that question must be answered in the negative. The respondents, vested with discretion to grant or to deny an application for a variance, denied it after a hearing and inspection upon grounds which have a substantial basis in the record. Under these circumstances the determination made cannot be upset by the courts. The petition is accordingly dismissed on the merits and the determination of the respondents, in all respects, confirmed. ¶Submit order."

Matter of Cipis vs. Board:—On July 12, 1955, the Board granted a variance under Sections 7f, 7e, 7i and 7A of the Zoning Resolution to permit in the business use portion of a plot located in a residence and business use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto wash (non-automatic), motor vehicle repairs, storage and sale of accessories, and an office with show windows nearer the residence use district than is permitted; Cal. No. 38-55-BZ; premises 534-544 Coney Island Avenue, southwest corner of Hinckley Place, Borough of Brooklyn.

At Special Term, Supreme Court, Mr. Justice Arkwright sustained the Board in the following decision (N.Y.L.J. December 12, 1955, page 12):—

"This is a proceeding brought by petitioner, Edith Cipis, to review a determination of the Board of Standards and Appeals permitting the intervenor - respondent Stellar Fuel Sales Corporation to erect a gasoline service station on its property on the southwesterly corner of Coney Island avenue and Hinckley place, Brooklyn, N. Y. The petitioner is the owner of premises located on the northwesterly corner of Coney Island avenue and Hinckley place and she appeared before the board and interposed objections to the granting of the application. ¶The respondent and the intervenor-respondent both move to dismiss the petition and for an order vacating the order of certiorari and sustaining and

affirming the determination of the board. ¶The subject premises are located on the southwest corner of Hinckley place and Coney Island avenue and consist of a plot of land slightly irregular with frontages of 100 feet 3 inches along Coney Island avenue and 97 feet 10 7/8 inches along Hinckley place. The greater portion of the plot is within a business use district with only a very small part in a residence use district. On January 21, 1955, the intervenor-respondent applied to the Board of Standards and Appeals for a use district variation for a term of fifteen years under sections 7(f), 7(e), 7(i) and 7A of the Zoning Resolution. ¶On June 14, 1955, a public hearing was held on the application for the variance and the owners of forty lots within the affected area filed with the board their consents to the granting of the variance. At the hearing the only objection to the grant was made by the petitioner who owns the opposite corner on which there is presently a gasoline station. ¶On July 12, 1955, and after having made an inspection of the subject premises, the board unanimously determined by resolution to grant to the intervenor-respondent a variation of the use district regulations of the Zoning Resolution. By that grant the intervenor-respondent was permitted under section 7(f) to erect and maintain for a term of fifteen years a gasoline service station subject to appropriate conditions and safeguards proposed by the board; under section 7(i) a motor vehicle repair shop for minor adjustments with hand tools only and maintained solely in the accessory building; under section 7(e) to maintain the walls as therein required to be on the lot lines although the gasoline service station itself was to be maintained entirely within the business district portion of the plot; and under section 7A to maintain the proposed show windows in the accessory building. ¶In its return the board sets forth the reasons for granting the variance and it would appear that the board acted on some reasonable basis in harmony with the general purpose of the Zoning Resolution in making its determination (Reed v. Board of Standards and Appeals, 255 N. Y., 126). In the circumstances the determination of the board is not arbitrary, capricious or illegal and consequently it may not be set aside (Matter of Douglaston Civic Ass'n v. Board of Standards and Appeals, 278 App. Div., 659, 660, aff'd 302 N. Y., 920; Matter of Sima v. Board of Standards and Appeals, 278 App. Div., 785). ¶Respondent's and intervenor-respondent's application to dismiss the petition are granted and the determination of the Board of Standards and Appeals is affirmed. Submit orders.

PETITION AND CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS

On January 27, 1956, Copy of Petition and Order of certiori was
served on the Board by Cravath, Swaine & Moore, attorneys for E. I.
du Pont de Nemours & Co., Inc., owner, seeking a review of the
Board's denial of their appeal on December 20, 1955, affirming the de-
cision of the Fire Commissioner as to the classification of Blasting
Agent known as "Nitramon"; Cal. No. 387-55-A.

COURT DECISION

Matter of People vs. 960 Park Avenue Corporation:—In the Court
of Special Sessions an action to prosecute a violation for occupying
the 12th story and pent house at 960 Park Avenue leased by three
doctors for use solely for the practice of medicine, with none of the
doctors residing on the premises, was dismissed.

Upon appeal by the City to the Appellate Division, First Depart-
ment, the dismissal was reversed and the matter remitted to the Court
of Special Sessions for further proceedings. It was contended by the
defendants—960 Park Avenue Corporation—that the City Planning
Commission, subject to the approval of the Board of Estimate, could
not control the dwelling once it was erected and that the building
could be used for any purpose not inconsistent with the power con-
ferred on the City Planning Commission and the Board of Estimate
to regulate the location of trades and industries. The Court found
that this was much too literal a reading of the statute and that it was
the evident intent of the statute to cover not only the initial location of
buildings designed for special uses but to regulate such uses beyond
the initial construction, and found further that the Commission had
power to permit a non-accessory use of apartments in multiple dwell-
ings by physicians provided the physicians had their offices on the first
floor (as provided in the Zoning Resolution, in Article II, Section 3,
Paragraph 6-b). The defendants relied on the MATTER OF PEO-
PLE ex rel FULLAM vs. KELLY. The Court stated that that case
is clearly distinguished, as in that case a bona fide resident of the
premises used it also for the pursuit of his profession.

In the MATTER OF PEOPLE ex rel FULLAM vs. KELLY, the
Board made the original decision as uphold by the Court of Appeals.

In the matter of occupation by physicians of an apartment above
the second floor, an appeal to the Board was denied under Cal. No.
666-51-A, 1148 Fifth Avenue and 2 East 96th Street, southeast cor-
ner, Borough of Manhattan and the Board's decision was sustained at
Special Term by Mr. Justice Greenberg (Bulletin of May 25, 1954,
page 717).

Leave to appeal to the Court of Appeals has been granted.

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 28, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing
Tuesday morning, February 28, 1956, at 10 o'clock in Room
1013, Municipal Building, Manhattan, on the following
matters:

313-33-BZ—Vol. II

APPLICANT—Samuel Carr, for Digama Realty Company,
owner.

SUBJECT—Application reopened October 18, 1955 as Vol.
II—re (decision of the borough superintendent) under
sections 7f, 7e and 7i of the zoning resolution, to permit
partly in a residence and partly in a business use district
the erection and maintenance of a gasoline service station,
lubritorium, sales space, service parking, car wash, and
motor vehicle repairs, with a curb cut less than 75 ft. from
residence use district.

PREMISES AFFECTED—38-06 Greenpoint avenue, south-
west corner of 50th avenue, Block 212, Lot 23, Woodside,
Borough of Queens.

Laid over from January 10, 1956 to February 28, 1956,
for inspection and decision; hearing closed.

576-37-BZ—Vol. II

APPLICANT—William A. Giesen, for B. J. Denihan, Inc.,
and Deborah E. Dumont, owners (B. J. Denihan, Inc., and
Shamrock Cleaners, Inc., lessees).

CALENDAR

SUBJECT—Application reopened October 19, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7a, 7c and 21 of the zoning resolution, to permit in a residence use district, to change the use of part of the combined structure from residence to commercial use and other parts of the combined structure from one commercial use to another commercial use.

PREMISES AFFECTED—215-221 East 64th street, north side, 230 ft. east of 3rd avenue, Block 1419, Lots 10-13 inclusive, Borough of Manhattan.

Laid over from January 10, 1956, to February 28, 1956, for inspection and decision; hearing closed.

809-54-A

APPLICANT—William A. Giesen, for B. J. Denihan, Inc., and Deborah E. Dumont, owners (B. J. Denihan, Inc., and Shamrock Cleaners, Inc., lessees).

SUBJECT—Application September 28, 1954—re Appeal from a decision of the borough superintendent—non fire-proof construction, area excessive.

PREMISES AFFECTED—215-221 East 64th street, north side, 230 ft. east of 3rd avenue, Block 1419, Lots 10-13 inclusive, Borough of Manhattan.

531-55-BZ

APPLICANT—Charles M. Spindler, for Frank and Catherine Ruzek, owner.

SUBJECT—Application June 30, 1955—re (decision of the borough superintendent) under sections 7c, 7h and 7i of the zoning resolution, to permit in a business use district the extension in area of an existing gasoline service station to include gasoline service, auto washing, lubrication, parking and storage for more than 5 motor vehicles, office, accessory, sales, sale of used cars, 2 car garage, garage for less than 5 cars, brake and ignition service and auto repairs with hand tools only.

For Opposition: Mary Franceschi.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to March 6, 1956, at 10 A.M. for inspection and decision; hearing closed.

109-29-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for The Weiss Management Corp., owner.

SUBJECT—Application reopened July 12, 1955 as Vol. III—re (decision of borough superintendent) under sections 7f, 7i and 7A of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing, storage room, office and sales, parking and storage of motor vehicles, proposed show windows facing Webster avenue.

PREMISES AFFECTED—948-960 Coney Island avenue and 382-392 Webster avenue, southwest corner, Block 5425, Lot 26, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on July 12, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Coney Island avenue are in a business use, C area, class 1¼ height district; Webster avenue is in business and residence use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 7, 1955 acting on N.B. Applic. 1289-55, reads:

"1. A gasoline service station, lubritorium, minor auto repairs, car washing, storage room, office and sales, parking & storage of motor vehicles in a Business Use District is contrary to Art. II, P. 4a, Sect. 29 & 46 of the Zoning Resolution.

2. Proposed show windows facing Webster Ave. is contrary to Art. II, Sect. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 113 ft. 2 in. frontage by 98 ft. 9½ in. in depth, irregular; that the premises are now developed with a two car garage of class 4 construction, having a frontage of 10 ft. and a depth of 14 ft.; that the open portion of the plot is being used for the sale and display of more than 5 used cars; that the above described structure and use were in-

MINUTES

stalled under Alt. Applic. 3307-51 and certificate of occupancy No. 130901 was issued for said use; that it is proposed to secure a variance for a period of 15 years in order to erect a modern gasoline service station, consisting of ten 550 gallon gasoline tanks and four dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 54 ft. 8 in., a depth of 28 ft. 8 in. and will contain the conjunctive uses of lubritorium, minor auto repairs, car wash, storage room, office and sales; that a portion of the plot will be used for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that Coney Island avenue is a main auto lane leading north and south across Brooklyn and the area is fully developed with residences and apartment houses, making the proposal entirely in keeping at this point, and a required service; that the land is high in assessed value and the erection of stores would not be feasible from an investment standpoint, as the southerly end of the site is only 60 ft. in depth and C zone requirements for area would further reduce the size of a permissible store building to such an extent that the obtainable rent from small stores would not net the owner an equitable return on his investment; that there are sufficient stores in the area for public requirements; that the present gas station directly opposite, in block 5418, lot 38, is a non-conforming use; that the building will be highly modern in design and help improve the general appearance of the community and the proposed parking of motor vehicles on the site will help alleviate the parking problem in the area; that the proposed show window of the contemplated accessory building sets 46 ft. 10 in. south and back of the Webster avenue building line and therefore cannot possibly affect the residential aspect of Webster avenue; and

WHEREAS, the applicant states that the present owner has held title to the property since August 20, 1951; that the assessed valuation of land is \$22,000 and of the building \$500 making a total of \$22,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f, h, i and 7A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 f, h, i and 7A for a term of fifteen years to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, under Section 7i for a similar term, for adjustments carried on in the accessory building only, car washing, storage room, office and sales, parking and storage of motor vehicles under Section 7 h, for a similar term, and proposed show windows facing Webster avenue in the office and sales building, all as shown on plans filed with this application marked, "June 27, 1955" (4 sheets), "December 8, 1955" (one sheet) and "December 23, 1955" (one sheet) *on condition* that there shall be erected along the southerly interior lot line, and the westerly interior lot line, a 5 ft. 6 in. high solid brick wall from the building line of Coney Island Avenue around to the building line of Webster Avenue; that that part of the wall projecting beyond the front wall of the residential building on Lot No. 25 to the west on Webster avenue, shall be of face brick on the residential building side; that the wall along the building line of Webster avenue from the intersection of the westerly lot line of this property to within 25 ft. of the corner at Coney Island avenue shall be two feet in height of solid brick with a 3 ft. 6 in. iron picket fence on top, for a total height of 5 ft. 6 in., with suitable masonry piers at each end; that signs shall be restricted to flat signs attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof and temporary signs; that a brand sign may be erected on a post standard at the intersection of the building line of Webster avenue and Coney Island avenue and projecting not more than four feet beyond the building line; that the curb cuts shall be limited to three curb cuts, two 30 ft. in width to Coney

Island avenue and one 20 ft. in width to Webster avenue, starting 5 ft. west of the intersection of Coney Island avenue; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; that within the intersection there shall be erected a block of concrete not less than 12 in. in height and extending not less than 5 feet along either building line from the intersection; that no portion of any curb cut shall be nearer than 5 feet to a lot line as prolonged; that doors to toilet rooms shall be arranged so as not to be contiguous; that under Section 7A of the Zoning Resolution, the show windows in the office and sales rooms of the service building shall be permitted as shown on plans cited above; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that in all other respects the work shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the provisions of Section 22A of the Zoning Resolution.

352-32-BZ—Vol. II

APPLICANT—Joseph Schafran, for Sylvia Friedman, Esther Goldman, Sol Goldman, Norton Goldman and Leo Goldman, owners.

SUBJECT—Application reopened October 5, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7c, 7i and 7f of the zoning resolution, to permit in a business use district, the extension of gasoline service station, lubritorium, minor repairs and adjustments (with hand tools only) and car wash room (non automatic).

PREMISES AFFECTED—3305 Boston road, southwest corner of East 211th street, Block 4705, Lot 62, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles I. Goldman and Sol Goldman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended and term of variance extended.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on October 5, 1954 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on December 13, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Boston road are in a business use, C area, class 1 height district; East 211th street is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated August 26, 1954 acting on Alt. Applic. 669-54, reads:

"1. Extension of gasoline service station, lubritorium, minor repair and adjustments with hand tools only & car wash room is contrary to Sect. 4 of the Z. R. and Cal. 352-32-BZ of the Bd. of S. & A."

and

WHEREAS, the applicant states that the premises consist of a plot 123.32 ft. frontage by 100 ft. in depth, irregular, on which is located a building of class 3 construction, housing a gasoline service station, lubritorium, minor repairs and adjustments (with hand tools only) and car wash room (non-automatic); that it is proposed to maintain gasoline service station, lubritorium, minor repairs and adjustments (hand tools only) and car wash room (non-automatic); and

WHEREAS, the applicant further states that the subject plot has a frontage of 123.32 ft. on Boston road and a frontage of 107.87 ft. on East 211th street, 100 ft. in depth,

MINUTES

irregular, presently improved with a one story brick, block and stone building of class 3 construction containing a gasoline and oil selling and service station, lubritorium and office, erected in 1933 under N.B. Applic. 237-32 and the subject of a variance granted by the Board under Cal. No. 352-32-BZ; that the building was extended to the rear by the lessee for a non-automatic car wash room without the knowledge of the owner and without following the required procedure of requesting permission from the Board and the Department of Buildings; and

WHEREAS, the applicant contends that in order to upgrade the appearance of the property, it is intended to cover the old and new portions of the building with porcelain enameled iron of modern design; that in order to provide services to its patrons on a par with other service stations in the vicinity, permission is sought to include in the permitted uses the repair and adjustment of motor vehicles with hand tools only; that it is further requested that permission be granted to remove the roof sign on the building and substitute therefor an illuminated sign on a pole at the corner of the plot, not to extend more than 4 ft. beyond the building lines; that within the affected area there are the following existing non-conforming uses: block 4614, lots 38 and 45—lumber yards; block 4615, lot 36—gas station; block 4706, Lot 72—gas station; that on the block containing the site, namely, block 4705, lots 1 and 68 are occupied by a gas station with car washing, lubritorium, and repair shop for minor repairs and adjustments with hand tools only, and lot 11 is occupied by a lumber and building equipment storage yard which extends into a residential use district; and

WHEREAS, the applicant states that the present owner has held title to the property since 1932; that the assessed valuation of land is \$22,500 and of the building \$5,000 making a total of \$27,500; that the building was erected in 1933; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on January 30, 1933, as thereafter amended by resolutions adopted through May 31, 1950, by adding thereto:

"to permit the continuance of the gasoline service station for a term of ten years, from the date of this amended resolution, and under sections 7f and 7i to permit for a similar term the extension of the existing gasoline service station, substantially as shown on plans marked "Received September 21, 1954", (3 sheets), "November 16, 1955", 1 sheet, and "November 18, 1955", 2 sheets, on condition that in all other respects the resolution adopted by the Board on January 20, 1933, as amended by resolution adopted May 25, 1937 with conditions and thereafter through May 31, 1950, shall be compiled with, where not inconsistent with this amended resolution; that plan shall be filed for further consideration as to fences on the interior lot lines; that all permits shall be obtained and a new certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution."

225-36-BZ—Vol. III

APPLICANT—Lamb and Lamb, for North American Holding Corp., owner.

SUBJECT—Application reopened June 21, 1955 as Vol. III re (decision of the borough superintendent) under section 21 of the zoning resolution to permit in a residence and business use district proposed change of use to stores in the cellar, which is in the residence use portion of a class A multiple dwelling which is in a business and residence use district.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 21, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 29, 1955 after due notice by publication in the Bulletin; laid over to December 13, 1955, for consideration and decision; hearing closed; then to January 17, 1956, for further consideration and decision; to January 31, 1956, additional information: survey (to be made by licensed surveyor) showing the relationship of the building to the plot; the relation of the business zoning to the residential zoning across the rear end of the plot, and the measurements; also showing the additional property down to the next street; and a drawing of the building across the street as to occupancy on basement floor in both the Residence and Business district; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 167th street are in residence and business use, C area, class 1 height districts; Grand Concourse is in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 16, 1955 acting on Alt. Applic. 553-53, reads:

"A-1. Proposed stores in the cellar of the existing Non-fireproof 6-story and cellar Class "A" hereafter erected Multiple Dwelling in a Residence Use District will be contrary to Sec. 3 of Article 2 of The Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 204.84 ft. frontage by 96.86 ft. and 141.14 ft. in depth, irregular, on which is located a six-story and cellar, class A multiple dwelling, 204.84 ft. front, 96.86 ft. and 126 ft. in depth, 67 ft. in height; that it is proposed to convert a portion of the cellar in the residence use district, for use as stores; and

WHEREAS, the applicant states that on July 17, 1936 an application for a variance, under section 21 of zoning resolution was denied by the Board; that an amended application was filed on November 6, 1936 under sections 7c and 21 of the zoning resolution as it was found that the said premises were located partly in a business use and partly in a residence use district rather than entirely in a residence use district, as had been, in part, the basis in the original case; that a rehearing held on December 1, 1936 a variance was allowed under certain restrictive conditions; that this action of December 1, 1936, of the Board was reviewed as a result of certiorari proceedings, and the decision of the Board under sections 21 and 7c of the zoning resolution was reversed and annulled; and

WHEREAS, the applicant contends that the land cannot yield a reasonable return if used only for the purposes allowed in that zone and this is shown by the fact that it falls short of yielding a reasonable return of some \$15,000 a year; that the situation here is unique in that it is caught between a conflict of the multiple dwelling law and the zoning law; that though the premises are zoned for residence, the multiple dwelling law prohibits the use of a cellar for residential purposes, yet the multiple dwelling law would permit it to use the premises for business purposes; but if that were attempted, the zoning law would be violated; that thus, if one law is complied with, it violates another; that it finds itself in this unique position through no fault of its own, nor, actually, through any fault of the legislation which was intended to be applied to a normal piece of property; that this situation

MINUTES

is created by the fact that New York City is not level; that there are sloping conditions that simply cannot be foreseen under the building zone resolution nor under the multiple dwelling law; that the situation involved here is caused by such unique sloping condition; that this fact must be recognized and the relief applied for should be granted in order to give the applicant the reasonable use of its property; that the granting of this application cannot change the character of the neighborhood as the contemplated use entirely conforms with the present use of East 167th street, which is already a business street; and

WHEREAS, the applicant states that the present owner has held title to the property since June 1934; that the assessed valuation of land is \$150,000 and of the building \$435,000 making a total of \$585,000; that the building was erected in 1936; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, report as to which reads as follows:

REPORT OF COMMITTEE

January 16, 1956.

Cal. No. 225-36-BZ—Vol. III

Premises: 1180-1188 Grand Concourse and 180-188 East 167th Street, Southeast Corner, Block 2456—Lot 163, Borough of The Bronx

The building where cellar stores are proposed is located at the southeast corner of East 167th Street and Grand Concourse, The Bronx. The building was completed July 21, 1938, in a residence use district. While the building was in process, an application was filed with the Board for a variance to permit the erection of stores on the 167th Street side up to within 25 ft. of the building line of Grand Concourse. It was represented that the first floor of the building was constructed several feet above the Concourse curb grade so that the space in the rear portion of the cellar, facing on 167th Street, which slopes downwardly from the Concourse towards the east, would have sufficient head room to permit the stores. It was true then, as it is now, that under the Multiple Dwelling Law stores would be permitted where proposed, but they cannot be constructed as the premises are zoned for residence use under the Zoning Resolution.

On October 20, 1936 the application was denied under the terms of Section 21, by a vote of 2-2. In November of 1936 the application was reopened for consideration under Section 7(c) and Section 21 to determine whether there was a basis for a variance of use based on a small portion of the plot, at the southeast corner, actually in a business use district at which point this portion is only a matter of a few feet in area. On December 1, 1936 the prior decision of October 20, 1936 was reconsidered and the application granted under Section 21 (in consideration of the added fact that a small portion of the premises were located in a business use district) by a divided vote of 3 affirmative and 1 negative. The Board did not find a basis for action under Section 7(c). An order for Court review was obtained by an adjoining owner and at Special Term the decision of the Board was reversed and this reversal was sustained by the Appellate Division and the Court of Appeals.

Under Vol. II the application was reopened for consideration under Section 7(e) and after the required public notice and hearing, was denied September 14, 1954 by a vote of 2 to 2. It should be noted that Section 7, Subdivision (e) was re-drafted by eliminating the old wording and adopting the new wording on June 28, 1940. This action of the Board was not reviewed.

On June 21, 1955 the application was again reopened for rehearing under Section 21 based on alleged new facts. About 20 years had intervened since the decision by the Board in 1936. More important, the Court of Appeals, in the matter of Otto vs. Steinhilber, 282 N.Y. 71, had for the first time established norms as follows:

"Before the Board may exercise its discretion and grant a variance on the ground of unnecessary hard-

ships, the record must show that (1) the land in question cannot yield a reasonable return if used only for a purpose allowed in that zone; (2) that the plight of the owner is due to unique circumstances and not to the general conditions in the neighborhood which may reflect the unreasonableness of the Zoning ordinance itself; and (3) that the use to be authorized by the variance will not alter the essential character of the locality." (Also see Bassett on "Zoning" page 168).

Public hearings were held on this reopened application and the applicant was given ample opportunity to offer proof under the three norms above referred to.

The multiple dwelling in question is similar to many other multiple dwellings located on the Concourse. The zoning along the Concourse is similar in that the residential zoning extends down the side streets 100 ft., as it does for this building. Although the applicant has contended the building fails by \$15,000 to show a reasonable return based on its appraised market value, it is difficult to understand where one building should be financially unsuccessful and all others similarly located presumably successful.

The Board has considered the claim of uniqueness that, due to the higher studded cellar which may have added to the capital cost. This space while it would be permitted by the Multiple Dwelling Law to be used for business it would not be permitted to be so used under the zoning regulations and because it is largely unusable along the 167th Street front, is not yielding a potential return. But this condition was produced by the owner wisely or unwisely. However, it would not appear that the adjoining business to the east needs the protection of the residential zoning. Naturally this adjoining owner is anxious to prevent competition.

It is questionable whether the granting of the variance herein sought would alter the essential character of 167th Street due to the nature of the adjoining business uses and because the large plaza area of 167th Street which is used for parking two rows of cars actually would screen the proposed stores from the opposite side of 167th Street.

As pointed out it is the normal condition along the Concourse to have the residence zoning extend 100 ft. back along the intersecting streets and it therefore cannot be said that the granting of the variance would not alter the essential character of the locality.

The applicant does not meet all of the criteria established by the Court of Appeals, and consequently this application must be denied under Section 21.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
SEAN P. KEATING,
Commissioner,
EDWIN W. KLEINERT,
Commissioner,
P. JOSEPH CONNOLLY,
Deputy Chief, Fire Dept.

WHEREAS, the Board found that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulty or unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 553/53, Objection No. A-1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

13-48-BZ—Vol. II

APPLICANT—Ferdinand Savignano, for Irving Israel, owner.

SUBJECT—Application reopened May 24, 1955 as Vol. II —re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the proposed use of dry cleaning in the basement of a 3-story multiple dwelling.

PREMISES AFFECTED—254 West 88th street, south side, 100 ft. west of Broadway, Block 1235, Lot 56, Borough of Manhattan.

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 24, 1955 subject to regular procedure, to consider proposed use; and

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; West 88th street is in business and residence use, B area, Class 1½ height districts; Broadway is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated April 19, 1955 acting on Alt. Applic. 1141-54, reads:

"A13. Proposed "Dry Cleaning Establishment" is a non-conforming use, and may not replace store in a residence district. Art. II, Sec. 6 & Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 18 ft. frontage by 101 ft. in depth, on which is located a 3-story building plus basement, of class 3 construction, for which certificate of occupancy No. 19924-34 was issued; that the size of the building is 18 ft. front, 51 ft. 6 in. in depth, 45 ft. in height; that it is proposed to maintain dry cleaning in the basement of a 3-story multiple dwelling; beauty parlor on the 1st floor; 2 families on the 2nd floor; 2 families on the 3rd floor; and

WHEREAS, the applicant further states that the legal occupancy of the building is as follows: cellar—boiler room and storage; basement—store, 5 persons, 120 lb. live load; 2nd story—1 family; 3rd story—1 family; that plans and applications were filed with the Department of housing and buildings for a change of occupancy on the 2nd and 3rd floors, to increase the occupancy to 2 families on the 2nd floor and 2 families on the 3rd floor; that plans and applications were approved, work permit was obtained and the alteration took place; that upon calling for final inspection, the inspector of the department indicated that the use of the basement floor was in violation due to the fact that there is a dry cleaning establishment, which is a change in use, contrary to certificate of occupancy No. 19924-34, and that this existing use is contrary to the zone resolution in that the building is located in a residential zone; that an amendment was filed and a denial obtained; and

WHEREAS, the applicant contends that this proposed use in the basement will in no way mar the neighborhood, due to the fact that the buildings located on West 88th street have business use in the basement, with the exception of one or two structures; that in the rear of the premises in question, there are primarily buildings used for business; that Broadway, which is the intersecting street, also has many businesses of various types; that this vicinity is primarily used for business purposes and the dry cleaning use will in no way conflict with any of the structures which are used for residential purposes; that it is also to be considered that this was previously submitted to the Board for an extension to be erected in the rear for a valet service, which is closely allied to the new use requested, and the case was granted; that the existing dry cleaning establishment is not a business which will create noise; that it is a warranted use in this type of neighborhood; that the basement floor and 1st floor

have been used continuously for business purposes, as indicated on forms filed with original case under Cal. No. 13-48-BZ; and

WHEREAS, the applicant states that the present owner has held title to the property since April, 1946; that the assessed valuation of land is \$15,000 and of the building \$23,000 making a total of \$38,000; that the building was erected 1889; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant changed the basis of his application from section 7c to 7e of the Zoning Resolution; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit the proposed use of dry cleaning in the basement of a 3-story multiple dwelling, as shown on plans filed with this application marked "Received April 25, 1955", 3 sheets and "November 10, 1955", 2 sheets, *on condition* that the capacity of the machine used for dry cleaning shall not exceed 30 pounds; that the cleaning fluid used shall be a detergent and not a petroleum derivative; that the use shall not extend beyond the existing basement of the building; that in all other respects the conditions shown on such filed plans shall be complied with; that in all other respects the use and occupancy shall comply with all laws, rules and regulations applicable thereto, including the Dry Cleaning Rules of the Board; that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within six months of the date of this resolution.

THE RESOLUTION—

WHEREAS, this application under sections 7e and 7h of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories, and to permit the parking and storage of motor vehicles; proposed building setback is less than that required in a G-1 area district was denied by the Board on December 22, 1953; and

WHEREAS, by order of Special Term of the Supreme Court, published in the New York Law Journal December 28, 1954, proceedings were remanded to the Board for re-hearing; and

WHEREAS, this application was reopened on April 12,

MINUTES

1955 and set for hearing on November 22, 1955 at 10 A.M., subject to regular procedure, as per order of the court; and

WHEREAS, a public hearing was held on this application on November 22, 1955 after due notice by publication in the Bulletin; laid over to December 13, 1955, for inspection and decision; then to January 17, 1956, for further consideration and decision; then to January 31, 1956, for further consideration; and

WHEREAS, the decision of the borough superintendent, dated May 24, 1955, acting on N.B. Applic. No. 3623-55, reads:

"1. Proposed erection of a gasoline service station, lubritorium, car washing, minor auto repairs, storage, office & sales, parking & storage of motor vehicles on a lot in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution.

2. Proposed building set back less than 15 ft. from the bed of a mapped street in a G-1 area district is contrary to Art. IV Sec. 16c of the Zoning Resolution.

3. Proposed building less than 20 ft. from a rear lot line in a G-1 area district is contrary to Art. IV Sec. 16c of the Zoning Resolution."

and

WHEREAS, the applicant states that the subject premises consist of a vacant triangular parcel, irregular in shape and dimensions, bounded by Pidgeon Meadow road, 163rd place and 164th street; that it is situated directly opposite Flushing cemetery, on a small block with two non-conforming uses, a beer tavern on lot 1 and a pony ride on lot 14; that the premises are comprised of six tax lots owned by 3 different persons; that lots 8 and 11 (not contiguous) were acquired by The Kissena Park corporation in 1919; lots 9, 10 and 12 by Marie Colonna in 1953 (10 and 12 not being contiguous) and lot 13, the apex of the triangle, by Dominick Mazza in 1928; that the site measures 145.61 ft. along 163rd place, 77.54 ft. in depth along the southerly boundary line, 52.43 ft. along 164th street, then tapering 116.09 ft. to a point at the intersection of 164th street and Pidgeon Meadow road; that between July 25, 1916 and 1947 the premises within 100 ft. of 164th street were in a business use zone (this embraces all of the subject premises); that thereafter the premises were zoned in a residence use, class D area, class 1 height district; that until 1925, a gas station was a permissible use in a business zone; that on May 13, 1954 the premises was placed in its present G-1 area district designation; and

WHEREAS, the applicant contends that it is clear that the owners cannot beneficially use this parcel in conformity with the zoning resolution because the property is unique due to its triangular shape, size and shallow depth; that it is located on a small block on which the only other occupancies are two non-conforming uses, and it is opposite Flushing cemetery; that the clearest proof that the premises cannot be used in conformity with the zoning resolution is the fact that the lots have always been vacant and have not brought any return to their owners, in the face of heavy residential development in the neighborhood, particularly in light of the recent house-building boom; that efforts have been made to develop the parcel for a conforming use but they have been unavailing, since no lending institution would lend money for a conforming use on this peculiarly shaped and located parcel; that the site is too unattractive for development with a conforming use to constitute satisfactory security for a mortgage loan; that it is also the uniform opinion of reputable real estate brokers that this lot cannot be developed with a conforming use; that it is unreasonable and unrealistic to suppose that the Kissena park corporation and Dominick Mazza, taxpaying owners of lots 8, 11 and 13 since 1919 and 1928, have made no effort to improve their parcels since those dates; that the lots still remain vacant is proof of the impracticability and undesirability of the site for a conforming use; that further evidence that the premises cannot be put to a conforming use is the fact that lot 7 was acquired by the owners of the pony ride from the City of New York by whom it was sold for non-payment of taxes; that this indicates also that the block is undesirable for conforming uses and if relief is not given, the City

will eventually acquire the subject lots for non-payment of taxes; that the applicants in joining together to collectively improve their parcels with a modern gas station have done the only feasible thing to relieve their hardship; that individually they are powerless to act, particularly since the lots owned by each is small and are separated; that the only beneficial use to which the subject premises can be put is a gas station such as proposed; that a gas station is essential for the neighborhood as there are no gas stations within the affected area to serve either the large home development in the neighborhood or the heavy traffic moving along 164th street; that 164th street is a main auto artery leading north and south across Queens; and

WHEREAS, the applicant further contends that the gas station proposed includes an attractive building in harmony with present day architectural design and completely in accord with any future development of the area; that a high masonry wall is proposed along the 163rd place side to shield the house located on that street and also, no curb cuts or exits are proposed on 163rd place; that in addition, a landscaped area will be provided along the southerly line as well as a 5 ft. 6 in. high woven wire fence; that the proposed building, colonial in design, would enhance the entire neighborhood; that it will contain the conjunctive uses of lubritorium, car wash, minor auto repairs, office sales and storage; that part of the site will be used for parking and storing motor vehicles; that the station will face Flushing cemetery and back on the non-conforming uses; that the variance requested is for a limited term (15 years) so that if the site ever becomes suitable for residential development it may be returned to that use at the end of that period; and

WHEREAS, the premises and surrounding area where inspected by a committee of the Board; and

WHEREAS, the Board in its deliberations has taken due notice of the decision of the Supreme Court and has considered all the new evidence submitted at the hearing of November 22, 1955, and recommends that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and h of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e, 7h and 21, for a term of fifteen years, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories, parking and storage of motor vehicles and the proposed setback less than required in a G-1 area district, all to be erected and maintained as shown on plans filed with this application, marked "Received June 13, 1955", 1 sheet, "October 5, 1955", 1 sheet, and "November 15, 1955", 1 sheet, *on condition* that all working drawings shall be submitted to this Board for approval before same are filed in the Department of Buildings; that in all other respects all laws, rules and regulations applicable to this use and occupancy shall be complied with; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that all city assessments and taxes on any and all of the lots comprising this plot shall be paid before plans are filed in the Department of Buildings; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

423-54-BZ—Vol. II

APPLICANT—O'Dwyer and Bernstein, for Peter and Rachel Federico, owners.

SUBJECT—Application reopened September 20, 1955 as Vol. II—re (decision of the borough superintendent)

MINUTES

under sections 7e and 7h of the zoning resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, minor repairs (hand tools only), office, sales and storage of auto accessories and open parking.

PREMISES AFFECTED—1217 East 233rd street, northwest corner of Baychester avenue, Block 4954, Lots 68 and 69, Borough of The Bronx.

APPEARANCES—

For Applicant: Howard Meyer.

For Opposition: C. J. Cammarata for N. Y. C. Housing Authority.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert Commissioner Keating and Deputy Chief Connolly..... 3

Negative: 0

Absent: Chairman Murdock..... 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 20, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on December 13, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D area, class 1 height district; Baychester avenue and East 233rd street are in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 7, 1955 acting on N. B. Applic. 286-54, reads:

"2. In a Residence use district the proposed "Gasoline Service station, lubritorium, minor repairs (hand tools only), office, sales and storage of auto accessories, open parking for cars waiting to be serviced" is contrary to Art. II Sect. 3 of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 128.61 ft. frontage by 154.64 ft. in depth, irregular, presently vacant; that it is proposed to erect and maintain a gasoline service station, lubritorium, minor repairs (hand tools only), office, sales and storage of auto accessories and open parking; and

WHEREAS, the applicant states that as of July 25, 1916 the portion of the property within 100 ft. of East 233rd street was in a business use district and the remainder was in residence use; that on January 20, 1927 the residence use district of the property was rezoned, placing all of the subject premises in a business use district; that on October 18, 1949 the present residence use district became effective; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant states that the subject premises consists of a vacant, irregular, corner plot having a frontage of 128.61 ft. on East 233rd street and a frontage of 154.64 ft. on Baychester avenue; that it is proposed to erect and maintain for a stated term of 15 years a gasoline service station, lubritorium, minor repairs with hand tools only, office, sale and storage of auto accessories and open parking for cars awaiting service; that the 25 ft. by 25 ft. gore at the northeast corner of the plot is excluded from the area of the proposed use; that it is proposed to seed and landscape this excluded area; and

WHEREAS, the applicant states that the present application stresses three points that were barely touched upon in the previous application; that the rock out-cropping visible at the premises makes it impractical to develop this property for a use covering as much of the area of the plot as permitted; that the proposed use, involving a comparatively small building occupying a small area of the large plot, is economically feasible; that the present vacant lot in the vicinity of Edenwald houses is a potential menace to the safety of the community as it is danger-

ously dark at night in an area where juvenile delinquency is rampant and has had tragic results recently; that the substitution of an illuminated and well-kept development at this corner will benefit the community; that a grant of this application would do substantial justice since it would extend to the owner an equality of privileges enjoyed by the owners of the two gas stations opposite the premises, both of which were granted by the Board; block 4934, lot 66 was granted under Cal. No. 371-29-BZ in 1929 for 2 years and in 1932 the grant was made permanent; block 4955, lot 1 was granted under Cal. No. 67-33-BZ for 2 years and temporary extensions were granted in 1936, 1940, 1942, 1944 and 1946, and in 1951 it was again granted for a term of 5 years; that under these circumstances, a denial of a similar privilege, limited in duration, would be a denial of equality of privilege; that there is no economic demand for the subject premises for residential purposes; that it is located at the intersection of East 233rd street and Baychester avenue, both of which are 100 ft. wide and sustain heavy volumes of automobile and bus traffic; that it is located opposite two existing gas stations, both of which are zoned for business use, one at the northeast corner of East 233rd street and Baychester avenue, in Block 4955, lot 1, and the other at the southwest corner of East 233rd street and Granada place, just west of Baychester avenue in Block 4934, lot 66; and

WHEREAS, the applicant contends that the proposed, parkway-type, two story building conforms to the restrictive covenants in effect in this area; that it is of highly attractive design and would certainly be more attractive than either of the two gas stations which exist opposite it; that the proposed arrangements for attractive landscaping and fencing will serve as a buffer between the proposed use and the nearby properties; that the 25 ft. by 25 ft. projection at the northwest corner of the premises, which is excluded from this application, will be seeded and landscaped; that an ornamental brick fence wall 5 ft. 6 in. in height will be constructed along the westerly lot line, which wall will be reduced in height to 2 ft. 6 in. within 10 ft. of the East 233rd street building line; that the rear wall of the proposed building will be erected within 5 ft. of the northerly lot line and will contain no windows or door openings; that along the northerly lot line a 5 ft. 6 in. high brick fence wall will be constructed, extending from the easterly and westerly lot lines to the rear of the proposed building; that a 5 ft. wide seeded and landscaped area will be maintained along the entire westerly and northerly lot lines; that the elimination of the heretofore proposed auto washing use will tend to eliminate neighborhood fears to which such proposed use gave rise; that the setting back of the pumps to a distance of 15 ft. from the lot lines will increase public safety; and

WHEREAS, the applicant states that the present owner has held title to lot 68 since January 16, 1953 and to lot 69 since March 19, 1948; that the assessed valuation of lot 68 is \$3,500 and of lot 69 \$7,000 making a total of \$10,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e and h of the Zoning Resolution to permit, for a term of fifteen years, in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, minor repairs, with hand tools only, office, sales and storage of auto accessories and open parking, substantially as shown on plans filed with this application marked, "Received August 2, 1955" (4 sheets) and "November 21, 1955" (one sheet) *on condition* that the five ft. six in. brick wall as shown on said plans shall be erected and returned along the building line of Baychester avenue for a distance of 35 feet from the north lot line; that the 30 ft. curb cut

MINUTES

now shown as beginning 5 ft. south of the northerly lot line shall be moved southerly to begin 35 ft. south of said northerly lot line; that the landscaping inside the northerly lot line and along the westerly lot line, shall be installed and maintained as shown on the plans above referred to; that the 25 ft. by 25 ft. portion of the plot at the northwest corner shall remain vacant and shall be landscaped; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, excluding all roof signs and temporary signs, but permitting the erection within the building line at the intersection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the borough president; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; other than as modified by resolution adopted by the Board this day under Cal. 767-55-A; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

767-55-A

APPLICANT—O'Dwyer and Bernstein, for Peter and Rachel Federico, owners.

SUBJECT—Application August 2, 1955—re Appeal from a decision of the borough superintendent re non-fireproof construction.

PREMISES AFFECTED—1217 East 233rd street, northwest corner of Baychester avenue, Block 4954, Lots 68 and 69, Borough of The Bronx.

APPEARANCES—

For Applicant: Howard Meyer.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated July 7, 1955, on amendment to N.B. App. 286/54 reads:

"3. The proposed 2 story non-fireproof structure to be occupied by a Gasoline Service Station is contrary to Sect. 4.2.1."

and

WHEREAS, the applicant states the premises consist of a lot 128.61 ft. front by 154.64 ft. in depth, located in a residence use, D area, class One height district upon which it is proposed to erect a two-story building 13 and 20 ft. in height of class 3 construction, 47 ft. 4 in. front by 29 and 30 ft. in depth at street level, 19 ft. 8 in. by 30 ft. in depth above, for use in conjunction with a gasoline service, lubrication, minor motor vehicle repairs, office, sales and storage of automobile accessories and incombustible storage with an occupancy of five persons as more fully described in application filed for zoning variance filed under Cal. No. 423-54-BZ—Vol. II; and

WHEREAS, the applicant states that the purpose of the proposed two-story building is to conform to a restrictive covenant requiring buildings to be at least two-stories in height; and

WHEREAS, the applicant contends that the second floor will be small in area and the occupancy limited to storage of auto accessories with no human occupancy; that an interior two foot six inch wide iron stair will be provided from the second to the first floor of the building; that in the limited size and occupancy of the proposed second floor,

modification of the decision of the borough superintendent will do substantial justice and it is therefore requested that a variance of the provisions of the Administrative Building Code be granted so as to permit the construction of the building as herein proposed.

Resolved, that the decision of the borough superintendent dated July 7, 1955, acting on amendment to N.B. App. 286/54, Objection No. 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be constructed as shown on plans filed with this appeal marked, "Received August 2, 1955" (3 sheets); that the building shall be of Class 3 construction, two stories, 20 ft. in height only in the auto accessory storage part of the structure; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and shall be in conformance with the requirements of the resolution adopted this day under Cal. No. 423-54-BZ, Vol. II.

262-55-BZ

APPLICANT—Kenneth W. Milnes, for Anna Demyan, owner.

SUBJECT—Application April 1, 1955—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use, E-1 area district, the one-story extension of an existing structure without the required setback from the street line, and to permit the erection of an illuminated sign, and to permit the parking of cars on the unbuilt portion of plot on west side of building.

PREMISES AFFECTED—1113 Victory boulevard, west side, 60 ft. south of Melrose avenue, Block 247, Lot 4, Sunnyside, Borough of Richmond.

APPEARANCES—

For Applicant: Kenneth W. Milnes.

Negative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over, date to be set, for inspection and decision, hearing closed; then set for January 31, 1956; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Melrose avenue are in a residence use, E-1 area, class $\frac{3}{4}$ height district; Victory boulevard is in residence and business-1 use, E-1 area, class $\frac{3}{4}$ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 30, 1955 acting on Alt. Applic. 332-53, reads:

"1. Proposed extension of a business use in a residence use district is contrary to Art. II Sect. 3 of the Zoning Resolution.

2. Provide a 15'-0 setback as per Sect. 15A-c of the Zoning Resolution.

3. An illuminated sign in a residence use district is contrary to Art. II Sect. 3 of the Zoning Resolution.

4. Parking of cars in a residential use district is contrary to Art. II Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100 ft. in depth, on which is located a building, 31 ft. front by 52 ft. in depth, irregular, $2\frac{1}{2}$ stories, 32 ft. in height, of class 4 construction, used as a restaurant and residence; that it is proposed to legalize an extension to an existing legally non-conforming use; that a plan has been filed for a small extension, never approved by the department, but was constructed by the owner without a permit; that it is proposed to demolish this extension and construct a new one in accordance with plans filed with this application; and

MINUTES

WHEREAS, the applicant contends that the original building was constructed in 1912, presumably as a residence, no records being available, and some years later a luncheonette was opened and operated by the then owner; that the property then was in a business use, D area, and this operation was legal; that in 1945 the present owner purchased the premises and without further checking assumed that the property was still in a business use district thus permitting expansion; that from 1916 to 1942 the premises were in a business use, D area; that in 1942 this was changed to residence use, E area and in 1953 to residence, E-1 area; that the existing building is of course in violation of the zoning law (objection No. 2) having a setback of only 8.8 ft. instead of 10 ft. under E, and 15 ft. under E-1, but was legal when built in a D zone; that as previously stated, in 1953 an extension was built without a permit, which decreased the setback to 4 ft. 6 in.; that violations and summonses were issued and argued for some time and were ultimately dismissed when the owner agreed to place the matter before the Board; that under plans filed herewith, the present illegal extension will be demolished and the new extension constructed; that from the proposed extension to the east lot line will be approximately 50 ft., and the owner has a purchase contract to acquire the corner lot adjoining, lot 1, Block 247; that the owner proposes to construct a residence for his son on this corner lot, in the future, which will furnish ample protection to other property owners; that the setback of the new extension will be at the 4 ft. 6 in. dimension; that since acquiring the original premises, the owner has purchased 40 ft. on each side, making this lot 140 ft. in width; that the owner has always operated a clean establishment, without any detriment to the neighborhood, other than the reason that it is now residential and should be abandoned; that in view of the investment involved, this seems entirely unreasonable; that in answer to objection No. 3, the present sign on the face of the building is illuminated by steady light from 3 gooseneck floods; that it is intended to eliminate this illumination and install a banjo type sign, lit on each side entirely within the property line; that the present billboard type sign on the east face of the building will be moved to the location shown on plan No. P2 and will be non-illuminated; that to assist in relieving the street parking condition, permission is asked to allow the parking of approximately 8 to 10 customers' cars on the west side of the building as indicated on plan No. P1; that if the Board requests it, off-street parking could also be provided on the unbuilt portion of the lot to the east of the building; and

WHEREAS, the applicant states that the present owner has held title to the property since October 17, 1945; and that the assessed valuation of land is \$2,500 and of the building \$7,000 making a total of \$9,500; that the building was erected prior to 1912; and

WHEREAS, in accordance with direction of the Board, applicant has submitted revised plan of building indicating thereon the location of an existing illegal extension; the applicant has submitted certified copy of a record from the Board of Health indicating that these premises were issued permits to conduct a restaurant from 1929 to the present time; from 1936 to 1946 no restaurant permits were issued as the premises were used only as a soda fountain for which no Board of Health permit was required; in 1946, after inspection by the Board of Health, the present owner was issued a restaurant permit; and

WHEREAS, a license from the Health Department is not sufficient without a certificate of occupancy; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision c of the zoning resolution; and

WHEREAS, the Board found that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution and was

therefore not entitled to relief on the grounds of practical difficulty or unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 332-53, Objection No. 1, 2, 3 and 4 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

461-55-BZ

APPLICANT—Fred C. Dahlem, for Jacob Presser, owner.
SUBJECT—Application June 9, 1955—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking of motor vehicles upon unbuilt portion of the plot.
PREMISES AFFECTED—2642 Marion avenue, east side, 139 ft. north of East 194th street, Block 3282, Lots 10 and 11, Borough of The Bronx.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 31, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; Marion avenue is in business and residence use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 24, 1955 acting on Alt. Applic. 186-55, reads:

"1. In a residence district the parking of motor vehicles as proposed is contrary to Sect. No. 3 of Art. II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage and 50 ft. rear, side lot lines 171.34 ft. and 174.34 ft. respectively; that at the front north portion there is a two story and attic frame residence building; that under Alt. 186-55 approved, it is proposed to remove the attic and 2nd floor and alter the building to a one story and cellar; that the remainder of the lot is proposed as a parking lot which will be operated by the owner's wife; that the owner will live on the premises; and

WHEREAS, the applicant contends that the plot will be properly graded and surfaced and fenced in; that there is a great need for off-street parking and this plot can get at least 30 cars off the street; that it is requested that the Board grant a variation for a period of five years; and

WHEREAS, the applicant states that the present owner has held title to the property since November 23, 1954; that the assessed valuation of land is \$11,000 and of the buildings \$1,000 making a total of \$12,000; that the building was erected in 1860; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 f, for a term of two years to permit the rear portion of the plot, where unbuilt upon, to be occupied for the parking and storage of more than five motor vehicles substantially as proposed and as indicated on plans filed with this application marked, "Received June 9, 1955" (3 sheets) *on condition* that this portion of the premises shall be levelled sub-

MINUTES

stantially to the grade of Marion Avenue and shall be furnished with a suitable fence which shall be maintained at all times on the side and rear lot lines with bumpers for protection thereto; that there may be one entrance to the premises to Marion Avenue with a curb cut not exceeding 10 ft. in width; that this use is in addition to the use as accessory to the single family dwelling of three cars as permitted by the Department of Buildings; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that there shall be no signs erected on the premises except one attached to the fence near the entrance advertising the parking and storage use; that such sign shall not exceed 10 sq. ft. and shall not be illuminated and shall not extend beyond the building line; that the entrance to the premises shall be fitted with a gate which shall remain closed when the parking lot is not in operation; that cars of the pleasure car-type only shall be parked or stored and there be no more than 18 cars parked or stored and that all permits including a Certificate of Occupancy shall be obtained within six months from the date of this resolution.

469-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Michael T. Marshall, owner.

SUBJECT—Application May 31, 1955—(decision of the borough superintendent) under sections 7f, 7i and 7h of the zoning resolution, to permit in a business and residence use district, the erection and maintenance of a gasoline service station, lubritorium, auto repairs, car washing, storage, office and sales, parking and storage of motor vehicles.

PREMISES AFFECTED—4320-4338 Broadway, east side, from West 184th to West 185th streets, 659-665 West 184th street and 654-660 West 185th street, Block 2167, Lots 1-6, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner

Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and West 185th street are in business and residence use, B area, class 1¼ height districts; Broadway is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 3, 1955 acting on N.B. Applic. 51-55, reads:

"1. Proposed gasoline service station, lubritorium, auto repairs, car washing, storage, office and sales, parking & storage of motor vehicles, located in a Business and Residence use district is contrary to Article II section 3 and section 4(a) 29, 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 181 ft. 5¾ in. frontage by 95 ft. ½ in. in depth, irregular; that lot No. 1 consists of a 2-story brick store and auto showroom erected under N.B. Applic. 256-25 and certificate of occupancy No. 10109; lot No. 2 consists of a 3-story frame dog and cat hospital, one family and quarters for the help, altered under Misc. 3848-40, for which no certificate of occupancy was issued; that lot No. 3 is vacant; that lot No. 4 consists of a metal building, 18 ft. by 36 ft., used as a 4-car garage and an 18 ft. by 24 ft. metal building used as a 3-car garage, erected under N.B. Applic. No. 535-27 and for which no certificate of occupancy was issued;

that lot No. 5 consists of a metal building, 18 ft. by 36 ft., used as a 4-car garage and an 18 ft. by 24 ft. metal building used as a 3-car garage, erected under N.B. Applic. 534-27 and for which no certificate of occupancy was issued; that lot No. 6 is used for the parking and storage of motor vehicles, auto sales and a 10 ft. by 10 ft. frame office, erected under Alt. Applic. 511-53, for which certificate of occupancy No. 41318 was issued; that all of these uses and buildings are to be removed and it is proposed to secure a variance for a period of 15 years in order to erect a modern gasoline service station consisting of twelve 550 gallon gas storage tanks and 8 dispensing pumps; that the proposed accessory building will be of class 3 construction, one story in height, with a frontage of 75 ft. 8 in. and a depth of 34 ft., and will contain the conjunctive uses of sales, lubritorium, auto repairs, car wash and storage and the open parking and storage of motor vehicles; and

WHEREAS, the applicant states that the use district maps show that the part of the site within 100 ft. of Broadway is in a business use district and the balance of the site is in a residence use district; that the entire site is in a class B area district and a class 1¼ height district; and

WHEREAS, the applicant contends that the proposed building will be modern in design; that the gas pumps will set 15 ft. back of the building line, thereby creating a safe condition for pedestrian traffic; that proper retaining walls will be erected at the rear lot line and partly along the 184th and 185th street building lines to safeguard the rise in grade from Broadway; that Broadway is a main auto lane leading north and south through Manhattan and as such the proposal is entirely in keeping at this point; that there are no other gas stations within the affected area, thereby creating the need for this proposal; that there are sufficient stores in the area for public requirements and the removal of the present buildings and metal garages, which are an eyesore to the area, will be of benefit to the public; that block 2167, lots 29, 32 and 63, within the affected area, is developed with garages and a motor vehicle repair shop; that these are non-conforming uses and occur opposite the site and preclude the use of the site for conforming use; that the present 4 metal buildings now containing 14 motor vehicles on the site are also a non-conforming use, so that the proposal which will replace this use will not introduce a new non-conforming use of the site; that the proposal to maintain parking and storage of motor vehicles as one of the new uses will help alleviate the critical parking problem in the area; that present income, as derived from present buildings and uses, with the high assessed value of the site, does not warrant the retention of the buildings, as they barely cover taxes and interest, without adequate return to the owner on his investment; and

WHEREAS, the applicant states that the present owner has held title to the property since March 28, 1950; that the assessed valuation of land is \$76,500 and of the building \$27,600 making a total of \$104,100; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, i and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f, i and h of the Zoning Resolution, to permit the erection and maintenance of a gasoline service station, lubritorium, auto repairs, non-automatic car washing, storage, office and sales, parking and storage of motor vehicles, for a term of fifteen years, *on condition* that all work shall be done substantially as shown on plans filed with this application, marked "Received May 31, 1955", 4 sheets, "December 8, 1955", 1 sheet, and "January 18, 1956", 2 sheets; that all existing buildings on the plot shall be demolished; that the plot shall be leveled substantially according to the sections shown on plans filed marked "Received January 18, 1956"; that the retaining walls along the rear and side lot lines shall be designed to meet the approval of the Department of Buildings for the lateral

MINUTES

thrust thereof; that where no walls of adjacent buildings come in contact with the rear or easterly lot line of this property, there shall be erected a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; that the upper levels of the property between the retaining wall and the rear lot lines shall at all times be kept in clean and neat condition; that pumps shall be of an approved low-type; that gasoline storage tanks shall be limited to 12 approved 550 gallon tanks; that sidewalks and curbs abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to flat signs on the front facade of the accessory building and to the illuminated globes of the pumps, excluding roof signs and temporary signs, but permitting two brand signs erected on post standards, one at the corner of Broadway, and West 184th street and one at Broadway and West 185th street, each extending not more than 4 feet beyond the building line, as shown on plans; that curb cuts shall be restricted to four on Broadway, as shown, and one 20 ft. curb cut on West 185th street, starting 5 feet from the corner of Broadway; that there shall be no curb cuts on West 184th street; that such portable fire-fighting appliances shall be installed as the Fire Commissioner shall direct; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

636-55-BZ

APPLICANT—Paul Friedman, for Julius T. Parker, Moe Silverstein and Max and Beatrice Grossman, owners.

SUBJECT—Application July 29, 1955—(decision of the borough superintendent) under sections 7f, 7i and 7A of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non automatic), minor repairs (hand tools only), office and sale of auto accessories, parking of more than 5 cars waiting to be serviced, with curb cuts and show windows within 75 ft. of residence use district.

PREMISES AFFECTED—1331-1341 Utica avenue and 5001-5011 Foster avenue, northeast corner, Block 4781, Lots 45, 47 and 48, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Nathan Tanenbaum.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 20, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Utica avenue are in a business use, C area, class 1 height district; Foster avenue is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 30, 1955 acting on N.B. Applic. 1555-55, reads:

"1. Proposed building and premises, in a Business use zone, to be used for Gas service station, lubritorium, auto washing (non-automatic), minor repairs (hand tools only), storage, office and sales of auto accessories, parking for more than 5 cars waiting to be serviced, is contrary to Article II, PP. 4-a, subsections 29 & 46 of the Zoning Resolution.

2. Curb cuts for business entrances and show windows within 75' of a Residence zone is contrary to Article II, PP. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist

of a plot, 100 ft. frontage by 100 ft. in depth, vacant, except for billboard sign; that it is proposed to erect and maintain for a term of 15 years a gasoline service station, lubritorium, auto washing (non-automatic), office, sales and storage of auto accessories, minor repairs (hand tools only) and parking of cars waiting to be serviced; and

WHEREAS, the applicant contends that there is no economic demand for the construction of an ordinary business use at the subject premises as the nearby stores and the main shopping area located on Avenue D, near Utica avenue, adequately serves the neighborhood; that the residential portion of the neighborhood is almost entirely developed with one family homes so that no increased residential support for additional stores may be anticipated reasonably in the foreseeable future, and the maximum rentals obtainable would be insufficient to yield a reasonable return on the investment; that there is an economic demand for the construction of a gas station at the subject premises because of its location at the intersection of Utica and Foster avenues, both of which are heavily trafficked, because no similar facilities exist for the convenience of the public in the immediate neighborhood, and an investment in such development will produce a reasonable return; that a grant of this application would promote public safety, as the proposed structure would decrease traffic hazards which are incident to the development of buildings flush to the building lines at corners and which thereby create blind intersections; that the proposed structure would be set back 47 ft. from the Utica avenue building line and 34 ft. 8 in. from the Foster avenue building line, giving clear visibility to traffic at the intersection; that there would be no adverse effect upon real estate values or fire insurance rates of nearby properties; that the future development of the neighborhood would be protected by the imposition of regulatory conditions imposed by the Board, and particularly, by the limitation of the term of the variance to a stated term of 15 years; that the proposed curb cuts and show windows within 75 ft. of the residence use district will have no adverse effect upon nearby properties; that the proposed show windows are set back approximately 33 ft. from the Foster avenue building line and are small and unobstrusive; that the proposed curb cuts on Foster avenue are necessary for the safe and efficient operation of the proposed gas station; that the adjoining property on Foster avenue will not be affected thereby as there is already established an accessory garage building adjacent to the easterly line of the proposed gas station, with a curb cut entrance to Foster avenue; and

WHEREAS, the applicant states that the present owner has held title to lot 45 since February 4, 1938; lot 47, since January 16, 1941 and to lot 48 since August 3, 1949; that the assessed valuation of land is \$9,900 and of the building \$200 making a total of \$10,100; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the applicant has amended his application to include section 7, subdivision i of the Zoning Resolution; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions A, f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f and 7A of the zoning resolution for a term of fifteen years, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, non-automatic auto washing, minor repairs, office and sales of auto accessories and under Section 7h for a similar term, parking of more than five cars awaiting service and with curb cuts and show windows within 75 feet of the residence use district, all as shown on plans filed with this application marked "Received July 29, 1955", 4 sheets, "November 16, 1955", 1 sheet, "December 28, 1955", 1 sheet, and "January 17, 1956", 1 sheet, on condition that the curb cuts shall be

MINUTES

limited to two 30 ft. cuts on Utica avenue and two on Foster avenue, with one starting 5 feet from the corner of Utica avenue and the other not closer than 20 feet to the easterly lot line extended to the Foster avenue curb; that there shall be erected along the easterly lot line and the offset thereto from Foster avenue to the northerly interior lot line a 6 ft. high solid brick face wall with face brick toward the adjoining residences; that along the northerly interior lot line there shall be erected a 5 ft. 6 in. high woven wire fence on a 6 in. by 6 in. concrete curb; that the accessory building shall be arranged as shown on plans, except that the door of the men's toilet shall open from the office of the accessory building and not from the outside; that all pumps shall be 15 ft. back from the building lines; that gasoline storage tanks shall be limited to eight 550 gallon approved tanks; that signs shall be restricted to flat signs on the front facade of the accessory building, excluding all roof signs and all temporary signs, but there may be one brand sign erected on a post standard at the intersection of Foster and Utica avenues, extending not more than 4 feet beyond the building line, as shown; that sidewalks and curbs abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that under section 7i for a similar term, there may be motor vehicle repairing with hand tools only, for minor adjustments performed entirely within the accessory building; that such portable firefighting appliance shall be installed as the fire commissioner shall direct; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

675-55-BZ

APPLICANT—Paul Friedman, for William Spiller, owner.
SUBJECT—Application August 25, 1955—(decision of the borough superintendent) under sections 7f and 7c of the zoning resolution, to permit partly in a retail use district and partly in a residence use district, the erection and maintenance of a gasoline service station, auto washing (non automatic), lubrication, office and accessory sales, minor repairs, with hand tools only, and parking of motor vehicles service, with a ground sign in a retail use district for a term of 15 years.

PREMISES AFFECTED—116-14 to 116-46 Merrick boulevard, (116-32 official) west side, 124.94 ft. south of 116th avenue, Block 12353, Lot 374, St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 13, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 116th avenue are in retail and residence use, D area, class 1 and class ½ height districts; Merrick boulevard is in retail, local retail and residence use, D area, class 1 and class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated August 16, 1955 acting on N.B. Applic. 2948-55, reads:

"1. Proposed use as a gasoline service station, auto washing (non-automatic), lubrication, office and accessory sales, minor repairs with hand tools only and parking of motor vehicles awaiting service, on a lot partly in a Retail Use District and partly in a Residence Use District is contrary to Art. II Sec. 3 and 4A of the Zoning Resolution.

2. Proposed ground sign in a Retail Use District is contrary to Art. II Sec. 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 365.59 ft. by 137.79 ft. by 360 ft., irregular, which is presently vacant; that it is proposed to erect and maintain a gasoline service station, auto washing (non-automatic), lubrication, office and accessory sales, minor repairs with hand tools only and parking of motor vehicles awaiting service, with a ground sign in the retail use district, for a term of 15 years; that the building will be of class 3 construction, 45 ft. 6 in. front, 27 ft. 8 in. and 28 ft. 4 in. in depth, 19 ft. 6 in. in height; and

WHEREAS, the applicant further states that the subject premises is presently zoned as a D area district; that the portion of the property within 100 ft. of Merrick boulevard is presently zoned as a retail use and a class ½ height district and the remainder is zoned as a residence use and a class 1 height district; that as of July 25, 1916 the portion of the property within 100 ft. of Merrick road, as then mapped, was zoned as a business district; that the remainder was zoned as a residence use district and the entire property was zoned as a one times height district; that the present use zoning became effective on January 21, 1947 and the present height zoning became effective on June 30, 1952; that the area designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant states that the premises is irregular in shape and has a mean depth of approximately 70 ft. from Merrick boulevard, varying from a 3.97 ft. depth at the northerly lot line to a depth of 100 ft. at its deepest dimension (within the retail use portion of the plot); that the premises has a total area of 23,744 sq.ft., of which 1,700 sq.ft. is in a residence use district, leaving a balance of 22,044 sq.ft. in the retail use district portion, and being in a D area district, the maximum building area of coverage for stores is 12,124 sq.ft.; that the premises is uniquely desirable for development as a gas station with accessory uses because Merrick boulevard is a heavily trafficked main thoroughfare used by transients as well as by local neighborhood motorists; that the premises could be developed, substantially as proposed, so as to yield a fair return on the investment, without impairing the rights of nearby owners; that the premises could not be used for any other use so as to yield a reasonable return on the investment; that the proposed use would furnish more light and ventilation to nearby properties than a conforming use since the proposed building will be a maximum of one story, 19 ft. 6 in. in height, and will occupy an area of 1,260 sq.ft., or approximately 5.4% of the area of the plot, while conforming stores could occupy an area of 12,124 sq.ft., or approximately 51% of the area of the plot, and could be constructed to a height of 50 ft., and could be further extended in height by setting back from the building line; and

WHEREAS, the applicant contends that as shown on the radius diagram, there is no entrance to or exit from the U.S. Naval Hospital within 300 ft. of the entrances to or exits from the proposed gas station; that this hospital is not a hospital maintained as a charitable institution within the meaning of the zoning resolution but is owned and maintained by a branch of the United States government and is for the exclusive use of servicemen and veterans; that the proposed ground sign referred to in objection No. 2 in the decision of the borough superintendent is a post standard sign advertising the brand of gasoline sold on the premises; that the proposed sign is a customary incident to the operation of the gas station and that said sign, as an accessory sign, is in conformity with the spirit of the zoning resolution; that the Board has customarily permitted the erection of such post standards signs as incidental to new gas station uses; and

WHEREAS, the applicant states that the present owner has held title to the property since March 17, 1954 and that the assessed valuation of land is \$1800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

MINUTES

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7f and e of the Zoning Resolution for a term of fifteen years to permit the erection and maintenance of a gasoline service station, auto washing (non-automatic), lubrication, office and accessory sales, minor repairs with hand tools only and parking of motor vehicles awaiting service, on condition that all work shall be done substantially as shown on plans filed with this application marked, "Received August 25, 1955" (4 sheets), with the exception that the northern-most curb cut along the Merrick Boulevard front shall be moved southerly and start at a distance of 50 feet from the northerly end of the lot, instead of 15 feet as shown on said plans; that the remaining 50 feet of the premises shall be landscaped between the building line and the rear lot line; that the fence along the rear lot line, to the west, shall be a split sapling fence extending for the 360 feet of that lot line, with a six inch by six inch concrete curb five feet therefrom to protect said fence, and that the space between said curb and said fence shall be landscaped, all as shown on the drawings above cited; that the fence returning to the building line at the southerly end of the plot shall be as shown on the plans, with a brick wall two feet in height with iron pickets three feet six inches in height mounted thereon, to a total height of five feet six inches; that this fence shall continue across the offset in said southerly lot line; that signs shall be restricted to a permanent sign, attached to the facade of the accessory building, and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the building line of a post standard, where indicated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that planting with proper curb protection shall be maintained with suitable planting material, where shown on such plans and where required herein; that the sidewalk and curbing in front of the premises shall be reconstructed or repaired to the satisfaction of the borough president; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that in all other respects the premises and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

827-55-BZ

APPLICANT—Leonard F. Rothkrug, for Arthur Miller, Herbert Cohen and Frank Bruno, owners (owner under contract—Jaltex Petroleum Corp.); (Master Builders and Mason Supply Co., lessee.)

SUBJECT—Application October 21, 1955—re (decision of the borough superintendent) under sections 7f and 7A, to permit in a retail use district, the erection and maintenance of a gasoline service station, car wash (non-automatic), lubritorium, oil selling, sales, with curb cuts less than 75 ft. from the residence use district, for a term of 15 years.

PREMISES AFFECTED—245-20 139th avenue and 245-22 to 245-32 South Conduit avenue, southwest corner and 139-02 to 139-10 246th street, Block 13614, Lots 23 and 24—23 tentative, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 29, 1955 after due notice by publication in the Bulletin; laid over to December 20, 1955, for decision; hearing closed; then to January 17, 1956, for further consideration by the Board; then to January 24, 1956, for inspection and decision; then to January 31, 1956, for applicant to file revised plans as to masonry wall along 246th street and 139th avenue, pumps and pump islands; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, D area, class ½ height district; South Conduit avenue, 246th street and 139th avenue is in retail and residence use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 21, 1955 acting on N.B. Applic. 4413-55, reads:

"1. Proposed occupancy for a gasoline service station, auto laundry, office and sales area, utility room and lubritorium in a Retail Use District is contrary to Art. II Sec. 4-A of the Zoning Resolution.

2. Proposed business entrances within 75 ft. of a Residence Use District is contrary to Art. II Sec. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 117.71 ft., 13.71 ft. and 100 ft. frontage by 75.81 ft. in depth, irregular, on which is located a one story building that is to be demolished; that it is proposed to erect a gasoline service station, car wash (non-automatic), lubritorium, to include oil selling, sales, with curb cuts less than 75 ft. from the residence use district; and

WHEREAS, the applicant states that as of July 25, 1916 the premises was located in a business use, D area, class ½ height district and was changed to a retail use district on January 1, 1947; and

WHEREAS, the applicant states that the premises consist of an irregular plot 117.71 ft. front on Sunrise highway (South Conduit avenue), 13.71 ft. front on 139th avenue, 100 ft. front on 246th street by 75.81 ft. irregular, on which is presently erected a one story concrete block building, 50.30 ft. by 26 ft. in area, more or less, used and occupied under certificate of occupancy No. Q-92740 for the storage and sales of mason's supplies and storage of three trucks; that the premises originally consisted of a larger plot, 50 ft. in depth by 100 ft. front; that the premises was reduced in size by reason of condemnation proceedings by the City of New York in the widening of South Conduit avenue; that the present tenant, Master Builders Supply Co., has been unable to properly conduct its business on the lot, as reduced in size, and have proceeded to vacate the premises and move to a new location on the northwest corner of North Conduit avenue and 242nd street; that it is proposed to demolish the existing building; vacate the present occupancy and erect the gas station in its place; and

WHEREAS, the applicant further states that this application is made in behalf of Jaltex Petroleum corporation who has as its principal, the same principal as in Cross-Island Sunrise Gas Stations, Inc.; that Cross Island-Sunrise had the station fronting on Sunrise highway (South Conduit avenue) on the north side of 245th street commencing 100 ft. east of the intersection of Francis Lewis boulevard and 245th street; that this station was condemned in the condemnation proceedings brought by the City of New York in the widening of Sunrise highway (South Conduit avenue); that no award in condemnation has been made to the lessee for the loss of the station and the lessee suffered the real financial loss; that the subject premises is the nearest location available to the station lost by reason of condemnation; that the premises are within 400 ft. along Sunrise highway east of the former station; that Jaltex Petroleum corporation is a subsidiary of the distributor for Texaco gasoline in this area; that the station lost under condemnation was likewise a Texaco gasoline outlet and it is intended that the proposed gas station replace the former Texaco station; that Sunrise highway is an important heavily trafficked roadway to the south shore of Long Island and a representative of this major

MINUTES

oil company at this location is essential; that the existing building was erected particularly for use for storage of face brick and other masonry supplies, but because of the reduced size of the lot is no longer economically useable and the land will not yield any income which could be deemed a reasonable return for the investment; and

WHEREAS, the applicant contends that there is no economic demand for the construction of retail stores at the subject premises as the nearby stores adequately serve the needs of the neighborhood and any additional stores would depreciate the rental value of existing retail stores; that the retail store development is one block west of the premises, on Francis Lewis boulevard, so that it would not be economically feasible to develop the premises with a conforming use; that the area is not heavily developed and the small size of the lot and the absence of land for accessory parking facilities on the premises, makes the plot uneconomical for retail store development; that there is no economic demand for the development of the premises for residential purposes as the property is situated on a plot having its real frontage, 117 ft., on Sunrise highway, one of the most heavily trafficked streets in the City and also having frontage on two other streets, 139th avenue and 246th street; that further, the premises is directly opposite the Long Island railroad and directly opposite an existing gas station on block 13622; that there is a demand for the use of the subject premises as a gas station and accessory uses, as to its unique location, fronting on three streets and gives assurance that a substantial investment will yield a reasonable return; that a grant would not adversely affect the neighborhood as the property north and east would in no way be affected adversely and the balance would receive greater protection through regulatory restrictions imposed by the Board as conditions of the zoning variance, then if the property was maintained as existing; that patrons for the proposed station would come from Sunrise highway traffic and exit back to Sunrise highway without entering the community; that a grant would considerably improve the appearance of the property which is presently used for open storage and sale of bricks and masons' supplies and is disorderly and objectionable in appearance; and

WHEREAS, the applicant states that the present owner has held title to the property since July 14, 1955 and that the assessed valuation of land is \$3,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7f and 7A, to permit in a retail use district, the erection and maintenance of a gasoline service station, non-automatic car wash, lubricatorium, oil selling, sales and to permit curb cuts less than 75 ft. from the residence use district, for a term of fifteen years, *on condition* that all work shall be done substantially as shown on plans filed herewith marked "Received October 21, 1955", 2 sheets, "November 16, 1955", 2 sheets and revised plans "January 27, 1956", 2 sheets, except that the 5 ft. 6 in. masonry wall shown along the building line of 139th avenue and the building line of 246th street shall have face brick on the both sides agreeing with the face brick used on the accessory building; that a similar 8 in. brick wall shall extend along the southwesterly lot line from the service building to the building line of South Conduit avenue; that there shall be no curb cuts except two 15 ft. cuts on South Conduit avenue, the first one starting 10 ft. from the corner of 139th avenue and the second one starting 75 ft. from the corner of 139th avenue; that these curb cuts may have 1 ft. 6 in. splays at each end; that the gasoline pumps shall set back 15 ft. from the South Conduit avenue building line, as shown; that the building shall be constructed of brick with a face brick front and rear wall on the 246th street side; that the women's toilet in the serv-

ice building shall be transposed to the position shown for the men's toilet and the men's toilet shall open not to the exterior from the outside wall but in through the sales-room; that signs shall be restricted to a permanent sign, attached to the facade of the accessory building, and the illuminated globes of the pumps, excluding all roof and temporary signs, but permitting, one (1) brand sign on a post standard located on the 139th avenue end of the South Conduit avenue building line, which may extend for not more than 4 ft. beyond the building line; that the premises shall be paved with concrete or asphaltic pavement; that portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that gasoline storage tanks shall be limited to eight approved 550 gallon tanks; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:10 P.M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 31, 1956, 2 P.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

322-54-SM

APPLICANT—Minwax Company, Inc., owner.

SUBJECT—Application April 22, 1954—Minwax Transparents (waterproofing exterior masonry walls above grade), approval of.

APPEARANCES—

For Applicant: W. E. Bayer.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 322-54-SM

Subject: Minwax Transparents (water repellant for exterior masonry walls above grade).

Minwax Company, Inc., New York City filed April 22, 1954 an application with the Board of Standards and Appeals for approval of the material known as Minwax Transparents (water repellant for exterior masonry walls above grade) under the provisions of C26-191.0 Administrative Building Code.

Purpose

The material is used as a water repellant for masonry walls above grade.

Description

The material is a water repellant for above grade masonry work and is a composition of silicon and mineral spirits. Silicon is defined as a non metallic element being next to oxygen, the chief elementary constituent of the earth's crust. Crystalline silicon is used in steel making as a deoxidizer and hardner and melts at 2588°F and can be cast like iron.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts Committee on Test and the material was tested as to its water repellant powers.

Two panels each 3'-0" x 3'-0" were constructed of red brick, one panel was left untreated and the second panel was treated with Minwax Transparent. The coverage being 150 sq. ft. per gallon of Minwax. The panels were weighed, the unticated panel weighed 326 lbs. and the treated panel

MINUTES

weighed 325½ lbs. Panels were then subjected to a hose stream, the pressure was 10 lbs. per sq. inch and the nozzle being 6'-0" from the panel, this stream was maintained for 45 minutes. The panels were again weighed. The untreated weighed 347 lbs., an increase of 21 lbs. or 6½" and the treated weighed 328 lbs. an increase of 2½ lbs. or .065%.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Minwax Transparents for voluntary use in New York City as a water repellant for exterior masonry above grade under the provisions of C26-191.0 Administrative Building Code on condition that each container in which the material is marketed shall be marked, tagged or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 322-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

550-54-A—Vol. II

APPLICANT—E. Walter Jansen, for 184 Realty Corp., owner.

SUBJECT—Application reopened November 22, 1955 as Vol. II—re Appeal from a decision of the borough superintendent—egress.

PREMISES AFFECTED—184 5th avenue, west side, 25 ft. south of West 23rd street, Block 824, Lot 42, Bor-
ough of Manhattan.

APPEARANCES—

For Applicant: E. Walter Jansen.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 25, 1955, re B.N. 2367/55 reads:

"1. Provide 2 legal means of egress from cellar en-
closed to the street. Sec. 271 L.L."

and

WHEREAS, the applicant states the building is 8 stories, 98 ft. in height, 37 ft. by 100 ft. in area at 1st floor, 37 ft. by 85 ft. in area at typical floor, of Class 3 construction, erected about 1883, now located on a lot 37 ft. by 100 ft. deep in a business-1 use, B area, Class 2 height district; used and occupied since 1911 as follows: Cellar—baking of bread, boiling meats and vegetables, cold food storage and preparation, 4 persons; 1st floor—restaurant and kitchen, 180 persons; 2nd floor—showroom and stock, 4 persons; 3d floor—office and toy designing, (art work) 11 persons; 4th floor—showroom and manufacturing clothing, 5 persons; 5th floor—vacant; 6th floor—salesroom and stock optical goods, 4 persons; 7th floor—salesroom and clothing manu-
facturing, 5 persons; 8th floor—same, 7 persons. No change in use or occupancy is proposed except to increase the oc-
cupancy of the 8th floor from 7 to include 19 employees in addition. The building is equipped with approved standpipe and interior fire alarm systems; regular monthly fire drills are not maintained. There is one 3 ft. 6 in. wide steel and concrete stairs, enclosed with terra cotta blocks plastered both sides, equipped with ¾ hr. fireproof, self-closing doors, leading from roof bulkhead direct to street and one fire escape at rear extending roof by ladder with egress from 2nd floor level through passageway and stair lobby; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, this appeal was denied by vote of the Board April 26, 1955, on a decision of the Borough Superintend-
ent dated June 2, 1954, acting on amendment to B.N. 1333/54, Objection 1, after inspection by a committee of the Board, which recommended that the appeal not be granted for the reason that exits from the cellar were not sufficient and the statement made as to the use of the cellar was in-
correct as the committee found roasting of meats and bak-
ing of bread in the cellar; and

WHEREAS, the applicant states it is now proposed to alter the building so as to make it comply as far as physically possible with the provisions of Section 271 of the Labor Law; that it is proposed to install a new stairway from the cellar to the first floor near the front on the southerly side, which is to be of steel and concrete in a fireproof en-
closure, equipped with fireproof, self-closing doors at cellar and first floor levels; this stairway is to extend direct into the lobby at front of building with egress direct to the street. It is also proposed to rebuild the present stair, taking out winders and installing a new 1-hour fireproof self-closing door in a fireproof enclosure at cellar level. It is also proposed to alter present stairs at rear of the building, enclosing same at cellar level with fireproof parti-
tions, equipped with a new 1-hr. fireproof, self-closing door; and

WHEREAS, the applicant contends that the proposed alter-
ations will give one direct means of egress to street and two other means of reaching the first floor, thus giving

MINUTES

two additional means of egress although these would require passing through the restaurant in order to reach the street; that the means of egress from the first floor to the roof complies entirely with the requirements of Section 271 of the Labor Law; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on B.N. 2367/55, Objection No. 1, and that the appeal be and it hereby is *granted, on condition* that in addition to the existing means of exit from the cellar there shall be installed a new enclosed stairway where shown on plans filed with this appeal showing existing conditions, marked "Received January 9, 1956", (4 sheets), and proposed conditions marked "Received October 30, 1955", (2 sheets); that such stair from the cellar to the first floor shall be located where shown and comply in all other respects with the requirements therefor and shall exit to the lobby of the building, through which passage is possible to Fifth avenue; that in all other respects the occupancy shall comply with all laws, rules and regulations applicable thereto; and that a new certificate of occupancy shall be obtained.

825-54-A

APPLICANT—Recordak Corp., for Eastman Kodak Co., owner.

SUBJECT—Application October 20, 1954—re Appeal from an order and a decision of the fire commissioner—relating to a film vault.

PREMISES AFFECTED—235-239 West 23rd street, (first floor), north side, 347 ft. west of 7th avenue, Block 773, Lot 24, Borough of Manhattan.

APPEARANCES—

For Applicant: C. E. Hinds.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, Order # 2645-4 issued by the Fire Commissioner April 20, 1954, reads:

"Safety Film

Gentlemen:

Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this Department when such order has been complied with.

"1. Provide approved vault for the storage of approximately 580,000 feet of safety film on first floor. Chap. 19.117-0-a-6 Admin. Code. (S1)"

and

WHEREAS, the decision of the Fire Commissioner dated September 20, 1954 reads:

"This will acknowledge receipt of your letter of September 17th addressed to Commissioner Edward Cavanagh, which has been referred to this office for reply.

"In response to your inquiry as to the issuance of a new order and extension of time for compliance with the original order, you will please be advised that it is not the policy of this department to re-issue violations under new dates, nor is the Fire Department authorized to grant extensions of time. However, you have the opportunity of filing an appeal with the Board of Standards and Appeals in connection with this decision on the order in question. The appeal must be filed within thirty days from the above date."

and

WHEREAS, the applicant states that the building is eight stories, 105 ft. in height, 60 ft. by 98 ft. 9 in. in area, of fireproof construction, erected 1907, located on a lot 60 ft.

front by 98 ft. 9 in. in depth, now in a retail use, B area, class one and one-half height district, and used and occupied since January, 1950, without a Certificate of Occupancy, as follows: basement—storage, 11 persons; first floor—receiving and shipping stock, 8 persons; 2nd floor—personnel office and locker, 13 persons; 3rd floor—maintenance shop and stock, 25 persons; 4th floor—microfilm service, 40 persons; 5th, 6th and 7th floors—offices, 40, 47 and 50 persons, each respectively, 8th floor—film laboratory, 65 persons; no change in use or occupancy is now proposed; the building is equipped with an approved stand-pipe system, and an approved two-source sprinkler system throughout; there are two interior 3 ft. 6 in. wide fireproof stairs leading from roof bulkhead direct to street; and

WHEREAS, the applicant contends that the order requires a vault for the storage of safety film on the first floor; that compliance with the order would constitute an appreciable hardship as the fire hazard of the safety film is not as great as that of an equivalent amount of paper for which vaults are not required; that the film handled is intended solely for record purposes and not for motion pictures; that all film made for this purpose is on safety base; that the possibility of cellulose motion picture film of being included in this storage is extremely remote, if not virtually impossible; and

WHEREAS, the applicant contends that safety film should be stored in a manner comparable to the storage of 16mm safety base motion picture film in schools, libraries and places of public assembly, where no special protection is required; that the film used here is of the same type except that it is 35mm instead of 16mm, and its perforations resemble those of 35mm motion picture film; that since orders are not issued for similar material in 16mm size, it is assumed that any possible hazard relates to the accidental inclusion of obsolete cellulose-nitrate film in the storage; that as the business of the applicant relates solely to the use of materials for still pictures of material for record purposes, the accidental inclusion of flammable cellulose-nitrate in this storage is virtually impossible; and

WHEREAS, under Cal. No. 904-24-A, the Board of Appeal on September 22, 1925, modified Order # 24567-L6 relating to installation of film vaults and the installation of 5,000 gallon pressure tanks to supply the sprinkler system, on condition that the stock be confined to the 8th story, stored in finished stock store-room, and so maintained in the original packages in the room to be ventilated to the outer air with not less than two skylights, glazed with plain glass and that the two-source sprinkler system be maintained at all times, and that the existing gravity and pressure tanks be maintained; and

WHEREAS, the applicant now states that the provisions of the resolution adopted by the Board under Cal. No. 904-24-A have been complied with.

Resolved, that the decision of the Fire Commissioner, as set forth in Order # 2645-4, dated April 20, 1954, be and it hereby is *modified* and that the appeal be and it hereby is *granted* on condition that no film shall be stored on the premises other than safety film; that such safety film may be 35mm. in width and stored as proposed on the first floor only, as indicated on plans filed with this appeal, marked "Received October 20, 1954" (1 sheet); that the two-source sprinkler system throughout the building shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that this variance shall continue only so long as the conditions as set forth and permitted by this resolution for the company involved shall be maintained; and that in all other the premises and occupancy shall comply with all laws, rules and regulations applicable thereto.

946-54-A

APPLICANT—Samuel Rosenblum, for Jesse H. Barkin, trustee, owner.

SUBJECT—Application December 7, 1954—re Appeal from a decision of the borough superintendent—egress.

PREMISES AFFECTED—22-24 West 27th street, south

side, 160 ft. 6¼ in. west of Broadway, Block 828, Lot 61, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 17, 1954, on B.N. 3307/54, reads:

"1. Provide two approved means of egress from cellar and 1st floor to comply with Sect. 271 of the Labor Law."

and

WHEREAS, the applicant states the building is 12 stories, 149 ft. 10 in. in height, 50 by 95 ft. in area at street level, 50 by 88 ft. in area at typical floor level, of fireproof construction, erected in 1909; now located in a business use, B area, Class 2 height district; occupied since erection as follows: Basement—manufacturing desk sets and novelties; 1st floor—same, 40 persons; 2nd floor—shirt distributors, 5 persons; 3rd floor—manufacturing men's jackets, 10 persons; 4th floor—manufacturing shower curtains, 47 persons; 5th floor—distributing clocks, 17 persons; 6th floor—manufacturing belts, 48 persons; 7th floor—manufacturing ladies underwear, 54 persons; 8th floor—distributing linen, 9 persons; 9th floor—manufacturing gowns, 48 persons; 10th floor—linen distributors, 15 persons; 11th floor—manufacturing embroidery, 50 persons; 12th floor—manufacturing ladies under garments, 52 persons. No change in use or occupancy is now proposed. The building is provided with an approved standpipe system and sprinkler system having two source of supply throughout the building. There is one 3 ft. wide interior fireproof stairs, fireproof enclosed, equipped with fireproof, self-closing doors and leading from bulkhead direct to street and one exterior stairs at rear extending to roof and yard by ladder, with egress from lowest termination to adjoining premises at rear, window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, violation #7583 of 1953 was issued by the Borough Superintendent September 24, 1953, for failing to provide a legal secondary means of egress for all tenants from all floors including cellar for a building over five stories in height, as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states this is an application for variation of the requirements of the Labor Law, requiring two means of exit from cellar and first floor in compliance with Section 271, based on the amendment adopted by the State Legislature in 1947 to such section; and

WHEREAS, the applicant contends that the Borough Superintendent considers that while he accepted this and similar conditions for the first floor and cellar prior to 1947, due to the amendment to the Labor Law which now specifies exits for every floor, the violation was issued; and

WHEREAS, the applicant states the building was subject to an appeal for a variance under Cal. No. 1032-23-S when the Fire Department had jurisdiction over Labor Law enforcements and a variation was granted accepting the exterior stairs under certain conditions, which were carried out and the exits then conformed; that the occupancy was limited to the capacity of the interior stairs with credit for sprinkler system; and

WHEREAS, the applicant contends that there is no change in occupancy; that the first floor and cellar are occupied by a dealer in bulbs and seeds, employing 5 persons on the 1st floor and one in the cellar; that the first floor has two street door entrances and exits and an entrance to the main hall at the east; that in the cellar where only one person is employed is an iron stair to the store, an exit to rear yard where egress is available to adjoining yard to the east and an iron ladder is provided to the extension roof at the first floor; that in addition an iron ladder is avail-

able to the trap door in the sidewalk from the boiler room and an iron ladder to trap door in the main entrance hall from the motor room; that the building is provided with an automatic sprinkler system throughout; and

WHEREAS, the applicant requests that in view of the light occupancy, the exits provided and the sprinkler system, that a variation of the Labor Law be granted so as to permit the acceptance of the existing egress; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on B.N. 3307/54, Objection No. One and that the appeal be and it hereby is granted on condition that the means of exit from the cellar and first floor shall be as proposed and as shown on plans filed with this appeal marked. "Received November 22, 1955" (4 sheets); that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that consent of the adjoining owner shall be on file permitting exiting through his building to 27th Street; that the standpipe and two-source sprinkler system shall be maintained in accordance with the requirements therefor, and to the satisfaction of the Fire Commissioner; that such sprinkler system shall be connected to fire headquarters through an approved central station; that the number of occupants on any upper story shall not exceed that permitted by the capacity of the primary means of exit, with due allowance for the sprinkler system.

55-55-A

APPLICANT—Alexander S. Traub, for 43 White Street Corp., owner.

SUBJECT—Application January 31, 1955—re Appeal from a decision of the borough superintendent—egress.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 27, 1955 on Alt. App. 124/55, reads:

"1. Provide two exits from all floors including cellar and first floor in accordance with Section 271 of the Labor Law. Present fire escape is not acceptable as a second means of egress, building is over five stories in height."

and

WHEREAS, the applicant states the building is six stories, 69 ft. 6 in. in height, 49 ft. 6½ in. front by 94 ft. 9 in. in depth at street level, 49 ft. 6½ in. front by 86 ft. 3 in. in depth at typical floor level, of class 3 construction, erected prior to 1913, located in an unrestricted use, B area, class 2 height district, and used and occupied since prior to 1913 as follows: cellar—stock and storage of textiles and vacant, 3 persons; 1st floor—store and storage of textiles and vacant, 6 persons; 2nd floor—factory for packing textiles, 7 persons; 3rd floor—manufacturing textiles and curtains, 25 persons; 4th floor—manufacturing textiles and curtains, 8 persons; 5th floor—manufacturing optical frames and artificial flowers, 15 persons; 6th floor—manufacturing artificial flowers, 7 persons; no change in use is proposed and it is proposed to increase the occupancy to 5 persons in the cellar and 25 persons on each of the 1st to 6th floors inclusive; the building is provided with an approved interior fire alarm system and regular monthly fire drills are maintained; there

MINUTES

is one interior 4 ft. wide wood stairs except from top story to roof where stairs is of iron construction, stairs are enclosed in fire-retarded partitions equipped with fireproof self-closing doors and extend from roof bulkhead direct to street; there is one fire escape on the front extending to the sixth floor by stair and to street by stair; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Certificate of Occupancy No. 31225, issued by the Borough Superintendent September 24, 1945, upon completion of work under Alt. App. 1809/44 permits the use of the building as follows: cellar—boiler room, storage and toilets; 1st floor—store; 2nd to 6th floors—manufacturing, 25 persons on each floor above the cellar and 5 persons on the cellar floor; and

WHEREAS, Violation No. 4654/54, issued August 2, 1954, by the Borough Superintendent was for failure to provide all floors of the building including cellar with a legal second means of egress; and

WHEREAS, the applicant contends that the owners went to considerable expense in 1945 to alter the building in compliance with the then existing laws and Certificate of Occupancy was issued; that the building has the additional protection of a sypho sprinkler system approved by the Board of Fire Underwriters; that this sprinkler system is connected to a central office through the American District Telegraph Company; that since the building exceeds the height permitted by the 1947 amendment to the Labor Law by only one story and has all of the required exits of the previous Labor Law and the additional protection of an Underwriters Approved sprinkler system, it is requested that a variation of the Labor Law be granted to allow the present occupancy to remain and permit the dismissal of Violation No. 4654/54; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 124/55, Objection No. One and that the appeal be and it hereby is granted, on condition that the primary means of exit, and the front fire escape, shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received November 29, 1955" (6 sheets) and that from the basement, in addition to the primary means of exit, there shall be an engineer's ladder leading to a trap door to the sidewalk with an easy opening device; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that monthly fire drills shall be maintained in accordance with the requirements therefor; that the voluntary sprinkler system, approved by the Fire Underwriters, with connection to fire headquarters through an approved central station, shall also be maintained as proposed.

"1. Provide two means of egress as per Section 270 Labor Law. (Easement is not a permanent one)."

and

WHEREAS, the applicant states the building is one story and cellar, 15 ft. 4 in. in height, 100 ft. by 100 ft. in area, of class 3 construction, erected 1927, located in an unrestricted use, B area, class 1½ height district, and used and occupied since 1954: Cellar—manufacturing metal products, 8 persons; 1st floor—rug storage, 2 persons, and sorting of plastic scraps, 10 persons; no change in use or occupancy is now proposed; and

WHEREAS, Certificate of Occupancy #4272 was issued January 14, 1930, upon completion of work under N.B. App. #15398/27 and permits the building to be used as a public garage; the building is provided with one 3 ft. 8 in. wide fireproof interior stair, fireproof enclosed equipped with fireproof self-closing doors and leading direct to street and one fire escape at front extending to street by stair; and

WHEREAS, Violation #4637/54 was issued October 28, 1954 for using the premises contrary to the Certificate of Occupancy #15398/27; and

WHEREAS, the applicant states that the building is fireproof except for the wood roofing, carried on steel, with the underside of the beams protected by a metal ceiling; that in 1954 the garage use was eliminated and the premises used for factory purposes and violation issued; and

WHEREAS, the applicant contends that the entire cellar is used by one tenant for the manufacture of metal products

MINUTES

with eight employees; that there is available as egress two stairs and a ramp, one stair at the south enclosed in fire-proof partitions and leads direct to the first floor and street, the other is an exterior stair leading to the street, the ramp at the northerly end can also be used for egress; that the first floor is occupied by two tenants, one for the storage of rugs, employing two people and the other for the sorting of plastic scraps, not considered combustible, with ten employees; that there are exits leading to the street and a door to the yard of the multiple dwelling at the rear, #45-36 39th Place; that the first floor is divided by an 8 inch cinder block wall separating the two tenants; that this wall is actually a partition and is not a firewall as there is no such wall in the cellar, and the wall does not go through the roof beams; it stops at the under side of the roof boarding; that this door should not be considered as being a horizontal exit as there will be no doors in the opening; that it is the same as if one tenant were occupying the entire first floor; that there is a mutual agreement between the two occupants to maintain the opening free and unobstructed; the occupants have direct exit to the street and to the rear and the partition indicates only the portion used by each tenant, and as there is no wall in the cellar and as there will be an opening maintained in the partition wall, there is no necessity for extending it above the roof as required for a fire wall; and

WHEREAS, the applicant states that the plastic scraps sorted by one of the tenants on the first floor consist of poly vynol chloride.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 321/55, dated June 15, 1955, as amended by decision dated January 26, 1956, Objections No. 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the space occupied by each of two tenants on the first floor shall be separated by an eight inch cinder block wall, as proposed, with no door or other opening, in such wall as shown on plans filed with this appeal marked, "Received July 12, 1955" (2 sheets) and as revised by plans marked, "Received January 27, 1956" (one sheet); that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that each section shall have exits as required by law.

935-55-A

APPLICANT—Andrew Di Cammillo, for Vincent Astor, owner (41st Street Restaurant, Inc., lessee.)

SUBJECT—Application November 22, 1955—Appeal from a decision of the borough superintendent, re non-fire-proof construction—business use (office)

PREMISES AFFECTED—141 West 41st street, north side, 130 ft. east of Broadway, Block 994, Lot 16, Borough of Manhattan.

APPEARANCES—

For Applicant: Andrew Di Cammillo and Irving Oster.
For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4

Negative: 0

THE RESOLUTION:

WHEREAS, the decision of the Borough Superintendent dated November 14, 1955, on amendment to Alteration Applic. 1419/55 reads:

"1. Proposed use of the 5th floor as an office in a Class III N.F.P. structure is contrary to Section 4.2.1 of the B.C."

and

WHEREAS, the applicant states the building is 5 stories, 58 ft. in height, 25 ft. by 94 ft. 9 in. in area at first floor, 25 ft. by 60 ft. in area at typical floor, of class

3 construction, erected prior to 1900, located on a lot 25 ft. by 98 ft. 9 in. in depth, in a retail—1 use, B area, Class 2 height district, used and occupied since 1939: Cellar—ordinary; basement—none; 1st floor—vacant, formerly restaurant, no persons; 2nd floor—office, 4 persons; 3rd floor to 5th floor—vacant; proposed to be used and occupied—Cellar—ordinary; 1st floor—restaurant; 100 persons; 2nd floor—office, 12 persons; 3rd floor—office, 12 persons; 4th floor—office, 12 persons; 5th floor—office, 10 persons; the building is provided with multiple dwelling type sprinkler system in the public hall; there is one 3 ft. wide metal stair enclosed in partitions of wood studs covered with two layers of gypsum sheetrock Fire Code 60 on each side, equipped with fireproof self-closing doors, one-hour test, and extending direct to street and to roof bulkhead; and

WHEREAS, Certificate of Occupancy #12592 was issued June 6, 1927, describing the building as a business and residence building, then located in a business use district and permitting the following use and occupancy: Cellar—storage; 1st floor—store, 15 persons; 2nd floor—offices, 15 persons; 3rd 4th and 5th stories—non-housekeeping apartments; and Certificate of Occupancy #24856 was issued June 21, 1939, upon completion of work under Alt. App. 1414 of 1939, permitting the following use and occupancy of the building then located in a retail district and described as a commercial building, 5 stories, 54 ft. 6 in. in height; Cellar—boiler room and storage; 1st floor—restaurant, 15 persons; 2nd floor office, 15 persons; 3rd to 5th floor to remain vacant; and contained the statement that such certificate was for restaurant and office only; that the building was not a multiple dwelling and may not be converted to a multiple dwelling use until a new Certificate of Occupancy is obtained; and

WHEREAS, the applicant states that under Alt. App. 1419 of 1955, the following use was approved—Cellar—ordinary use; 1st floor—restaurant; 2nd to 4th floors—offices; 5th floor—vacant; and

WHEREAS, the applicant now requests a variance so as to permit the use of the fifth floor for office use; and

WHEREAS, the applicant contends that the building is five stories high; that no increase in height or area is proposed; that the building was originally erected as a private dwelling prior to 1877; that under Section 4.2.1 of the Building Code a Class 3 construction structure is allowed to a height of 50 ft. or four stories and a maximum floor area of 7500 sq. ft. per floor; that the total floor area 2nd to 5th floors, inclusive, is only 1500 sq. ft. per floor, or a total of only 6,000 sq. ft. for four floors, therefore the building contains a total floor area for the four stories above the first floor less than that allowed for one floor under Section 4.2.1; that the hall partitions are fire protected with two layers of $\frac{5}{8}$ in. thick Fire Code 60 Gypsum plaster board on each side; that hall doors are fireproof, stairs are of metal and the halls are protected with multiple dwelling type sprinkler system; that the total occupancy of the building above the first floor will be 46, with a maximum occupancy of 5 on the fifth floor; that offices only will be occupied during normal business hours and not at night; that the building will be provided with an elevator; that the height of the building from grade to fifth floor ceiling is 55 ft., a difference of only five feet above the 50 ft. allowable height.

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 1419/55, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the occupancy of the building for the five stories, as proposed and indicated on plans filed with this appeal, marked "Received January 21, 1956", (2 sheets), and for use in conjunction with the lower stories as approved by the Borough Superintendent, *on condition* that the building shall not be increased in height or area; that the stair enclosure partition shall be as proposed; that the sprinkler system in the hallway formerly installed and approved for use when the building was occupied as a converted dwelling shall be maintained.

APPLICANT—Ingram S. Carner, for William Rishkes, owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete which expired January 25, 1956—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f, 7h and 7i of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash (non-automatic) storage and sales of accessories, motor vehicle repairs and office and permitting the parking of cars waiting to be serviced.

PREMISES AFFECTED—5801-5829 Flatlands avenue and 965-977 East 58th street, northeast corner and 892-896 East 59th Street, Block 7762, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on January 26, 1954, certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on January 25, 1955; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 26, 1954, as thereafter *amended* by resolutions adopted through January 25, 1955 only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Buildings and that contracts have been awarded that all

permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution." (N.B. App. 159/53.)

695-53-BZ

APPLICANT—Lama, Proskauer and Prober, for Radiant Burner Supply Corporation, owner.

SUBJECT—Application for consideration—reopening as to amendment as to rear windows to be closed as shown on sheet 3 otherwise as per approval of working plans—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f, 7i and 7h of the zoning resolution, permitting in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, sales room and office and permitting the parking and storage of motor vehicles for a term of fifteen years.

PREMISES AFFECTED—1767-1777 Cropsey avenue and 8820-8830 18th avenue, northwest corner, Block 6435, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Milton Bromberg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on February 9, 1954, certain conditions; and

WHEREAS, working drawings, submitted as being in substantial compliance with the Board's requirements, were approved on January 11, 1955; and

WHEREAS, time to obtain permits and complete the work was extended on February 15, 1955; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 9, 1954, as thereafter *amended* by resolution adopted through February 15, 1955, by adding thereto:

"that in the event the owner desires to close the window openings in the north wall, as shown on revised plans filed with this request for amendment marked, "Received January 9, 1956", such change may be permitted provided the requirements of the resolution above cited shall be complied with in all other respects." (N.B. 294/53)

817-54-BZ

APPLICANT—Burke, Green and Groh, for Car Papa, former owner; Esso Standard Oil Company, new owner.

SUBJECT—Application for consideration—reopening to apply conditions and approved working plans—re Application (decision of the borough superintendent); previously granted on condition, under section 7e of the zoning resolution, permitting in a local retail use district, the erection and maintenance of a gasoline service station, auto washing, lubritorium, motor vehicle repairs, storage and sales of accessories and office.

ert, Commissioner Keating and Deputy Chief Connolly 4

Negative: 0

MINUTES

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 7, 1955, certain conditions; and

WHEREAS, the applicant requested on extension of the term of variance, an amendment of the resolution and submitted working drawings, for approval by the Board, as being in substantial compliance with the requirements of the resolution; and

WHEREAS, the decision of the Borough Superintendent, dated January 18, 1956, acting on N.B. App. 3377/54, reads:

"1. Amendment of January 18th, 1956 requesting permission to change design and size of accessory building from 45 ft. x 28 ft. to 49 ft. irregular x 30 ft. irregular in a Local Retail Use district is contrary to section 4C of the Zoning Resolution and Cal. # 817-54-BZ of the Board of Standards & Appeals."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 7, 1955, by adding thereto:

"that the working drawings marked, 'Received January 25, 1956' are hereby approved; that all conditions thereon shown shall be complied with;

and as to extension of term of variance, so that as amended this portion of the resolution shall read:

"... granted under Section 7, subdivision e, for a term of fifteen years ..."

186-55-BZ

APPLICANT—Charles A. Buckley, Jr., for Patrick R. O'Connor, owner.

SUBJECT—Application for consideration—reopening as to amendment as to location of pumps—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, storage and sale of accessories and office.

*CORRECTION

The Minutes of the meeting of the Board of Standards
and Appeals held on September 13, 1955, as they appeared in
Bulletin No. 38, Vol. 40, are hereby corrected to read as fol-
lows:

358-51-BZ

APPLICANT—Heiss and Wegmann, Inc., owner.

SUBJECT—Application for consideration—reopening as to
extension of term of variance—re Application (decision

of the borough superintendent); previously granted on
condition, under section 7h of the zoning resolution, per-
mitting in a residence use district, for a term of years, the
parking and storage of owner's motor vehicles being
repaired.

PREMISES AFFECTED—284 East 136th street, south
side, 125 ft. east of Lincoln avenue, Block 2311, Lot 10,
Borough of the Bronx.

APPEARANCES—

For Applicant: John Heiss and Frank Wegmann.

For Administration: Samuel L. Becker, Dep't of Housing
and Buildings.

ACTION OF BOARD—Application reopened and term of
variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, Commissioner Keating and Deputy Chief Connolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on
October 9, 1951, on certain conditions; and

WHEREAS, time to obtain permits and complete the work
was extended on September 15, 1953; and

WHEREAS, the term of variance was extended on Septem-
ber 15, 1953; and

WHEREAS, the applicant requested a further extension of
the term of variance.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on October 9, 1951, as
thereafter *amended* by resolution adopted September 15,
1953 only so far as it refers to the term of the variance, so
that as *amended* this portion of the resolution shall read:

"... granted under Section 7, subdivision h for a
term of five years from the date of this *amended* reso-
lution, to permit; that other than as herein
amended the resolution above cited shall be complied
with in all respects; and that all permits, including a
new certificate of occupancy, shall be obtained and all
work completed within six months from the date of
this *amended* resolution." (Alt. 383/51.)

* Correction—Premises affected, erroneously printed as
248 East 136th street corrected to read 284 East 136th street.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

APPEARANCES—

For Applicant: Alfred A. Lama.
For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE TO REOPEN AND EXTEND TERM OF VARIANCE—

Affirmative: Chairman Murdock, Commissioner Kleinfert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION (950-40-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a residence use district for a temporary term, the conversion of occupancy of the basement and first story of a residence building to an undertaking establishment, was granted by the Board April 7, 1942, on certain conditions; and

WHEREAS, the term of variance was extended March 14, 1944 and April 2, 1946; and

WHEREAS, the resolution was amended July 5, 1950; and

WHEREAS, time to complete was extended February 6, 1951 and September 11, 1951; and

WHEREAS, the applicant requested a further extension of the term of variance; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals do hereby amend the resolution adopted on April 2, 1946, which

MINUTES

extended the term of the variance to April 2, 1951, when it expired and was not renewed by adding thereto:

"... granted under section 7, subdivision c for a term of five years from the date of this amended resolution, to permit the premises to be occupied as proposed and permitted by resolution adopted by the Board on April 7, 1942, and as thereafter amended by resolutions adopted through July 5, 1950, on condition that all requirements of the resolutions so cited shall be complied with; and that all permits required, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this amended resolution". (Alt. 4709-40; Alt. 4025-49)

950-40-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Waldwin Holding Corporation, owner.

SUBJECT—Application reopened September 13, 1955 as Vol. II—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the proposed change of occupancy on the second and attic floors, from dwelling to business use.

PREMISES AFFECTED—7610-7614 4th avenue, west side, 59 ft. south of 76th street, Block 5950, Lot 47, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application withdrawn as to Vol. II.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 13, 1955 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; laid over to February 7, 1956, for inspection if necessary, and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 4th avenue, 76th street and 77th street are in a residence use, C area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated April 18, 1955 acting on Alt. Applic. 4025-49, reads:

"2. In a residence use district the proposed change of occupancy on the second and attic floors from dwelling to business use is contrary to Art. II Sec. 3 of the zoning resolution. Note: These premises are subject of a conditional variance by the Board of Standards and Appeals Cal. No. 950-40-BZ granted for two years, which expired March 14th, 1946 with no further extension, but was acted upon by the Board in 1950 to permit an extension of the use to the basement."

WHEREAS, the applicant states that the premises consist of a plot, 90 ft. 4 in. frontage by 120 ft. in depth, irregular, in which is located a 2½ story building of class 4 construction, 50 ft. 4 in. front, 55 ft. 6 in. in depth; that it is proposed to secure a variance for a period of 10 years in order to maintain the present uses of building No. 2 as follows: cellar—boiler room; basement—casket showroom and chapel; 1st floor—funeral home; 2nd floor—lounge, dressing and sitting rooms; attic floor—household storage; and

WHEREAS, the applicant states that the premises are presently developed with two buildings of class 4 construction, each 2½ stories in height, and two buildings of class 3 construction, each one story in height; that building No. 1

has a frontage of 25 ft., a depth of 53 ft., 2½ stories in height, of class 4 construction, and is now being occupied as a one family dwelling; that building No. 2 has a frontage of 50 ft. 4 in., a depth of 55 ft. 6 in., 2¼ stories in height, now occupied as follows: cellar—boiler room; basement—casket showroom and chapel; 1st floor—funeral home; 2nd floor—lounge, sitting and dressing room; attic—household storage; that building No. 3 has a frontage of 20 ft., a depth of 20 ft., one story in height, of class 3 construction, now occupied as a 2-car garage; that building No. 4 has a frontage of 20 ft., a depth of 20 ft., one story in height, of class 3 construction and now being occupied as a storage room; that building No. 1 (not part of appeal) was last altered under Alt. Applic. No. 7096-33; that building No. 2 (building under appeal) was erected as a one family house and altered under Alt. Applic. No. 4709-40 and the Board's variance under Cal. No. 950-40-BZ and Cal. No. 32-42-A; that certificate of occupancy No. 110477 was issued for the following uses: cellar—boiler room; basement—casket showroom and chapel; 1st floor—funeral home; 2nd floor and attic—one family dwelling; that building No. 3 (not part of appeal) was erected under N.B. Applic. 5749-1919 for use as a 2-car garage; and

WHEREAS, the applicant contends that the only change proposed from the legal use occurs on the 2nd floor where the lounge, dressing and sitting rooms are proposed, and in the attic, which is to be used for the storage only of household furniture; that inasmuch as the basement and 1st floor now have a legal commercial use, the mere use of the 2nd floor as a lounge cannot affect the area; that block 5950, lot 44 and block 5951 are developed with clubs also in the residence zone and the proposal will not have any greater effect on 4th avenue than these uses; and

WHEREAS, the legal use referred to by the applicant is based on a variance granted by the Board, as extended this day, for a term of five years under Cal. 950-40-BZ, Vol. I; and

WHEREAS, the applicant states that the present owner has held title to the property since July 6th, 1928; that the assessed valuation of land is \$35,000 and of the building \$31,500 making a total of \$65,000; that the building was erected in 1910; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board after a public hearing was held on this application, and the committee was of the opinion that the further extension of use in the frame building should not be granted, as proposed under appeal 32-42-A—Vol. II.

Resolved, that the application be and it hereby is withdrawn.

32-42-A—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Waldwin Holding Corporation, owner.

SUBJECT—Application reopened September 13, 1955 as Vol. II—re Appeal from a decision of the borough superintendent relating to frame construction, inadequate floor loads, enclosure and adequacy of exits.

PREMISES AFFECTED—7610-7614 4th avenue, west side, 59 ft. south of 76th street, Block 5950, Lot 47, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 18, 1955 on Alt. Applic. 4025 of 1949, reads:

"1. In a frame building the proposed change of occupancy on the second and attic floors, from dwelling to

MINUTES

business use is contrary to 4.2.1 of the Administrative Code.

Note:—These premises were the subject of a conditional variance by the Board of Standards and Appeals, Calendar Number 32-42-A for use of a frame building for business use.

"3. The second floor to be good for 100 lbs. live load as per Sec. 7.3.2.2.5 and the attic floor to be good for 120 lbs. live load as per Sec. 7.3.2.3 of Administrative Code.

"4. Provide for second and attic floors properly enclosed and terminated stairs complying with the requirements of Ch. 26-292.0 of Administrative Code of adequate capacity to accommodate 71 persons as per 6.1.3 of Administrative Code."

and

WHEREAS, the applicant states that building is 2½ stories, 36 ft. in height, 50 ft. 4 in. front by 55 ft. 6 in. irregular in depth at street level, 38 ft. front by 40 ft. in depth at second floor level, of class 4 construction, erected 1910, located on a lot 90 ft. 4 in. front by 120 ft. irregular in depth, in a residence use, C area, class 1¼ height district, and used and occupied since 1930 as follows: Cellar—boiler room, no persons; basement—casket showroom and chapel, 25 persons; 1st floor—funeral home, 100 persons; 2nd floor—lounge, sitting and dressing room, 10 persons; 3rd floor—household storage, no persons; and proposed to be used and occupied: cellar—boiler room, no persons; basement—casket showroom and chapel, 25 persons; 1st floor—funeral home 100 persons; 2nd floor—lounge, 10 persons; 3rd floor—household storage, no persons; the building will be provided with one-source sprinkler system in the stairhall; there is one 3 ft. wide interior wood stairs enclosed in partitions of wood lath and plaster equipped with wood doors which are not self-closing; stairhall leads direct to street; there is one fire escape on the rear, extending to yard by stair, with egress to street through side yard; and

WHEREAS, Violation No. 2596 of 1951 was issued for occupying the premises as an undertaking establishment without obtaining a Certificate of Occupancy therefor; and

WHEREAS, undated Certificate of Occupancy No. 110477 issued upon completion of work under Alt. Applic. 4709 of 1940 describes the building as brick and frame funeral home and one-family, two stories, basement and attic, 35 ft. in height and permits the following use and occupancy: cellar—boiler room, number of persons not stated; basement—casket showroom, number of persons not stated; 1st floor—chapel, lounge and sitting room, 50 persons; 2nd floor—one family; this Certificate of Occupancy expired March 14, 1946; and

WHEREAS, the applicant states that the premises are developed with two class four constructed buildings each 2½ stories in height and two class 3 constructed buildings each one story in height; that building No. 1, having a frontage of 25 ft. and a depth of 53 ft., 2½ stories in height of class 4 construction, now used as a one family dwelling; that building No. 2, having a frontage of 50 ft. 4 in. and a depth of 55 ft. 6 in., 2½ stories in height, of class 4 construction, is now used and occupied as follows—cellar—boiler room; basement casket showroom and chapel; 1st floor—funeral home; 2nd floor—lounge, sitting and dressing rooms; attic—household storage; that building No. 3, having a frontage of 20 ft. and a depth of 20 ft., one story in height, of class 3 construction is now used as a two car garage; that building No. 4 having a frontage of 20 ft. and a depth of 20 ft., one story in height, of class 3 construction, is now being used as storage room; that building No. 1, which is not part of this appeal was altered under Alt. Applic. 7096 of 1933; that building No. 2, which is the building under appeal, was erected as a one-family dwelling and altered under Alt. 4709 of 1940, and variance granted by the Board, under Cal. No. 950-40-BZ and Cal. No. 32-42-A and Certificate of Occupancy 110477 issued for the following use: cellar—boiler room, basement—casket showroom, chapel; 1st floor—funeral home; 2nd floor and attic—one family dwelling; that building No. 3, which is not part of this appeal was erected

under N.B. Applic. 5749 of 1919, as a two car garage; and

WHEREAS, the applicant states that it is now proposed to maintain the existing uses of cellar—boiler room, chapel; 1st floor—funeral home; 2nd floor—lounge, sitting and dressing room; and that the only change now proposed from the legal use occurs on the 2nd floor where the lounge, dressing and sitting rooms are proposed and in the attic which will now be used for household furniture storage; and

WHEREAS, the applicant contends as to Objection No. 1, issued by the borough superintendent, that as the existing frame building has a legal commercial use, the use of the second floor as a lounge and the attic for household furniture storage will not increase the hazard, and will result in a safer condition by removing the one-family dwelling from the attic; and as to Objection No. 3, that the present floor beams of the second floor have a live load capacity of 40 lbs. and as the use of the floor will never exceed ten persons, with less furniture than a dwelling, the present floor will not ever be over-stressed; that the storage of household effects in the attic would not exceed the 40 lb. allowable live load; and

WHEREAS, the applicant contends as to Objection No. 4, that the present stairs and the exits are legal for the basement and first floor; that the second floor will have an occupancy of ten and the exits can now be had through one interior 3 ft. wide stairs and a 5 ft. wide exterior iron stairs exiting to the yard and thence to street; that the attic is now served by the 3 ft. wide interior stair and will not have any permanent occupancy; that, in addition, it is proposed to install a one-source sprinkler system in the stairhall of the first, second and attic stories, thereby increasing the safety of the entire building; and

WHEREAS, the premises was inspected by a committee of the Board, in conjunction with application under Cal. No. 950-40-BZ, Vol. II; and the committee found that the appeal should not be granted to extend the use further in a frame building; and

WHEREAS, the use of the premises as permitted under a variance granted under Cal. No. 950-40-BZ—Vol. I, has been extended by amendment adopted this day, for a term of five years.

Resolved, that the appeal be and it hereby is *withdrawn*

482-48-BZ—Vol. II

APPLICANT—Fred C. Dahlem, for Upper N. Y. Garage Inc., owner.

SUBJECT—Application reopened February 15, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in business and residence use district, the maintenance of a garage for more than 5 motor vehicles, repair shop for motor vehicles (hand tools only).

PREMISES AFFECTED—4342-4344 Broadway and 649 651 West 185th street, northeast corner, Block 2167, Lot 29, Borough of Manhattan.

APPEARANCES—

For Applicant: Fred C. Dahlem and John Tomassi.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinfert and Commissioner Keating.....

Negative:

Absent: Deputy Chief Connolly

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on February 15, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on February 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and West 185th street are in business and residence use, B area, class 1¼ height districts

MINUTES

Broadway is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated January 20, 1955 acting on Alt. Applic. 1827-54, reads:

"1. A garage for more than 5 motor vehicles and repair shop for motor vehicles—hand tools, no body or fender work, located partially within a Business Use District and partially within a Residence Use District, constitutes an extension of a non-conforming use and is therefore contrary to Art. II P. 3 and P. 4, Zoning Resolution."

and
WHEREAS, the applicant states that the premises consist of a plot, 64 ft. 5⅞ in. frontage by 177 ft. 1⅝ in. in depth, on which is located a one and two story building of class 3 construction, 64 ft. 5⅞ in. front, 177 ft. 1⅝ in. in depth; that it is proposed to maintain premises for use as garage for more than five motor vehicles and repair shop for motor vehicles (hand tools only); and

WHEREAS, the applicant contends that the instant premises have been used as a garage for more than five motor vehicles since 1916; that the two story portion faces on Broadway while the remainder sets in a steep hill making the entrance to 2nd floor on the 185th street front; that the remaining rear portion is one story in height also part of the garage for more than five motor vehicles; that the Board is requested to permit a walled off area in the one story building 35 ft. by 40 ft. to be used as a motor vehicle repair shop with hand tools mainly; that the work will consist of motor work, brakes, batteries and ignition work; that there will be no body or fender work; that there will be no noise or nuisance as the number of cars worked on will be two at a time; that the floor at this part of the building runs into the hill, making a quieter condition; that the proposed operators of this repair shop are well known for their work in this neighborhood and after searching all over this area, this place was the only place they could find; that the granting of this application will be a convenience to the patrons in the vicinity and there will be no nuisance created; and

WHEREAS, the applicant states that the present owner has held title to the property since April 1, 1954; that the assessed valuation of land is \$45,000 and of the building \$80,000 making a total of \$125,000; that the building was erected in 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7e and 7i, for a term of five years, to permit a portion of the premises toward the east on the second floor, to be occupied for motor vehicle repairing of a minor nature with hand tools only, with an opening to West 185th street, as shown on plans filed with this application marked "Received January 24, 1955," 3 sheets on condition that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the requirements of the resolution adopted under Cal. No. 482-48-BZ—Vol. I, shall be complied with, consistent with the terms of the resolution adopted this day, under Volume II; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required, including a new certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

35-49-BZ—Vol. II

APPLICANT—Leonard A. Swarthe, for Krekor and Pauline Selian, owners.

SUBJECT—Application reopened May 3, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7c, 7e, 7f and 7i of the zoning resolution, to permit

in a business use district, the proposed extension of an existing gasoline and oil service station previously granted by the Board under Cal. No. 135-49-BZ.

PREMISES AFFECTED—1773 East Gun Hill road, north side, 125 ft. east of Wickham avenue, Block 4806, Lot 44, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard A. Swarthe.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinfert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 3, 1955, subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on February 7, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East Gun Hill road are in a business use, D area and Class ½ height district; Wickham avenue is in business and residence use, D area and Class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 2, 1955, acting on Alt. App. 159/55 reads:

"1. In a Business use district the proposed extension of a Gasoline Service Station, previously granted by the Board of Standards and Appeals Cal. 135-49-BZ is contrary to Sect. 4 of the Zon. Res. and the above Resolution of the Board."

and

WHEREAS, the applicant states the premises consist of a plot 50 ft. front by 100 ft. in depth on which is located gasoline and oil service station, office, storage and parking of more than five motor vehicles; that it is requested permission be given for a term of 15 years to erect an additional building, install two additional underground gasoline storage tanks, 500 gallons each, install two additional gasoline dispensing pumps and to use the additional building as an office, auto repair shop, storage of parts, also for use of a lubritorium, auto laundry and for the parking of more than 5 cars; the applicant also requests an illuminated sign on the face of the building and a brand sign on a post standard; and

WHEREAS, the applicant states that up to November 28, 1938 subject site was in an unrestricted use, A area, Class 1½ height district which was changed on July 20, 1947 to business use, D area, Class ½ height district; and

WHEREAS, the applicant further states that up to February 28, 1950 the site consisted of a 16 ft. by 18 ft. 1-story wood building in front of the lot and a 19 ft. by 34 ft. 1-story metal building on the rear west side; that these premises were occupied as an auto-welding, auto-body and fender works and an ignition shop; that on February 28, 1950, the Board under Cal. 135-49-BZ granted a variance under Section 7f, permitting for a term of fifteen years the following: erection of a 12 ft. by 18 ft. 1-story masonry building for use as an office; demolition of the 16 ft. by 18 ft. 1-story wood building; enclosure of the then existing 19 ft. by 34 ft. 1-story metal building with masonry; installation of two underground gasoline storage tanks and two dispensing pumps and for the premises to be occupied as a gas and oil service station, office, storage of parts and parking of more than 5 cars; that due to financial difficulties the owner could not enclose the metal building with masonry, so on July 15, 1952 the Board amended the resolution to permit the demolition of said metal building; and

Whereas, the applicant further states that after the amendment of the resolution by the Board, the then owner, Mr.

MINUTES

Frank Marinaccio, could not secure a sufficient amount of business to improve the property and on May 6, 1954, he sold the property to Kregor and Pauline Selian; that the new owners inherited a Department of Building's Violation #C-650/53 (which supersedes C2109-51) for "occupying the premises as a gasoline and oil service station without a certificate of occupancy", although all work was performed as stipulated in the Board's resolutions of February 28, 1950, February 6, 1951, July 15, 1952 and July 28, 1953, no certificate of occupancy was obtained; that a certificate of occupancy #15699 was obtained on February 2, 1955; that Application 159/55 was filed with the Department of Buildings on February 21, 1955 and objection of the borough superintendent was issued March 2, 1955, on which the present application is based; that the subject site is situated in a section of low swampy ground surrounded by Givan's Creek at some distance from existing residential or business development; that many of the streets are mapped but not cut through as yet; that all established enterprises surrounding the site under appeal are legal occupancies of former unrestricted use district and thus are of non-conforming use; that to the east of the site is an auto-wrecker's yard, to the west and north is a cinder yard and in the same block are blacksmith, stone and cinder block-yard and a second-hand tire place; that opposite the site to the south are other gas stations; that the assessed valuation of the said real estate in 1950 prior to the variance granted by the Board was: Land, \$1,000; Building, \$500; the present assessed valuation is: Land, \$3,000; Building \$4,500; Total \$7,500; and

WHEREAS, the applicant states the present owner has held title to the property since May 6, 1954; that the assessed valuation of the land is \$3000 and of buildings, \$4,500, making a total of \$7,500; that the building was erected September 26, 1951; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on February 28, 1950, as amended by resolutions adopted through July 15, 1952, by adding thereto:

"that the term of this variance may be extended for fifteen years from the date of this amended resolution; that under section 7i for a similar term, there may be erected on the premises an additional building for lubrication and motor vehicle repairing, as proposed and as indicated on plans filed with this application, marked "Received March 13, 1955", 3 sheets, on condition that such building shall be of the size, location and construction proposed; that two additional gasoline pumps of an approved low type may be installed, located not nearer than 15 feet to the street building line; that two additional 550 gallon approved gasoline storage tanks may be installed as proposed; that an illuminated sign on the face of the accessory building may be permitted, precluding all roof signs and temporary signs, but permitting the erection within the building line of a post standard for supporting a sign, which may be illuminated advertising only the brand of gasoline on sale, which sign may extend beyond the building line for a distance of not over 4 feet; and, under section 7h, to permit for a similar term the parking of more than five cars, provided such parking does not interfere with the servicing of the station; that in all other respects where not inconsistent with this amended resolution, the requirements of the resolution above cited shall be complied with; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

402-52-BZ—Vol. II

APPLICANT—Charles M. Spindler, for Edward Lehr, owner.

SUBJECT—Application reopened June 21, 1955 as Vol. II —re (decision of the borough superintendent) under sec-

tions 7e, 7f, 7h and 7i of the zoning resolutions, to permit in a business and residence use district, the erection and maintenance of a building to be used as auto safety inspection station, motor vehicle repair shop and 21 one car garages, also proposed extension to existing building partly in a business and partly in a residence use district for use as auto showroom, in conjunction with existing uses of gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only, parking and storage for more than 5 motor vehicles and outdoor sale and display of more than 5 motor vehicles on the unbuilt upon portion of the lot as granted by the Board under Cal. No. 402-52-BZ.

PREMISES AFFECTED—572-590 Wyckoff avenue and 1444-1460 Hancock street, southeast corner and 407-413 Weirfield street, Block 3400, Lot 46, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 21, 1955 subject to regular procedure, to consider new uses; and

WHEREAS, a public hearing was held on this application on February 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Weirfield street and Hancock street are in business and residence use, C area, class 1 height districts; Wyckoff avenue is in business and unrestricted use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated May 10, 1955 acting on N.B. Applic. No. 965-55, reads:

"1. Proposed building to be used as auto safety inspection station, motor vehicle repair shop, and one car garages on a plot located partly in a business and partly in a residence use district, and now used as a gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only, parking and storage for more than 5 motor vehicles, and outdoor sale and display of more than 5 new and used cars, granted under Calendar # 402-52-BZ is contrary to Article II, Section 3 and 4(a) (15) (29) and (46) of the Zoning Resolution."

and

WHEREAS, the decision of the borough superintendent, dated November 15, 1955 acting on Alt. Applic. No. 3532-55, reads:

"1. Proposed extension to building, on premises partly in Business and partly in Residence Zone, to be used for auto showroom in conjunction with existing gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only; and parking and storage for more than 5 motor vehicles and outdoor sale and display of more than 5 motor vehicles on vacant portion of lot, granted under Cal. # 402-52-BZ and in conjunction with proposed auto safety inspection station, motor vehicle repair shop and one car garages, which is now pending before the Bd of Standards and Appeals, is contrary to Article II, P 3 and P. 4a, subsection 15, 29 and 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 160 ft. frontage by 178 ft. 8 $\frac{7}{8}$ in. in depth, irregular, on which is located a gasoline service station; and

MINUTES

WHEREAS, the applicant states that the site consists of a plot of ground with a frontage of 160 ft. on Wyckoff avenue and a depth of 178 ft. 8 $\frac{7}{8}$ in. along Hancock street; that the plot also extends to Weirfield street with a frontage of 83 ft. 9 $\frac{1}{4}$ in. on that street; that this plot was the subject of a conditional variance granted by the Board under Cal. No. 402-52-BZ; that under that application the Board permitted the construction of a gas station on the Wyckoff avenue frontage and permitted the southerly portion to be used for the parking and storage of motor vehicles; that this work was completed and certificate of occupancy No. 138642 was issued on March 18, 1954; that it is now proposed to construct a "U"-shaped building along the perimeter of the parking area which will be used principally as a series of 21 one-car garages, and a portion of the building along Weirfield street (28 ft. by 52 ft. 6 in.) will be used as an auto safety inspection station and motor vehicle repair shop for the type of repairs required by the State Auto inspection law; that these repairs will include brake testing, wheel alignment and engine and electrical repairs and adjustments to meet state inspection regulations; that it is also proposed to construct a one story extension, 63 ft. by 88 ft., irregular, to present accessory building to be used as an auto showroom; that this extension will have a plate glass and face brick facade and will be located entirely within the business use portion of the plot; that the use of this extension is in itself a permissible one in this use district, but since it is proposed in conjunction with the existing gas station accessory building, it technically violates the zoning resolution; that it is also proposed to provide a new overhead door in the rear of one bay of the present accessory building; and

WHEREAS, the applicant further states that the central portion of present parking space, enclosed by the U-shaped building will remain for parking and storage; that all doors and entrances to the proposed garages and repair shop will face the central open parking area; that there will be no door or window openings of any kind to either street nor will there be any door or window openings to either street or any openings on the rear lot line; that since there is now a 5 ft. 6 in. high masonry fence wall along both Hancock street and Weirfield street, the only change in appearance on these streets will be adding about 4 or 5 feet of masonry on top of the present wall; that the proposed auto showroom together with present accessory building will form an enclosure around the central parking area except for an aisle for ingress and egress; there will be no change in the servicing facilities and no additional curb cuts installed; and

WHEREAS, the applicant states the entire site was zoned unrestricted up until July 1, 1924, at which time the use zoning was changed to its present designation; that when the previous application was filed the property consisted of two tax lots, 46 and 51; that when the gas station was constructed, the Tax Department consolidated the property into a single lot, No. 46; and

WHEREAS, the applicant contends that since all the openings in the proposed garage and repair shop building will face the interior of the lot, the proposal cannot adversely affect surrounding property; that actually the building will provide a masonry fence wall along the south lot line in lieu of the present wire fence and will tend to further isolate the use of the property from the surrounding areas; that the proposed auto showroom will enhance the appearance of the site and provide an additional screen around the uses on the rear of the plot; and

WHEREAS, the applicant states the present owner has held title to the property since January 26, 1946; that the assessed valuation of the land is \$51,000 and of the building \$13,500 making a total of \$64,500; that the building was erected March 2, 1954; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board,

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 18, 1952 adding thereto:

"that in the event the owner desires to construct an additional building as an automobile showroom and an

additional building for automobile safety inspection as well as additional single car garages, as now proposed and as shown on plans filed with this application marked, "Received May 20, 1955" (2 sheets), "November 22, 1955" (2 sheets) and "February 2, 1956" (one sheet), such additional buildings and uses may be permitted under Sections 7e and 7i, within the term as specified in the resolution as adopted November 18, 1952 on condition that the requirements of such resolution shall be complied with where not inconsistent with the terms of this amended resolution; that no additional entrances to Weirfield street, Hancock street or Wyckoff avenue shall be constructed; that all permits shall be obtained and all work completed and a Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution."

796-52-BZ—Vol. II

APPLICANT—Max Ehrlich, for Swire Building Corporation, owner.

SUBJECT—Application reopened May 3, 1955 as Vol. II—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use E-1 area district, the maintenance of an existing building without the required 10 foot setback from the building line.

PREMISES AFFECTED—191-193 Irwin street, northeast corner of Oriental boulevard, Block 7517, Lot 992, Borough of Brooklyn.

APPEARANCES—

For Applicant: Max Ehrlich.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 3, 1955 subject to regular procedure, for re-hearing, based on alleged new facts; and

WHEREAS, a public hearing was held on this application on February 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Irwin street and Oriental boulevard are in a residence use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1955 acting on N.B. Applic. 951-52, reads:

"23. Proposed bldg. located within an E-1 district, requires a setback of at least 10 ft. from bldg. line on Oriental Blvd. as per Art. 4 Sec. 15-A, Subdivision (e) of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 108 ft. in depth, on which is located a one story residence of class 3 construction; that it is proposed to maintain existing building without the full required setback from building line; and

WHEREAS, the applicant states that the following changes in zoning were made affecting the property since July 25, 1916: prior thereto—use, business; area, E; on December 14, 1934 the changes were—use, residential; area, F; on July 31, 1944 the changes were—area, E-1; and

WHEREAS, the applicant states that he is the owner of the property situated on the northeast corner of Irwin street and Oriental boulevard, in dimensions 40 ft. in width, front and read by 108 ft. in depth, the frontage of 40 ft. and entrance being on Irwin street and the side on Oriental boulevard; that the subject premises are part of a larger tract, 220 ft. in width by 108 ft. in depth, upon which he erected six "ranch type" homes; that the plot was accordingly divided therefore into six parcels, of which five parcels

MINUTES

are 36 ft. in width and the 6th, the corner and subject parcel, being 40 ft. in width; that prior to August 1, 1952 application was made for the erection, upon the entire plot, of six 1-family ranch type dwellings, which included the subject plot, and plans were accordingly filed in the building department and approved; that he thereupon proceeded with the erection of the building and had substantially completed the same, and had completed the corner building on subject plot to the extent of 80% on September 30, 1952, when he entered into a contract for the sale of the corner building for the sum of \$35,000; that pursuant to the terms of said contract, and as a condition thereof, the purchaser requested that a porch be built in the rear which necessitated that 4 additional feet be acquired in the rear of the subject premises, increasing the depth thereof to 112 ft.; that an amended plan was filed, and at the time of the filing of this amended plan, the building had been 90% completed at an expense of \$30,000; that after the filing of the amended plan for construction of the rear porch, he was then informed for the first time by the borough superintendent that the building came within 7 ft. of Oriental boulevard in violation of subdivision D of section 15A of the zoning resolution, which then required that the distance be 15 ft., later amended on or about October 15, 1952 to 10 feet., and the borough superintendent revoked said permit on October 10, 1952; that on November 10, 1952 application was made before the Board under section 21 for a variance and permission to maintain the existing building because of the practical difficulties and undue and unnecessary hardship in the way of carrying out the strict provisions of the resolution; and

WHEREAS, the applicant further states that the architect erred in locating the building 10 ft. from Oriental boulevard when the requirement was 15 ft.; that later this was amended to 10 ft.; that the surveyor, one of the oldest and best respected firms in Brooklyn, in fixing the markings for the foundation placed two marks and the foundation contractor then erred in pouring the foundation by taking the mark nearest to the line instead of the mark farthest away from the line; that if the foundation contractor had properly taken the mark farthest away from the line, the situation would have been entirely different and there would have been compliance; that the Dime Savings bank, one of the largest and most respected in Brooklyn, who made the building loan and the advances, in checking on the progress of the building, also failed to note that the building was within 7 ft. instead of 10 ft. from Oriental boulevard; that when this matter was presented to the Board, in hearing, it was stated that the building was 5 ft. 10 in. from Oriental boulevard; that this statement was in error and it will be seen from an examination of the survey that this error arose from mistaking the figure of 5 ft. 10 in. (right rear of the subject plot in the survey) which is the elevation figure, for the figure showing the setback from Oriental boulevard; that the Chairman caught the error in the course of the hearing; that the distance back from Oriental boulevard is 6 ft. 10½ in. at the front; that the significant thing about this matter is that no one directly concerned and no one in the community or neighborhood at any time raised any objection to the erection of the subject building nor made any claim that applicant approached within the 10 ft. wide yard requirement as to Oriental boulevard, nor did anyone at any time call attention to any violations of the zoning resolution; that the reason such claim was never raised theretofore was the obvious one that the difference of approximately 3 ft. is slight and an observer, unless his attention were directly called to the fact, would not be aware of it; that the Board denied the application; and

WHEREAS, the applicant contends that there are now new facts and new conditions which are submitted as the basis for this application; that as previously stated, the original plans called for the erection of a porch on the subject plot which necessitated extending the plot the depth of 112 ft. and the acquisition of 4 additional feet; that said porch has since been removed and the plot reduced to 108 ft., the same depth as the other and adjoining plots on the original tract; that furthermore, the dimensions of the building, which were formerly 24 ft. 8 in. in width by 79 ft. 4 in. in depth,

are now 24 ft. 8 in. in width by 63 ft. 11½ in. in depth; that the granting of a variance will not cause any prejudice to neighboring property owners and will not be detrimental to the spirit and purpose of the resolution; that there is no claim that the builder acted willfully, arbitrarily or fraudulently; that there was ample room on the plot originally acquired to erect the building without the slightest degree encroaching upon the zoning resolution and there was ample time when the foundations were poured and the corner building was in the course of construction to make any correction if any violation or encroachment had been called to the builder's attention; that there was ample space and land to make such correction, and in fact, as to the five adjoining dwellings erected by him, they all exceed the legal requirements; that the buildings erected by him which includes the corner building, in every respect and detail conform, comply and are in harmony with the general residential character and requirements of the community; that this is further substantiated by the fact that the subject building was under contract of sale for \$35,000 but that as a result of the revocation of the permit and the various proceedings, the contract has since been rescinded by the purchaser and the deposit thereon and damages returned by the builder; that this is not a proceeding where it is sought to make a change from one type of building to another; that using the block diagram as a guide, giving the location of the owners of the property within a radius of 500 ft., he has obtained the consent in writing of approximately 75% of such property owners to the maintenance of the existing building; and

WHEREAS, the applicant states that the present owner has held title to the property since July 25, 1952; that the assessed valuation of land is \$5,000 and the building \$18,000 making a total of \$23,000; that the building was erected in 1952; and

WHEREAS, contrary to applicant's statement as to the prior hearing that there were no objections raised, the fact is that a brief in opposition was filed prior to the hearing on March 3, 1952, by Manhattan Beach Community Group, Inc., and Evelyn Bass in behalf of owner of lot 986 in the site block 7517; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, under Volume I, the application for a variance under Section 21, for reduction of setback was denied, due to objection of adjoining owners and other reasons and the denial was upheld by the Court under Swire Building Corporation vs. the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to area to permit the reduction in width of the setback along Oriental boulevard, as shown on plans filed with this application marked, "Received March 31, 1955" (4 sheets) and "February 3, 1956" (one sheet) *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed and a Certificate of Occupancy obtained within six months from the date of this resolution.

220-55-BZ

APPLICANT—Albert Melniker, for Annie Epstein, Margaret Pfuhler, owners (Sun Oil Co., lessee).

SUBJECT—Application March 22, 1955—re (decision of the borough superintendent) under sections 7A, 7e, 7f, and 7i of the zoning resolution, to permit in a residence and retail use district, the erection and maintenance of a gasoline service station, lubricatorium, car washing, motor vehicle repairs, storage, sale of accessories and office, with a curb cut nearer the residence use district than is permitted for a term of 15 years.

MINUTES

PREMISES AFFECTED—470 Castleton avenue and 65 Ridgewood place, southeast corner, Block 130, Lot #1, West Brighton, Borough of Richmond.

APPEARANCES—

For Applicant: Albert Melniker.

For Opposition: G. B. Brown and Gertrude Brown.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 1, 1955 after due notice by publication in the Bulletin; then laid over, date to be set; for inspection and decision; hearing closed; then set for hearing February 7, 1956, and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in retail and residence use, D area, class ¾ height districts; Castleton avenue is in a retail use, D area, class ¾ height district; Ridgewood place is in retail and residence use, D area, class ¾ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 11, 1955 acting on N.B. Applic. 1070-53, reads:

"1. Proposed use of premises as a gas service station, lubritorium, car washing, sale of accessories and minor motor vehicle repairs with hand tools, on a plot located partly in a residence and partly in a retail use district is contrary to Section 3 and Section 4A of the Building Zone Resolution.

2. Proposed curb cut on Ridegwood Place is within 75' of a residence use district which is contrary to Section 7A."

WHEREAS, the applicant states that the premises consist of a plot, 101.42 ft. frontage by 115.44 ft. in depth, irregular, presently vacant; that it is proposed to erect and maintain a building 45 ft. 6 in. in front, 28 ft. 4 in. in depth, 15 ft. in height, to be used as gasoline service station, lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and office, with curb cut nearer the residence use district than is permitted; and

WHEREAS, the applicant states that the business use was changed to retail use on January 21, 1942; that C area was changed to D area on August 2, 1943 and that the residence use portion was changed from C area to E area on August 1943; and

WHEREAS, the applicant contends that the proposed building for a gas station, lubritorium, car wash, sale of accessories and minor motor vehicle repairs, with hand tools, will be a decided asset to this location; that the building has been designed in a traditional manner in order to conform with the general character of the area to the west of the proposed station; that the location of the building in relation to the lot is one that does not obstruct the corner and one which tends to fit into the surroundings; that the general development of the Castleton avenue area west of Ridgewood place and the surrounding vicinity has in recent years required more facilities for the handling of additional motor vehicles; that the increased population to be handled in this general area justifies the need for this proposed station; and

WHEREAS, the applicant states that the site in question is under option to purchase by the Sun Oil company which option expires July 31, 1955; that the Sun Oil company has for many years been an operator of service stations; that a tire store immediately to the west of this proposed location has been located there for many years and is a common type of business; that within the 500 ft. radius, an auto showroom and repair shop has been located for a period of years; that it is proposed to keep a residential character and not to have a detrimental effect on the adjacent residential areas; that the variance to section 7f, if granted, shall be for a stated number of years and if the Board is

favorably inclined, that said variance be for not less than 15 years; that the total cost of the proposed building and property will represent an expenditure of approximately \$45,000; that the amortization and depreciation of this amount over a period of less than 15 years would present a difficult financial burden but with a 15 year term, the owner could make an equitable arrangement with a lending institution; and

WHEREAS, the applicant states that the present owner has held title to the property since 1941; that the assessed valuation of land is \$41,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions A, c, f and i of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 1070/53, Objection No. 1, be and it hereby is affirmed and that the application be and it hereby is denied.

Adjourned: 12:45 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, FEBRUARY 7, 1956, 2 P. M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating.

661-46-A—Vol. II

APPLICANT—Herman E. Horwood, for W. A. & W. O. Kaiser Inc., owners.

SUBJECT—Application reopened June 14, 1955 as Vol. II —re Appeal from a decision of the borough superintendent —re means of egress.

PREMISES AFFECTED—412-414 Avenue of the Americas (6th), east side, 43 ft. 8 in. south of West 9th street, Block 572, Lot 6, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated May 9, 1955, repeated in a decision of the Borough Superintendent dated November 4, 1955, on Alt. Applic. 539/55, reads:

"1. Provide two legal means of egress from all floors including cellar and 1st floor.

A fire escape is not acceptable as a means of egress in a factory bldg. over five (5) stories high."

and

WHEREAS, the applicant states the building is 7 stories, 78 ft. 2 in. in height, 39 ft. 11 in. front, by 77 ft. 6 in. in depth, of fireproof construction, erected 1902, located on a lot 39 ft. 11 in. by 77 ft. 6 in. in depth, in a restricted retail use, C area, 1¼ height district, and used and occupied since 1902, without a Certificate of Occupancy, as follows: Celler—boiler room and storage, no persons; 1st floor and mezzanine—retail druggist, 12 persons; 2nd floor—dentist's office and upholstering, 7 persons; 3rd floor—bookbinder, 2 persons; 4th floor—plaster picture frames, 5 persons; 5th floor—bookbinder, 10 persons; 6th floor—manufacturing artificial flowers, 30 persons; 7th floor—cutting dresses, 2 persons; and proposed to be used and occupied as follows—cellar—boiler room and storage, no persons; 1st floor and mezzanine—retail druggist, 12 persons; 2nd floor—dentist's

MINUTES

office and manufacturing similar to the existing type, 35 persons; 3rd to 7th floors inclusive—factory use similar to the present type use, number of occupants proposed not stated; the building is equipped with a dry standpipe system throughout and a dry sprinkler system in the cellar; there is an approved interior fire alarm system and regular monthly fire drills are maintained; there is one interior 33 and 35 in. wide steel stairs with slate treads enclosed in fireproof block partitions, equipped with fireproof self-closing doors, and leading from roof bulkhead direct to street, and one fire escape on the rear extending to roof by stair, with egress from its lower termination across the one story extension adjoining; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, the applicant contends the primary means of egress is a fireproof enclosed stairway from cellar to roof bulkhead, with fireproof doors at all openings, and the second means of egress is a fire escape on the rear from second floor to roof, with fireproof self-closing doors on the course thereof; that on the second floor there is a stair connecting across the open court to the fire escape balcony of the adjoining premises to the north, with egress into plain glass windows of the adjoining building, or across a one story roof to drop ladder leading to West 9th Street; that the fire escape was subject to Violation #9991 of 1943, and was dismissed after receipt of a letter from the Fire Department stating that their records showed acceptance of same by the State Department of Labor September 14, 1915; that this fire escape is the same as existed at the time appeal was granted by the Board under Cal. No. 661-46-A; that the first story store is occupied by a retail druggist with lunch counter with egress to the street independent of the exit from the interior stairway; that the cellar is used as a boiler room and storage of stock for the druggist and lunch counter concession, with no persons regularly employed in cellar; that the cellar is provided with a dry sprinkler system with siamese connections; that in addition to the main exit stairway, which extends to the cellar with a fireproof self-closing door at the bottom, there is a fireproof stairway at the rear leading up to the drug store enclosed at the first story in fireproof blocks equipped with a fireproof self-closing door at the top and egress therefrom is through the open store direct to street; and

WHEREAS, the applicant contends that the present occupancy is very light and in view of the previous approval of the rear exit by the State Department of Labor in 1915 and the City department having jurisdiction at that time, and as the cellar and first floor, since, were also acceptable, and since the objection is now made only due to the amendment of the Labor Law in 1947, and since there are no persons regularly employed within the cellar, it is requested that a variance be granted and that the future occupancy be limited to the capacity of the primary means of egress; and

WHEREAS, the record in Fire Department folder 6A-412.01 has been consulted; and

WHEREAS, the plans filed under Cal. No. 661-46-A show the rear fire escape as it was found to exist upon recent inspection; that the windows at the rear of the building along the course of the fire escape have shutters and are also glazed with fire glass; that a court of the building adjoining to the east of considerable size directly behind the building under appeal provides a larger area for dissemination of smoke in case of fire; and

WHEREAS, the premises were inspected by a Committee of the Board which found that the condition should be permitted to continue and that it is impractical to require an additional stair.

Resolved, that the decision of the Borough Superintendent dated May 9, 1955, and repeated November 4, 1955, on Alt. Applic. 539/55, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the primary means of exit and the exterior fire escape at the rear, with proper ladder location, with access across the one story extension of the adjoining property to 9th Street; and to permit the exits from the cellar as shown on plans filed with this appeal marked, "Received May 20, 1955" (4 sheets)

on condition that no manufacturing shall be carried on in the cellar; that the means of exit from the cellar as shown shall be maintained; that such exits from the first floor shall be maintained as proposed and as shown on such plans; that the fire escape at the rear of this building shall be made structurally safe and to the satisfaction of the Fire Commissioner; that the standpipe system, cellar, dry sprinkler system and fire alarm with connection to Fire Headquarters through a central station, and fire drills shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that the number of occupants per floor shall be limited to the capacity of the primary means of egress; that such fire-fighting equipment shall be installed as the Fire Commissioner shall require; and that in all other respects the building and occupancy shall comply with the Labor Law and all other laws, rules and regulations applicable thereto.

324-51-A

APPLICANT—LeGrand Chemical Corp., lessee, for Bush Terminal Company, owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance which expired February 2, 1956—re Appeal from an order of the Fire Commissioner; previously granted on condition.

PREMISES AFFECTED—101-111 (103 displayed) 50th street, northeast corner, of 1st avenue, Block 780, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Victor P. Nacht.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on November 7, 1951, on certain conditions; and

WHEREAS, the term of variance was extended on February 2, 1954; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 7, 1951, as thereafter *amended* by resolutions adopted through February 2, 1954, only so far as it refers to the term of the variance, so that as *amended* this portion of the resolution shall read:

"... granted for a term of two years from the date of this *amended* resolution, to permit; and maintained to the satisfaction of the Fire Commissioner, in connection with Fire Department Order #299112 LC and new Order #10179 dated January 18, 1954, Folder #573131 and in all other respects, the requirements of the resolutions above cited, shall be complied with."

776-52-A—Vol. III

APPLICANT—Norman Lederer and Leonard Joseph, for Joseph Zellinger, owner.

SUBJECT—Application for consideration—reopening as to amendment as to include construction of floor and foundation of porch—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—660 Grassmere terrace, east side, 95 ft. north of New Haven avenue, Block 253, Lot 33, Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Norman Lederer.

For Administration: Samuel L. Becker, Dep't of Buildings

ACTION OF BOARD—Application reopened and resolution amended.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3
Negative 0
Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on October 18, 1955, certain conditions; and
WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution dated October 18, 1955, by adding thereto:

"that the addition consisting of a covered porch as hereinbefore permitted may rest on a concrete slab 12 in. above grade and that the extension to the rear room may remain as a window; that in all other respects the resolution above referred to shall be complied with; that such construction as herein permitted shall be in accordance with plans marked "Received January 11, 1956," (1 sheet), as acted on by the Borough Superintendent under Alteration 2803/55 under date of December 4, 1955 and maintained to the satisfaction of the Borough Superintendent."

158-54-A

APPLICANT—Arthur E. Cooney, for Santa Realty Co., owner.

SUBJECT—Application reopened December 20, 1955 and restored to docket—re Appeal from a decision of the borough superintendent—egress.

PREMISES AFFECTED—7 East 47th street, north side, 175 ft. east of 5th avenue, Block 1283, Lot 8, Borough of Manhattan.

APPEARANCES—

For Applicant: Arthur E. Cooney and Julius Eckmann.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, and Commissioner Keating 3
Negative 0
Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 18, 1954 on Alt. Applic. 1183/53, reads:

"Repeat Obj. 4 & 5—

4. A fire escape is not acceptable as a required means of egress in a factory bldg. over 5 stories high.

5. If a fire escape is accepted by the Bd. of Stds. and Appeals—provide proper egress to street from termination at the 2nd floor."

and

WHEREAS, the applicant states that the building is six stories, 74 ft. 6 in. in height, 25 ft. by 90 ft. in area at 1st floor, 25 ft. by 82 ft. 6 in. in area at typical floor, of class 3 construction, erected 1868, located on a lot 25 ft. by 100 ft. 5 in. in area, in a restricted retail use, B area, class 2 height district, and used and occupied since 1908 for manufacturing use with the specific use and occupancy of each floor being as follows: cellar, since July 1953—boiler room, storage and blueprinting; 1st floor, since December 1953—retail store and office; 2nd floor, since November 1953—office and photostating; 3rd floor, since August 1953—office and drafting room; 4th floor, since July 1952—office and drafting room; 5th floor, vacant since April 1953, formerly part office and part vacant; 6th floor, since April 1954—office; and proposed to be used and occupied as follows: cellar—boiler room, storage and blueprinting—17 persons; 1st floor—retail store and office, 45 persons; 2nd floor—office and photostating, 30 persons; 3rd floor—office and drafting room, 30 persons; 4th floor—office and drafting room, 30 persons; 5th floor—office and photostating, 30 persons; 6th floor—office, 30 persons; that the building is provided with an interior fire alarm system and regular monthly fire drills are maintained; that

there is one 3 ft. 8 in. wide interior wood stairs enclosed in partitions of wood studs with gypsum block fill, wire lath and plaster, equipped with kalamein, self-closing doors, and one fire escape on the rear extending to roof by stairs with egress from its lower termination to adjoining building, which egress was the subject of action by the Board under Cal. No. 251-19-S; and

WHEREAS, the applicant has included as a basis of this appeal a decision of the Fire Commissioner dated February 26, 1954, reading as follows:

"In answer to your request for permission to permit smoking in certain sections of the above mentioned premises, occupied as a factory building by one tenant, you are hereby informed that this department is without power to grant your request which is therefore denied."

and

WHEREAS, violation No. 4084-53 was issued June 9, 1953 for occupying the premises as a factory without approved plans or permit from the department of housing and buildings, and for failing to provide the required two means of egress for the tenants of each floor; and

WHEREAS, violation No. 8289-53 was issued October 7, 1953 for erecting a luminous ceiling composed of plastic fabric which had not been approved by the Board of Standards and Appeals, and without filing an alteration application or permit with the Borough Superintendent; and

WHEREAS, violation No. 9455 was issued November 17, 1953 for erecting a luminous ceiling composed of plaster fabric which had not been approved by the Board and contains the note "permit has been filed for luminous ceiling but plastic fabric has not been approved"; and

WHEREAS, the applicant states that the building was erected under N.B. Applic. 857 of 1868 as a four story dwelling and altered to a six story loft building for factory use under Alt. Applic. 277 of 1908, and again slightly altered under Alt. Applic. 264 of 1911 for manufacturing and sale of linens and laces, and was continuously occupied on the cellar, 1st, 2nd and 3rd floors for this use until June, 1953, when the remaining floors were leased to others, principally custom tailors, up to 1953; that since June 1953 the present owner has occupied the cellar, 1st and 2nd floors for his own use and rented the upper floors, as indicated on forms filed with this appeal; and

WHEREAS, the applicant states that under Cal. No. 215-19-S the Board granted a variance approving the present primary stair construction and the rear fire escape party balcony connecting to No. 5 East 47th street at the 2nd floor; and

WHEREAS, the applicant contends that under Cal. No. 1021-21-S mutual consent of the owners for use of this party balcony was filed with the Board under date of March 7, 1921, marked received October 26, 1921; and

WHEREAS, the applicant contends that the proposed use is not ordinarily hazardous; that the present actual factory processes are wet processes; that the proposed number of occupants is far below the number permitted by section 278 of the labor law; that the occupants proposed for the cellar space include messengers who are rarely present at the same time during working hours; that the gross usable floor space, after deducting shafts, toilets, etc., is 1355 sq. ft. average; that in addition to the primary stair there is a private stair from cellar to 3rd floor leading to the 1st floor store; that in emergency this stair would receive primary stair traffic from the cellar and upper floors; that due to physical limitations due to the narrow building width, the installation of a second labor law stair would infringe on work space of the lessees and of the owner to the extent of 20% and would constitute an undue hardship which would be particularly aggravated in the 1st floor space, which is now only 13 ft. wide gross for two thirds of its depth; that due to the limitations of the size of the rear yard and the story heights (14 ft. 9 in. to 11 ft. 7 in.), it is physically impossible to comply with section 271 of the labor law by installing an exterior stairway of proper dimensions; that the balcony providing access from the lower termination of the fire

MINUTES

escape to the adjoining fireproof building at No. 5 East 47th street, as previously accepted by the Board, is now being maintained; that the greatest travel to this balcony is 4 stories down from the 6th floor; that the occupancy of each floor will continue to be limited to one tenant; and

WHEREAS, the applicant contends that as to the decision of the Fire Commissioner, the areas involved are the cellar, 1st and 2nd floors, which will be used by the owner; that permission is requested to smoke in these areas, as follows: cellar, rest rooms and toilets; that these areas are enclosed in masonry partitions, equipped with kalamein doors and have ceramic tile floors on concrete and wire mesh and plaster ceilings, and are mechanically vented to the outer air; that permission is also requested for smoking in the office section at the rear of the 1st floor store used in conjunction with the main office on the 2nd floor by one person; that permission is requested for smoking on the entire 2nd floor used as private and general offices and as photostating space; that walls of this area are masonry, stair partitions are fire retarded and masonry filled, and other partitions are stud and plaster; that the ceiling is wire mesh and plaster on joists; that the floor in the office is asphalt tile and in the photostat room Ferroxtroweled oil and acid resistant plastic; that office furniture, filing cabinets, etc., are metal; that the owner will supply all necessary individual and general receptacles for the use of smokers in type, number and location as directed by the Fire Commissioner, in addition to all necessary warning signs and portable fire extinguishing equipment required; and

WHEREAS, the applicant further contends that in view of the lack of hazard involved in the spaces defined and the fact that smoking is accepted generally in these spaces and this appeal is required only due to tenant's partial factory use in restricted areas separated from the office spaces in question, and in view of the practical difficulties and the human element involved in enforcing no smoking regulations against personnel not ordinarily subject to such regulations, it is requested that a variation be granted from the decision of the Fire Commissioner subject to the conditions described herein; and

WHEREAS, on May 13, 1919 under Cal. No. 251-19-S, the Board made a variation from the requirements of the labor law as cited in an order of the Fire Commissioner, dated June 15, 1918 requiring the enclosure of the interior stairway with fire resisting material from cellar to 3 ft. above the roof, on condition that all wood frame and trim be removed from the existing stair enclosure and replaced with construction similar to the then existing fire resisting partition; that the plain glass windows in the 2nd story be removed and filled in with kalamein panels; that the wire glass windows be reinforced with metal muntins on both sides bolted through the glass so as to reduce the area of the panes to 360 sq. in.; that the existing wood doors be replaced by kalamein covered doors and that a galvanized iron skylight with double-screened plain glass and ridge ventilator be installed in the roof over the stairway enclosure; and

WHEREAS, under Cal. No. 251-19-S the building was described as having an exterior fire escape extending from the yard to the roof with fireproof windows along the course of the fire escape and egress to the 2nd story of the adjoining building and through the adjoining yard; and

WHEREAS, under Cal. No. 1021-21-S, the Board, in acting on an application relating to No. 5 East 47th street, Manhattan, accepted the rear egress from that building so long as party wall fire escape is in force between the adjoining owners and as long as conditions remain substantially unchanged, and this egress is described as to the party wall fire escape at 2nd story to No. 7 and thence by stairway to the yard of No. 9, the door to the balcony of this fire escape on the 2nd floor being less than 2 ft. 6 in. in width and not self-closing; and

WHEREAS, this action by the Board under Cal. No. 1021-21-S was reaffirmed by the Board June 21, 1932 in acting under Cal. 398-27-S relating to No. 5 East 47th street, Manhattan; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1183-53, Objections 4 and 5, and that the appeal be and it hereby is *granted*, to permit the continuance of the fire escape as a second means of exit and to permit such fire escape to be used in common with the building at 5 East 47th street, Cal. No. 692-55-A; that the means of exit from the rear fire escape to the street may be through each of the buildings as proposed, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

399-55-A

APPLICANT—Joseph Tanenbaum, for Solgus Realty Corp., owner.

SUBJECT—Application for consideration—reopening as to amendment of resolution—re Appeal from a decision of the borough superintendent; previously granted on condition.

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 26, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 26, 1955, only so far as it refers to the requirement that a sprinkler system be installed throughout the buildings, so that as *amended* this portion of the resolution shall read:

"that such fire-fighting equipment, including the extension of the sprinkler system through the basement and first floor shall be constructed and maintained, in accordance with the requirements of the Code and to the satisfaction of the Fire Commissioner." (Alt. 1435/53)

692-55-A

APPLICANT—Julius Eckmann, for Estate of Isabelle C. Hoffman (Pauline H. Rosenberg, Executor), owner.

SUBJECT—Application August 3, 1955—re Appeal from a decision of the borough superintendent—egress.

PREMISES AFFECTED—5 East 47th street, north side, 150 ft. east of 5th avenue, Block 1283, Lot 7, Borough of Manhattan.

APPEARANCES—

For Applicant: Julius Eckmann and Arthur E. Cooney.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated July 27, 1955, on Alt. App. 1097/55, reads:

"1. Secondary means of egress from all floors including cellar fails to comply with Sec. 270 Labor Law."

and
WHEREAS, the applicant states the buildings is 7 stories, 80.10 ft. in height, 25 ft. front by 92 ft. in depth at street level; 25 ft. front by 87.6 ft. in depth at typical floor level, of fireproof construction, erected in 1915 on a lot 25 ft. front by 100.5 ft. in depth, now in a restricted retail use, B area, Class 2 height district; used and occupied since 1915: Cellar—storage of stock in connection with retail store on 1st floor; 1st floor—store, 13 persons; 2nd floor—photostats, 7 persons, 3rd floor—offices, 21 persons; 4th floor—woolens, 20 persons; 5th floor—jeweler, 11 persons; 6th and 7th floors—tailor, 8 and 9 persons, respectively. The building is provided with an interior alarm system and regular monthly fire drills are maintained. There is one interior 3 ft. 8 in. wide steel and concrete stairs, enclosed in 6 in. terra cotta, equipped with fireproof, self-closing doors which leads from roof bulkhead direct to street and a 45 degree fire escape at rear, extended to roof by stair and connecting at 2nd floor balcony to balcony of #7 East 47th street, which building is the subject of an application before the Board under Cal. No. 158-54-A; and

WHEREAS, Certificate of Occupancy #15195 issued April 26, 1929, to an existing building then located in a business use district permits the following use and occupancy: Cellar—storage; 1st floor—store; 2nd floor—tailor; 3rd floor—dressmaking; 4th floor—dressmaking; 5th floor—tailor; 6th floor—tailor; 7th floor—photostudio, and restricts the industrial occupancy above the first floor to light needlework trades as permitted by the Board of Standards and Appeals under Cal. No. 398-27-S; and

WHEREAS, Violation #6480 was issued by the Borough Superintendent December 27, 1954, for failing to provide legal second means of exit from all floors including cellar, as required by law; and

WHEREAS, the owner was convicted and sentence suspended in the Magistrate's Court July 22, 1955, on charge of Violation of the Labor Law; and

WHEREAS, the applicant states the building was erected in 1915 and has been used under approved Certificate of Occupancy #15195 and under the resolutions adopted by the Board under Cal. No. 1021-21-S and Cal. No. 398-27-S; that the exits consist of one steel, 3 ft. 8 in. wide stair, enclosed in 6 in. terra cotta partitions, extending from 1st floor to roof bulkhead; and 45° fire escape with treads 24 in. wide at rear of building with fireproof windows on course thereof, which connects at 2nd floor balcony to that of rear fire escape of #7 East 47th street, adjoining to east; that these two buildings have had connecting balconies at the 2nd floor since 1921 under mutual consent and approved by the Board under Cals. No. 1021-21-S and No. 251-17-S; and

WHEREAS, the applicant contends the use is not hazardous consisting of tailors, jeweler, woolen merchant, photostat (wet process) and offices. There is only one tenant per floor; that the number of persons above the first is small and adds up to only 28% of the capacity of primary means of egress; that in the cellar there is no boiler room as building is supplied by the New York Steam Corporation; that the cellar is used only as a stockroom for the store and is provided with a fireproof enclosed stair to the store; that at the front is an engineers ladder to sidewalk in the sidewalk vault; that the building has an average usable floor area of 1606 sq.ft. per floor and due to the narrowness of building and the party wall bearing construction there is insufficient floor area to provide an additional enclosed stair plus the incidental access space and it is therefore requested that the Board accept the existing fireproof enclosed stair and the rear 45° fire escape as adequate for the number of occupants; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1097/55, Objection No. 1 and that the appeal be and it hereby is *granted*, to permit the continuance of the fire escape as a second means of exit and to permit such fire escape to be used in common with the building at 7 East 47th street, Cal. No. 158-54-A; that the means of exit from the rear fire escape to the street may be through each of the buildings as proposed, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

994-54-A

APPLICANT—Sidney Daub, for 125 Fifth Avenue Corp., owner.

SUBJECT—Application December 27, 1954—re Appeal from a decision of the borough superintendent, re egress.

PREMISES AFFECTED—7-9 West 18th street, north side, 184 ft. 4 in. west of 5th avenue, Block 820, Lot 33, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating..... 3

Negative 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 27, 1954, acting on Alt. App. 1235/54, reads:

"1. Provide two (2) legal means of egress for all tenants all floors including the cellar, in compliance with Sect. 271 of the Labor Law.

A fire escape in a factory bldg. over 5 stories high is not acceptable as a second means of egress."

and

WHEREAS, the applicant states the building is 9 stories, 122 ft. in height, 50 ft. 8 in. front by 92 ft. deep at street level, 50 ft. 8 in. by 84 ft. in area at typical floor level, of fireproof construction, erected in 1896 on a lot 50 ft. 8 in. front by 92 ft. in depth, in an unrestricted use, B area, Class 2 height district; used and occupied since prior to 1915 as follows: Cellar—boiler room and plastic storage, 2 persons; 1st floor—offices and sale of plastics, 10 persons; 2nd floor—manufacturing metal handbag frames, 15 persons; 3d floor—sale and cutting of men's shirts, 5 persons; 4th floor—manufacturing children's wear, 30 persons; 5th floor—union offices, 50 persons; 6th floor—cutting cloth, 5 persons; 7th floor—printing, 15 persons; 8th floor—manufacturing luggage, 15 persons; 9th floor—manufacturing lighters, 30 persons. No change in use or occupancy is now proposed. Building is provided with an approved standpipe system fed by a 3500 gallon reserve gravity tank and a one-source sprinkler system throughout. There is one 3 ft. wide fireproof stairs, fireproof enclosed, equipped with fireproof, self-closing doors, leading from roof bulkhead direct to street and one fire escape at rear extending to roof by stair and to yard by counterbalanced stair with egress to street through open court; window and door openings on course of fire escape are fireproof, self-closing; and

WHEREAS, Violation #547 was issued August 10, 1954, for not providing two legal means of egress for all tenants from all floors including cellar, as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states fire escape at rear is provided with 4 ft. wide party-wall balconies connecting to adjoining building at 3-5 West 18th street with 22 in. wide and 45° stairs from 2nd to 9th stories and 45° stairway to roof of adjacent easterly building and 45 degrees counterbalanced stairway from 2nd floor to yards of adjoining buildings with egress by open court to West 19th street; that the balconies and stairways have 5 ft. high rail-

MINUTES

ings on the outside and 3 ft. high railings on the inside; that the balconies are located at floor level with 3 ft. 8 in. wide fireproof, self-closing doors; that these fire escapes were accepted by the Labor Department July 18, 1916 and by the Board of Standards and Appeals under Cal. No. 215-16-A relating to adjoining building at #3-5 West 18th street; and

WHEREAS, the applicant states the cellar and first floor will not be used for manufacturing and will be occupied by one tenant for the storage of plastic cloth in cellar and for offices and sales thereof on the 1st story; that exits from the cellar consist of a 3 ft. wide steel stairway at west side, leading to the 1st floor with fireproof enclosure at cellar and fireproof self-closing door thereto; that at the east wall of cellar is a 3 ft. 8 in. wide horizontal exit leading to #3-5 West 18th street, occupied by the same tenant, equipped with 3-hour fireproof automatic sliding door and 1½ hour fireproof, self-closing swing door at each side of opening; that from the boiler room is a fireproof, self-closing door to cellar proper and in addition an engineer's wrought iron ladder leading to a 2 ft. by 2 ft. steel hinged trap door in sidewalk which it is proposed to provide with an easy opening device and no locking devices will be provided on either side of this opening and the door will be provided with a latch on the inside which will be released by the opening device; and

WHEREAS, the applicant contends the entire building is equipped with an automatic wet type approved sprinkler system, supplied by a 5,000 gallon gravity tank 50 feet above the roof, installed and approved by the New York City Fire Department January 21, 1953; that the building contains a 4-inch standpipe system supplied by a 5,000 gallon wood gravity tank with 3,500 gallon reserve; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1235-54, Objection No. One and that the appeal be and it hereby is *granted, on condition* that the existing exits from the building shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received December 27, 1954" (9 sheets), "January 25, 1956" (one sheet) and "February 3, 1956" (one sheet); that the exits shown from all stories shall be maintained; and, in addition, that the fire escape at the rear, used in common with the adjoining building, shall have the counterbalanced ladder re-constructed as shown on revised plans marked, "Received February 3, 1956" (one sheet); that the exit from such counterbalanced ladder shall be through the driveway to West 19th street; that the gates at the end of such driveway shall be openable at all times while the building under appeal is open for business; that the standpipe and one-source sprinkler system shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that the fire escape and the new proposed counterbalanced stair shall be made structurally safe; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and shall not be increased in height or area.

124-55-A

APPLICANT—National Gypsum Co., owner.

SUBJECT—Application February 10, 1955—re Appeal from a decision of the first commissioner relating to the use of a heating device not of a type approved by the Board.

PREMISES AFFECTED—South side, of Oak Point avenue, 82 ft. south of Barry street, Block 2605, Lot 2, Borough of The Bronx.

APPEARANCES—

For Applicant: E. W. Zammiller and Gerald Roth.

For Administration: Lieut. John P. Manfredi, Fire Dept.

ACTION OF BOARD—Appeal granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating..... 3

Negative: 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner, dated January 18, 1955, reads:

"This will acknowledge receipt of your communication of January 12th, wherein you make application for approval of the Struthers Wells Corporation oil heating unit.

You are advised that the provisions of the Charter require that all materials and appliances to be used within a building insofar as the Fire Department has regulatory control must be approved by the Board of Standards and Appeals.

Therefore, your application for approval by this department is denied."

and

WHEREAS, the applicant states that the premises consist of a lot fronting 1,000 ft. irregular by approximately 1,000 ft. in depth, located in an unrestricted use district, used as a plant for the manufacture of gypsum products and upon which plot the building in question, one story 20 ft. in height, 36 ft. by 20 ft. in area has been erected to house the heater in question; and

WHEREAS, the applicant states that in connection with the proposed expansion of its plant, designed to increase production capacity in order to meet the acute demand for construction materials in New York City it is proposed to install a Struthers Wells oil heating unit to utilize improvements in its processes using heat transfer oil circulated through a continuous system of piping to a specially constructed vessel where it is used to heat indirectly the gypsum contained in such vessel to a temperature of 350°F; and

WHEREAS, the applicant contends that inability to use the Struthers Wells unit, which is the subject of this appeal, and upon which the entire new calcining process depends would prevent the company meeting building requirements in this area and the company would suffer a severe loss of its large investment in the special equipment designed to be heated by the Struthers Wells unit; and

WHEREAS, the applicant states that the Struthers Wells heater is located in an unattached fireproof structure and consists essentially of a refractory lined shell in which is arranged tubular piping through which oil is circulated; that the heater is fired from the floor by four burners and there is no direct flame impingement upon the tubular piping; that the heated oil is transferred by pumps to vessels located in a nearby building and returned to the heater by a continuous closed system of piping so arranged about the heated vessels in the separate building that maximum heat can be indirectly applied by the circulating oil to the gypsum rock within the vessels; and

WHEREAS, the applicant states that the heaters will be fired by National Air Oil Burners No. Cp 40, as approved by the Board under Cal. No. 185-29-SA and the burner operation will be supervised by a Brown-Protecto-Flow, Model W, 124A Combustion safeguard; that the Struthers Wells heater is manufactured to ASME and National Board Standards and is labeled with National Board No. 7456 and Hartford No. 8433; and

WHEREAS, the applicant states that in addition to the automatic control systems which the Struthers Wells unit is equipped a steam smothering system has been installed in the structure in which the heater is situated; and

WHEREAS, the applicant states that the oil circulated in the closed system of piping is manufactured by the Socony Vacuum Company especially for use in heat transfer units such as herein proposed and has an open cup flash point of 355°F; and

WHEREAS, the applicant contends that heat transfer oil units similar in design to the one herein proposed have been

MINUTES

manufactured by the Struthers Wells Corporation for ten years and over five hundred units have been installed throughout the country and there is not a single instance in which a permit has been refused for an installation of the unit; and there is no known report of any accident involving property damage or personal injury caused by a Struthers Wells heat transfer oil unit; and

WHEREAS, the applicant states that it has in operation three other Struthers Wells units in other plants outside of New York City utilizing a similar calcining process and has not experienced any difficulty in the operation of such units which it considers to be non-hazardous; and

WHEREAS, the applicant states that the Struthers-Wells unit installed on the premises in question is a type "CV" heater as more fully described in Struthers Wells catalogue Bulletin C-45 page 7, a copy of which has been filed with this appeal.

Resolved, that the decision of the Fire Commissioner dated January 18, 1955, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* to permit the continuance of the Struthers Wells Corporation oil heating unit, even though not approved by the Board for general use in New York City, *on condition* that the existing steam smothering system shall be maintained to the satisfaction of the Fire Commissioner; that there shall be a device to shut off the burners of the heater in the event of stoppage of the oil flow or drop in pressure; that an alarm, as proposed, shall be maintained to give warning in the event of leakage of heat transfer oil; that the pipes carrying the oil shall be encased, as proposed, between buildings; that the legs of the heaters shall be protected with concrete, as proposed; that such pipes shall lead to a safe place outside of the building so that such oil may be conducted through a drainage system to a slop tank in the event of leakage; that the system shall be maintained under these requirements and to the satisfaction of the Fire Commissioner; that in the room containing the Holo-flite Calciner, the present protection by means of automatic Ansul dry powder system shall be maintained and, in addition, a water system as proposed shall be maintained to provide secondary fire protection; that the heater room shall be separated from the adjacent boiler room by a fire wall of brick, with the opening in such wall protected by an approved fire door; that the floor of the heating room shall be maintained approximately two feet below the boiler room floor, with a curb around the balance of the heater room to retain any oil that may leak from the heater, and which in the event of leakage shall flow into the pit as heretofore provided for and connected to a slop tank, all as shown and as proposed on plans filed with this appeal marked, "Received February 10, 1955" (one sheet), "November 4, 1955" (11 sheets) and "February 3, 1956" (5 sheets); that this system shall be used in connection with the oil storage system as permitted this day under Cal. No. 310-55-A; and that nothing in this resolution shall be construed as constituting an approval by this Board for the Struthers Wells Corporation oil heating unit for general use through New York City.

310-55-A

APPLICANT—National Gypsum Co., owner.

SUBJECT—Application April 13, 1955—re Appeal from a decision of the fire commissioner relating to the installation of an above ground tank for the storage of 600,000 gallons of fuel oil.

PREMISES AFFECTED—South side, of Oak Point avenue, 82 ft. south of Barry street, Block 2605, Lot 2, Borough of The Bronx.

APPEARANCES—

For Applicant: E. W. Zaunmiller and Gerald Roth.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the applicant states the premises consist of an irregular shaped plot 1,000 ft. front by 1,000 ft. in depth, in an unrestricted use district, used and occupied for the manufacturing of gypsum products; and

WHEREAS, the decision of the Fire Commissioner, dated March 18, 1955, reads:

"In reply to your letter of March 14, 1955 re approval for the proposed installation of a 600,000 gallon oil tank at the above location, please be advised that such approval cannot be granted as such an installation is in violation of Rule 6.4 of the Oil Burner Rules.

Rule 6.4 of the Oil Burner Rules of the Board of Standards and Appeals limits the maximum capacity of outside tanks to 100,000 gallons with the additional proviso that the surrounding dyke has a capacity of 1½ times the tank capacity and that such dyke shall not extend upward more than ¼ of the tank height when tank height exceeds 16 feet."

and

WHEREAS, the applicant states the Fire Commissioner's decision is based on the fact that Rule 6.4 of the Oil Burner Rules of the Board limit the maximum capacity of above ground storage tanks to 100,000 gallons; and

WHEREAS, the applicant states it has undertaken an expansion program to increase the capacity of the plant and in connection therewith the proposed oil storage tank is necessary to store an adequate supply of oil at a reasonable cost for the expanded plant operation; and

WHEREAS, the application contends that the property in the neighborhood of the plant is devoted entirely to industrial use and there are no residential buildings within one-half mile of the plant; that the nearest industrial building other than the applicant's plant is about 150 yards from the site of the Struthers Wells heating unit proposed to be installed under Cal. No. 124-55-A and about 200 yards from the site of the proposed 600,000 gallon fuel oil storage tank which is the subject of this appeal; and

WHEREAS, the applicant contends that due to the expansion program at the Bronx plant the consumption of fuel oil has increased to the point where the existing six 20,000 gallon fuel oil storage tanks are inadequate to support current operations, and in the event of a strike or a delay in obtaining a supply of fuel oil, the manufacturing operations would be required to cease; that at the present time, because of limited oil storage facilities, oil must be delivered by truck; that the installation of the proposed tank will enable bulk delivery from tankers docked at the plant pier on the East River; and

WHEREAS, the applicant contends that the site for the proposed site has been recently acquired by it for that purpose; that it is not possible to install an underground tank of the required capacity as the sub-surface of the site is saturated with sea water which would corrode any underground installation, and when the oil level of an underground tank on the site would be low there is a tendency for the tank to float; and

WHEREAS, the applicant states that as the grade of the proposed site is but two feet above normal mean high water a coffer-dam would have to be constructed to permit the installation of an underground tank at great expense; that the proposed tank will be located adjacent to the East River on land which has a lower elevation than the land which surrounds it on all sides except on that side facing the river; that the applicant's plant buildings located to the east of the proposed tank will be separated from the tank by a natural elevated bank six feet higher than the surface of the land upon which the tank will be located; that the nearest structure to the north of the tank is a warehouse which is more than one-quarter of a mile from the tank location; that there is a gradual incline of more than three feet between the proposed tanks site and the warehouse; that to the west of the proposed tank there are sidings of the New York, New Haven and Hartford Railroad, the nearest of which is about 100 ft. from the tank; that these sidings are on land more than one foot higher than the site of the

MINUTES

proposed tank and thus in the event oil escaped from the tank and the proposed dike, the only direction to which the oil could flow would be toward the river; and

WHEREAS, the applicant states that the oil will be transferred from the tanker at the plant dock to a pipe which will run along the pier and then underground directly to the tank, that the only outlet from the tank will be connection to the six existing 20,000 gallon underground tanks and the oil will be fed into the plant operation through an existing system of piping connecting to the six existing tanks; that the dike proposed to surround the tank will be designed to hold one and one-half times the maximum capacity of the tank; that the tank will be constructed to the satisfaction of the Board and to the Fire Department in all respects; that the oil stored, which will be No. 6 fuel oil of a low sulphur content possessing a flash point of 220 degrees and a viscosity of 183 at 122° temperature.

Resolved, that the Order of the Fire Commissioner dated March 18, 1955, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the installation of six 20,000 gallon oil tanks at the location proposed and as shown on plans filed with this appeal marked, "Received November 4, 1955" (8 sheets) *on condition* that the plate steel dyke as proposed shall be maintained with a capacity of one and one-half times the tank capacity and maintained to the satisfaction of the Fire Commissioner and used in conjunction with the equipment permission for the use of which has been granted this day under Cal. No. 124-55-A; that, as proposed, the oil to these tanks shall be transferred from a tanker at the plant's dock, with pipe running along the pier and underground directly to the tanks above; that such oil shall be of No. 6 crude oil of low sulphur content with flash point not over 220 degrees; that the fire protection for such oil shall be as shown on plans above referred to and maintained to the satisfaction of the Fire Commissioner; and that such oil in such storage tanks may also be used for other purposes in connection with oil burners used in the plant.

1012-55-A

APPLICANT—Samuel Rosenblum, for Ace Associates, Inc., owner.

SUBJECT—Application December 23, 1955—Appeal from a decision of the borough superintendent, re egress.

PREMISES AFFECTED—434-438 Avenue of the Americas (126-130 6th Avenue) and 70 West 10th street, south-east corner, Block 573, Lot 6, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and William Halpern.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating..... 3

Negative 0

Absent: Deputy Chief Connolly..... 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated December 15, 1955, acting on Alt. App. 1859/55 reads:

"1. Provide 2 legal means of egress from cellar as per # 271, Labor Law.

2. Provide secondary means of egress from 2nd to 6th floors as per #271 Labor Law. (A fire escape is not acceptable as a legal means of egress)."

and

WHEREAS, the applicant states the building is 6 stories, 71 feet in height, 65 ft. 1½ in. front by 78 ft. 6 in. in depth, of Class 3 construction, erected in 1894, now located in a local retail use, B area, Class 1½ height district; used and occupied since prior to 1913: Cellar—boiler room and tenants' storage, 2 persons; 1st floor—stores and U. S. post office, 50 persons; 2nd floor—manufacturing moulded products, 5 persons; 3d floor—manufacturing candy, 12 persons; 4th floor—plating, 6 persons; 5th floor—manufacturing blouses, 38 persons; 6th floor—manufacturing clothing, 75 persons, for which use no certificate of occupancy has been

issued. The building is provided throughout with a one-source approved sprinkler system and approved interior fire alarm system; regular monthly fire drills are not maintained. There is one interior 4 ft. 3 in. wide wood stairs, enclosed with fire-retarded partitions, equipped with fireproof, self-closing doors, leading from roof bulkhead direct to street, and one fire escape on West 10th street, extending to street by counterbalanced stairs; window and door openings on course thereof are fireproof, selfclosing; and

WHEREAS, Violation #5122/55 was issued by the Borough Superintendent for violation of Section 271 of the Labor Law in that all floors including cellar are not provided with two legal means of egress to the street; and that on the 5th floor door on course of egress to stairway exits open inwardly against the direction of egress; and

WHEREAS, the applicant has amended his statement by statement made January 20, 1956, that all the tenants of the 2nd floor and above performing factory use have been in the building prior to July 12, 1945, the date of amendment of the use district; and

WHEREAS, the applicant states the building was erected in 1894 and used for factory before the adoption of the Zoning Resolution; that the exits were made to conform with the Labor Law at the time of its adoption; that the stair is enclosed with fire-retarded partitions with fireproof self-closing doors at openings; the fire escape is of a type heretofore accepted as an exit, has 60° stairs, fireproof openings on its course, steps to sill level, screened 5 ft. high, with counterbalanced stairs to sidewalk; in addition the building is equipped with an automatic sprinkler system connected to city water supply; that the cellar is used only for storage for the candy store on 3rd floor; there is no one regularly employed in the cellar and no factory occupancy; that there is available an outside stair leading directly from cellar to sidewalk on West 10th street and an iron ladder to sidewalk from boiler room; there is also an accommodation stair with trap door to center store on 6th avenue; that the elevator at easterly end also gives access to cellar; and

WHEREAS, the applicant contends there is no one regularly employed in the cellar and only the superintendent tends to the boiler room, which has an iron ladder to sidewalk, stairs and elevator available, it is requested that the existing exits be accepted as sufficient; and as the building is only 6 stories in height, of small area and sprinklered and as the fire escape has fireproof openings on its course and is equipped with counterbalanced stair, it is requested that the variance be granted so as to accept the existing fire escape; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1859/55, Objections No. 1 and 2, and that the appeal be and it hereby is *granted, on condition* that the means of exit for all floors above the first floor shall be by means of the primary means of exit and an exterior fire escape, as proposed and shown on plans filed with this appeal, marked "Received December 23, 1955", (4 sheets), and "February 3, 1956", (2 sheets), *on condition* that the existing exits from the stores and post office on the first floor shall be maintained; that the exits from the cellar shall be as shown on revised plan, marked "Received February 3, 1956"; that this variance shall continue only so long as the use of the cellar is for non-manufacturing purposes, to be used only for storage, at present by the candy manufacturer occupying the third floor; that the doors at sidewalk level on West 10th street shall be fitted with an easy opening device so as to be readily openable at all times; that the new engineer's ladder shall be constructed and maintained providing another means of egress to the Avenue of the Americas; that the stair in the store occupied by the shoe repairer and provided with a trap door shall be made readily openable so as to provide escape from cellar in case of fire; that the one-source sprinkler system shall be continued and maintained in accordance with requirements there-

MINUTES

for and to the satisfaction of the Fire Commissioner; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area.

255-43-A—Vol. III

APPLICANT—Jerome W. Perlstein, for Rose Aaminsky, owner.

SUBJECT—Application for consideration—reopening as Vol. III to consider amendment as to increase in occupants—re Application decision of the borough superintendent; previously granted on condition.

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on December 22, 1953, certain conditions; and

WHEREAS, working drawings, submitted as being in substantial compliance with the Board's requirements, were approved on July 27, 1954; and

MINUTES

WHEREAS, the applicant requested an amendment of the resolution and time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 22, 1953, under Volume III, as *amended* by resolutions adopted on July 27, 1954, by adding thereto:

"that in the event the owner desires to change the arrangement of the plot and to reconstruct the premises as indicated on revised plan marked, 'Received December 19, 1955' as passed on by the Borough Superintendent under N.B. App. 511/53, objection dated December 1, 1955, such changes may be permitted provided the requirements of the resolution as above cited, other than as may be inconsistent with this *amended* resolution, shall be complied with; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution."

297-34-BZ—Vol. III

APPLICANT—Ribelle V. Perotto, for Anne Cosden, owner.
SUBJECT—Application for consideration—reopening as to amendment as to four additional gasoline tanks—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c, 7f, 7h, 7i and 2l of the zoning resolution, permitting in a business use district, the extension in area of premises and change in occupancy from auto-laundry, grease pits and office to gasoline service station, lubritorium, car wash (non-automatic), motor vehicle repairs, storage and sale of accessories and office and the parking of more than five motor vehicles waiting to be serviced.

PREMISES AFFECTED—2705-2717 Nostrand avenue, east side, 340 ft. south of Avenue M, Block 7666, Lots 24 and 25, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ribelle V. Perotto.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on January 12, 1954, certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on February 8, 1955; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 12, 1954, under Volume III, only so far as it refers to the number of gasoline storage tanks so that as *amended* this portion of the resolution shall read:

"that the number of gasoline storage tanks shall not exceed eight (8) 550 gallons approved tanks, as indicated on revised plans marked, 'Received, January 17, 1956' (one sheet); that in all other respects the resolution above cited shall be complied with where not inconsistent with this *amended* resolution and as passed on by the Borough Superintendent under Gasoline Tank Application 3420, dated January 16, 1956."

1024-41-BZ

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 19, 1955, by adding thereto:

"that the location of the building may be 4 feet closer to the rear lot line as indicated on revised plans marked "Received February 1, 1956", (1 sheet), and to permit the installation of one additional pump island set back 15 feet from the building line; and to omit the rear extension formerly proposed to be used as an enclosure for rubbish and also the marquee formerly proposed at the show window and to arrange the partition in the toilet and storage rooms, all as shown on revised plans marked "Received January 9, 1956", (3 sheets); that in all other respects the requirements of the above cited resolution where not inconsistent with this amendment shall be complied with." (N.B. 408/53)

395-29-BZ—Vol. III

APPLICANT—Jack Z. Cohen, for Aaron Golden, owner.

SUBJECT—Application for consideration—reopening as Vol. III to consider reconstruction, subject to regular

MINUTES

procedure—re Application (decision of the borough superintendent); previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district the extension of a gasoline service station.

PREMISES AFFECTED—989-1001 Liberty avenue, 420-440 Conduit boulevard, northwest corner, Block 4127, Lot 32, Borough of Brooklyn.

APPEARANCES—

For Applicant: Jack Z. Cohen.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Vol. III, to consider reconstruction, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connolly 1

127-32-BZ—Vol. II

APPLICANT—Robert Gottlieb, for Just Realty Corp., owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider proposal for a gasoline station, subject to regular procedure—re Application (decision of the borough superintendent); previously withdrawn, under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a motor vehicle repair shop and also a gasoline service station.

PREMISES AFFECTED—557-587 St. Anns avenue, northwest corner of 561-563 East 150th street, Block 2276, Lots 48 and 50, Borough of the Bronx.

APPEARANCES—

For Applicant: Gerald Levy.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Vol. II, to consider a new proposal for a gasoline service station, previously denied under Section 21 under Cal. No. 1074-27-BZ.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connolly 1

476-46-BZ—Vol. II

APPLICANT—Burke, Green and Groh, for Conduit Realty Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II new proposal, subject to regular procedure—re Application (decision of the borough superintendent); previously denied, under sections 7h and 21 of the zoning resolution, to permit in a residence use district, the parking and storage of more than five motor vehicles, for a term of two years.

MINUTES

*CORRECTION

The Minutes of the meeting of the Board of Standards and Appeals held on September 20, 1955, as they appeared in Bulletin No. 39, Vol. 40, are hereby corrected to read as follows:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 790-54-SM

Subject: Insulite Roof Deck $1\frac{1}{2}$ " , 2" and 3" thickness, approval of.

Harold Perrine for Insulite Division of Minnesota and Ontario Paper Company, filed October 8, 1954 an application with the Board of Standards and Appeals for approval of the material $1\frac{1}{2}$ " , 2" and 3" Insulite Roof Deck under the provisions of C26-626.0 Administrative Building Code.

Purpose

The material is to be used in lieu of wood for roof construction in frame buildings.

Description

The material consists of several layers of one-half "inch" thick Insulite wood fiber insulation board laminated together with a water resistant adhesive to provide units 2'-0" x 8'-0" and $1\frac{1}{2}$ " , 2" and 3" in thickness.

The long edges are tongue and grooved while the ends are cut square. The tongue and groove of the interlocking tongue and groove joint are $\frac{1}{2}$ "inch" deep and $\frac{1}{2}$ " to $\frac{3}{4}$ " wide depending on the thickness.

Inspection and Test

Load tests, conducted in accordance with the requirements of C26-626.0 Administrative Building Code were witnessed by Asst. Engr. J. A. Darts Committee on Test.

Results of test were as follows:

- A. $1\frac{1}{2}$ " Insulite
Span—2'-0", Width 2'-0", Overhang over Span—1'-0",
Nailing 3" nails—5" on center, 2" edge distance-bearing $1\frac{1}{2}$ "
Ultimate Load—248 lbs. per sq. ft.

Safe carrying capacity per C26-626.0— $248 \div 4 = 62$ lbs. per sq. ft.

- B. 2" Insulite
Span—2'-8", width 2'-0" Overhang over span—0'-8",
Nailing $3\frac{1}{4}$ " nails, 5" on center—2" edge distance bearing $1\frac{1}{2}$ "

Ultimate Load—227 lbs. per sq. ft.

Safe carrying capacity per C26-626.0— $227 \div 4 = 56$ lbs. per sq. ft.

- C. 3" Insulite
Span—4'-0", Width 2'-0" overhang over span 2'-0",
Nails $4\frac{1}{2}$ " , 5" on center, 2" edge distance bearing $1\frac{1}{2}$ "

Ultimate Load—207 lbs. per sq. ft.

Safe carrying capacity per C26-626.0— $207 \div 4 = 52$ lbs. per sq. ft.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material Insulite in thickness of $1\frac{1}{2}$ " , 2" and 3" on spans as above described for voluntary use in New York City as a substitute for wood for roof construction in wood frame construction on condition that the maximum spans and nailing shall be as follows: $1\frac{1}{2}$ " Insulite: 2'-0" Span, 3" Nails, 5" on center, 2" edge distance, 2" Insulite: 2'-8" Span, $3\frac{1}{2}$ " Nails, 5" on centers, 2" edge distance, $1\frac{1}{2}$ " bearing, 3" Insulite: 4'-0" Span, $4\frac{1}{2}$ " Nails, 5" on centers, 2" edge distance, $1\frac{1}{2}$ " bearing and further that this material shall be covered with an approved roofing material and that each container or carton in which the material is shipped shall be marked, stamped or tagged as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 790-54-SM."

*Correction:—1st sentence. Description—add word "inch" and change from 2'-4" to 2'-0", 3rd sentence add word "inch".

Proposed Amendments to the Rules Relative to Sub-
merged Inlets and Protective Methods to Be Applied
to Prevent Contamination of Water Supply.

COURT DECISIONS

Matter of Celia Seinfeld vs. Murdock:—On May 24, 1955, the Board denied an appeal from the Borough Superintendent's decisions on N.B. Application 1875-50, Objections 1, 2 and 3, re proposed alteration of changing occupancy and also as to providing a legal yard; and Alt. Application 415-48. Objection 24, re removal of bathtub and sink in cellar and plumbing fixture in rear dining room (wash basin or sink) on 1st floor; Cal. No. 66-55-A; premises 224 Avenue N and 1494-1496 East 3rd Street, southwest corner (front and rear buildings); Borough of Brooklyn.

A prior appeal — (Cal. No. 60-51-A) was granted by the Board on March 6, 1951, to permit the plot 43' x 100', at the corner of Avenue N and East 3rd Street, Brooklyn, on which there existed a frame and brick two-family residence building, to be divided into two zoning lots so that a two-family dwelling could be erected on one of the zoning lots, which was a corner lot. The decision of the Board was subject to court review and was sustained by Mr. Justice Bartels at Special Term, in the MATTER OF CELIA SEINFELD vs. THE BOARD (New York Law Journal, July 18, 1951, and published in Bulletin of July 24, 1951).

At Special Term, Supreme Court, Mr. Justice Arkwright sustained the Board in the following decision: (New York Law Journal, December 21, 1955, page 7) — Cal. No. 66-55-A:—

"Seinfeld v. Murdock; Seinfeld v. Saltzman—There are two proceedings of the petitioner involved herein; one, to review the determination of the Board of Standards and Appeals; and the other, for an order directing the Department of Housing and Buildings to issue a certificate of occupancy. The respondents cross-move to vacate the order of certiorari and to dismiss the petition on which it was granted. ¶The petitioner is the owner of premises No. 1494-96 East Third Street, Brooklyn, New York, upon which there is erected a two-story brick building. Plans and specifications of this two-story building to be occupied as a residence by one family, with a doctor's office and garage, were approved on September 25, 1951. On June 15, 1952, and up to the present time this building has been occupied by three families without a certificate of occupancy having been issued therefor. Petitioner is also the owner of premises No. 224 Avenue N, on the same lot, a frame dwelling, in regard to which no change of occupancy was proposed. These premises will be further referred to subsequently. ¶The first proceeding was instituted by petitioner to obtain an order permitting a change of occupancy of the aforementioned two-story brick building to a three-family dwelling under section 9, subdivision 9, of the Multiple Dwelling Law, and also to relieve the petitioner from compliance with an order of the building department to remove certain plumbing fixtures from the frame building which caused an apparent arrangement for the occupancy of an additional family therein. The borough superintendent denied petitioner's application. Thereafter, petitioner appealed to the Board of Standards and Appeals. After a hearing and an inspection of the premises in the immediate neighborhood, the board denied the petitioner's application. ¶Two preliminary motions have been made in connection with this application which will be considered first. ¶Petitioner, in one motion, asks that certain matters contained in the record of transcript of the proceedings before the Board of Standards and Appeals be stricken out and also for an order directing the board to serve and file a bill of particulars. ¶The part of the record sought to be stricken is a resume of the official record made by an official of the department of housing and buildings of the proceedings had by the petitioner with the department concerning the subject premises for the period beginning August 20, 1940, to an including July 25, 1952. The information given in the resume was taken from the original records on file in the department of housing and buildings which apparently are very voluminous and were summarized for that reason by the official of the department of housing and buildings. This information was given to the Board of Standards and Appeals for its assistance and is properly a part of the record (People ex rel. Fordham Manor Reformed Church v. Walsh, 244 N. Y., 280). ¶As to that part of the application which seeks a bill of particulars there is no provision in the pertinent statutes (secs. 666 and 668 of the Charter of the City of N. Y., and sec. 668e-1.0 of the Administrative Code), for any such relief. Further, such information is not necessary or material in connection with petitioner's application. ¶Petitioner's motion to strike out and for a bill of particulars is therefore denied. ¶The respondents, Board of Standards and Appeals, in the second motion, moves to strike out the reply served by petitioner upon the ground that there is no provision in law for the service of a reply in this proceeding, Special Term is limited to the return and such additional

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on October 14, 1953 subject to regular procedure, to consider reconstruction and extension of use; and

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; laid over to February 7, 1956, for inspection and decision; hearing closed; then to February 15, 1956, for applicant to file revised plans showing pumps back 15 ft. from building line and curb cut at southerly end separate from lumber yard curb cut; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and New Utrecht avenue are in a business use, C area, class 1 height district; 84th street is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 31, 1954 acting on N.B. Applic. 613-53, reads:

"1. Proposed retail gas selling station, lubritorium, office & sales, car repairs & parking and washing of cars, within a business district, is contrary to Art. 2 Sect. 4a.29 & Art. 2 Sec. 4a-46 of the Zone Resolution."

WHEREAS, the applicant states that the premises consist of a plot, 227 ft. 5¼ in. frontage by 148 ft. 5 in. by 95 ft. ¾ in. in depth, triangular, on which is located a gasoline service station of brick construction, one story, class 3, consisting of office, open hydraulic lift for lubrication and

frame storage sheds adjacent to the office, and three gas pumps and three 550 gallon storage tanks; that it is proposed to demolish the present office and sheds and to build a new class 3, one story office which will include the sale of auto accessories, a new lubritorium, auto laundry and automobile repair shop; and

WHEREAS, the applicant further states that the existing certificate of occupancy No. 57492 dated 1929 was issued for gas station and office in conjunction with the station, together with 5 Mugler auto pits and three 550 gallon buried tanks in connection with an application filed and a variance granted by the Board under Cal. No. 9-28-BZ and approved under N.B. Applic. 23624-29; that original permit No. 304177 was issued by the fire department on August 26, 1929 and at the present time the gas station operates under permit No. 134756 issued May 29, 1952; and

WHEREAS, the applicant states that the property at the present time is in a business use, C area, 1 times height district, and that no zoning amendment is pending; and

WHEREAS, the applicant contends that the extension of the nonconforming use as proposed will not encroach into the residential area but will be confined within the boundaries of the existing gas station and that the erection of the new building will in no way be detrimental to the district but will safeguard, maintain and improve the character of the district; that in view of the fact that the present office is inadequate in size and that all work must be done outdoors, the enlarged buildings will permit all work to be done indoors in the new buildings and improve the facilities for the rendering of better and more efficient and quiet service, in addition to improving the surrounding area with a modern gas station; and

WHEREAS, the applicant states that the present owner has held title to the property since October 25, 1948; that the assessed valuation of land is \$13,000 and of the building \$4,000 making a total of \$17,000; that the building was erected in 1929; and

WHEREAS, Section 7c of the zoning resolution is not applicable; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and the committee recommended that the application should be granted to permit the re-arrangement of the existing gasoline service station.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 26, 1929 to permit the reconstruction and re-arrangement of the gasoline service station as proposed and as indicated on plans filed with this application marked, "Received August 28, 1953" (5 sheets), "January 9, 1956" (one sheet) and "February 9, 1956" (one sheet) *on condition* that all buildings and uses now not proposed to be retained shall be removed; that the buildings shall be erected and the plot rearranged as indicated on revised plans marked, "Received February 9, 1956"; that the buildings for the uses as proposed shall be in compliance with the Building Code and shall be constructed of face brick; that the pumps shall be of a low approved type and relocated so as to be not nearer than 15 ft. to the street building line of New Utrecht Avenue; that curb cuts shall be as shown, namely, one 20 ft. curb cut toward the north, one center cut 30 ft. 6 in. in width, and one curb cut toward the south 10 ft. in width, as shown, together with the existing curb cut toward the south 31 ft. in width, where shown; that the premises where not occupied by the proposed buildings and pumps shall be paved with concrete or bituminous pavement; that the number of gasoline storage tanks shall not exceed ten approved 550 gallon tanks; that the sidewalk and curbing in front of the premises shall be restored or repaired to the satisfaction of the Borough President; that along the rear lot line where walls of existing or proposed buildings do not occur there shall be constructed a masonry wall, as proposed, to a height of not less than 5 ft. 6 in.; that there shall be no cellar or boiler room or other excavation under the accessory building; that under Section 7i there may be repairing within the accessory building with hand tools only for adjustment; that there may be parking of cars awaiting service provided

MINUTES

such parking does not interfere with the servicing of the station; that there may be a post standard at either end of the premises, where indicated, each for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that all roof signs and temporary signs are prohibited and that signs shall be restricted to a permanent sign attached to the facade of the proposed accessory building and the illuminated globes of the pumps and to the brand sign herein permitted; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that all Fire Department permits in force to date shall be paid to date; and that all permits required and all work shall be completed within the requirements of Section 22A of the Zoning Resolution.

39-55-BZ

APPLICANT—Jack Heimlick, lessee, for Fred R. Cronkite, owner.

SUBJECT—Application January 24, 1955—re (decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a retail use district the extension in use and area of an existing gasoline service station, to include lubritorium, auto wash (non automatic), motor vehicle repairs, storage and sale of accessories and office, and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot.

PREMISES AFFECTED—153-95 Rockaway boulevard and 153-02 to 153-12 137th avenue, southeast corner and 137-02 to 137-12 154th street, Block 12301, Lot 19, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: James E. Mulvaney and Jack Heimlick.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; laid over to February 15, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Rockaway boulevard are in a retail use, D area, class 1 height district; 137 avenue, 140th avenue and 154th street are in retail and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated January 4, 1955 acting on Alt. Applic, 1559-54, reads:

"1. The proposed extension in area and extension of building of an existing gasoline service station to gasoline service station, office and sales of auto accessories, washing (non-automatic), lubrication, minor repairs with hand tools only, parking and storage of more than five motor vehicles in a retail zone is contrary to Art II Sec. 4A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 121.09 ft. frontage by 131.41 ft. in depth, irregular, on which is located a gasoline service station; that it is now proposed to extend the gas station use by including former lot 23; that it is also proposed to construct a one story masonry side extension to the present office building; that this extension will contain two bays, to be used for washing, lubrication and minor repairs; that the minor repairs requested will be done with hand tools only and will be confined to the interior of the proposed extension; that it is also proposed to rearrange the gasoline pumps and install five additional gasoline tanks; and

WHEREAS, the applicant further states that the site consists of two tax lots, 19 and 23, which have been consolidated into tentative lot 19 for the purposes of this application;

that the interior lot (19) with a frontage of 80.73 ft. on Rockaway boulevard, is now occupied as a gas station; that plans were first approved in the building department in 1928 under N.B. No. 1447-28 at which time the premises were located in an undetermined zone; that this plan was later superseded by N.B. No. 1658-33 under which certificate of occupancy No. 50820 is now in force; that fire department plan No. 963-28 was approved for this use on March 3, 1928 and a fire department permit is now in force; that the corner lot (23) with a frontage of 40.36 ft. on Rockaway boulevard is now vacant; and

WHEREAS, the applicant contends that the change herein proposed will improve the appearance of the site in various ways; that a woven wire fence on a concrete base will be provided along the interior lot lines as well as planting and shrubbery protected by a concrete curb; that the driveway areas will be paved with concrete or bituminous paving; that present pumps will be removed and new pumps will be located 15 ft. back of the building line; that the proposed extension will provide much needed facilities for indoor washing and greasing, protected from the weather; that this area along Rockaway boulevard is largely undeveloped and a number of streets shown on the block diagram are not physically open, including 154th street which forms the easterly boundary of the site; that the entire site was located in an undetermined use district from 1916 until December 2, 1932 on which date the use zoning was changed to business; that on January 21, 1947 the use zoning was changed from business to retail, which is its present designation for a depth of 100 feet; that the change herein proposed will improve the appearance of the site and will have no adverse effect on surrounding property; and

WHEREAS, the applicant states that the present owner has held title to the property since May 20, 1946; that the assessed valuation of land is \$6,500 and of the building \$2,000 making a total of \$8,500; that the building was erected in 1928; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Committee recommends that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension of the lawfully existing gasoline service station to include an additional lot to the north substantially as proposed and as indicated on plans filed with this application marked "Received January 24, 1955" (4 sheets) and "December 9, 1955" (one sheet) *on condition* that the arrangement and construction as proposed on plans showing proposed conditions shall be complied with; that there shall be erected on the interior lot line to the south and the building line of 154th street, a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that a similar fence shall also be erected along the line of 137th avenue for a distance of approximately one hundred feet from 154th street; that such fence shall have suitable terminating posts at the building lines; that curb cuts shall be restricted to the curb cuts as shown: three to Rockaway Boulevard and one within the first twenty-five feet along 137th Avenue from the intersection; that pumps shall be of a low approved type and not nearer than fifteen feet to the street building line; that the number of gasoline storage tanks may be a total of ten approved tanks, including the existing five tanks which shall be tested by the Fire Department as being in good condition; that the premises, up to a line along the rear of the accessory building, shall be paved with concrete or asphaltic pavement; that the rear portion of the premises shall be left in its natural state and no use shall be made of such area as proposed; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor re-

MINUTES

pairs, with hand tools only, maintained within the accessory building; that planting, where shown along the southerly line, shall be maintained with suitable planting material and protected with concrete curbing against damage; that parking of cars may be permitted, where not interfering with the servicing of the station; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, excluding all roof signs and temporary signs but including the globes of the pumps, and permitting the erection within the building line near the intersection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend, at approximately a right angle to Rockaway Boulevard, for a distance of not more than four feet beyond the building line at the intersection; that at such intersection there shall be a block of concrete, not less than twelve inches in height and five feet each way from the intersection, constructed where shown; and that all permits shall be obtained and all work completed with the requirements of Section 22A of the Zoning Resolution.

386-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Fire-O-Matic Corp., owner.

SUBJECT—Application May 2, 1955—re (decision of the borough superintendent) under sections 7f, 7i and 7h of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car washing, minor vehicle repairs, oil burner repairs, storage, office and sales, showroom for oil burners.

PREMISES AFFECTED—925-931 McDonald avenue, east side, 139 ft. 10½ in. north of 18th avenue, Block 5408, Lots 55-58 inclusive, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 10, 1956 after due notice by publication in the Bulletin; laid over to January 17, 1956, at request of objector, applicant concurring then to February 15, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 18th avenue and McDonald avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 18, 1955 acting on N.B. Applic. 536-55, reads:

"1. Proposed gasoline service station, lubritorium, car wash, minor motor vehicle repairs, oil burner repairs, storage, office and sales, showroom for oil burners, in a business use district, is contrary to Art II, Par. 4(a) sub-sections 29 and 46 of the Zoning Resolutions".

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. frontage by 125 ft. in depth, presently vacant; that it is proposed to secure a variance for a period of 15 years in order to erect and maintain a modern gasoline service station, lubritorium, car washing, minor vehicle repairs, oil burner repairs, storage, office and sales, and showroom for oil burners; that the building to contain these uses will be modern in design, of class 1 construction, having a frontage of 80 ft., a depth of 77 ft. and will be one story in height; that the gas station proper will consist of eight 550 gallon gasoline storage tanks and three dispensing pumps; and

WHEREAS, the applicant contends that the oil burner showroom and oil burner repairs form a part of the pro-

posal and is a permissible use in this business zone; that McDonald avenue is a main auto lane leading north and south across Brooklyn and as such the proposed gas station is entirely in keeping at this point; that McDonald avenue is developed with an elevated railroad and as such has rendered McDonald avenue dark, noisy and unfit for strictly business use; that the present stores in the affected area are vacant or devoted to other than store use and therefore show very unsubstantial returns on the investment; that the erection of additional stores on the site would therefore be financially unfeasible and further aggravate the unsatisfactory store rental situation in the affected area; that the site is adjoined to the north in lot 59 by a one story factory, and partly to the east in lot 37 by a parking lot, which is a non-conforming use in the residence zone to the rear; that it would render greater justice to the owner to permit him to develop the site in the only feasible manner and thereby be able to continue to pay taxes and receive an adequate return on his investment than to keep the property vacant, let it continue to be an eyesore to the community or finally lose the site by being unable to pay taxes; and

WHEREAS, the applicant states that the present owner has held title to the property since January 25, 1955 and that the assessed valuation of land is \$8,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Committee recommends that the application should be granted to the extent of permitting the two gasoline pumps, as proposed, to be used on the premises in connection with the main permissible use of the premises for sale and repair of oil burners; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f for a term of five years to permit the premises, mainly used for oil burner repair, to be occupied also for motor vehicle repairing under Section 7i and for the sale of gasoline under Section 7f, and to permit the installation of eight approved 550 gallon gasoline storage tanks, substantially as proposed and as indicated on plans filed with this application marked, "Received May 2, 1955" (4 sheets) and "January 5, 1956" (one sheet) on condition that in all other respects the building and occupancy shall comply with all the laws, rules and regulations applicable thereto; that the curb cuts to McDonald Avenue shall not exceed the two curb cuts shown on such plans, and not exceeding 30 ft. in width; that no portion of any curb cut shall be nearer than 5 ft. to a side lot line as prolonged; that sidewalks and curbing in front of the premises shall be repaired or restored to the satisfaction of the Borough President; that the premises, where not occupied by the proposed buildings and pumps, shall be paved with concrete or asphaltic pavement; that there shall be no windows in the building at the rear nor in the north or south sides; that signs shall be restricted to signs as permitted in connection with the sale and repair of oil burners and the repair work, excluding all temporary signs and roof signs, but permitting the erection within the building line of one post standard, which shall be located toward the center away from adjoining occupancies to the north and south; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

For Applicant: Robert T. Groh and Robert A. Benjamin.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors 4
Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 13, 1955 after due notice by publication in the Bulletin; laid over to January 31, 1956, for inspection and decision; hearing closed; then to February 7, 1956, at the request of applicant to file new plans; then to February 15, 1956, for applicant to file revised plans showing more adequate planting and also showing tentative street line of Hanford street; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in local retail and residence use, D and G area, class 1 height districts; Northern boulevard is in a local retail use, D area, class 1 height district; 234th street is in local retail and residence use, D and G area, class 1 height districts; Hanford street is in a residence use, G area, class 1 height district; Alameda avenue is in local retail and residence use, G area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated May 17, 1955 acting on N.B. Applic. 2499-55, reads:

"1. Use of premises located partly in a residence and partly in a local retail use district as automobile showroom, service of new and used cars and trucks, new and used car conditioning, parts storage, parts sales, wheel alignment, lube, undercoating, car wash, parking of customers cars waiting to be serviced, car storage, locker room, tool storage, car polishing, offices, body shop, paint shop, gas pump for owners use only is contrary to Art. II Sec. 3 and 4 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 321.79 ft. frontage by 158.39 ft. in depth, irregular; that the property is partly situated in a local retail, D use district, to a depth of 100 ft. along Northern boulevard, tapering to a point on the eastern extremity; that the remainder of the property is in a residence G use district; that on August 2, 1945 the property was changed from business to local retail D and residence G; that the height district has not been changed since July 25, 1916 and there are no changes pending in the City Planning commission; that the property at present is vacant and has two billboards at the lower northwest corner of the property; that Bay Chevrolet, Inc., acquired an option on April 14, 1955 to purchase this property and will close title if this variance is granted; that Bay Chevrolet is presently operating from three widely scattered locations which has proven to be a very inefficient and time consuming manner of operating their business; that the sales room is located at 61-48 188th street, the used car lot is at 188-01 Horace Harding boulevard and they have temporarily leased quarters for servicing and repair of cars at 186-01 73rd avenue; that in order that the Bay Chevrolet may continue with their franchise, they were instructed to acquire land and provide suitable and attractive car sales and servicing facilities

under one roof to adequately serve the customers in the area of the franchise; and

WHEREAS, the applicant states that it is proposed to erect a one story masonry structure in the local retail area only, consisting of 19,340 sq.ft including main floor, mezzanine and basement, of which 3,630 sq.ft. is allotted to the body shop, paint booth and new car conditioning in the basement; that the 1st floor will consist of showroom, servicing of new and used cars and trucks, new and used car conditioning, parts storage and sales, wheel alignment, lubrication, undercoating, car wash, parking of customers' cars waiting to be serviced, car storage, locker and toilet rooms, car polishing, offices, gas pump for owner's use only; that air conditioning will be provided for the showroom and general offices; that the proposed building will have an area on the main floor of 13,738 sq.ft. or a coverage of 63.3% in the local retail use district, which is within the requirements of the zoning resolution; that the property in question has a total of 42,864 sq.ft., of which 21,704 sq.ft. is in the local retail use district and 21,160 sq.ft. is in the residence use district; that the property in the residence use district will be allocated to parking of cars, customers' cars waiting to be serviced and for outdoor car storage; that the parking area will be enclosed with a chain link fence at least 6 ft. in height; and

WHEREAS, the applicant contends that Bay Chevrolet, Inc., proposes to create a modern, up-to-date agency that would be a credit to the community, consisting of the latest equipment for repairing of cars and trucks; that there will be a carbon monoxide system for the elimination of obnoxious gases, and other facilities to make the work safe and conducive to the most harmonious working conditions; that the building will be of class 3 construction; that the land has been used for many years as a dumping ground for excess fill and left in an unsightly condition; that originally the ground from the curb line on Northern boulevard sloped into the swamp area in the rear, and in the ensuing years fill has been brought in to the elevations that now exist; that as the Administrative Building Code will not permit the use of spread footings in filled-in ground, it is imperative that piling be used to sustain the loads of the structure in certain areas; that this land has been for sale for many years, but because piling is required it has been difficult to sell and Bay Chevrolet will assume this added cost if this variance is granted; that the principals of Bay Chevrolet have been in the automobile business for the last 30 years under the name of Benjamin Chevrolet, Inc., at 2025 Atlantic avenue, Brooklyn and they have the knowledge and experience to handle this franchise in a most satisfactory manner; and

WHEREAS, the applicant states that the assessed valuation of land is \$60,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and revised plans were filed under date of February 10, 1956; the Committee noted that the building, as proposed, will be a legal building within the area zoned for local retail, other than for the repairing proposed; the Committee is also of the opinion that suitable shrubbery of a dense type should be maintained along Hanford Street and to the south against the adjoining residential property; that the use of the portion of the premises, as proposed, within the residential district would not be objectionable; also the Committee noted that the proposed widening of Hanford Street would not be encroached upon by the proposed fencing or shrubbery and the owner proposes in the event that this is taken there will be no claim made for such land except for the value of the land itself as determined by the court; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions h and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7h and 7i to permit the parking within the residential area in connection

MINUTES

with the proposed building in the local retail district, substantially as proposed and as indicated on plans filed with this application marked, "Received May 23, 1955" (5 sheets) as amended by revised plan of layout marked "Received February 10, 1956" (one sheet) on condition that all other plans shall be marked "Void" by the applicant; that all uses now on the premises shall be removed; that along the west, south and east lines, and along the portion of the street line of Northern Boulevard there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 ft. 6 in.; that planting areas shall be maintained, with curbing not less than 10 ins. in height for protection and such planting to the south and east shall be dense planting with sizeable trees so as to act as complete screen for Hanford street and the residential property to the south and such planting shall be continued within the three foot strip as shown along Northern boulevard with suitable planting of suitable dense hedge type which need not exceed five feet in height; that the entrance to the premises shall be by means of three curb cuts where shown, one toward the easterly end, one toward the westerly end and one toward the center; that under Section 7i there may be the usual servicing for the Chevrolet Agency as proposed; that there may be one gasoline pump and one 550 gallon tank within the building for owner's use only; that the parking space permitted under Section 7h, for a term of twenty (20) years, shall be graded with clean gravel or steam cinders and treated with a binder and properly rolled; that the areas in front of the building, to the east of the showroom, shall also be properly planted; that the motor vehicle entrances to the building shall be paved with concrete; that the sidewalk and curbing around the premises shall be constructed or restored to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the building as may be permitted in a local retail district; that there shall be no roof signs or temporary signs; that there may be a neat sign attached to the entrance stating, with reference to the parking proposed on the plot, that the use of such parking is for private use only and not for public parking; that repairing shall be done by approved tools and under license issued by the Fire Commissioner for such repair work and servicing requiring license; that the space below the general grade of the building that opens toward the west and is proposed to be used for servicing shall be maintained with windows and required ventilation; that the building on all sides shall be faced with light face brick; that a system for the elimination of obnoxious gases shall be maintained, exhausting away from the residence district; that such fire fighting equipment shall be installed as the Fire Commissioner shall require; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 1:10 P. M.

REGULAR MEETING

WEDNESDAY AFTERNOON, FEBRUARY 15, 1956,
2 P.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors.

972-40-SM

APPLICANT—The Otis Elevator Company, owner.

SUBJECT—Application reopened May 16, 1950 for amendment as to proposed changes in construction—Otis Bi-Parting Counterbalanced Vertical Sliding Elevator Hoistway Door.

APPEARANCES—

For Applicant: Emil Fichter and Saverio Bentivegna.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 972-40-SM

Subject: Otis Bi-Parting Counterbalanced Vertical Sliding Elevator Hoistway Door.

The Otis Elevator Company owner filed October 8, 1940 an application with the Board of Standards and Appeals for approval of the material known as the Otis Bi-Parting Counterbalanced Vertical Sliding Elevator Hoistway Door (regular and by-pass type).

This application Cal. #972-40-SM was reopened May 16, 1950 for test and report as to proposed changes in construction.

These doors were inspected and fire tested at the Underwriters' Laboratories November 15, 1954. Present at the test were Chief Engineer Leslie V. Huber of the Committee on Test and P. Karmel, representing the applicant.

The object of the test and investigation was to determine the fire-retardant performance of a steel counterbalanced freight elevator door assembly designed for the protection of openings in vertical shafts when exposed to the 1½ hours standard fire and fire hose stream test for fire doors.

The door is designed for the protection of openings not exceeding 8 ft. in width and 10 ft. in height in elevator shafts. The door sections are mounted in offset positions and move vertically in guides and meet by means of an asbestos neoprene cloth astragal where they come together at the middle of the opening. The opening between the top door and the wall is closed by means of a lintel. The specific construction of the door is described in drawings and photographs filed with the Board March 29, 1955.

I. The variations listed under IA & B below were tested at the Underwriters' Laboratories in Chicago in connection with a test of the Otis Metal Clad Wood Core Doors which was witnessed on January 26, 1950 by Mr. John A. Darts. These variations have been approved by the Underwriters' Laboratory, and now constitute part of their standard labeling procedure for both the uninsulated all steel door and the insulated door. The new features proposed include:

IA—Heavy Duty Truckable Sill

Where these doors are used for extremely heavy industrial trucks the 5" angle truckable sill of the approved construction will be replaced by a ¾" thick x 5" wide steel plate plug welded to the top of the door and an 8", 10" or 12" structural channel fastened under this plate by means of 5/8" diameter flat head screws suitably spaced. In order to counterbalance the added weight of these heavy duty sills the top door will be equipped with a "Z" astragal in place of the approved angle astragal. The lap achieved will remain the same.

IB—Furniture Steel or Stainless Steel Door Facia

Where required, in order to improve the appearance of the corridor face of the door a 14 ga. stainless steel or furniture steel facia plate may be added and fastened to the face of the door frame angles. This plate will extend completely across each door.

II. The variations listed under IIA, B & C below may be used as substitutes or alternates for similar parts originally approved. These variations have been approved by the Underwriters' Laboratories in Chicago, and now constitute part of their standard labeling procedure.

IIA—Counterbalanced Movable Lintel for Pass Type Doors

The lintel is used to close the space between the soffit and the top of the door. It consists of a 16 ga. steel shape bent to form a channel which spans the full width of the opening. It is connected at each end to counterweights with

MINUTES

$\frac{1}{8}$ " diameter steel cables which pass over sheaves fastened to the rails. The weights are heavier than the lintel and bottom on stops fastened to the rail. When the weights are resting on the stops the length of the air cord is adjusted so that the channel is slightly above the top of the opening. This lintel may be used as an alternate for the lintel originally approved.

IIB—Fire Latch

This lock consists of a malleable iron member pivoted on a bracket secured to the door guide rail, which engages a $\frac{3}{8}$ " lock plate applied to the truckable sill angle of the lower door. The lock is released by spring tension but is engaged positively as the doors approach the closed position. This latch to be used only on power operated doors as a substitute for the fusible link type fire latch originally approved.

IIC—Center Latch

This latch consists of a malleable iron member pivoted on a bracket secured to the upper door, which engages the lower door through a slot in the trucking sill angle. The lock is engaged positively when the doors are closed and is released manually. This latch to be used only on manually operated doors as a substitute for the fusible link type fire latch originally approved.

III. The variations listed under IIIA to J below are being submitted for approval and may be used as substitutes or alternates for similar parts originally approved. These variations were recently tested and approved by the Underwriters' Laboratories in Chicago.

IIIA—Guide Rails

The guides are made of $\frac{3}{16}$ " thick steel specially formed into channel and angle shapes and plug welded together at not exceeding 15" centers. These guides are secured to the channel bucks by $\frac{1}{2}$ " bolts. These guides to be used as alternates to the angle guides originally approved.

IIIB—Guide Shoes

The guide shoes are made of steel firmly clamped and secured to a steel stud. These guide shoes are used as substitutes for the malleable iron shoes originally approved.

IIIC—Top Edge Reinforcements in Top Door

The three (3) $\frac{1}{4}$ " x 2" reinforcing bars located on top of the door are held in place by $\frac{1}{2}$ " bolts welded to the underside of the door frame angle. Also a $\frac{1}{8}$ " thick toe guard has been added. This construction may be used as an alternate to the construction originally approved.

IIID—Astragal

The lower edge of the top door is provided with a resilient astragal made of $\frac{1}{8}$ " thick asbestos neoprene cloth. This astragal may be used as an alternate to the overlapping angle astragal originally approved.

IIIE—Toe Guard at Bottom of Lower Door

The bottom edge of the door is equipped with a metal toe guard made of #16 ga. steel welded to a 2" x 2" x $\frac{3}{16}$ " thick angle. This assembly is secured to the door by $\frac{5}{16}$ " tap bolts spaced at 12- $\frac{3}{16}$ " maximum centers. This construction may be used as an alternate to the construction originally approved.

IIIF—Lap at Panel Joints

The 14 ga. panels are arranged to lap over one another about the $\frac{1}{8}$ " thick stiffener bars at each joint on the interior of the door. This new lapping arrangement is strong and precludes the passage of light, flame or smoke at the joints. This panel joint replaces the panel joint originally approved which used a $\frac{1}{8}$ " TEE iron section between the panels.

IIIG—Counterweight Steel Plates

In order to balance the upper and lower door sections a steel plate of varying thickness as required is fastened to the hoistway face of the upper door panels. This plate is secured to the door with the same screws which hold the panels to the doors. These plates may be used on doors

where the resilient astragal is furnished in place of the overlapping angle astragal to make up for the loss in weight.

IIIH—Fire Latch (alternate to Center Latch)

This lock consists of a steel latch pivoted on a bracket secured to the door guide rail which engages a $\frac{3}{8}$ " lock plate applied to the truckable sill angle of the lower door. The bottom door is positively locked when closed. The latch is manually released by a rod which is connected to a malleable iron handle that is pivoted on a bracket located near the center of the upper door. This handle and latch arrangement applies to manually operated doors only and may be used as an alternative to the center latch described in item IIC above.

IIIJ—Pivoted Lintel for Pass Type Doors

This lintel serves the same purpose as the one described in item IIA above. It is of the pivoted type and is fastened to the entrance buck near the top of the opening. It consists of a 14 ga. steel sheet shaped to form an angle and covers the space between the top of the opening and the top of the door for the full width of the opening. It is counterweighted to assure the lintel staying in the advanced position, unless acted upon, and is pivoted at each end through a spherical ball bearing which acts as a universal joint. This lintel may be used as an alternate to the lintel described in item IIA above or to the lintel originally approved.

A new handle and fire latch arrangement has been approved by the Underwriters Laboratories. It is similar in principle to the center latch in that it positively latches the upper door to the lower door when the doors are closed, but it differs in that the latching is done at both ends instead of at the center only. It may be used as an alternate for the center latch or for the latch described under IIIH above.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the amendment of the resolution of the Board of April 1, 1941 so that as amended it shall include the forgoing on condition that the resolution of April 1st, 1941 be complied with in all other respects.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 1, 1941 in accordance with the above report.

450-48-SM—Vol. II

APPLICANT—Great Lakes Carbon Corp., owner; Certified Industrial Products, Inc., licensee operator.

SUBJECT—Application reopened December 14, 1954 amendment to resolution as to transfer of approval—Permalite Gypsum Plaster (for fireproofing steel columns), previously approved.

APPEARANCES—

For Applicant: Dominic De Blasi.

ACTION OF BOARD—Resolution amended in accordance with report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors 4
Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 450-48-SM—Vol. II

Subject: Amendment to resolution as to transfer of approval.

MINUTES

Great Lakes Carbon Corp., New York, requested by letter dated November 2, 1954 that the resolution adopted July 18, 1950 under Cal. No. 450-48-SM—Vol. I be amended so as to transfer the approval granted July 18, 1950 under Cal. No. 450-48-SM—Vol. I to the Certified Industrial Products, Inc., Hillside, New Jersey a licensed operator. The application was reopened by a vote of the Board on December 14, 1954.

Purpose

Permalite plaster is intended to provide fire protection when applied beneath steel ceilings and beams on suspended metal lath.

Description

The material is the same material process in the same manner as the material approved July 18, 1950 under Cal. No. 450-48-SM—Vol. I.

Inspection and Test

The plant of the Certified Industrial Products, Inc., at Hillside, New Jersey was inspected by Asst. Engr. J. A. Darts Committee on Test. Samples were identified and marked and the identified samples tested in accordance with the requirements of C26-466.2 Administrative Building Code. The material met the requirements of the above mentioned section of the Administrative Building Code.

Recommendation

The Committee on Test recommends that the resolution adopted July 18, 1950 be amended by adding thereto, "that as the owner has entered into an agreement with the Permalite-Perlite Division Certified Industrial Products, Inc., Hillside, New Jersey to manufacture the light weight aggregate Permalite Plaster Aggregate also known as Certified Brand Perlite Plaster Aggregate herein involved, such manufacture may be carried on by the said company in their factory in Hillside, New Jersey on condition that the requirements of the resolution adopted July 18, 1950 under Cal. No. 450-48-SM—Vol. I be complied with in all other respects and the said Permalite-Perlite Division Certified Industrial Products, Inc., may sell their product under the trade names Permalite Plaster Aggregate and Certified Brand Perlite Plaster Aggregate.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the application be and it hereby is *amended*, on condition that the requirements of the Board's resolution adopted under Cal. No. 450-48-SM—Vol. I, shall be complied with in all other respects.

737-48-SM

APPLICANT—Great Lakes Carbon Corp., owner; Certified Industrial Products, Inc., licensee operator.

SUBJECT—Application reopened December 14, 1954 amendment to resolution as to transfer of approval—Permalite Plaster (to protect structural I Beam and Steel Floor), previously approved.

APPLICANT—Arthur A. Olson & Co., owner (Gale Engineering Co., Agent).

SUBJECT—Application June 1, 1954—Olson Oil-fired Space Heaters, Models HOU-300, 400, 500, 600, 750, 1000, 1250, 1500, 1750 and 2000, approval of.

MINUTES

APPEARANCES—

For Applicant: Charles Scheuerman.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors 4
Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 464-54-SA

Subject: Olson Oil Fired Space Heaters, Models HOU, TU-HOU, TH-HO and SU-HO-300, 400, 500, 600, 750, 1000, 1250, 1500, 1750 and 2000.

Gale Engineering Company, New York for Arthur A. Olson & Company, Canfield, Ohio filed June 1, 1954 an application with the Board of Standards and Appeals for approval of the Olson Oil Fired Space Heaters, Models HOU, TU-HOU, TH-HO and SU-HO-300 through 2000, under the provisions of Article 12, Chapter 26 Administrative Building Code and the Oil Burner Rules of the Board.

Purpose

The appliance is an oil fired space heater intended for domestic and commercial installation.

Description

The appliance is a space heater that in operation is so constructed that the air being heated, has four passes through the furnace before it passes through the top duct heater.

The entire casing of the furnace is of 16 gauge steel, the radiation shields are of 18 gauge steel, the combustion chamber is 16 gauge stainless steel and the economizer section is of 12 gauge steel.

The oil burner used in conjunction with the heater is a Todd Rotary Oil Burner (approved by the Board).

The controls consist of thermostat, protectorelay flame failure control, selector switch and a delayed oil valve. The model designation refers to BTU input.

Inspection and Test

The appliance was examined by Asst. Engr. J. A. Darts, Committee on Test. The appliance operated as designed and controls as required.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the Olson Oil Fired Space Heaters, Models HOU, TU-HOU, TH-HO, and SU-HO-300 through 2000, for use in New York City for domestic and commercial installation but the units shall not be installed in garages or places of explosive atmospheres on condition that the oil burner used in conjunction with the appliance shall be an oil burner approved by the Board for the service intended, that all installations shall comply with the requirements of Article 12, Chapter 26 administrative Building Code and the Oil Burner Rules of the Board and further the appliance shall bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 464-54-SA."

(Sgd.) HARRIS H. MURDOCK,

REPORT OF COMMITTEE ON TEST

Re: Cal. 465-54-SA

Subject: Olson Oil Fired Space Heater, Models LOU-MOU, 300, 400, 500, 600, 750, 1000, 1250, 1500, 1750 and 2000.

Gale Engineering Company, New York for Arthur A. Olson & Company, Canfield, Ohio filed June 1, 1954 an application with the Board of Standards and Appeals for approval of the Olson Oil Fired Space Heaters, Models LOU-MOU 300, 400, 500, 600, 750, 1000, 1250, 1500, 1750 and 2000, under the provisions of Article 12, Chapter 26 Administrative Building Code and the Oil Burner Rules of the Board.

Purpose

The appliance is an oil fired space heater for domestic and commercial installation.

Description

The model designation of the LOU-MOU series has been changed to the following TU-LO, TH-LO and TD-LO, 300 through 2000.

The construction of the furnace is similar to the construction of the furnace recommended for approval under Cal. No. 464-54-SA except that the oil burner used in conjunction with the furnace is of the pressure atomizing type used for light oil, approved by the Board for such use.

Among the controls are the following: Disconnect switch, fan starter, on-off switch, time delay, electronic safety relay, photocell, time delay oil valve, fan and limit control and thermostat. The model number designation refers to BTU input.

Inspection and Test

The appliance was examined by Asst. Engr. J. A. Darts, Committee on Test. The appliance operated as designed and the controls as required.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the Olson Oil Fired Space Heaters, Models LOU-MOU 300 through 2000 also designated as TU-LO 300 through 2000, TH-LO 300 through 2000 and TD-LO 300 through 2000 for use in New York City for domestic and commercial installations but the units shall not be installed in garages or places of explosive atmospheres on condition that the oil burner used in conjunction with the appliance shall be an oil burner approved by the Board for the service intended, that all installations shall comply with the requirements of Article 12, Chapter 26 Administrative Building Code and the Oil Burner Rules of the Board and further that the appliance bear a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 465-54-SA."

984-54-SM

APPLICANT—Inland Steel Products Co., owner.
SUBJECT—Application December 21, 1954—Cellufloor (cellular steel floor panels), approval of.

APPEARANCES—

For Applicant: George A. Campbell, Jr.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 984-54-SM

Subject: Cellufloor (cellular steel floor panels).

Inland Steel Products Company, Milwaukee, Wisconsin, filed December 21, 1954 an application with the Board of Standards and Appeals for approval of the material known as Cellufloor (cellular steel floor panels) under the provisions of C26-626.0 Administrative Building Code.

Purpose

The material is a steel structure sub-floor panel.

Description

The section of panel is designated as the B-B section. This section of panel is 2'-0" wide by 0'-3" deep and consists of four cells 0-3 $\frac{7}{8}$ " wide by 0-3" deep and the cells are spaced 0'-6" on centers and the end cells are 0'-1 $\frac{1}{16}$ " from the edge of panel. The panels are so constructed that there are on each panel a male and female lip. The gauge of metal throughout is 16 gauge.

The panels are coated before fabrication by the continuous strip hot galvanizing process, the coating has a zinc weight of not less than 0.5 oz. per square foot.

In erection, the panels have a 0"-3" bearing on supports and are welded to the support by means of two 0'- $\frac{3}{4}$ " welds. The longitudinal joints are also made by 0'- $\frac{3}{4}$ " welds spaced not more than 3'-0" on centers.

Inspection and Test

The section identified as a B-B section was load tested in accordance with the requirements of C26-626.0 Administrative Building Code.

Two sections, each 2'-0" wide by 12'-0" long giving an area under test of 48'-0" sq. feet, was loaded to failure.

The load, including tare weight, was 15480 lbs. Area under test was 48 sq. ft. The allowable load was allowed under C26-626.0 Administrative Building Code is 15480 $\div$ 48 = 322.5 lbs./sq. ft. The allowable safe carrying is 322.5 lb./sq. ft. $\div$ 4 = 80 $\frac{1}{2}$ lb./sq. ft.

It was also noted during the test that the deflection under load, was less than the computed deflection.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Cellufloor, as manufactured by Inland Steel Products Company, Inc., for use in New York City under the provisions of C26-619.0 and C26-575.0 Administrative Building Code.

The Committee further recommends that this recommendation for approval shall be for the section identified as the Section B-B of 16-16 gauge, only within the following limitations.

The maximum superimposed load shall not exceed 80 lbs./sq. ft. for a 12'-0" span, greater loads may be proportioned for shorter spans. The panels shall have a bearing of at least 0'-3" each panel shall have two 0'- $\frac{3}{4}$ " welds to supporting steel at each end, longitudinal joints to be

welded at not more than 3'-0" on centers; all welding to comply with the Fusion Welding Rules of the Board; all welds to be coated with sealing coat of paint.

Opening in any floor or roof construction greater than 30 sq. inches shall be reinforced with compensating steel.

It is further recommended that each set of plans filed with the Department of Buildings shall be tagged or stamped or marked as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 984-54-SM."

(Sgd.) HARRIS H. MURDOCK,

Chairman,

LESLIE V. HUBER,

Chief Engineer,

JOHN A. DARTS,

Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

481-55-SM

APPLICANT—Conver Steel and Wire Co., Inc., owner.
Subject—Application June 7, 1955—Swivel Toggle Hanger, (for suspended ceilings) approval of.

APPEARANCES—

For Applicant: T. A. Lenane.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 481-55-SM

Subject: Swivel Toggle Hanger (for suspended ceilings).

Fireproof Products Company, Inc., for Conver Steel and Wire Co., New York filed June 7, 1955 an application with the Board of Standards and Appeals for approval of the material known as Swivel Toggle Hanger under the provisions of C26-461. Administrative Building Code.

Purpose

The material is used in the construction of suspended ceilings.

Description

The swivel toggle is a device nailed to the upper side of the plywood forms in concrete work. The toggle hanger is a box of 24 gauge steel, 4 $\frac{1}{2}$ " long by 1 $\frac{1}{4}$ " high by 1" wide. Inside the box and pivoted on a $\frac{3}{8}$ " round rod, bent in the shape of a "U" with hooked ends is a 1" x 3/16" x 4" flat bar. When the concrete is poured in the box, all except the bottom face is embedded in concrete and when the forms are stripped the 1" x 3/16" x 4" flat bar pivots on the $\frac{3}{8}$ " rod and extends below the arch, to this flat then are attached the hangers or channels required for the suspension system.

Inspection and Test

The toggle was inspected by Asst. Engr. J. A. Darts Committee on Test and tests were conducted at Manhattan College.

Results are as follows:

Tension: (1) the jig holding the toggle failed at 6200 lbs. and the toggle was still intact.

(2) the toggle was imbedded in concrete as is the practice in construction; the concrete failed at 8600 lbs.

(3) similar to test (2), concrete failure at 8250 lbs.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the

MINUTES

approval of the Swivel Toggle Hanger, as herein described, for voluntary use in New York City under the provisions of C26-461. Administrative Building Code on condition that no one toggle shall carry more than 75 lbs. concentrated load and that each carton in which the toggle is marked shall be tagged, stamped or marked as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 481-55-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Asst. Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

APPLICANT—Noah N. Sherman and Joseph Lau, for East End Temple, owner.

SUBJECT—Application May 27, 1955—re Appeal from a decision of the borough superintendent—re reconstruction.

PREMISES AFFECTED—341-343 East 19th street, north side, 240 ft. west of 1st avenue, Block 925, Lots 24 and 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Noah N. Sherman and Joseph Lau.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Chairman Murdock and Commissioner Keating 2

Negative: Commissioner Kleinert and Deputy Chief Connors 2

THE RESOLUTION—

WHEREAS, the decision of the Borough superintendent dated May 4, 1955, on Alt. App. 1792/54 reads:

"1. Proposal to change the use of subject four story and basement bldg. from apartments to public bldg. namely synagogue and classrooms in basement to 3rd floor inclusive and caretaker's apt. on 4th floor, is contrary to 4.2.1 B.C. as bldg. is of class 3 (N.F.P.) construction."

and

WHEREAS, the applicant states that the building is three and four stories and basement, 43 and 58 ft. in height, 40 ft. by 50 and 76' 6" in depth, of class 3 construction, erected prior to 1880 on a lot 40 ft. by 92 ft. in area in a residence use, B area, Class 1½ height district and used and occupied since 1880,—cellar: boiler room and storage; basement to fourth floors inclusive—apartments, and proposed to be increased in area at basement and first floor and to be basement, one, three and four stories, 20, 43 and 58 ft. in height, 40 ft. front by 76 ft. 6 in. in depth at first floor, 40 ft. front by 50 ft. and 76 ft. 6 in. in depth at typical floor, of class 3 construction and used and occupied upon completion of the alteration and extension as follows: cellar—boiler room, storage, workshop, 25 persons; basement—community hall, meeting room, offices, kitchen, etc., 200 persons; 1st floor—synagogue and class rooms, 275 persons; 2nd floor—class rooms, 90 persons; 3rd floor—class rooms, 90 persons; 4th floor—caretaker's apartment; the building will be provided with two interior fireproof stairs from roof to street, 3 ft. 8 in. and 4 ft. in width, the existing stairs and fire escape will be removed; the proposed stairs will lead from roof bulkhead direct to street; and

WHEREAS, the applicant states that 341 East 19th Street is a four story and basement Old Law tenement, 20 ft. by 76 ft. 6 in. in area, located on Lot 24, that 343 East 19th Street is a three story and basement Old Law tenement on a lot 20 ft. by 50 ft. known as Lot No. 25; that both of these buildings were purchased by the present owners for alteration for use as a synagogue, community meeting hall and Hebrew school; and

WHEREAS, the applicant states that it is proposed to alter and combine the two buildings into one building for use as a synagogue, community meeting hall, offices and classrooms, to install two new fireproof stairways and stair enclosures from cellar to roof; that the ceilings of all floors except the caretaker's apartment will be fire retarded with one-inch Portland cement plaster over rock lath; that the public halls, connecting hallways on the upper floors to classrooms will be fire retarded with cement plaster over rock lath on stud partitions and all doors leading to public halls and corridors will be fireproof self-closing one-hour test assemblies; that it is further proposed to extend the cellar, basement and first floors of No. 343 East 19th Street to the same depth as 341 East 19th Street; and

WHEREAS, the applicant contends that although the total proposed occupancy will be approximately 855 persons, there will never be at any one time full occupancy of the building with the exception of the High Holy Days and that even then the upper floors will never be in use during these three High Holy Days as classes will not be taught during religious Holidays or on Sabbath; that the classrooms will be used only during the week days and on Sundays for Sunday school; and

WHEREAS, the applicant therefore requests that the Board permit the proposed use of the combined buildings in class 3 construction as a Synagogue, community meeting hall, classrooms, offices and caretaker's apartment as indicated on plans filed with is appeal; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant stated a complete examination had been made of the application in the Department of Buildings which was confirmed by the examiner.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Ap. 1792/54, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

677-55-A

APPLICANT—Louis Lieberman, for Rhea Berenbaum, owner.

SUBJECT—Application August 26, 1955—filed pursuant to section 310 of the Multiple Dwelling Law for variation of sections 212 and 27 of the Multiple Dwelling Law re minimum requirements of rear yard.

PREMISES AFFECTED—269 Dumont avenue, north side, 24 ft. 6 in. west of Rockaway avenue, Block 3560, Lot 48, Borough of Brooklyn.

APPEARANCES—

Fr Applicant: Louis Lieberman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated August 25, 1955 on Alt. App. 510/55 reads:

"1. Provide a legal 13'-0" rear yard as per Sect. 212 and Sec. 27."

and

WHEREAS, the applicant states the building is 4 stories, 45 feet in height, 25 feet by 67 feet in area, of Class 3 construction, erected in 1905 on a lot 25 ft. front by 79 and 67 ft. 4 in. now in depth, in a local retail use, C area, Class 1 height district; used and occupied since 1905: Cellar—store and ordinary use; 1st, 2nd, 3rd and 4th floors—dwell-

MINUTES

ing, two families each floor. Proposed to be used and occupied: Cellar—ordinary use; 1st floor—store; 2nd, 3rd and 4th floors—two families each floor. The building is provided with one 3 ft. wide interior wood stairs, enclosed with fire-retarded partitions, equipped with wood, self-closing doors; stairhall leads to roof bulkhead and direct to street. There is one fire escape in the rear yard extending to roof and yard by ladder, with egress to street through cellar; and

WHEREAS, the applicant states the building was erected in 1905 as a new law tenement. It is now proposed to alter it by removing the store occupancy in the cellar and changing the first floor occupancy from dwelling to store; and

WHEREAS, the applicant states that plans were filed under N.B. App. 688/04 and the plot diagram which was certified by the Tax Department at that time indicated the lot to be 25 ft. in width by 100 ft. in depth, the building to be 25 ft. in width by 67 ft. in depth, leaving a rear yard of 33 feet; that nowhere in this application was an indication of a street approximately 130 ft. wide, shown on the old tax map and atlases as Hunterfly Road and running diagonally through the lot and at the rear; that subsequent records reveal that the plot is 67 ft. 4 in. one side and 79 ft. in depth on the other, leaving a triangular rear yard 4 in. deep on one side and 12 in. on the other instead of the required 13 ft. rear yard; that the present owner in 1954 relying on the fact that a certificate of compliance had been issued by the Tenement House Department in 1905 and there were no violations against the building, purchased it with the intention of modernizing the building by removing the cellar store and altering the first floor to be adaptable for his own store use; and

WHEREAS, the applicant contends that in view of the fact this rear yard has been in existence for fifty years, that the Multiple Dwelling portion is being reduced from eight to six families and that the rear yard will now be required to light and ventilate only three instead of four floors, and that it would be a great financial hardship on the owner to be required to comply, it is requested that the Board grant a variance so as to accept the existing conditions; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 510/55, Objection No. One be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit the continuance of the rear yard, part of which is in the former Hunterfly Road, as indicated on plans filed with this appeal marked, "Received August 26, 1955" (5 sheets) and "January 26, 1956" (one sheet), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

721-55-A

APPLICANT—Abraham Grossman, for 110 West 14th Street Corp., owner.

Negative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connors 4

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent

dated September 1, 1955 on Alt. App. 1143/55, reads:

"1. Provide a second lawful means of egress from cellar and first floor as per Sec. 271 of Labor Law."

and

WHEREAS, the applicant states the building is 10 stories, 115 ft. in height, 25 ft. by 106 ft. in area, of fireproof construction, erected in 1906, located in a residence and retail use, B area, class 2 and Class 1½ height district and used and occupied since 1906 as follows: cellar—boiler room and storage, one person; 1st floor—dress shop, 6 persons; 2nd floor—manufacturing trimmings, 4 persons; 3rd floor—manufacturing gloves, 20 persons; 4th floor—manufacturing wirework, 20 persons; 5th floor—printing, 5 persons; 6th floor—manufacturing metal specialties, 12 persons; 7th floor—printing, 4 persons; 8th floor—printing, 4 persons; 9th floor—manufacturing silk screens, 6 persons; 10th floor—manufacturing clothing, 6 persons; the building is provided with an approved interior fire alarm system and regular monthly fire drills are maintained; there is one 3 ft. wide interior fireproof stairs, fireproof enclosed, equipped with fireproof self-closing doors and leading from top story direct to street and provided with a ladder and scuttle to roof; and one exterior stairs at the rear extending to roof by stair and to yard by stair with egress to street through 3 ft. wide fireproof passage; window and doors on the course of the exterior stairs are fireproof self-closing; and

WHEREAS, violation was issued December 23, 1954, #7408 for failing to provide two legal exits from cellar to street as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states that the building has an enclosed fireproof stairs and an exterior stairs complying with Section 268 of the Labor Law leading to the street through a fireproof passage; that the cellar has a 24 in. by 24 in. engineer's exit and ladder leading to the sidewalk and as a second means of egress an exterior iron stairs leading to a fireproof passage which in turn leads directly to the street; that this cellar contains a boiler room and is used for storage with only one occupant; that the store has a pair of exterior doors which is ample for the six occupants of the store; and

WHEREAS, the applicant contends that since there is no manufacturing in the cellar or on the first floor, it is requested that the Board grant a variance and waive the requirements of the Borough Superintendent's decision for a second means of egress from the cellar and first floor store; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the committee recommended that the conditions in the cellar as proposed were not safe and should not be approved.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 1143/55, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

ert and Commissioner Keating 3

Negative: Deputy Chief Connors 1

MINUTES

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated August 24, 1955, on Alt. App. 1214/55, reads:

"1. Bldg. should be of fireproof construction or the 4th floor should be left vacant due to change from dwelling to commercial use. Sect. C26-254.0 A.C.

"2. Stairs should be fireproof and enclosed in 2 hr. fire resistive material from cellar and roof to street."

and

WHEREAS, applicant states the building is 4 stories and basement, 53 ft. 5 in. in height, 25 ft. front by 92 ft. 5 in. in area at street level, 25 ft. by 60 ft. 5 in. in area at typical floor level, of Class 3 construction, erected prior to 1890, on a lot 25 ft. front by 100.05 ft. in depth, in a restricted retail use, B area, Class 1½ height district; used and occupied since 1939 as a rooming house. Now proposed to be used and occupied as follows: Cellar—Storage and heating, 0 persons; Basement to 4th floors, inclusive, offices, 11 persons on each floor except on 4th which will have occupancy of 8 persons. The building will be provided with a one-source sprinkler system; there is one 3 ft. 4 in. wide wood stairs, enclosed in partitions of wood stud plastered, equipped with wood doors which are not self-closing. Stairhall leads direct to street and is provided with ladder and scuttle to roof; and

WHEREAS, Certificate of Occupancy #25189 issued October 2, 1939, upon completion of Alteration 1240/39, permits the use of the building as a furnished room house and contains the statement that the sprinkler system was approved by the Fire Department September 14, 1939; and

WHEREAS, the applicant states the building is owned by the Museum of Modern Art, which will use this space for offices when the lease to the Theatre Guild expires; that the building exceeds its tabular height by 3 feet and the 4th story of a 4 story and basement building; that in lieu of fireproof construction it is proposed to continue stairs to roof with bulkhead to afford an escape to roof of adjoining building which is approximately the same height; and

WHEREAS, the applicant requests that in lieu of a fireproof stair and 2-hr. stair enclosure that it be permitted to retain the non-fireproof stair and hall enclosure as the hall and stair are equipped with sprinklers throughout; that the occupancy will be low on the 4th floor with a total of not over 8 persons and a total of not over 50 persons throughout the entire building; that the building will be used by one tenant throughout; and

WHEREAS, requirements are included in the Board's resolution applying to the existing adjoining building at 23-25 West 53rd street under the same ownership inasmuch as there is a proposed opening between such building and the building under appeal.

Resolved, that the decision of the Borough Superintendent be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the building to be occupied as proposed in connection with the adjoining building occupied by the Museum of Modern Art, *on condition* that the building shall not be increased in height or area and shall be maintained as indicated in letter filed with the Board marked "Received January 17, 1956, reading in part:

"We would like to take this opportunity to clear up several matters, the first of which relates to the communicating opening between 23-25 West 53rd street and 27 West 53rd street. The Museum intends to protect this opening with fire doors having a three hours' rating so as to give us standard fire insurance protection. The area reserved in 23-25 West 53rd street and for the Theatre Guild will be approximately 18 feet by 38 feet and would be separated from the rest of 23-25 West 53rd street with fireproof unpierced walls. When the Museum has possession of 23-25 West 53rd street they will file plans with the Department of Buildings for such alterations as are necessary and will secure the Department's approval before occupancy.

"With regard to the interior stairway of 27 West 53rd street, we will fire-retard with metal lath and cement plaster both sides of the enclosing partitions. The wood wainscoting will be removed throughout and the walls

replastered. All doors of the interior stairway enclosure will be fireproof, self-closing and have a three-quarter hour rating. A steel stairway from the basement to the first floor and from the fourth floor to the roof will be installed. Steel railing and ballustrade will be installed throughout. The bulkhead enclosure will be fireproof. We would ask your consideration to permit us to use the remaining undisturbed wood stairway. The sprinkler system in the interior stairway will remain in service."

and, as shown on plans marked "Received December 22, 1955," (8 sheets), showing proposed conditions; that the stairway shall be enclosed and extended as proposed and equipped with self-closing doors and sprinkler system as formerly approved when building was approved for occupancy as a multiple dwelling Class B; that the use of the building shall be as proposed, with a total occupancy of not over fifty persons throughout; that new fireproof partitions enclosing office rooms in adjoining building at 23-25 West 53rd street from the balance of that building shall be constructed and maintained; that there shall be a three-hour shutter or 2-1½ hour swing doors opening between such space in building at 23 West 53rd street and building at 27 West 53rd street; that a new ceiling and floor shall be constructed at the entrance to Office No. 1 in building at #23-25 West 53rd street, as shown; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

ACTION OF BOARD—Application reopened, resolution amended and time to complete extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors. 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on January 25, 1955, certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 25, 1955, by adding thereto:

"that in the event the owner desires to reduce the size

MINUTES

of the building as now proposed and as indicated on plans marked 'Received January 8, 1956,' (4 sheets), consisting of; omitting the new rear extension at the second floor level on lot #40; maintaining the existing cellars of the two demolished buildings fronting on 53rd street and a slight change as to the height of the one-story extension on lot 35 may be permitted as shown on such plans and as acted on by the Borough Superintendent under amendment to Alt. App. 4013/55, objection dated December 16, 1955, *on condition* that in all other respects the requirements of the resolution above cited shall be complied with; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution from the date of this *amended* resolution."

82-50-BZ

APPLICANT—Colshor Realty Corp., Bennett S. Colier, owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance which expired February 14, 1956—re Application (decision of the borough superintendent); previously granted on condition, under section 7h of the zoning resolution, permitting in a residence and unrestricted use district, the parking of motor vehicles waiting to be serviced in conjunction with existing storage garage and motor vehicle repair shop.

REMISES AFFECTED—846-852 Atlantic avenue, south side, 70 ft. east of Vanderbilt avenue and 853-857 Pacific street, north side, 95 ft. east of Vanderbilt avenue, Block 1122, Lots 5, 7 and 68, Borough of Brooklyn.

APPEARANCES—

For Applicant: Bernard Bernstein.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors. 4

Negative: 0

THE RESOLUTION:

WHEREAS, this application was granted by the Board on February 14, 1951, certain conditions; and

WHEREAS, the resolution was amended on April 3, 1951 and March 18, 1952; and

WHEREAS, the applicant requested an extension of the term variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 22, 1952 only far as it refers to the term of the variance, so that as *amended* this portion of the resolution shall read:

"... granted under Section 7, subdivision h for a term of two years from the date of this *amended* resolution, to permit; that other than as herein *amended* the resolution above cited including the resolution of February 14, 1951 shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this *amended* resolution." (Alt. App. 2385/50)

82-52-BZ

APPLICANT—Ingram S. Carner, for Harold Foley, owner.

SUBJECT—Application for consideration—reopening as to amendment as to pump arrangement—re Application (decision of the borough superintendent) previously granted on condition, under sections 7c, 7i and 7h of the zoning resolution, permitting in a business and restricted use district, the reconstruction and extension of existing gasoline service station to include adjoining existing lot used for parking and storage of motor vehicles to include gasoline service station, motor vehicle repairs and office; and permitting the parking and storage of more than five motor vehicles.

REMISES AFFECTED—86-10 Whitney avenue, south-

west corner of 88th street, Block 1579, Lot 20, Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened, resolution amended and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors. 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 9, 1952, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on November 10, 1953; and

WHEREAS, the resolution was amended on January 4, 1955; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 9, 1952, as thereafter *amended* by resolutions adopted through January 4, 1955, by adding thereto:

"that the rearrangement of pump islands may be permitted, as indicated on revised plan marked 'Received January 24, 1956,' (1 sheet), and as passed on by the Borough Superintendent under amendment to N.B. App. 1729-52, dated January 20, 1956, *on condition* that in all other respects the requirements of the resolutions above cited shall be complied with; and that all permits required shall be obtained within six months from the date of this *amended* resolution."

691-53-BZ

APPLICANT—Otto W. Kritz, for Ben Levee, owner.

SUBJECT—Application for consideration—reopening as to approve working plans—re Application (decision of the borough superintendent); previously granted on condition, under sections 7e, 7h and 21 of the zoning resolution, permitting in a residence use district, the extension to existing structure (restaurant, bar and cabaret) with a canopy projecting into setback area and permitting the off-street parking of motor vehicles on unbuilt upon portion for patrons and employees, and permitting the erection of a business sign.

PREMISES AFFECTED—3333 Hylan boulevard, northwest corner of Spratt avenue, Block 4987, Lot 1, Bay Terrace, Borough of Richmond.

APPEARANCES—

For Applicant: Otto W. Kritz.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened, resolution amended and working drawings approved.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connors. 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board, on June 29, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and submitted working drawings, for approval by the board, as being in substantial compliance with the requirements of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *approve* working drawings as in substantial accord with the requirements of the resolution adopted by the Board on June 29, 1954; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution. (Alt. App. 137/53)

(Remaining Minutes of the Meeting of February 15, 1956 will be printed in the Bulletin of February 28, 1956.)

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

Adopted by the Board of Standards and Appeals February 3, 1939, effective in accordance with Section 666, Paragraph 2, of the New York City Charter, February 27, 1939, as amended December 4, 1942, effective December 28, 1942, as amended September 10, 1946, effective October 7, 1946 and as amended on February 10, 1948, effective March 8, 1948.

(Cal. No. 835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4 and C26-1277.0h. of the Administrative Building Code.

NOTICE IS HEREBY GIVEN that a Public Hearing will be held by the Board of Standards and Appeals on Friday, March 2, 1956 at 10 A.M. in Room 1013 Municipal Building, Manhattan, on the following Proposed Amendments to the Rules Relative to Submerged Inlets and Protective Methods to be Applied to Prevent Contamination of Water Supply.

Note: It is proposed to amend Rule 1 as indicated. New matter appears in *Italics*; old matter to be deleted appears in brackets [].

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules. All hose coupling outlets and serrated tip outlets for hose connections [within buildings] are deemed to be submerged inlets, and shall be independently protected with an approved vacuum breaker. [Outside hose coupling outlets for garden or sidewalk use, drain] *Drain* cocks for hot water and steam boilers and hose connections on fire fighting equipment are excepted. *Vacuum breakers for outside hose bibs shall be placed 24 inches above the surface of the ground near the hose bib and at least 12 inches above the top of the highest submerged lawn sprinkler.*

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum

breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarters inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washer or similar apparatus shall be equipped with an approved vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps.

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connections to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing mo

PUBLIC HEARING

than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker, and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

Rule 13. Steam Tables.

Steam tables used exclusively for the warming of food stuffs and provided with a water supply inlet elevation at least one inch above the overflow outlet, the area of which is at least four times that of the water supply piping, shall be equipped with an approved horizontal swing check valve in the water supply piping.

Where elevation of the water supply piping inlet is less than one inch above the overflow outlet, or when the area of the overflow outlet is less than four times that of water supply piping, the water supply piping shall be equipped with an approved vacuum breaker located at least four inches above the maximum overflow level of the fixture.

(Continued from page 213)

proof as it deems necessary. No authority exists for a reply (Davis Engineering Corp'n v. Murdock, N. Y., L. J., June 11, 1946, p. 2314). Respondent's motion to strike out the reply, therefore is granted. ¶We come now to a consideration of the merits of petitioner's application to review the determination of the Board of Standards and Appeals. Petitioner's application was denied on the ground that section 9, subdivision 9, of the Multiple Dwelling Law is not applicable because the structure was not "erected" prior to October 15, 1952, and was not a legally erected and approved two-story building on that date. ¶The record indicates, as previously stated, that petitioner obtained approval of the plans and specifications on September 25, 1951, for the erection on the aforesaid premises of a brick building for the occupancy of one family, a doctor's office and a garage. Petitioner then apparently proceeded to erect a building on the premises not in accordance with the approved plans and specifications for a one-family, but for a three-family house arranged to be occupied by one family in the basement and two families on the first floor, completing the same on June 15, 1952. This change of occupancy was made contrary to the approved plans and specifications without any approval of the Department of Housing and Buildings at any time prior to said June 15, 1952, nor at any time thereafter. The brick building was not only not built or completed in accordance with the approved plans, but no application for a certificate of occupancy was applied for; and no certificate of occupancy was ever issued to the petitioner. ¶Section 646 of the Charter of the City of New York provides: "Certificate of occupancy. a. No building or structure hereafter constructed may be occupied or used in whole or in part for any purpose until a certificate of occupancy has been issued." Section C 26-181.0 of the Administrative Code provides: "Certificate of occupancy for new structures: a. It shall be unlawful to occupy or use any structure erected after January first nineteen hundred thirty-eight, in violation of section six hundred forty six, subdivision a of the charter * * *." ¶The term "erected" as used in section 9, subdivision 9, of the Multiple Dwelling Law which permits the conversion of a one or two-family dwelling to a multiple dwelling, must be construed to mean a "legally erected" building. In such respect section 9, subdivision 9, provides: "Excepting a frame dwelling, and dwelling three stories or less in height erected after April eighteenth, nineteen hundred twenty-nine and before October fifteenth, nineteen hundred fifty-two, as a one or two family dwelling may be converted to a multiple dwelling to be occupied by not more than one family on each floor or three families in all by complying with the provisions of article six." ¶It follows that the occupancy by the petitioner of the subject premises without a certificate of occupancy does not bring the building within the requirements of section 9. It also appears that the application does not come within that section for the additional reason that the building is presently occupied by two families on the second floor and is to be occupied by two families after the proposed change, which is contrary to the provisions of section 9, which limits the occupancy of any of the floors to one family only. ¶The further direction of the department of housing and buildings to remove the present bathroom and sink in the cellar, and the plumbing fixtures on the first floor in the rear dining room of premises No. 224 Avenue N, was made to prevent the possible use of such space as an additional unit for the occupancy of another tenant and thus change the legal occupancy by two tenants to an illegal occupancy by three families. ¶In the circumstances, the action of the Board of Standards and Appeals, in denying petitioner's above application is not arbitrary, capricious or unreasonable. Accordingly, the certiorari order is vacated, the petition dismissed, and the determination of the Board of Standards and

Appeals affirmed. ¶That leaves for determination petitioner's further application for an order directing the borough superintendent and commissioner of housing and buildings to issue a certificate of occupancy for premises No. 1494-1496 East Third street, Brooklyn, nunc pro tunc as of June 20, 1952, the date of petitioner's application for said certificate. ¶Petitioner alleges that she made application for said certificate of occupancy and that the same was refused by the Department of Housing and Buildings. It appears, however, that petitioner failed to appeal to the Board of Standards and Appeals from the determination made by the borough superintendent. The present application is, therefore, premature and was improperly instituted for the reason that petitioner has not exhausted other legal and appropriate remedies (New York City Charter, sec. 666(6); Breuel v. Rohan, 181 Misc., 635; Built by Glick v. Slatzman, N. Y. L. J., August 19, 1946 p. 292, aff'd 272, App. Div. 1020). ¶Mandamus will not issue where another remedy is available or provided by law (Matter of Towers Management Corp'n v. Thatcher, 271 N. Y., 94, 97). ¶This application is denied. ¶Settle orders on notice.

* * *

Matter of Jacob Nathanson vs. Board:—On March 15, 1955, the Board denied an application under Section 7, subdivisions f, e, i and A of the Zoning Resolution to permit in a residence and retail use district for a term of 21 years, the erection and maintenance of more than one building on a lot, a supermarket and gasoline service station, lubricatorium, car wash, motor vehicle repairs, storage and sale of accessories and an office, with an entrance, show window and sign nearer the residence use district than is permitted; Cal. No. 614-54-BZ; Premises 1101-1111 — 63rd Street and 6209-6223 — 11th Avenue, northeast corner, Borough of Brooklyn. At Special Term, Supreme Court, Mr. Justice Beckinella sustained the Board in the following decision: (New York Law Journal of January 23, 1956, page 10) —

"—These are two applications, one by petitioner to annul a determination of the Board of Standards and Appeals and the other by the respondents Board of Standards and Appeals to vacate the order of certiorari and to dismiss the petition and sustain the determination of the board in denying the application for a variance. ¶The subject premises Nos. 1101-1111 Sixty-third street and Nos. 6209-6223 Eleventh avenue, Brooklyn, N. Y., consist of a plot 125.4½ and 132.8 frontage by 125.4 in depth, irregular, presently vacant except for a 10x12 one-story vacant building. The use district maps show that Sixty-third street is in a residence use and retail district. Eleventh avenue in a retail use district, and that the site is in a retail and residence use district. The proceeding was commenced by petitioner for a variance to permit in a retail and residence use district, the erection of a super market, gasoline service station, lubricatorium, car washing section, motor vehicle repairs, storage and sales of accessories, with an entrance and show window near the residence use district. ¶The board denied petitioner's application for a variance after a hearing and an inspection of the premises and the surrounding area. The board's determination was based upon the ground that there was no justification for the exercise of its discretion to grant a zoning variance, under section 7 (c), 7 (f) and 7-A of the Zoning Resolution. In reaching its determination the board apparently took into consideration the fact that the premises are located in a retail and residence use district, that the people residing in the area have made a substantial investment in the purchase and construction of their homes for residence use relying upon the restrictions of the district, that numerous property owners adjacent to the premises have voiced their objection to a variance, and that the variance would change the character of the use district. ¶In Reed v. Board of Standards and Appeals (255 N. Y., 126), the Court of Appeals in upholding

Periodical Division
University of Illinois Library
Urbana, Ill.

the determination made by the Board of Standards and Appeals under section 7 of the Building Zone Resolution stated (at p. 136): "The Board has a wide scope in the exercise of its discretion whenever the discretion to make variances is granted to it (Matter of Goldenberg v. Walsh, 242 N. Y., 576; People ex rel. Fordham M. R. Church v. Walsh, 244 N. Y., 280, 289). If such an application is denied the only question for the court is whether the petitioner has been illegally oppressed (Matter of Larkin Co. v. Schwab, supra, p. 336; 242 N. Y., 330)." ¶Here the record is barren of any proof establishing that the petitioner has been illegally oppressed or that there was any abuse of discretion on the part of the Board of Standards and Appeals. ¶Since the determination of the board is an administrative function which should not be interfered with by the courts in the absence of proof that the board abused its discretion, the petitioner's application is denied, the order of certiorari is vacated, the petition dismissed and the determination of the Board of Standards and Appeals affirmed. Submit orders."

* * * *

Matter of Hazel Brainard, et al, vs. Board of Standards and Appeals:—On May 3, 1955, the Board granted an application under Section 7, subdivisions f and i, of the Zoning Resolution, to permit in the business use portion of a plot located in a residence and business use district, for a term of fifteen years, the erection of a gasoline service station, auto showroom and service building, lubricatorium, motor vehicle repairs, car washing, brake testing, wheel alignment, painting and spraying, welding, storage and sale of accessories and an office, and to permit on the unbuilt-upon portion of plot the sale and display of new and used cars and the parking and storage of motor vehicles; Cal. No. 887-54-BZ; premises 218-01 to 218-19 Northern Boulevard, north side, from 218th to 219th Street, 43-31 to 43-39 — 218th Street and 43-32 to 43-40 — 219th Street, Bayside, Borough of Queens.

At Special Term, Supreme Court, Queens County, Mr. Justice Pette sustained the Board in a decision, part of which is as follows: (New York Law Journal, February 9, 1956, page 12)

".....There is no proof that the board exercised its discretion in excess of the power expressly conferred upon it by section 7 (f) and (i) of the Zoning Resolution. The present case is distinguishable from those which arise under section 21 of the Zoning Resolution in which a unique hardship must be established (Matter of Thomas v. Board of Standards and Appeals, 290 N. Y., 109, 115; Matter of Reed v. Board of Standards and Appeals 255 N. Y., 126, 135). Under the circumstances the determination of the board is not arbitrary, capricious or illegal and, consequently, may not be set aside. The petition is accordingly dismissed on the merits and the determination under review confirmed. Submit order."

* * * *

Matter of North Shore Building Company vs. Board of Standards and Appeals:—On December 7, 1954, Copy of Petition and Order of Certiorari was served on the Board by Isidore Ginsburg, attorney for North Shore Building Company, owner, seeking a review of the Board's denial of their application on October 26, 1954, to permit in a residence and retail use district the erection and maintenance of a gasoline service and selling station, lubricatorium, motor vehicle repairs and office, with a curb cut nearer the residence use district than is permitted, and to permit the erection of a sign and a sign standard above level of first story and projecting beyond the building line, and to permit the parking of motor vehicles waiting to be serviced (previously denied by the Board under Section 21 and later under Sections 7e, 7h and 7i, when site was in residence and business use district); Cal. No. 1446-39-BZ, Vol. III; Premises 34-67 Francis Lewis Boulevard, Bayside, Borough of Queens.

At Supreme Court, Queens County, the above entitled proceeding was discontinued, without costs to either party, on February 10, 1956

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

Proposed Amendments to the Rules Relative to Sub-
merged Inlets and Protective Methods to Be Applied
to Prevent Contamination of Water Supply.

COURT DECISION

Matter of Berk Bros. Realty Corp'n. vs. Board:—On January 18, 1955, the Board denied an application under Section 7, subdivisions c and i, of the Zoning Resolution, to permit in a business use district the addition of an automobile laundry (automatic type) to existing gasoline service station in portion of site where stores were permitted by Board but never built; Cal. No. 872-39-BZ, Volume VII; premises 7001-7019 Bay Parkway, south west corner of West 10th street, Borough of Brooklyn.

At Special Term, Supreme Court, Mr. Justice Beckinella sustained the Board in the following decision: (N.Y.L.J. August 16, 1955).

"—These are two applications, one by petitioner to annul a determination of the Board of Standards and Appeals, and the other by the respondents, the Board of Standards and Appeals, to vacate the order of certiorari and to dismiss the petition and sustain the determination of the board in denying petitioner's application for a variance. ¶The premises which are the subject of this proceeding are located at No. 7001-7019 Bay Parkway, southwest corner of West Tenth street and No. 1-21 Avenue O, Brooklyn, City of New York. The premises are improved with a modern gasoline service station with eight gasoline dispensing pumps and with an "L" shaped accessory building housing the automotive uses of store, storage of accessories, automobile laundry, tires and batteries, motor repairs, lubricatorium, brake service and office. The use district maps which accompany and constitute a part of the Zoning Resolution show that the site involved is in a business use, C area, Class 1½ height district. ¶Prior to the current application the premises under consideration have been favored with two variances and the present application, the denial of which is now up for review in this proceeding, seeks a third variation to permit the addition of an automatic type automobile laundry to the already twice extended gaso- line service station, on the portion of the site where stores were permitted by the Board of Standards and Appeals under the previous variance, but which were never built. ¶The board denied petitioner's application for a variance after a hearing and inspection of the premises and surrounding area. The board's determination was based upon the ground that there was no justification for the exercise of its discretion to grant a zoning variance under section 7 (c) and section 7 (i) of the Zoning Resolution. In reaching its determination the board apparently took into consideration the fact that the petitioner did not offer any proof to show that there was a need for an automatic type automobile laundry either upon the site involved or in the affected area. The board itself found that there was no need for an additional automobile laundry since there was an existing automobile laundry upon the site involved, another automobile laundry upon a gasoline service station abutting the site under consideration, and a third automobile laundry upon a gasoline station located at Bay Parkway and Sixty-Fifth street, about four blocks north of the site involved. It also appears that the board found that the unused portion of the site under consider- ation would be inadequate to house an automatic type of auto- mobile laundry with adequate facilities for parking space for waiting automobiles. ¶In *Reed v. Board of Standards and Appeals* (255 N. Y., 126), the Court of Appeals in upholding a determination made by the Board of Standards and Appeals, under section 7 of the Building Zone Resolutions, stated at page 136: "The Board has a wide scope in the exercise of its discretion whenever the discretion to make variances is granted to it (*Matter of Goldenberg v. Walsh*, 242 N. Y., 576; *People ex rel. Fordham M. R. Church v. Walsh*, 244 N. Y., 280, 289). If such an application is denied the only question for the court is whether the petitioner has been illegally oppressed." ¶In the light of the rule laid down in the *Reed* case (*supra*), quoted above, it is evident that the record here is barren of any proof establishing that the petitioner has been illegally oppressed or that there was any abuse of discretion on the part of the board of standards and appeals. While it is possible that this court might have arrived at a different conclusion if the ap- plication for a variance had been submitted to it in the first instance, this court may not substitute its judgment for that of the board (*Matter of Cornwall Realty Corp'n v. Murdock*, 285 App. Div., 951). It is also clear that petitioner has not shown any facts warranting a remission of the application to the board for reconsideration. ¶The order of certiorari is vacated, the petition dismissed and the determination of the board of standards and appeals is affirmed. Submit orders.

FEBRUARY 28, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, February 28, 1956, at 10 o'clock in Room

1013, Municipal Building, Manhattan, on the following matters:

313-33-BZ—Vol. II

APPLICANT—Samuel Carr, for Digama Realty Company, owner.

SUBJECT—Application reopened October 18, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7f, 7e and 7i of the zoning resolution, to permit partly in a residence and partly in a business use district the erection and maintenance of a gasoline service station, lubricatorium, sales space, service parking, car wash, and motor vehicle repairs, with a curb cut less than 75 ft. from residence use district.

PREMISES AFFECTED—38-06 Greenpoint avenue, southwest corner of 50th avenue, Block 212, Lot 23, Woodside, Borough of Queens.

Laid over from January 10, 1956 to February 28, 1956, for inspection and decision; hearing closed.

576-37-BZ—Vol. II

APPLICANT—William A. Giesen, for B. J. Denihan, Inc., and Deborah E. Dumont, owners (B. J. Denihan, Inc., and Shamrock Cleaners, Inc., lessees).

SUBJECT—Application reopened October 19, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7a, 7c and 21 of the zoning resolution, to permit in a residence use district, to change the use of part of the combined structure from residence to commercial use and other parts of the combined structure from one commercial use to another commercial use.

PREMISES AFFECTED—215-221 East 64th street, north side, 230 ft. east of 3rd avenue, Block 1419, Lots 10-13 inclusive, Borough of Manhattan.

Laid over from January 10, 1956, to February 28, 1956, for inspection and decision; hearing closed.

809-54-A

APPLICANT—William A. Giesen, for B. J. Denihan, Inc., and Deborah E. Dumont, owners (B. J. Denihan, Inc., and Shamrock Cleaners, Inc., lessees).

SUBJECT—Application September 28, 1954—re Appeal from a decision of the borough superintendent—non fireproof construction, area excessive.

PREMISES AFFECTED—215-221 East 64th street, north side, 230 ft. east of 3rd avenue, Block 1419, Lots 10-13 inclusive, Borough of Manhattan.

531-55-BZ

APPLICANT—Charles M. Spindler, for Frank and Catherine Ruzek, owner.

SUBJECT—Application June 30, 1955—re (decision of the borough superintendent) under sections 7c, 7h and 7i of the zoning resolution, to permit in a business use district the extension in area of an existing gasoline service station to include gasoline service, auto washing, lubrication, parking and storage for more than 5 motor vehicles, office, accessory, sales, sale of used cars, 2 car garage, garage for less than 5 cars, brake and ignition service and auto repairs with hand tools only.

PREMISES AFFECTED—34-15 to 34-25 58th street, east side, 131.25 ft. south of Broadway, Block 1197, Lot 25, Woodside, Borough of Queens.

Laid over from January 10, 1956 to February 28, 1956, for inspection and decision; hearing closed.

434-16-BZ—Vol. III

APPLICANT—Reginald S. Hardy, for Marjorie E. Hart, owner (J. J. Hart, Inc., lessee).

SUBJECT—Application reopened March 3, 1953 as Vol. IV—re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business and unrestricted use district proposed addition of garage for more than 5 motor vehicles to proposed occupancy as granted by the Board of Standards and Appeals under Cal. 434-16-BZ. Proposed driveway on Bed-

CALENDAR

ford place is contrary to original and amended resolution of the Board.

PREMISES AFFECTED—1095-1107 Atlantic avenue and 14-36 Bedford place, northwest corner, Block 2021, Lot 20, Borough of Brooklyn.

Laid over from January 24, 1956 to February 28, 1956, for inspection and decision; hearing closed; applicant to file stipulation as to discontinuance of parking of cars.

268-55-BZ

APPLICANT—Charles M. Spindler, for William Endico, owner.

SUBJECT—Application April 5, 1955—(decision of the borough superintendent) under sections 7e, 7f, 7h and 7A of the zoning resolution, to permit in a residence and retail use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto washing, motor vehicle repairs, storage and sale of accessories and office, with business entrances (curb cuts) nearer the residence use district than is permitted and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot.

PREMISES AFFECTED—3903 East Tremont avenue, southeast corner of Dewey avenue, Block 5443, Lots 1, 6 and part of Lot 32, Borough of The Bronx.

Laid over from July 19, 1955, to July 26, 1955, for inspection and decision; hearing closed; then to September 27, 1955, at request of the applicant for information as to possible acquisition on subject site for approach to Throggs Neck Bridge; then to December 13, 1955, for further information as to the acquisition of land, including the subject site in connection with approaches for the proposed Throggs Neck Bridge; then to January 31, 1956, for consideration in relation to proposed Throggs Neck Housing Project; then laid over from January 31, 1956 to February 28, 1956, for further information from the Triborough Bridge Authority as to future roadway.

1170-22-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Louis Shapiro, owner.

SUBJECT—Application reopened June 21, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a business use district the proposed change in occupancy from public storage garage to public storage garage, minor auto repairs, brake testing, wheel alignment, car washing, office and sales and addition of parking and storage on open portion of lot (previously approved as separate occupancy), also rearrangement of gasoline tanks and pumps are not in accordance with original Board of Standards and Appeals approval Cal. No. 1170-22-BZ.

PREMISES AFFECTED—259-267 Pacific street, north side, 75 ft. west of Smith street and 280 Atlantic avenue, Block 181, Lots 20, 31 and 32, Borough of Brooklyn.

Laid over from January 31, 1956, to February 28, 1956, for inspection and decision; hearing closed.

825-23-A—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Louis Shapiro, owner.

SUBJECT—Application reopened June 21, 1955 as Vol. II—re Appeal from a decision of the borough superintendent relating to egress.

PREMISES AFFECTED—259-267 Pacific street, north side, 75 ft. west of Smith street and 280 Atlantic avenue, Block 181, Lots 20, 31 and 32, Borough of Brooklyn.

206-47-BZ—Vol. II

APPLICANT—Joshua Brown, for Antonino Coppola, owner.

SUBJECT—Application reopened April 27, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7f of the zoning resolution, to permit in a residence and local retail district the extension to accessory building on existing gasoline service station (pre-

viously granted by the Board for a term of years, to expire September 1958).

PREMISES AFFECTED—167 Olympia boulevard and 265 Kensington avenue, northeast corner, Block 3255, Lot 32 South Beach, Borough of Richmond.

Laid over from January 31, 1956, to February 28, 1956, for inspection and decision; hearing closed.

788-49-BZ—Vol. III

APPLICANT—Burke, Green and Groh, for Herman Flyer, owner. (Murray M. Garren, lessee).

SUBJECT—Application reopened April 26, 1955 as Vol. III—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district the change of occupancy from auto laundry, to auto laundry, gasoline service station, motor vehicle repair shop, auto safety inspection station, lubrication, wheel alignment, brake testing and lining, electrical system, adjustment and repair, and sale of auto accessories.

PREMISES AFFECTED—88-12 to 88-20 Northern boulevard, southwest corner of 89th street, Block 1436, Lot 6, Jackson Heights, Borough of Queens.

Laid over from January 31, 1956, to February 28, 1956, for inspection and decision; hearing closed.

104-41-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Potter Brothers, Inc., owner.

SUBJECT—Application reopened April 26, 1955 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district the continued use of an existing factory and storage building for a term of 5 years.

PREMISES AFFECTED—150-18 to 150-22 Tahoe street, west side, 170.07 ft. south of Albert road, Block 11556, Lot 23, Ozone Park, Borough of Queens.

Laid over from January 10, 1956, to February 7, 1956, for applicant to submit information as to amount of manufacturing, if any, any machinery, drainage from roof and whether owner has complied with the Board's original resolution; hearing closed; then to February 28, 1956, for inspection and decision.

626-51-BZ

APPLICANT—Henry Nordheim, for Leah Slapo, owner.

SUBJECT—Application September 18, 1951—re (decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a retail use district the manufacturing on all floors, not incidental to conduct of a retail business conducted on premises; using more than the permitted percentage of each floor.

PREMISES AFFECTED—171 Spring street, north side, 70 ft. 2 in. east of Thompson street, Block 502, Lot 41, Borough of Manhattan.

Laid over from May 3, 1955 to June 7, 1955, to permit the applicant to obtain a decision from the Building Department as to structural conditions to comply with the Labor Law and to permit the filing of a companion administrative appeal to be heard with the zoning application on the laid over date; laid over, date to be set for hearing when companion "A" appeal has been examined and set for hearing the "A" and "BZ" cases to be heard on the same date; then set for hearing January 10, 1956; then February 15, 1956 for inspection and decision; hearing closed; then to February 28, 1956, for applicant to file revised plans.

444-55-A

APPLICANT—Henry Nordheim, for Leah Slapo, owner.

SUBJECT—Application June 3, 1955—re Appeal from a decision of the borough superintendent—relating to egress and construction.

PREMISES AFFECTED—171 Spring street, north side, 70 ft. 2 in. east of Thompson street, Block 502, Lot 41, Borough of Manhattan.

CALENDAR

290-55-BZ

APPLICANT—Reginald S. Hardy, for Land Buyers, Inc., owner.

SUBJECT—Application April 12, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the demolition of existing structures, and the erection and maintenance, for a term of 15 years) a gasoline service station, lubritorium, auto laundry (non-automatic) motor vehicle repair shop and office, and to permit the parking of motor vehicles awaiting service.

For Opposition: John Rigan, Catherine Bergmann, Filomeno Quarato, Agnes V. Parks, Natalie Balabushka, Margaret Sullivan, Mary B. Wedlock, Donato Palmi-atto, E. A. Kuinge, France Denard, Sarah McLeavy, W. Gikas, Frank Nagel and R. Lewis.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to March 20, 1956, at 10 A.M. for inspection and decision; and for statement from applicant as to use of plot; hearing closed.

459-55-BZ

APPLICANT—Frederick A. Ketcher, for Mary A. Antony, owner (William Penny and Angie Serret, lessees).

SUBJECT—Application June 8, 1955—(decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the maintenance in connection with an existing gasoline service station, an existing metal building for motor vehicle repairs for a term of 3 years.

PREMISES AFFECTED—5945 Broadway, west side, 811 ft. north of West 240th street, Block 3414, Lot 628, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to February 28, 1956, at 10 A.M. for applicant to submit records as to whether the entire 100 ft. area is included in the present certificate of occupancy issued in 1922 and the 10-car garage and metal building.

463-55-BZ

APPLICANTS—Lama, Proskauer and Prober, for Cody and Marie Ingenito, owners.

SUBJECT—Application June 2, 1955 — (decision of the borough superintendent) under sections 7i, 7e and 7h of the zoning resolution, to permit in a business and residence use district, the proposed change of use of store and dwelling to body and fender repairs, welding, painting and spraying, parking of cars waiting to be serviced on unbuilt upon portion of the plot.

PREMISES AFFECTED—208-20 Northern boulevard, southside, 125 ft. west of Oceania street and 206-63 45th road, Block 7305, Lot 29, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: Julian Webb.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to March 20, 1956, at 10 A.M. for inspection and decision; hearing closed; also for applicant to file a revised plan showing entrance and gate proposed.

464-55-A

APPLICANT—Lama, Proskauer and Prober, for Cody and Marie Ingenito, owners.

SUBJECT—Application June 2, 1955 — re Appeal from a decision of the borough superintendent — class 3 construction — repair shop.

PREMISES AFFECTED—208-20 Northern boulevard, southside, 125 ft. west of Oceania street and 206-63 45th road, Block 7305, Lot 29, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to March 20, 1956, at 10 A.M. for inspection and decision and for revised plan to be filed in conjunction with Cal. 463-55-BZ; hearing closed.

480-55-BZ

APPLICANTS—George W. Swiller, for Tivoli Realty Corp., owner.

SUBJECT—Application June 15, 1955—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the proposed alteration of existing 4 apartments, with a total of 11 rooms, into stores at the first story of the 4 story class A multiple dwelling, new law tenement, the extension from 2 stores and 5 apartments to 7 stores and 1 apartment.

PREMISES AFFECTED—1090-1098 Croes avenue, and 1700-1712 Watson avenue, southeast corner, Block 3723, Lot 48, Borough of The Bronx.

APPEARANCES—

For Applicant: George W. Swiller and Adolph Tenen.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to March 6, 1956, at 10 A.M., applicant to file proof of service of notice to affected property owners.

561-55-BZ

APPLICANT—Herman E. Horwood, for Mary Franco-mano, owner.

SUBJECT—Application July 8, 1955 — (decision of the borough superintendent) under section 21 of the zoning resolution to permit in a residence use, E area district,

MINUTES

the erection of a 2 family dwelling with less than 10 ft. setback required on each street front.

PREMISES AFFECTED—2894 Roebling avenue, southwest corner of Edison avenue, Block 5388, Lot 27, Borough of The Bronx.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Opposition: Louis M. Fribourg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to April 3, 1956, at 10 A. M. for inspection and decision; hearing closed.

756-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Werner Nobut, Inc., owner.

SUBJECT—Application September 6, 1955—re (decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district the extension of an existing building used for restaurant, storage and cabaret and to permit parking of patrons' cars.

PREMISES AFFECTED—2640-2660 Ocean Parkway and 63-73 Nixon Court, northwest corner and 64-70 Murdock Court, Block 7238, Lots 122, 124 and 126, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti and Max Schultz.

For Opposition: Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to February 28, 1956, at 10 A. M. for further inspection and decision; hearing previously closed.

757-55-A

APPLICANT—Lama, Proskauer and Prober, for Werner Nobut, Inc., owner.

SUBJECT—Application September 6, 1955—re Appeal from a decision of the borough superintendent—relating to the proposed use of a portion of a plot within the 30 ft. Ocean parkway setback for the parking of patrons cars and the construction of a driveway entrance accessory thereto.

PREMISES AFFECTED—2640-2660 Ocean parkway and 63-73 Nixon court, northwest corner and 64-70 Murdock court, Block 7238, Lots 122, 124 and 126, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to February 28, 1956, at 10 A.M. for further inspection and decision in conjunction with Cal. No. 756-55-BZ; hearing previously closed.

808-55-BZ

APPLICANT—Paul Friedman, for Hans J. Heckmann and R. Harold Paltrow, owners.

SUBJECT—Application October 17, 1955—(decision of the borough superintendent) under sections 7h, 7f and 7i of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, auto repairs (hand tools only), auto washing (non automatic), office, sales and storage of auto accessories, parking of cars waiting to be serviced, for a term of 15 years.

PREMISES AFFECTED—35-02 to 35-08 (35-04 official) Bell boulevard and 213-12 to 213-20 35th avenue, southwest corner, Block 6169, Lot 6, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Harvey Berlin, Dudley Gregory, Charles Tempestar, E. Magunnis, Anthony Sazo, John Sazo and Joseph A. MacDonnoll.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to April 3, 1956, at 10 A.M. for inspection and decision; hearing closed.

575-55-BZ

APPLICANT—Goldwater and Flynn, for The Montefiore Hospital for Chronic Diseases, owner.

SUBJECT—Application July 13, 1955—re (decision of the borough superintendent) under sections 7e, 7h and 7i of the zoning resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, office, motor repairs, storage and parking of motor vehicles.

PREMISES AFFECTED—Block bounded by South side of Gun Hill road, from Tryon avenue to Wayne avenue, Block 3343C, Lot 245, Borough of The Bronx.

APPEARANCES—

For Applicant: Monroe Goldwater, Louis Colman and Robert J. McDermott.

For Opposition: Edna Wiener and Esther Aaronson.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to February 28, 1956, at 10 A.M. for complete vote of the Board on the resolution offered for adoption; hearing previously closed.

THE VOTE—

Affirmative: Chairman Murdock and Commissioner Kleinert

Negative: Deputy Chief Connors

Not Voting: Commissioner Keating

281-55-BZ

APPLICANT—Kenneth W. Milnes, for James Melfi, owner.

SUBJECT—Application April 7, 1955—(decision of the borough superintendent) under sections 7i and 21 of the zoning resolution, to permit in a retail use, D area district, the change in occupancy from garage for not more than five motor vehicles to motor vehicle repair shop, and extension of an existing building using more than the area permitted.

PREMISES AFFECTED—2041 Victory boulevard, north side, 151 ft. east of Bradley avenue, Block 462, Lot 6, Meirs Corners, Borough of Richmond.

APPEARANCES—

For Applicant: Kenneth Milnes and James Melfi.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors 4

Negative:

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 21, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Victory boulevard and Bradley avenue are in a retail use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated January 6, 1956 acting on Alt. Applic. 35-55, reads:

"1. Conversion of a garage to a motor vehicle repair shop in a retail use district is contrary to Art. II, Sect. 4A of the Zoning Resolution.

2. Proposed extension and existing building exceeds the area limit of a D area; Art. IV, Sect. 14(c) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.40 ft. frontage by 113 ft. in depth, irregular, on which is located a building 40 ft. front by 80 ft. in depth, one story, 18 ft. in height, of class 3 construction, used as a garage for more than five motor vehicles and for motor vehicle repairs; that certificate of occupancy No. 5518-47 filed is for garage for not more than five motor vehicles; that it is proposed to change occupancy from garage for not more than five motor vehicles, to motor vehicle repair shop, and extension of existing building; and

MINUTES

WHEREAS, the applicant states that the premises in this application, of class 3 construction, was built in 1947 in conjunction with the gasoline service station next door at 2035 Victory boulevard, at that time under a single lot and ownership and for which certificate of occupancy No. 5518 was issued on September 22, 1947 as a garage for not more than five motor vehicles and office; that the owner of the entire premises at that time is the father of the owner in this application and in 1946 sold it to the present owner separated from the gas station; that the owner in recent years has been doing repairs to vehicles, in apparant ignorance of the fact that such was prohibited by law, but feeling that a certificate of occupancy as a garage gave him such right; that however, in this particular neighborhood this type work, done completely inside the building, has never been objected to by any neighbors and has not caused any depreciation of the neighborhood; that besides doing his own regular repair work, the owner feels that his building is ideally situated, both as to location on a highly traveled main thoroughfare, his own excellent reputation as a mechanic and the expected demand for such facilities by the new state law as an inspection station, for which he has filed an application; that if the inspection station permit is granted, in order to make such a station pay for itself, it will be necessary sometimes to do more than minor repairs, to include motor overhaul, brake repair, etc.; that all repair work if permitted, would be confined to the interior of the building, but permission is asked to park on the Watchogue road side of the premises, cars waiting to be repaired, serviced or inspected; and

WHEREAS, the applicant further states that previous zoning was as follows: business use—1916 to 1942; business 1—1942 to 1952; retail—1952 to present time; and

WHEREAS, the applicant contends as to objection No. 2 issued by the borough superintendent, that the proposed extension makes the entire structure exceed the permissible coverage of a D area zone by 259 sq. ft. if figured from the proposed widening line, but if figured from the present record line it does not exceed the area of coverage permitted; that no part of the building will be within the proposed widened area when done; that therefore, in conjunction with objection No. 1 issued by the borough superintendent permission is asked to construct the addition at the rear of the building and such addition to be constructed only if the application is granted over objection No. 1; that by use of this addition private passenger cars could be repaired while larger vehicles such as trucks would be repaired in the main building; that at no time will any repair work be done in the open areas; and

WHEREAS, the applicant states that the total area of the lot is 5650 sq. ft.; total area permitted, D area, 3107 sq. ft.; total area of building, 3366 sq. ft.; total area in excess, 259 sq. ft.; and

WHEREAS, the applicant states that the present owner has held title to the property since February 9, 1946; that the assessed valuation of land is \$4,000 and of the building \$9,000 making a total of \$13,000; that the building was erected in 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board prior to the hearing; and

WHEREAS, the decision of the Borough Superintendent does not include open parking for which permission is requested; and

WHEREAS, no variance is required as to area coverage, as the portion of the lot shown for street widening may be included in area coverage; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7i as to use, to permit the proposed extension to the existing building substantially as proposed and as indicated on plans filed with this application marked, "Received April 7, 1955"

(7 sheets) and "January 11, 1956" (3 sheets) *on condition* that the building shall not be further increased in height or area; that the proposed extension shall be used as proposed as a two-car garage and shall comply with the requirements of the Building Code as to construction; that repairing shall be carried on entirely within the building mainly with hand tools; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed and a Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

378-55-BZ

APPLICANT—Leonard F. Rothkrug, for Private Garages, Inc., owner.

SUBJECT—Application May 10, 1955—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, proposed parking lot.

PREMISES AFFECTED—2139-2143 65th street, north side, 325 ft. west of Bay parkway, Block 5550, Lot 50, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: Raymond Nahem.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Kleinert..... 1

Negative: Chairman Murdock, Commissioner Keating and Deputy Chief Connors..... 3

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; laid over to February 21, 1956 for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 65th street and 21st avenue are in residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 27, 1955 acting on Alt. applic. 1313-55 reads:

"1. Proposed parking lot for motor vehicles in a Residence zone is contrary to Article II, Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 89 ft. 2 in frontage by 100 ft. in depth, irregular, presently vacant; that it is proposed to maintain a parking lot in a residence use district; and

WHEREAS, the applicant states that there has been no change in use, or area designations affecting this plot since July 25, 1916 and there is no petition pending at this time for any change; that the premises consist of an irregular plot 89 ft. 2 in. front on 65th street by 100 ft. in depth, presently vacant; that the owner of record hold title to part of the premises, an irregular plot 15 ft 2 in front on 65th street by 100 ft in depth, and has a lease from the Board of Transportation for the balance of the premises; and

WHEREAS, the applicant contends that it is proposed to occupy the entire premises as a parking lot for pleasure-type passenger cars; that there is a pressing need for off-street parking space in this neighborhood; that the area was developed approximately 35 years ago, principally with one family, semi-attached dwellings, without private garage facilities; that there are only about ten 1-car private garages within the entire 500 ft. radius from the site and there are no public garages in the near vicinity; that the only parking available is street parking; that 65th street is a heavily trafficked street across Brooklyn and Bay parkway; that the proposed parking will be nontransient in nature and will be a service to the community; that there is no vacant property in the neighborhood except adjoining the tracks across the Sea Beach subway line of the B.M.T. system; that the west side lot line of the premises is along

MINUTES

the open subway cut in the block and has a protective wall about 5 ft. in height; that the existence of this subway running across the subject tax block and the one opposite explains why this adjoining land has remained vacant; that the property cannot reasonably be developed with a conforming use and there is no property in a conforming use district available for parking; that the property owner adjoining to the east, block 5550, lot 49, has 4 ft. driveway easement to provide access to his garage at the rear of his lot; that it is therefore proposed to erect a 6 ft. high woven wire fence 4 ft. away from the side lot line so that the proposed parking lot will not interfere with his easement; and

WHEREAS, the applicant states that the present owner has held title to the property since February 1, 1955 and that the assessed valuation of land is \$4,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1313/55, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

394-55-BZ

APPLICANT—Patrick D. Concagh, for Bome Realty Corp., owner (The Texas Co., Lessee).

SUBJECT—Application May 17, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, minor auto repairs, storage and sale of auto accessories.

PREMISES AFFECTED—329-335 Morris avenue and 266-268 East 140th street, northwest corner, Block 2333, Lot 70, Borough of The Bronx.

APPEARANCES—

For Applicant: P. D. Concagh.

For Opposition: None.

For administration: Samuel L. Becker, Dep't of Housing and Lebar, N. Y. C. Housing Authority.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 17, 1956 after due notice by publication in the Bulletin; laid over to February 21, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, A area, class 1½ height district; Morris avenue is in retail and residence use, A area, class 1½ height districts; East 140th street is in retail, manufacturing and unrestricted use, A area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 9, 1955 acting on N.B. Applic. 759-55, reads:

"1. In a retail district the proposed "Gasoline station, lubritorium, car wash, salesroom, stockroom" is contrary to Art. II Sect. 4-A of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 125.02 ft. frontage by 100.01 ft. in depth, presently vacant; that it is proposed to erect a one story building of class 3 construction, 48 ft. front, 27 ft. in depth, 13.50 in height, to include gasoline service station, lubritorium, car wash, minor auto repairs, storage and sale of accessories; that the accessory building will be located on the rear of the lot with the dispensing pumps at the front, thus providing sufficient space within the site for the accommodation of cars awaiting service; that the site will be enclosed with a fence of the chain link type; that the open and unoccupied

portion of the plot will be properly graded and drained and surfaced with asphaltic paving; and

WHEREAS, the applicant states that as of July 25, 1916 the subject plot was placed in an unrestricted use, A area and 1½ times height district; that on July 31, 1947, Morris avenue on its westerly side to a depth of 100 ft., from 138th street to 144th street, was placed in a retail use district, its present designation; that except for this strip, the entire area west of Morris avenue, between the Harlem river and 149th street, is zoned for either manufacturing or unrestricted use; and

WHEREAS, the applicant contends that except for a housing authority project to the east of the site, there has been no building improvement in the neighborhood over the years; that antiquated, dilapidated and generally run down buildings and sheds, storage yards for various forms of junk, scrap metal, second hand plumbing supplies, etc., surround the site and, dominate this whole area; that there are two existing service stations in the vicinity, one on East 141st street, the other on East 142nd street corner of Morris avenue; that both, however, are very small stations and insufficient to meet the public needs in this locality under present day conditions; that the addition of a larger service station, fully equipped to furnish gasoline, and accessory services to modern automobile traffic will improve the general appearance of the neighborhood, fill the needs of the ever increasing amount of auto traffic on Morris avenue and will at the same time be in harmony with the general purposes and intents of the zoning resolution; that the assessed valuation of the property amounts to \$115,000, which includes not only the subject site but also that part of block 2333, designated on the block diagram as "Pt. of 70"; that the subject site has not been separately assessed as yet; and

WHEREAS, the applicant states that the present owner has held title to the property since February 17, 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station, substantially as proposed and indicated on plans filed with this application marked "Received May 17, 1955", 3 sheets, and "January 13, 1956", 1 sheet, *on condition* that all buildings and uses shall be removed from the site and the premises shall be leveled substantially to the grade of the abutting streets, constructed and arranged substantially as shown on such plans; that the accessory building shall be of face brick, shall have no cellar and in all other respects shall comply with the requirements of the Building Code; that the toilets shall be arranged so that doors will not be contiguous; that pumps shall be of an approved low type and erected not nearer than 15 feet to the street building line of Morris avenue; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to three to Morris avenue, each 25 ft. in width and one curb cut on 140th street within the first 25 feet of the intersection; that the sidewalks and curbs around the premises shall be reconstructed or restored to the satisfaction of the borough president; that there shall be erected on the interior lot lines where walls of adjoining buildings do not occur a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 in; that a similar fence shall be constructed on the street building line of 140th street for a distance of approximately 75 feet, with suitable terminating posts; that where not occupied by accessory building and pumps the premises shall be paved with concrete or asphaltic paving; that signs shall be restricted to a permanent sign attached to the front of the accessory building facing on Morris avenue and to the illuminated globes of the pumps, excluding all roof

MINUTES

signs and temporary signs, but permitting the erection at the intersection of a post standard to support a sign, which may be illuminated, advertising only the brand of gasoline on sale, which sign may extend beyond the building line for a distance of not over 4 feet; that at such intersection there shall be erected a block of concrete not less than 12 in. in height and extending for 5 feet along each building line; that under section 7i there may be minor repairing with hand tools only maintained entirely within the accessory building; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

451-55-BZ

APPLICANT—Carl H. Salminen, for Hause Building Corp., owner.

SUBJECT—Application June 7, 1955—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the maintenance of a two family dwelling of class 4 construction without the required side yards.

PREMISES AFFECTED—137-34 Negundo avenue, south side, 267.78 ft. east of Colden street, Block 5153, Lot 20, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen, Louis C. Hause and Milton Kuslansky.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors..... 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 21, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Negundo avenue and Kissena boulevard are in a residence use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1955 acting on N.B. Applic. 3319-53, reads:

"1. Side yards for a two family dwelling must comply with Sec. 15-A and 18 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot 38 ft. frontage by 85.82 ft. in depth, irregular, on which is illegally located a two family residence of class 4 construction, 24 ft. front, 39 ft. 6 in. in depth, 1½ stories; that it is proposed to maintain a two family residence of class 4 construction without the required side yards; and

WHEREAS, the applicant states that the property is situated in a residence E-1 use district, class 1 height district; that the change from residence D to residence E-1 was made on May 13, 1954; that there are no changes pending before the city planning commission at the present time; and

WHEREAS, the applicant states that the premises are improved with a story and a half frame dwelling with one car garage attached erected under permit No. 6098-53 issued on October 16, 1953; that no certificate of occupancy has been issued; that the dwelling in question is one of a development of 52 homes constructed by the Hause Building Corporation wherein the builder took out construction permits when he had received enough orders to proceed with a group of dwellings; and

WHEREAS, the applicant contends that apparently a misunderstanding occurred between the builder and the architect in that the plans for this particular dwelling were filed as a one family house instead of a two family; that one and two family houses were being constructed in the development and the discrepancy was not discovered until the

builder received a violation directing him to make the work conform to approved plans; that an amendment was filed on January 14, 1955 requested that the plans be approved as a two family dwelling, which was turned down by the building department in that a two family dwelling could not be erected in an E-1 area district unless the side yard requirements complied with section 15-A and 18 of the zoning resolution; that the sum of the widths of the side yards in this dwelling amount to 3 ft. 6 in. which is in violation to the zoning resolution; that the zoning resolution requires an aggregate sum of 15 ft. for side yards and the difference is 11 ft. 6 in.; that it is now requested that this structure be permitted to remain as a two family dwelling in view of the extreme hardship that would be encountered by the owner in reverting the dwelling to a one family, which would involve a great deal of expense; that the builder received a deposit on May 23, 1953 for a two family dwelling; that this contract was later voided due to a delay caused by a concrete strike; that at present the house is being used as a model house; and

WHEREAS, the applicant states that the present owner has held title to the property since August 12, 1953; that the assessed valuation of land is \$1,000 and of the building \$10,000 making a total of \$11,000; that the building was erected in September, 1953; and

WHEREAS, it was stated that other houses in the area recently constructed and completed prior to the change of zoning, were approved for two family occupancy; and

WHEREAS, in the opinion of the Board, the record indicates that the building was substantially complete before the change of zoning to E-1 on May 13, 1954, and complied as to yards and courts with the requirements of the prior D zoning; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit the building to be occupied as proposed as a two-family dwelling *on condition* that the building comply in all other respects with the requirements of all laws, rules and regulations applicable at the time of the issuance of the permit and the substantial completion of the dwelling; and that all permits, including a Certificate of Occupancy, shall be obtained and all work completed within six months from the date of this resolution.

452-55-BZ

APPLICANT—Carl H. Salminen, for Gunter Jung, owner.

SUBJECT—Application June 7, 1955—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the maintenance of a 2 family dwelling of class 4 construction, without the required side yards.

PREMISES AFFECTED—140-29 Negundo avenue, north side, 74 ft. west of Union street, Block 5216, Lot 24, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen, Milton Kuslansky and Ursula Jung.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors..... 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 21, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning

MINUTES

show that the site, Negundo avenue and Union street are in a residence use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1955 acting on N.B. Applic. 4613-53, reads:

"1. In an E-1 zone the sum of the side yards for a 2 family house must be 15 ft., and min. size side yard for ventilation must be 5 ft. Sec. 15-A and 18 Z.R."

and
WHEREAS, the applicant states that the premises consist of a plot, 38 ft. frontage by 100 ft. in depth, on which is illegally located a two family residence of class 4 construction, 24 ft. front, 39 ft. 6 in. in depth, 1½ stories; that it is proposed to maintain a two family residence of class 4 construction, without the required side yards; and

WHEREAS, the applicant states that the property is situated in a residence, E-1 use district, class 1 height district; that the change from residence D to residence E-1 was made on May 13, 1954; that there are no changes pending before the city planning commission at the present time; and

WHEREAS, the applicant states that the premises are improved with a story and a half frame dwelling with a one car garage attached, erected under permit No. 641-54 issued February 3, 1954; that no certificate of occupancy has been issued; and

WHEREAS, the applicant contends that the dwelling in question is one of a development of 52 homes constructed by the Hause Building Corporation wherein the builder took out construction permits when he had received enough orders to proceed with a group of dwellings; that apparently a misunderstanding occurred between the builder and the architect in that the plans for this particular dwelling were filed as a one family house instead of a two family; that both one family and two family houses were being constructed in this development and the discrepancy was not discovered until the builder received two violations; that violation No. 4957-54 issued December 1, 1954 states that "contrary to approved plans—new one family dwelling changed to two family", and directed the builder to make the work conform to the approved plans; that violation No. 4958-54 issued December 1, 1954 states that "1 family dwelling being occupied by 2 families without a certificate of occupancy for same", and directed the use of the premises to be discontinued until a certificate of occupancy has been issued; that an amendment was filed on October 18, 1954 requesting that plans be approved as a two family dwelling, which was turned down by the building department in that a two family dwelling could not be erected in an E-1 area district unless the side yard requirements complied with section 15-A and 18 of the zoning resolution; that the sum of the widths of the side yards in this dwelling amount to 3 ft. 6 in., which is in violation of the zoning resolution; that the zoning resolution requires an aggregate sum of 15 ft. for side yards; that the sum of the side yards amount to 3 ft. 6 in., the difference being 11 ft. 6 in.; that the zone was changed from residence D to E-1 on May 13, 1954, after plans had been approved as a one family dwelling, permit issued and work started; that the builder was unaware that the zone had been changed; that the builder received a deposit from the present owner on May 5, 1953 for a two family dwelling; that title on this property was closed on December 2, 1954 and \$1,500 was held in escrow by the Astoria Federal Bank pending delivery of certificates of occupancy; that the present owner moved into the dwelling in the latter part of July, 1954; that it is now requested that this structure be permitted to remain as a two family dwelling in view of the extreme hardship that would be encountered by the owner in reverting the house back to a one family; that this would involve a great deal of expense and also deprive him of the income he now receives from the rental of the other apartment; that the owner made the purchase of this dwelling primarily with the thought in mind that the other apartment would help him to meet the carrying charges; that he is an innocent party in this case and made the purchase in good faith that he would receive a two family dwelling; that the owner appeals to the Board to exercise its authority and find a favorable decision in his

behalf in allowing this structure to remain as a two family house; and

WHEREAS, the applicant states that the present owner has held title to the property since December 2, 1954; that the assessed valuation of land is \$1,000 and of the building \$10,000 making a total of \$11,000; that the building was erected in May, 1953; and

WHEREAS, it was stated that other houses in the area recently constructed and completed prior to the change of zoning, were approved for two family occupancy; and

WHEREAS, in the opinion of the Board, the record indicates that the building was substantially complete before the change of zoning to E-1 on May 13, 1954, and compiled as to yards and courts with the requirements of the prior D zoning; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that application be and it hereby is *granted* under Section 21 to permit the building to be occupied as proposed as a two-family dwelling *on condition* that the building comply in all other respects with the requirements of all laws, rules and regulations applicable at the time of the issuance of the permit and the substantial completion of the dwelling; and that all permits, including a Certificate of Occupancy, shall be obtained and all work completed within six months from the date of this resolution.

538-55-BZ

APPLICANT—Leonard F. Rothkrug, for Anne Brown, owner.

SUBJECT—Application July 1, 1955—(decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, non-automatic laundry, office, sales area, utility room and lubricatorium.

PREMISES AFFECTED—995-1007 McDonald avenue and 47-57 Lawrence avenue, northeast corner, Block 5419, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: Norman E. Henkin.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating 3

Negative: 0

Not Voting: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 24, 1956 after due notice by publication in the Bulletin; laid over to February 21, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and McDonald avenue are in a business use, C area, class 1 height district; Lawrence avenue is in business and residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 17, 1955 acting on N.B. Applic. 1541-55, reads:

"1. Proposed building and premises to be used for gasoline service station, non-automatic auto laundry, offices, sales area, utility room and lubricatorium, in a Business zone is contrary to article II, P. 4a, subsection 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 109 ft. 8¼ in. frontage by 103 ft. 3 in. in depth, irregular, presently vacant; that it is proposed to

MINUTES

erect a modern gasoline service station, consisting of ten 550 gallon tanks and six outside pumps; that the proposed accessory building will be a modern, one story, class 3 building containing the conjunctive uses of office and sales, lubritorium, non-automatic auto laundry and utility room; that the use district maps show the premises to be located entirely within a business use, C area, class 1 height district; that both Lawrence and McDonald avenues are in business use districts; that no change has been made in the use district designation affecting this plot since the passage of the zoning resolution on July 25, 1916; and

WHEREAS, the applicant contends that the premises fronts on McDonald avenue; that the elevated line of the New York City transit system runs along McDonald avenue, making the premises dark and unattractive and the presence of the supporting columns all add to make this property undesirable for development with a conforming use; that the proposed gas station was a conforming use at the time of the passage of the zoning resolution in this use district; that when the use district regulations were amended to prohibit the proposed use, the responsible authorities failed to rezone those areas in which development with conforming uses would be impractical and not economical and as a result, land which would be valuable for development with manufacturing and unrestricted uses remains vacant, non-income producing and accumulation places for garbage and debris; that all along McDonald avenue under the shadow of the elevated transit line there is vacant, non-income producing property, except near the heavily trafficked intersections; that block 5440, lots 35 and 37, block 5441, lots 22, 28 and 31 (entire street frontage) and block 5426, lot 7, are all vacant; that this condition exists for a considerable distance north of 18th avenue to Ft. Hamilton parkway and south of Parkville avenue (out of the affected area); that there are no gas stations along the east side of McDonald avenue within this neighborhood; that there is a gas station, out of the affected area, on the west side of McDonald avenue believed to have been erected when the zoning resolution permitted such use; and

WHEREAS, the applicant states that the present owner has held title to the property since June 22, 1955 and that the assessed valuation of land is \$11,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and shown on plans filed with this application, marked "Received July 1, 1955", 3 sheets and "February 17, 1956", 1 sheet, *on condition* that all buildings and uses shall be removed from the site and the premises leveled substantially to the grade of the abutting streets; that the accessory building shall be of face brick on all sides, shall have no cellar and be removed from the rear lot line for a distance of 4 feet and shall comply in all other respects with the requirements of the Building Code; that pumps shall be of a low approved type, erected not nearer than 15 ft. to the street building line of McDonald avenue; that on the northerly lot line there shall be erected a masonry wall not less than 5 ft. 6 in. in height, of brick agreeing with that of the accessory building; that a similar wall shall be erected on the easterly lot line to the street building line of similar height except it may be reduced to 4 ft. 6 in. within ten feet of the street building line; that the wall above specified on the easterly building line shall be moved westerly so that such wall shall be located on a line with the accessory building 4 feet from the lot line; that curb cuts shall be restricted to two on McDonald avenue, each not over 30 feet in width, and one to Lawrence avenue

of similar width, within the first 25 feet from the intersection; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the intersection of a post standard to support a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that no curb cut shall be nearer than 5 feet to a side lot line as prolonged; that at the intersection there shall be erected a block of concrete not less than 12 in. in height and extending 5 feet along each side of the intersection; that there may be installed ten 550 gallon approved gasoline storage tanks; that the sidewalk and curbing abutting the premises shall be constructed or restored to the satisfaction of the borough president; that the balance of the premises where not occupied by accessory building or pumps shall be paved with concrete or asphaltic paving; that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

691-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Tony and Marie Lanza, Frank Mascali and Sons, Inc., and A. Wollheim and Sons, Inc., owners.

SUBJECT—Application August 2, 1955—re (decision of the borough superintendent) under sections 7f, 7i and 7A of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing, store, utility room, paring and storage of motor vehicles; proposed curb cuts less than 75 ft. from the residence use district.

PREMISES AFFECTED—1774-1798 Nereid avenue and 4400-4406 Barnes avenue, south east corner, 4385-4389 Wickham avenue and 4386-4390 Gunther avenue, Block 5051, Lots 44, 50, 45 and 51, Borough of The Bronx.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: Harry Lesser and Edwin J. Buehler.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connors ... 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 17, 1956, after due notice by publication in the Bulletin; laid over to February 21, 1956, for inspection and decision; hearing closed; applicant to file revised plans in meantime; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, C area, class 1 height district; Nereid avenue is in a business use, C area, class 1 height district; Wickham avenue is in business and residence use, C area, class 1 height districts; Gunther avenue is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 20, 1955 acting on N.B. Applic. 551-55, reads:

"1. In a business use district the proposed "Gasoline service Station, Lubritorium, minor auto repairs, car washing, store, utility room, parking and storage of motor vehicles" is contrary to Art. II, Sect. 4 of the Zon. Res.

2. Curb cuts must comply with restrictions of Sect. 7-A of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 164.59 ft. frontage by 90 ft. in depth, irregular, on which are located 12 one-car garages; that it is proposed to secure a variance for a period of 15 years in order to

MINUTES

demolish the present structure and erect a modern gasoline service station consisting of seven 550 gallon gasoline storage tanks and 4 dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 44 ft., a depth of 27 ft. 8 in. and will contain the conjunctive uses of lubritorium, car wash, minor auto repairs, store and utility room; that the open area will be used for the parking and storage of motor vehicles; and

WHEREAS, the applicant further states that the premises are presently developed with 12 one-car garages, one story in height, of class 3 construction having a frontage of 97 ft. and a depth of 18 ft. 10 in.; that department of buildings records show that permit No. 2745-1927 was issued for a two car garage on lot No. 45, but no records were found for the balance of the garages and no certificate of occupancy was issued; and

WHEREAS, the applicant contends that Barnes avenue and Nereid avenue are main and busy auto lanes leading across the Bronx; that there are no other gasoline stations within the affected area and the large home development in the area has created a vital need for said service; that there are sufficient stores now in the area for public requirements so that it would be unfeasible to erect additional stores and the high assessed value of the land makes it mandatory that it be developed as proposed; that the building will be modern in design and improve the appearance of the community; that the clean and efficient manner in which the business will be conducted will also improve conditions in this area; that the curb cut as indicated on Gunther avenue is required for efficient operation of the station and will not affect the residential aspect of this street to any greater extent than all of the curb cuts used for private garages; that due to the angle of which Barnes avenue and Gunther avenue intersect and the open space produced by this intersection, neither the premises west or south could possibly be affected by the proposed curb cut on Gunther avenue; and

WHEREAS, the applicant states that the present owner has held title to lots 44 and 45 since December 20, 1951; lot 50, June 2, 1952; lot 51, May 18, 1955; that the assessed valuation of land is \$27,000 and of the building \$3,000 making a total of \$30,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision f, i and A of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 551/55, Objection Nos. 1 and 2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

946-55-BZ

APPLICANT—Paul C. Reilly, for Archbishopric of New York, owner.

SUBJECT—Application November 28, 1955—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, B area district, the erection of a building to be used as a church and rectory exceeding the permitted area of lot coverage.

PREMISES AFFECTED—59-65 Park avenue and 102-104 East 38th street, southeast corner, Block 893, Lots 87, 88, 90, 91 and 92, Borough of Manhattan.

APPEARANCES—

For Applicant: Gilbert Lazerus and Paul Stirm.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating3

Negative:0

Absent: Deputy Chief Connors.....1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application

February 21, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, Class 1½ height district; Park avenue is in a Residence and Restricted Retail use, B area, Class 1½ height district; East 38th street is in a Residence use, B area, Class 1½ height district;

WHEREAS, the decision of the Borough Superintendent, dated October 27, 1955, on N.B. Applic. 212-55 reads:

"1. Proposed church in a residence use district and a B area district covers a greater area of the lots than is permitted by Art. 4, Sect. 12 (b) of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a lot 99.2 ft. front by 120 ft. depth, now vacant, upon which it is proposed to erect a three story basement and mezzanine, Class 2 constructed building, 81 ft. in height to the roof of the rectory and 93 ft. in height to the top of the tower roof beams; the building will be 72 ft. by 120 ft. in area and will be used as a Church and rectory; and

WHEREAS, the applicant states that this is an application under Section 21 of the zoning resolution to permit the erection of a proposed church in a residence use, B area district, covering more than the area permitted by Sect. 12, subdivision b of the Zoning Resolution; and

WHEREAS, the applicant contends that Sect. 12 (b) provides that no non-residential building in a residence, B district shall occupy at the curb level more than 65 per cent of the area of the lot if an interior lot, or 80 per cent if a corner lot; that the plot in question has a total area of 11,900 sq. ft. and a maximum coverage permitted is 71 and ⅓ per cent, or 8,485 sq. ft.; that the proposed building will occupy 81 per cent of the plot at the curb level, or 9,600 sq. ft., or an excess of 1,115 sq. ft. over the maximum permitted by Sect. 12 (b); that, however, at the level 20 ft. above the curb the building will occupy only 64⅓ per cent of the plot or only 7,657 sq. ft. of a maximum permissible coverage of 8,484 sq. ft.; that at the level of 52 ft. above the curb the building will occupy only 30 per cent of the plot, or 3,660 sq. ft. of the total permitted 8,485 sq. ft.; that the proposed church, therefore, will provide considerably more light and air than would be provided by a conforming structure built on the maximum permitted area but covering such area to the maximum permitted height; and

WHEREAS, the applicant contends that the properties adjacent on both the east and the south occupy more than the permitted coverage permitted by Sect. 12 (b); that the wall of the building adjoining on the south has no windows facing on the lot in question; that the wall of the building adjoining on the east has very few windows facing the plot in question, which will be affected by the proposed structure; that by reason of the depth of the existing buildings on the block, the block ventilation has been established and will not be affected by the proposed building; that if proposed structure were limited to the coverage permitted there would have to be a substantial reduction in the seating capacity to the detriment of the persons who live and work in the area and desire to attend the proposed church; that the strict enforcement of the area requirements in this case would result in practical difficulty and unnecessary hardship and serve no useful purpose, and in addition would result in discrimination against this particular property against the buildings which adjoining it without any equivalent public good; that the granting of the variation herein sought will in no way affect the surrounding area; that the granting of the variance herein sought would be in harmony with the general purpose and intent and would work no injury to the public health, safety or general welfare and should be granted in the interest of substantial justice; and

WHEREAS, the buildings on the abutting lots on Park avenue and on East 38th street appear to be solid walls on their own lot lines and far exceed the permitted area coverage presently in force; and

MINUTES

WHEREAS, the proposal to have reduced coverage above twenty feet more than offsets the coverage at curb level and is to great advantage as to increased light and air; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standard and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to area, to permit the premises to be developed for the church and rectory substantially as proposed and as indicated on plans filed with this application marked, "Received November 28, 1955" (2 sheets) and "December 22, 1955" (9 sheets) on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 1:15 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

REGULAR MEETING

TUESDAY AFTERNOON, FEBRUARY 21, 1956
2 P.M.

Present: Chairman Murdock, Commissioner Kleinert and Commissioner Keating.

355-52-SA

APPLICANT—Selmix Dispensers, Inc., owner.

SUBJECT—Application reopened December 20, 1955—re amendment to resolution so as to include Model 8600—re Selmix Fountainette, Model 1400; previously approved.

APPEARANCES—

For Applicant: Ray Drechsler.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 355-52-SA

Subject: Amendment to resolution so as to include Model 8600.

Selmix Dispenser Inc., New York requested by letter dated December 6, 1955 that the resolution adopted January 30, 1953 under Cal. No. 355-52-SA be amended so as to include Model 8600. The application was reopened by a vote of the Board December 20, 1955.

Description

The model 8600 is similar to the model 1400 (approved by the Board January 30, 1953 under Cal. No. 355-52-SA) except that the entire cabinet is now of stainless steel and the refrigeration unit is either a $\frac{1}{3}$ HP Kelvinator sealed refrigeration unit using 4 lbs. of Freon 12 or a $\frac{1}{3}$ HP Servel sealed refrigeration unit using 4 lbs. of Freon 12. In all other respects the model 8600 is similar to the model 1400.

Recommendation

The Committee on Test recommends that the resolution adopted January 30, 1953 under Cal. No. 355-52-SA be amended so as to include the model 8600 Selmix Fountainette on condition that the requirements of the resolution adopted

January 30, 1953 under Cal. No. 355-52-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 30, 1953 in accordance with the above report.

544-54-SA

APPLICANT—American Sterilizer Co., owner

SUBJECT—Application June 21, 1954—Gray Diverter Valve Model 7A, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 544-54-SA

Subject: Gray Diverter Valve, Model 7A.

American Sterilizer Company, Bellerose, New York filed June 21, 1954 an application with the Board of Standards and Appeals for approval of the device known as the Gray Diverter Model A under the provisions of the Submerged Inlet Rules of the Board.

Purpose

The appliance is a bed pan rinsing unit.

Description

The diverter is installed on an existing flush valve and is so constructed that a deodorizing solution cannot be introduced into the rinse water by a venturi action.

In installation the diverter valve is connected in the upper end of a short tail piece. The top tail piece is then attached to the upper or flow section of the diverter valve.

In use, when the arm of the diverter valve is in a vertical position, no water goes through the diverter valve and the plumbing fixture is fully flushed without any diversion of water, when the arm of the diverter valve is in the horizontal position one gallon of water is diverted from the main flush and goes through the spray head of the diverter valve thereby cleaning the hospital bed pan.

Inspection and Test

A sample of the valve was inspected by Asst. Engr. J. A. Darts Committee on Test and detail of the construction was compared with Drawing E 16436 marked Rec'd June 29, 1955. The appliance was also inspected by Mr. M. Bade, Chief, Division of Hospital, and Institutional Inspection, Department of Hospitals, who found no objectionable features.

Recommendation

On the basis of the inspection and the data filed by the applicant, The Committee on Test recommends the approval of the appliance known as the Gray Diverter Valve Model 7A for voluntary use in New York City when constructed in accordance with Drawing #16436, copies of which are on file with this application, on condition that the vacuum breaker used in conjunction with the flush shall be an approved vacuum breaker that the diverter shall be constructed as herein described without any attachment for the deodorant attachment and that each appliance shall bear a label permanently attached reading as follows: "Approved by the Board

MINUTES

of Standards and Appeals for use in New York City under Cal. No. 544-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

105-55-SA

APPLICANT—Thatcher Furnace Co., owner.
SUBJECT—Application February 9, 1955—Thatcher Oil Burner, Model 532-70, 532-100 and 532-140, for heating homes, garages, filling stations or similar spaces, approval of.

APPEARANCES—

For Applicant: Harry S. Gibbard.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 105-55-SA .

Subject: Thatcher Oil Burner, Models 532-70, 532-100 and 532-140 (for domestic and commercial use).

The Thatcher Furnace Company of Garwood, New Jersey filed February 9, 1955 an application with the Board of Standards and Appeals for approval of the Thatcher Oil Burner, Models 532-70, 532-100 and 532-140 under the provisions of C19-57.0 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A horizontal floor or suspended ceiling oil burner unit for domestic or commercial installation.

Description

The unit consists of a heavy gauge steel heat exchanger with continuous electrically welded in a steel cabinet placed on a floor or suspended from the ceiling. An air filter is provided at the end of the cabinet. A blower of squirrel cage type with self aligning bearings is provided. The motor is a 1/2 HP split phase type for model 532-70, a 1/3 HP for model 532-100 and 1/2 HP for model 532-140.

The models differ as to width, height and depth. Model 532-70 being 61 inches wide, 26 inches high and 25 inches in depth, Model 532-100 is 71 1/2 inches wide, 28 inches high and 28 inches in depth, Model 532-140 is 91 13/16 inches wide, 30 3/4 inches high and 30 3/4 inches deep. The fan is a sirocco type. The controls are Minneapolis-Honeywell or equal and consist of Limit Control, Thermostat and pressuretrol. The appliance has been listed by the Underwriters Laboratories.

Inspection and Test

The appliance was inspected and tested at 64th Street, Queens. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and Dan J. Buckley representing the applicant. The burner is an assembly of approved parts suitable for use with each other for the service intended as approved and the burner is provided with suitable safeguards to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range and was found to function properly as designed.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Thatcher Oil Burner, Models 532-70, 532-100 and 532-140 for use in New York City in domestic and commercial installations with fuel oil not heavier than No. 3. U. S. Dept. of Commerce standards when installed in accordance with this report and the Oil Burner Rules of the Board of Standards and Appeals provided the burner bears a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 105-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

207-55-SA

APPLICANT—Gilbert and Barker Manufacturing Co., owner.

SUBJECT—Application March 4, 1955—Gilbarco Oil Burner Model C6 and Esso Oil Burner, Model C6, approval of.

APPEARANCES—

For Applicant: William Keay and R. C. Beckman.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating.....3
Negative 0
Absent: Deputy Chief Connors.....1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 207-55-SA

Subject: Gilbarco Oil Burner Model C6 and to be Marketed as Esso Oil Burner Model C6.

The Gilbert and Barker Manufacturing Co., owner, filed March 4, 1955 an application with the Board of Standards and Appeals for Approval of the Gilbarco Oil Burner Model C6, also marketed as the Esso Oil Burner Model C6 under the provisions of C19-57.0 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A high pressure type atomizing oil burner for application to conversion types of installation.

Description

The oil burner is designed with a firing range of 20 gallons per hour minimum and 40 gallons per hour maximum. It is equipped with dual nozzles, dual ignition, and dual transformers. The controls are Minneapolis-Honeywell electronic type and consist of the R890C protectoratelay and the R482) relay, both of which are mounted on the oil burner. There is also a C7003A externally mounted photoelectric cell which guards against possible mechanical or electric failure. The control system meets all legal requirements of fast shut-down in the event of flame failure.

The sequency of operation of the control system is as follows:

Normal Operation: When the thermostat or operating control calls for heat, the load relay of the R890C is energized and provides current to No. 3 terminal of the R890C. This contact provides a direct connection for the twin ignition system as well as for the motor circuit which is powered through contacts No. 5 and No. 4 of the R4821D. When the flame is established, the C7003A photocell pulls in the flame relay of the R890C. This energizing contact No. 5 of the

MINUTES

R890C, which in turn establishes a holding circuit in the R482D relay through contact No. 8 to No. 1 of the R482D. This action transfers the motor load from 5 and 4 to 8 and 6 of the 582D. The burner is now in a normal running sequence.

On the shutdown, the load relay of the R890C is de-energized, opening the load contact which shuts down the entire burner.

The Gilbarco Model C-6 burner operates on constant ignition only.

Safety Shutdown: In the event of flame failure on a start, the flame relay of the R890C is not pulled in and the protector relay locks out in 45 seconds, providing a complete shutdown of the burner. The same sequence occurs if there is an ignition failure on a normal start of the equipment.

In the event of flame failure while the burner is running, the photocell de-energizes the flame relay of the R890C, which stops the burner motor in less than 4 seconds. However, the ignition circuit is still energized until the complete system is locked out by the R890C 45 seconds after the motor has stopped delivering fuel oil to the combustion chamber.

The Model C-6 oil burner is equipped with a $\frac{1}{3}$ h.p. motor with a built-in overload device. The motor drives the fan which provides the air for combustion and also the pump which delivers fuel to the nozzles. The fuel pump is a Tuthill gear type pump with a top capacity of 90 gallons per hour. The pressure regulating valve is located externally between the fuel pump and the combustion head assembly. The valve is a Monarch spring-loaded type and maintains pressure of the oil delivered to the nozzles.

The oil burner is also equipped with the Gilbarco Economy Clutch. This patented action device provides a stream of air prior to ignition of the oil and continues the air flow several seconds after the flame is extinguished. The combustion head assembly which includes the oil tube, combustion head, electrodes, nozzle, ignition leads and air tube is similar in detail and respect to other Gilbarco oil burners.

Inspection and Test

This burner was inspected and tested at the plant of the applicant and found to operate as designed with no flare backs or undue carbon deposits. With the oil cut off the controls functioned in 90 seconds. Present at the test were Chief Engineer, L. V. Huber of the Committee on Test and R. C. Beckman representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Gilbarco Oil Burner Model C6, also marketed as the Esso Oil Model C6 for use with fuel oil not heavier than No. 2 U.S. Dept. of Commerce standards, when installed and operated in accordance with this report and the provisions of C19-57.0 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals provided each burner bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. 207-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

283-55-SA

APPLICANT—Gilbert and Barker Manufacturing Co., owner.

SUBJECT—Application March 29, 1955—Gilbarco Gasoline Dispensers Model 904 RC, 906 RC, 904 HGRC and 906 HGRC, approval of.

APPEARANCES—

For Applicant: William Keay and R. C. Beckman.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Cal. 283-55-SA

Subject: Gilbarco Gasoline Dispensers Models 904RC, 906RC, 904HGRC and 906HGRC.

Purpose

The appliances are used for the dispensing of gasoline.

Description

These are single dispensers; they are identical in outward appearance as well as interior construction to models 904 and 906 previously approved by the Board under Cal. No. 510-53-SA except that the new dispensers are designed for remote control operation and therefore the motor, pump unit-air separator, and air separator pump have been removed. Air separation with remote control systems takes place at the remote control pump unit which pumps products to the dispenser on the service station island.

The new model 904RC and 906RC, 904 HGRC and 906HGRC are equipped with the same interlocked devices, visigauge, meter, piping and hose arrangement as the model 904 and 906. The new dispensers are also equipped with a feed line valve with a built-in relief device. They are also equipped with a combination strainer and check valve with a built-in relief device. The valve is located at the line connection at the base of the dispenser.

The remote dispensers of which there are four models are as follows: Model 904RC is similar to Model 904 but is built for remote control operation with the motor, pump unit air separator and pump removed. Air separation takes place at the remote pumping unit, which pumps product to the dispenser. Delivery of product to the nozzle is accomplished by means of handle on the side of the dispenser and which is used to start and stop the remote pump unit motor. The handle is also connected to a feed line valve operated by a rod which opens and closes the valve in sequence with the start and stop of the remote control pump unit motor. The feed line valve is equipped with a built-in relief device which prevents excessive pressure in the visigauge meter and hose from the expansion of gasoline during the hot weather. The feed line valve also prevents pressure in the hose of other dispensers connected to the same supply line and not in operation while dispensing gasoline from the dispensers in operation. The dispenser is also equipped with a combination strainer and check valve with built-in relief set at 35 pounds per square unit to permit excessive pressure in the system. The valve is located at the line connection at the base of the dispenser. The model 904RC with an outside loop type of hose arrangement which extends 13'6" from the side of the dispenser to the nozzle tip. The dispenser will deliver up to 15 gallons per minute. Model 906RC is similar to Model 906 and its features are exactly the same in design and application to Model 904RC with the exception of the hose arrangement. The Model 906RC is equipped with a retractable hose arrangement and extends 13'8" from side of the dispenser to the nozzle top. The dispenser will deliver up to 15 gallons per minute.

Model 904HGRC is similar to Model 904RC except that the piping hose and nozzle have been increased in size to permit high gallonage delivery of product. The letters HG is of high gallonage installation to dispense the product to motor trucks. The dispensers will deliver up to 22 gallons per minute.

MINUTES

Model 906HGRC is similar to Model 906RC. The only variation is that the piping hose and nozzle has been increased in size to one inch in diameter to increase delivery of the product. The letters HG indicate the dispenser is for high gallonage installation to dispense product to motor trucks. The dispenser will deliver up to 22 gallons per minute. All four model dispensers are equipped with a Gilbarco meter, a computer, a visi-gauge and interlock located in the same relative position as on the gasoline pumps previously approved by the Board.

These models have been tested by the Underwriters Laboratories Inc., File MH1941, Guide #6003.4.

Inspection and Test

These gasoline dispensers were inspected at the plant of the applicant at West Springfield, Mass. and found to operate as designed. Present at the test were Chief Engineer, L. V. Huber, of the Committee on Test, William Keay and R. C. Beckman, representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Gilbarco Dispensing pumps Models 904RC, 906RC, 904HGRC and 906HGRC for use in New York City under the provisions of C19-69.0 Administrative Code, on condition that each pump have a label permanently affixed reading "approved by the Board of Standards and Approved for use in New York City under Cal. No. 283-55-SA."

Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

296-55-SA

APPLICANT—Stromes Systems, Inc., owner.

SUBJECT—Application April 18, 1955—Stromes Systems, Inc., Recirculating Oven (electrically heated), Models SBE and SFE, approval of.

APPEARANCES—

For Applicant: Peter W. Stromes and Wallace Whiteside.
ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating.....3
Negative: 0
Absent: Deputy Chief Connors.....1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 296-55-SA

Subject: Stromes Systems Inc., Recirculating Oven (electrically heated), Models SBE and SFE.

Strome Systems Inc., New York filed April 18, 1955 an application with the Board of Standards and Appeals for approval of the appliance known as the Stromes System Inc., Recirculating Oven (electrically heated), Models SBE and SFE under the provisions of the Paint Spraying Rules of the Board.

Purpose

The appliance is used for the bake drying of various non-combustible articles finished with enamels, japans, lacquers and finishes of that nature.

Description

The oven shell is of double wall construction. The exterior and interior walls are fabricated of 20 gauge steel and the

space between the walls are insulated with 3 inches of fiber-glas or mineral wool.

The doors of the oven are equipped with explosion releasing latches and ball bearing hinges.

The recirculating blower and motor is mounted in a self-contained housing. An air flow switch is provided in recirculating system to shut-off heating elements in the event of recirculating failure. This switch is wired to an alert alarm.

The ovens are equipped with a purging blower to provide ventilation to outer air and this blower is provided with an air flow switch that will cut-off the heating elements and sound an alarm in the event of purging failure.

The heating elements are stainless steel tubes 0.44 inches thick containing a spiral of nichrome wire imbedded in insulating refractory material. The elements have a wattage density of not more than 15 watts per sq. inch and the heaters are provided with a stainless steel screw terminal and the ends are unheated for a length of 6 inches.

The heating system is located in a partitioned enclosure separated from the working chamber and are securely mounted in this chamber with the cold ends projecting out through the oven walls into an interior terminal box.

The controls consists of the following: One master switch (fused); heater current contractor; manual motor starters with thermal overload protection; temperature control; temperature limit control; alert alarm; alarm relay and air flow switches.

Inspection and Test

An oven was inspected and tested at 411 East 108th Street, New York by Asst. Engr. J. A. Darts Committee on Test. The oven functioned as designed and the controls operated as required. In addition pieces of news print were draped over the heating elements and at the end of one half hour, under operating conditions with the heating elements and circulating blower in operation, the paper was barely charred.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Stromes Systems Inc., Recirculating Oven (electrically heated), Models SBE and SFE for voluntary use in New York City when constructed as herein described and installed in accordance with the requirements for all paint drying ovens under the requirements of the Paint Spraying Rules of the Board and all electrical work shall be in compliance with the requirements of the Electrical Code and that the ovens bears a label permanently attached reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 296-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

358-55-SM

APPLICANT—Keystone Portland Cement Co., owner.

SUBJECT—Application April 19, 1955—Keystone Air-Entraining Portland Cement, approval of.

APPEARANCES—

For Applicant: W. R. Heckendorn.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3
Negative 0
Absent: Deputy Chief Connors 1

MINUTES

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 358-55-SM

Subject: Keystone Air-Entraining Portland Cement.

Keystone Portland Cement Company, New York filed April 19, 1955 an application with the Board of Standards and Appeals for approval of the material known as Keystone Air Entraining Portland Cement under the provisions of C26-312.0.C2 Administrative Building Code and the Rules of the Board adopted under Cal. No. 64-55-SR.

Purpose

The material is portland cement used in building construction.

Description

In the manufacture of air entrained cement, the applicant introduces an air entraining agent into the regular portland cement. The agent is added directly to the mill by means of feed pumps which insures a controlled amount of the agent and also a complete intermixing with the portland cement.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts Committee on Test and samples of the Type IA and IIIA were collected, placed in containers and sealed. The sealed containers were submitted to the laboratory for test in accordance with the requirements of the Rules for approval of Air Entraining Cements adopted under Cal. No. 64-55-SR.

Both types, namely type IA and IIIA met the requirements. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Keystone Air Entrained Cement, Types IA and IIIA as manufactured at the applicants plant at Bath, Pa., as meeting the requirements of C26-312.0 Administrative Building Code as supplemented by the General Resolution adopted under Cal. No. 64-55-SR for use in New York City under C26-191.0 Administrative Building Code and the permissive uses under Cal. No. 64-55-SR on condition that the type of cement shall be legibly marked and that each bag or container shall be marked, tagged or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 358-55-SM," including the type of cement and when marketed in bulk for use in New York City, the bill of lading shall be similarly marked.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

379-55-SM

APPLICANT—George E. Strehan, for Lally Column Co. of New York, Inc., owner.

SUBJECT—Application May 4, 1955—Lally Column Co. of New York Inc., Light-Weight Lally Columns (3½" and 4" O.D.), approval of.

APPEARANCES—

For Applicant: George E. Strehan and E. J. Krottander.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating 3
Negative: 0
Absent: Deputy Chief Commors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF THE COMMITTEE ON TEST

Re: Cal. 379-55-SM

Subject: Lally Light Weight Column 3½" and 4" O.D.

G. E. Strehan for Lally Column Company of New York Inc., filed May 4, 1955 an application with the Board of Standards and Appeals for approval of the material known as Lally Light Weight Columns 3½" and 4" O.D. under the provisions of C26-191.0 Administrative Building Code.

Purpose

The columns are designed for basement and cellar columns in residential buildings.

Description

The columns consist of 3½" and 4" O.D. shells; the shells are new steel tubing complying with SAE 1010 having an ultimate tensile strength of 45,000 psi and a yield of 32,000 psi. The concrete filling this tube is of a mix of 1:1½:3. The concrete is poured into the tube and rodded and vibrated in order to give a compact mass base plate and top plate; 8" x 8" x ¼" are welded onto the tube.

Inspection and Test

Make-up of the specimens was witnessed by Asst. Engr. J. A. Darts Committee on Test and the identified columns were load tested at Columbia University in the presence of Asst. Engr. J. A. Darts, Committee on Test and G. E. Strehan representing the applicant.

Results of the test were as follows:

HOW TESTED — Compression

Load at failure — 4" — 101,500 lbs. average
3½" — 70,000 lbs. average

Recommendation

The Committee is of the opinion that the safe carrying load of the columns be based on the following formula.

P—(Ac plus 12As) (1600 — 24 L/D).

P—Safe carrying capacity.

AC—Area of concrete.

AS—Area of steel.

L—Length of column in inches.

D—Diameter in inches.

and the ultimate load at failure shall be 3 times the computed load as figured by the above formula for the greatest length tested and, therefore, the Committee recommends the approval of the Lally Light Weight Columns 3½" and 4" O.D. on the following conditions:

Safe Carrying concentric loads to be—

Diameter	Shell Thick- ness	Steel Area	Concrete Area	Load in Kips Length in Feet
3½"	0.095	1.01	8.61	6' 7' 8' 9' 23 21 19 18
4"	0.095	1.17	11.39	30 28 26 24

when filled with a concrete of a mix as herein described in sizes of 3½" and 4" for use in New York City in length not exceeding 9'0" in accordance with the table of safe carrying concentric loads on condition that all edges of the shell are to be cut true and square to longitudinal axis by rotating shell during cutting. All holes in caps and bases for bolts, etc., are to be punched or drilled before the plates are welded. All welding must be in accordance to the requirements of the Rules for Fusion Welding of the Board of Standards and Appeals.

MINUTES

Cap and Base must be pressed tightly against the shell when welded.

A $\frac{1}{4}$ " inspection hole must be maintained clear through the column at the $\frac{1}{3}$ point of length.

Each column shall be marked as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 379-55-SM", in such a manner as to be readily discernable to an inspector even though the column is painted and erected in a building.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

569-55-SM

APPLICANT—Lumin-Glo Ceiling Corporation, owner.
SUBJECT—Application June 28, 1955—Lumin Glo Ceiling, approval of.

APPEARANCES—

For Applicant: Irving Greenberg.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 569-55-SM

Subject: Lumin-Glo Ceiling.

I. Greenberg for Lumin-Glo Ceiling Corporation, New York filed June 28, 1955 an application with the Board of Standards and Appeals for approval of the material known as Lumin-Glo under the provisions of C26-461.1 Administrative Building Code.

Purpose

The ceiling is to be used as a light diffuser.

Description

The system consists of corrugated translucent plastic sheets supported on metal members which are themselves suspended from the ceiling floor or roof above.

The plastic sheet is a corrugated rigid vinyl chloridvinyl acetate sheet and the thickness of the sheet is 0.0075".

The ceiling clip is of sheet steel, the hanger rods are $\frac{1}{4}$ " cold rolled steel and the channel and rails are of extruded aluminum.

The installation is as follows:

The ceilings hanger or clip is attached directly to the ceiling floor or roof above and the $\frac{1}{4}$ " steel hanger is inserted into the clip. The other end of this hanger is "J" shaped and is inserted into an inverted "U" on top of the main carrying member. The hook assembly and ceiling clip are installed 3'-0" on centers in one direction and a maximum of 8'-0" on centers perpendicular to those on 3'-0" so that a grillage is set up supporting 3'-0" in one direction and 8'-0" in the other direction.

Inspection and Test

Load tests were conducted in the presence of Asst. Engr. J. A. Darts Committee on Test and I. Greenberg representing the applicant. The tests were conducted on the plastic itself in both upward and downward directions and on the carrying members in both upward and downward.

Results of the test are as follows:

PLASTIC— downward— 5 lbs./sq. ft.— not dislodged.
" — upward —12 " — plastic forced up.
TRACK — downward— 20 lbs. — no deflection.
" — upward —20 lbs. — 1/16" deflection.

Plastic itself met the requirements of C26-461.1 Administrative Building Code as to self-extinguishing properties.

MINUTES

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Lumin-Glo Ceiling (plastic light diffusing ceiling) for installation in New York City when constructed of materials as herein described and installed in accordance with the requirements of C26-461.1 Administrative Building Code on condition that the main carrying members shall be carried on straps as herein described secured to the ceiling, floor or roof construction above, that wires shall not be used in the suspension system and further that all plans filed with the Department of Housing and Buildings showing the proposed use of this system shall be marked or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 569-55-SM," and that the containers or cartons in which the material is marketed shall be similarly marked. It is further recommended that the use of this material in Class I and II construction be limited to an area to be covered not to exceed 10,000 sq. ft. in area and only when such space is separated from the remainder of the floor area by an approved wall, fire wall, fire partition or fireproof partitions. In class III, construction shall be limited in accordance with the requirements of the Administrative Building Code.

The Committee further recommends that as C26-1354.0 Administrative Building Code was amended by Local Law 105 of 1955 to allow the use of this type of light diffuser in locations as permitted under C26-1351.1 Administrative Building Code as amended by Local Law 91 of 1954, plans filed with the Department of Buildings and will also show the proposed occupancy so that the use of this ceiling in the proposed location may be checked as to its use in the type of hazard occupancy as set forth under C26-1351.1 Administrative Building Code as amended by Local Law 91 of 1954. The Committee further recommends that in approving the installation, the Department of Housing and Buildings shall require that in the event of a change in occupancy the installation shall be re-examined under C26-1354.0 Administrative Building Code as amended by Local Law 105 of 1955.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

632-55-SM

APPLICANT—Joseph A. Kucich, for RKL Building Specialties Co., Inc., owner.

SUBJECT—Application July 11, 1955—Zinaloy Zinc Cavity Wall Tie, approval of.

ert and Commissioner Keating..... 3
Negative: 0
Absent: Deputy Chief Connors..... 1

THE RESOLUTION:

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 632-55-SM

Subject: RKL Zinaloy Zinc Cavity Wall Tie.

J. A. Kucich for R. K. L. Building Specialties Company, Inc., New York filed July 11, 1955 an application with the Board of Standards and Appeals for approval of the material known as RKL Linaloy Zinc Cavity Wall Tie under the provisions of C26-430.0.f Administrative Building Code.

Purpose

The material is to be used as a wall tie for anchoring hollow wall withes together.

Description

The wall ties are made of a special grade zinc alloyed with a minimum of $\frac{3}{4}$ of 1% copper.

The alloy has the following properties:

Physical

1. Specific Gravity	7.15
2. Weight—lbs/cu. in	.259
3. Electrical Conductivity	28.

Mechanical

Tensile Strength	
Parallel to grain	29,000—33,000 lbs.
Across grain	35,000—42,000 lbs.
Elongation	
% in 2" with grain	41—52%
% in 2" across grain	20—40%
Hardness	61—70%

The wall ties are a minimum of $\frac{1}{4}$ inch in diameter by 8 inches long, "Z" shaped with a center "Vee" drip.

Inspection

Samples of the wall tie were inspected at the office of the Board as to the design and the non-corrosive features of the tie by Asst. Engr. J. A. Darts Committee on Test.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the material known as RKL Zinaloy Zinc Cavity Wall Tie when manufactured of material as herein described for use in New York City under the provisions of C26-430.0.f Administrative Building Code on condition that each bundle or container in which the ties are packed or marketed shall be tagged or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 632-55-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

762-55-SA

APPLICANT—Gerity-Michigan Corp., owner.

SUBJECT—Application September 23, 1955—Gerity Dishwasher, Model A, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating..... 3
Negative: 0
Absent: Deputy Chief Connors..... 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 762-55-SA

Subject: Gerity Dishwasher, Model A.

Gerity-Michigan Corp., Adrian, Michigan filed September 23, 1955 an application with the Board of Standards and Appeals for approval of the device known as the Gerity Dishwasher, Model A under the provisions of the Submerged Inlet Rules of the Board.

MINUTES

Purpose

The appliance is a dishwasher of the hose and spray type which is furnished as a complete unit.

Description

The appliance is designed to take the place of an above rim sink spout. It contains an open tank with removable cover for the storage of a liquid detergent solution which supplies a spray attachment. The spray is manually operated by a diverting valve which is kept in a closed position to the spout when the spray is used.

The venturi throat in the handle of the spray is controlled by putting a finger over an air vent button activating a mixing process of the detergent solution with the flow of water. The diverting valve closes automatically when the faucets are shut off and also closes automatically when the pressure of the water falls to 8 psi, diverting the water from the spray to the spout without induction of the detergent solution. Within the assembly of the diverting valve is a vacuum breaker and check valve.

Back flow protection from hose and detergent tank is provided by a direct passage from water inlet to swing spout and by a vacuum breaker located in the water control portion of the unit. The vacuum breaker is a cylindrical rubber tube, flanged one end and flattened into a pair of lips on the opposite end. This is retained in an air bleed ring having four holes. A groove in this ring connects the four holes to atmosphere through a hole in the vacuum breaker housing. When a vacuum is applied to the water inlet, with the diverter valve open, the vacuum breaker lips close, the cylindrical portion collapses and uncovers one or more holes in the air bleed ring, this in turn vents the water supply line, to the venturi, to atmosphere to prevent back siphoning.

Inspection and Test

The appliance was tested at 32 Vanderwater Street, New York in the presence of Messrs J. P. Finnerty, H. Gralow and E. O. Bauman, Department of Water Supply, Gas & Electricity and Asst. Engr. J. A. Darts Committee on Test. The appliance was subjected to vacuum ranging from 27 inches of mercury to 7 inches and at no time did back flow occur.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection of test and the data filed by the applicant, the Committee on Test recommends the approval of the Gerity Dishwasher, Model A for use in New York City under the provisions of the Submerged Inlet Rules of the Board on condition that the appliance bear a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 762-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

918-55-SA

APPLICANT—Robert Teichman, for Simmons Industries, Inc., owner.

SUBJECT—Application November 10, 1955—Sky-Park (for parking of automobiles), approval of.

APPEARANCES—

For Applicant: Eugene M. Seccia.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative; Chairman Murdock, Commissioner Klei-
ert and Commissioner Keating 3

Negative: 0
Absent: Deputy Chief Commers 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 918-55-SA

Subject: SKY-PARK (for parking of automobiles).

Robert Teichman for Simmons Industries, Inc., Albany, New York filed November 10, 1955 an application with the Board of Standards and Appeals for approval of the appliance known as SKY-PARK (Mod. 1-A), a device for parking of automobiles under the provisions of C26-191.0 Administrative Building Code.

Purpose

The appliance is used for the parking of automobiles.

Description

The appliance essentially consists of a central column made of steel beams; one 21" WF62 and two 14" WF74 joined together to form an H column, and two platforms hydraulically powered attached to the central column, riding up and down on steel wheels.

The entire system is attached to a 2'-8" x 0'-1½" plate.

In erection the entire unit is anchored to a 9'-0" x 5'-2" x 1'-8" reinforced concrete base by means of four 1¼" bolts.

The upper platforms are independently operated and are similar to the familiar "wash racks" with the added features that the platforms are equipped with a protective pan to prevent dripping of oil, platform locks which hold the platforms in an elevated position making it impossible to lower unless power is applied and the hydraulic system is operating correctly, limit switch which controls the upward and downward travel of the platform, electric interlock plates, which prevent the lowering of the upper platform when another car is located beneath the raised upper platform.

Inspection and Test

The appliance was inspected and tested by Asst. Engr. J. A. Darts Committee on Test at 238 West 50th Street. The appliance operated as designed. The construction features were compared with the drawings submitted by the applicant marked Received November 10, 1955 and were found to comply.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as SKY-PARK for parking of cars for voluntary use in New York City; that the appliance be limited to two platforms, with a total parking of four cars, two on ground level and two on the upper level, that the control of all parking be under the supervision of the parking lot attendant at all times, who shall have the key for the push button control in his possession, that the use of this appliance shall be permitted only in parking lots as permitted under the Zoning Regulation or in parking lots granted under a variance by the Board and further that each appliance shall bear a label permanently affixed reading "Approved by the Board of Standards & Appeals for use in New York City under Cal. No. 918-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

MINUTES

PREMISES AFFECTED—315-323 West 69th street, north side, 225 ft. 3 in. west of West End avenue, Block 1181, Lot 19, Borough of Manhattan.

APPEARANCES—

For Applicant: Maxfield Blaufeux.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Commissioner Keating 3

Negative: 0

Absent: Deputy Chief Connors..... 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated October 6, 1954 on Alt. App. 767/52 reads:

"3. Building exits, including cellar, should comply with Sec. 270 of the Labor Law since factory is being introduced into this building which was erected in 1925."

and

WHEREAS, the applicant states that the building is five stories and basement and 64 ft. in height, 124 ft. 6 in. front by 100 ft. in depth at street level; 124 ft. 6 in. front by 90 ft. in depth at typical floor level, of fireproof construction, erected 1926, located in an unrestricted use, A area, class 2 height district, and used and occupied since 1926 as follows: basement to fifth floors inclusive, garage for more than five cars, five persons on each floor; and now proposed to be used and occupied as follows: basement—storage garage for more than five motor vehicles, 5 persons; 1st floor—motor vehicle repair shop; 20 persons; 2nd floor—motor vehicle repair shop, 6 persons; 3rd floor—motor vehicle repair shop, 5 persons; 4th floor—motor vehicle repair shop, 5 persons; 5th floor—motor vehicle repair shop, 5 persons; the building is provided with an approved standpipe system; there is one 3 ft. 8 in. wide interior steel stair enclosed in 4 in. concrete blocks, equipped with one-hour, fireproof self-closing doors and leading from roof bulkhead direct to street and one exterior stairs on the rear extending to roof by stairs, with egress through fireproof passage at basement level to street; and

WHEREAS, Certificate of Occupancy #10808 of 1926 was issued upon completion of work under N.B. App. 430 of 1925 and permits the present use and occupancy; and

WHEREAS, Violation No. 7766 was issued Dec. 11, 1952, for occupying the building, upon completion of Alt. App. 767/52, without obtaining a certificate of occupancy; and

WHEREAS, the applicant states the primary means of egress is an interior fireproof stairway, 3 ft. 8 in. wide, from basement to roof and leading direct to street; that the secondary means of egress consists of an exterior open 3 ft. 8 in. wide iron stairway, equipped with fireproof self-closing doors leading thereto, located at the rear in an open court and leading from the fifth floor to basement level with egress through the building and indirectly to the street; that in 1952 the premises were leased to an automobile sales and service agency and plans filed for interior alterations and change of use of the building under Alt. App. 767/52 and approved July 15, 1952 and a permit issued to perform the work, and the following occupancy was approved: 5 persons in the basement; 15 on the first; 15 on the second and 5 on each of the 3rd, 4th and 5th floors and the approved use was storage garage for more than five motor vehicles and motor vehicle repair shop; that all of the work described in the approved plans has been completed and accepted by each individual department inspector; that, however, upon filing an application for a certificate of occupancy the tenant was informed that two additional objections were raised as to exits not complying with Sec. 270 of the Labor Law, and that the fire alarm system is required; and Violation No. 7766 of 1952 was subsequently issued; that in 1954 an amendment was filed to reduce the number of occupants above the first floor thereby eliminating the installation of a fire alarm system, and attempting to have the department accept the existing exits; that the objection as to exits was repeated by the plan examiner who is of the opinion that

the building is now a factory and the plans were approved erroneously; and

WHEREAS, the applicant contends that the additional use of motor vehicle repair shop conjunctive with a legal storage garage is no more hazardous than the existing use; that to be required to provide an additional Labor Law exit within the building would create an undue hardship on the tenant who would also lose valuable storage space for which rent has to be paid and no income derived; and

WHEREAS, the applicant states that the rear exterior open stairway will be maintained in good repair; that the unoccupied space shown on the approved plans on the basement floor level connecting the stairway and leading to the street will be kept clear and unobstructed; and the exit doors within said space will not be provided with any locking device; that all the rules of the Fire Department will be complied with relating to garages and motor vehicles in order to safeguard life and limb of the employees.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 767/52, Objection No. 3 and that the appeal be and it hereby is *granted*, to permit the entrances as proposed and as indicated on plans filed with this appeal marked, "Received October 6, 1954" (13 sheets) and "February 17, 1956" (one sheet) *on condition* that the means of exit from all stories, as shown, including the passageway from the rear stairway to West 69th street, on plans above cited marked, "Received February 17, 1956" shall be constructed and maintained; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the repairing permitted shall be limited to the upper four floors, not including the cellar; and that such use shall be in accordance with the requirements therefor and subject to license by the fire commissioner as may be required.

28-55-A

APPLICANT—Continental Baking Co., owner.

SUBJECT—Application January 11, 1955—Appeal from an order and a decision of the fire commissioner, re direct method of refrigeration.

PREMISES AFFECTED—87-105 Heyward street, north side, 100 ft. east of Bedford avenue and 128 Rutledge street, Block 2225, Lot 10, Borough of Brooklyn.

Remaining Minutes of the Meeting of February 21, 1956 will be printed in the Bulletin of March 6, 1956.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

Adopted by the Board of Standards and Appeals February 3, 1939, effective in accordance with Section 666, Paragraph 2, of the New York City Charter, February 27, 1939, as amended December 4, 1942, effective December 28, 1942, as amended September 10, 1946, effective October 7, 1946 and as amended on February 10, 1948, effective March 8, 1948.

(Cal. No. 835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4 and C26-1277.0h, of the Administrative Building Code.

NOTICE IS HEREBY GIVEN that a Public Hearing will be held by the Board of Standards and Appeals on Friday, March 2, 1956 at 10 A.M. in Room 1013 Municipal Building, Manhattan, on the following Proposed Amendments to the Rules Relative to Submerged Inlets and Protective Methods to be Applied to Prevent Contamination of Water Supply.

Note: It is proposed to amend Rule 1 as indicated. New matter appears in *Italics*; old matter to be deleted appears in brackets [].

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules. All hose coupling outlets and serrated tip outlets for hose connections [within buildings] are deemed to be submerged inlets, and shall be independently protected with an approved vacuum breaker. [Outside hose coupling outlets for garden or sidewalk use, drain] *Drain* cocks for hot water and steam boilers and hose connections on fire fighting equipment are excepted. *Vacuum breakers for outside hose bibs shall be placed 24 inches above the surface of the ground near the hose bib and at least 12 inches above the top of the highest submerged lawn sprinkler.*

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum

breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarter inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washers or similar apparatus shall be equipped with an approved vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps.

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connections to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing more

than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker, and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

Rule 13. Steam Tables.

Steam tables used exclusively for the warming of food stuffs and provided with a water supply inlet elevation at least one inch above the overflow outlet, the area of which is at least four times that of the water supply piping, shall be equipped with an approved horizontal swing check valve in the water supply piping.

Where elevation of the water supply piping inlet is less than one inch above the overflow outlet, or when the area of the overflow outlet is less than four times that of water supply piping, the water supply piping shall be equipped with an approved vacuum breaker located at least four inches above the maximum overflow level of the fixture.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

PUBLIC HEARINGS

Tuesdays at 10 a.m. and 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engi-
neers, pertaining to the work of the board, will be seen only
between the hours of ten in the morning and one in the
afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellants and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

CALENDAR

DOCKET

New Cases filed up to February 28, 1956

Cal. No. Dept. Premises Affected

101-56-A—B.M.—840 Broadway, southeast corner of East 13th street, Block 564, Lot 41, Borough of Manhattan, Alt. 973-54—re enclosed; ladder.

SUBJECT—Application reopened June 21, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a business use district, the proposed change in occupancy from public storage garage to public storage garage, minor auto repairs, brake testing, wheel alignment, car washing, office and sales and addition of parking and storage on open portion of lot (previously approved as separate occupancy), also rearrangement of gasoline tanks and pumps are not in accordance with original Board of Standards and Appeals approval Cal. No. 1170-22-BZ.

PREMISES AFFECTED—259-267 Pacific street, north side, 75 ft. west of Smith street and 280 Atlantic avenue, Block 181, Lots 20, 31 and 32, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly..... 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 21, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on January 31, 1956 after due notice by publication in the Bulletin; laid over to February 28, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Atlantic avenue and Smith street are in a business use, B area, class 1½ height district; Pacific street is in business and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 19, 1955 acting on Alt. Applic. 385-55, reads:

"3. Proposed change in occupancy, in a Business Zone from public storage garage to Public Storage Garage, Minor Auto Repairs, brake testing, wheel alignment, car washing, office and sales and addition of parking and storage of motor vehicles on open portion of lot (previously approved as separate occupancy) is contrary to Article II, Para. 4a subsection 15, 29 and 46 of the zoning resolution.

4. Rearrangement and addition of gasoline tanks and pumps are not in accordance with original Board of Standards and Appeals approval. (Note Department records do not show approval for gasoline pumps and tanks as indicated as existing)." and

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. 3¾ in. frontage by 174 ft. 1 in. in depth, irregular, presently developed with a building two stories in height, of class 3 construction, having a frontage of 80 ft. 3¾ in. and a depth of 100 ft. and now being used as follows: cellar-boiler room; 1st floor—public storage garage, minor auto repairs, brake testing, wheel alignment, car wash, office and sales; 2nd floor—public garage; that the open area of the premises is being used for parking and storage of motor vehicles; that it is proposed to secure a variance in order to install new openings in the north and east walls of the garage and maintain conjunctively all present uses and to add 2 approved type 550 gallon gasoline tanks and 2 dispensing pumps; and

WHEREAS, the applicant states that as of July 25, 1916 that part of the premises within 100 ft. of Smith street and that part of the premises within 100 ft. of Atlantic avenue was in a business use district and the remainder was in an unrestricted use district; that the entire plot received its present use designation on June 27, 1919; and

WHEREAS, the applicant contends that certificate of occupancy No. 4743 was issued on March 19, 1924 for use as a public garage; that the open area known as lot 20, block 181 and comprising part of the premises now being used for parking and storage of motor vehicles was installed under Alt. Applic. 173-49 and certificate of occupancy No. 122705 was issued on February 19, 1949 for said use; that the open area known as lot 31 and comprising part of the premises now being used for parking and storage of motor vehicles was installed under B.N. 1416-45 and certificate of occupancy No. 113398 was issued for this use on December 4, 1945; and

WHEREAS, the applicant states that the original building, one story in height, was erected under N.B. 1847 of 1918 and certificate of occupancy No. 4017 was issued for use as a public garage; that in 1922, under Alt. Applic. 16576-22, permit No. 11580 of 1923 and Board of Standards and Appeals conditional variance 1170-22-BZ and 825-23-A, permission was granted to add the 2nd floor; and

WHEREAS, the applicant contends that the public garage use and the parking and storage of motor vehicles in the open area are legal uses; that minor auto repairs is a permissible use in a legally constituted garage, so that the only

MINUTES

additional uses requested are minor auto repairs, brake testing, wheel alignment and car washing on the 1st floor; that both Atlantic avenue and Pacific street are main auto lanes and as such the requested additional conjunctive uses are in keeping; that the erection of the new city prison opposite the proposal on Atlantic avenue further removes the business aspect of Atlantic avenue; and
